Disclaimer on forward-looking statements

The guidance contained herein are based upon a number of assumptions and estimates that, while considered reasonable by us when taken as a whole, are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. In addition, the guidance is based upon specific assumptions with respect to future business conditions, some or all of which will change. The guidance, like any forecast, is necessarily speculative in nature and it can be expected that the assumptions upon which the guidance is based will not prove to be valid or will vary from actual results. Actual results will vary from the guidance and the variations may be material. Consequently, the guidance should not be regarded as a representation by us or any other person that the subscribers, revenue, and adjusted EBITDA will actually be achieved. You are cautioned not to place undue reliance on this information.

This communication contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about future financial and operating results, our plans, objectives, expectations and intentions with respect to future operations, products and services; and other statements identified by words such as "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "intend," "plan," "projection," "outlook" or words of similar meaning. Such forward-looking statements are based upon the current beliefs and expectations of our management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are difficult to predict and generally beyond our control. Actual results may differ materially from the results anticipated in these forward-looking statements.

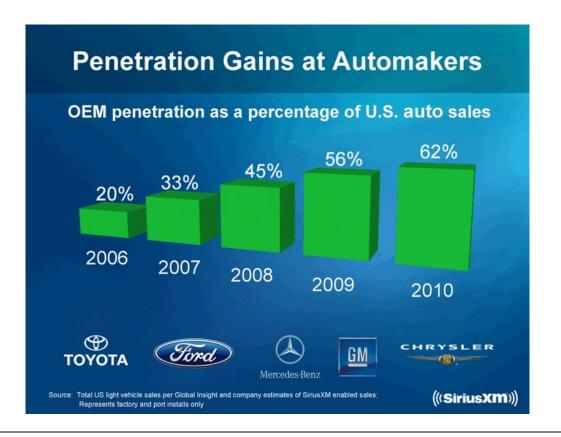

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statement: our competitive position versus other forms of audio and video entertainment; our ability to retain subscribers and maintain our average monthly revenue per subscriber; our dependence upon automakers and other third parties; the tragedy in Japan; our substantial indebtedness; and the useful life of our satellities, which, in most cases, are not insured. Additional factors that could cause our results to differ materially from those described in the forward-looking statements can be found in our Annual Report on Form 10-K for the year ended December 31, 2010, which is filed with the Securities and Exchange Commission (the "SEC") and available at the SEC's Internet site (http://www.sec.gov). The information set forth herein speaks only as of the date hereof, and we disclaim any intention or obligation to update any forward looking statements as a result of developments occurring after the date of this communication.

Reconciliation for SiriusXM

ARPU is derived from total earned subscriber revenue, net advertising revenue and other subscription-related revenue, net of purchase price accounting adjustments, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. Other subscription-related revenue includes amounts recognized on account of the U.S. Music Royalty Fee since the third quarter of 2009. Purchase price accounting adjustments include the recognition of deferred subscriber revenues not recognized in purchase price accounting. ARPU is calculated as follows (in thousands, except for subscriber and per subscriber amounts):

		Unaudited		
	For	hs Ended		
	2011		2010	
Subscriber revenue (GAAP)	\$	622,437	\$	579,509
Net advertising revenue (GAAP)		16,558		14,527
Other subscription-related revenue (GAAP)		58,531		47,947
Purchase price accounting adjustments		1,909		4,966
	\$	699,435	\$	646,949
Daily weighted average number of subscribers		20,233,144		18,783,263
ARPU	\$	11.52	\$	11.48
