REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Directors and Stockholders of
 Sirius Satellite Radio Inc.:

We have audited the accompanying consolidated balance sheets of Sirius Satellite Radio Inc. (a Delaware corporation in the development stage) and subsidiary as of December 31, 1999 and 2000, and the related consolidated statements of operations, stockholders' equity and cash flows for the three years in the period ended December 31, 2000 and for the period from inception (May 17, 1990) to December 31, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Sirius Satellite Radio Inc. and subsidiary, as of December 31, 1999 and 2000, and the results of their operations and their cash flows for the three years in the period ended December 31, 2000 and for the period from May 17, 1990 (date of inception) to December 31, 2000, in conformity with accounting principles generally accepted in the United States.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company is expected to incur additional substantial expenditures to plan and implement its service and to sustain its operations until it generates positive cash flow from operations. The Company's working capital at December 31, 2000 will not be sufficient to meet these objectives as presently structured. This raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to this matter are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

SIRIUS SATELLITE RADIO INC. AND SUBSIDIARY
(A DEVELOPMENT STAGE ENTERPRISE)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(DOLLAR AMOUNTS IN THOUSANDS, UNLESS OTHERWISE STATED)

1. BUSINESS

Sirius Satellite Radio Inc., a Delaware corporation, is developing a service for broadcasting digital quality music programming via satellites to subscribers' vehicles. We intend to focus on providing a consumer service, and anticipate that the equipment required to receive our broadcasts will be manufactured by consumer electronics manufacturers. In April 1997, we were the winning bidder in an FCC auction for one of two national satellite broadcast licenses with a winning bid of \$83.3 million. We paid the bid amount during 1997 and were awarded an FCC license on October 10, 1997.

2. ACCOUNTING POLICIES

BASIS OF PRESENTATION

The consolidated financial statements include the accounts of Sirius Satellite Radio Inc. and our wholly owned subsidiary. Intercompany transactions are eliminated in consolidation. Our principal activities to date have included developing our technology, obtaining regulatory approval for our service, constructing four satellites, launching three satellites, constructing our national broadcast studio, acquiring content for our programming, constructing our terrestrial repeater network, arranging for the development of radios capable of receiving our service, strategic planning, market research, recruiting our management team and securing financing for capital expenditures and working capital. We have not yet recognized any revenues, accordingly, our financial statements are presented as those of a development stage enterprise, as prescribed by Statement of Financial Accounting Standards ('SFAS') No. 7, 'Accounting and Reporting by Development Stage Enterprises.'

Our financial statements for the year ended December 31, 2000 have been prepared on a going concern basis which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. We expect to incur additional substantial expenditures to plan and implement our service and to sustain our operations until we generate positive cash flow from operations. Our working capital at December 31, 2000 will not be sufficient to meet these objectives as presently structured. We plan to raise additional financing through the sale of debt or equity securities or a combination thereof; however, no assurance can be given that such financings will be completed on terms acceptable to us. If we are unable to obtain additional financing, we will be required to curtail our operations. The financial statements do not include any adjustments relating to the recoverability of assets and classification of liabilities that might be necessary should we be unable to continue as a going concern.

RISKS AND UNCERTAINTIES

As a development stage enterprise, our future operations are subject to the risks and uncertainties frequently encountered by companies in new and rapidly evolving markets for satellite products and services. Among the significant risks that have a direct bearing on our results of operations are the unavailability of radios capable of receiving our service and our dependence upon third parties to manufacture and distribute them; the potential risk of delay in implementing our business plan; unproven market for our proposed service; and our need for additional financing.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reported period. The estimates involve judgments with respect to, among other things, various future

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)
(DOLLAR AMOUNTS IN THOUSANDS, UNLESS OTHERWISE STATED)

factors which are difficult to predict and are beyond our control. Actual amounts could differ from these estimates.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash on hand and investments with original maturities of three months or less.

MARKETABLE SECURITIES AND RESTRICTED INVESTMENTS

Marketable securities are classified as trading securities and are stated at market value. Marketable securities consist of obligations of U.S. government agencies and commercial paper issued by major U.S. corporations with high credit ratings. Unrealized holding gains of \$3,882 and \$2,275 were reflected in earnings at December 31, 1999 and 2000, respectively.

Restricted investments consist of fixed income securities and are stated at amortized cost plus accrued interest income. Restricted investments are classified as held-to-maturity securities and unrealized holding gains and losses are not reflected in earnings. Unrealized holding losses were \$716 and \$16 at December 31, 1999 and 2000, respectively. The securities included in restricted investments are restricted to provide for interest payments through May 15, 2002 on our 14 1/2% Senior Secured Notes due 2009.

PROPERTY AND EQUIPMENT

All costs incurred to prepare our system for use are capitalized, including

interest on funds borrowed to finance construction. To date, such costs consist of satellite construction and launch, broadcast studio equipment, terrestrial repeater network in process and capitalized interest. Charges to operations for depreciation of these items will begin upon commencement of commercial broadcasting. We anticipate that we will depreciate our satellites over 15 years. Depreciation of technical and other equipment is computed on the straight-line method based on estimated useful lives ranging from 3 to 10 years.

We review our long-lived assets and identifiable intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset is not recoverable. At such time as an impairment in value is identified, the impairment will be quantitatively measured in accordance with SFAS No. 121, 'Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of,' and charged to operations. No material impairment losses have been recognized to date.

FCC LICENSE

Our FCC license is recorded at cost and will be amortized using the straight-line method over a period of 40 years. Amortization of our FCC license will begin upon the commencement of commercial broadcasting.

FAIR VALUE

The carrying amount of cash and cash equivalents, marketable securities and restricted investments approximate fair value because of the short maturity of these investments. The fair value of our redeemable convertible preferred stock was estimated based on the market value of our common stock as of December 31, 2000 (See Note 7). The fair value of our long-term notes payable was estimated using quoted market prices. The following table summarizes the book and fair values of these notes at December 31, 1999 and 2000:

<TABLE>
<CAPTION>

</TABLE>

INCOME TAXES

Deferred income taxes are recognized for the tax consequences in future years as differences between the tax bases of assets and liabilities and their financial reporting amounts at each year-end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the sum of the tax payable for the period and the change during the period in deferred tax assets and liabilities.

REDEEMABLE CONVERTIBLE PREFERRED STOCK

We record redeemable convertible preferred stock on the date of issuance by allocating, when appropriate, a portion of the proceeds that represents a beneficial conversion feature to additional paid-in capital. The beneficial conversion feature (discount) is amortized using the effective interest method and is recognized as a deemed dividend over the shortest period of conversion. The carrying value of the redeemable convertible preferred stock accretes to its liquidation value over the mandatory redemption period. The periodic accretion increases the net loss applicable to common stockholders.

NET LOSS PER SHARE

Basic loss per share is based on the weighted average number of outstanding shares of our common stock. Diluted loss per share adjusts the weighted average for the potential dilution that could occur if common stock equivalents

(convertible preferred stock, convertible debt, warrants and stock options) were exercised or converted into our common stock. As of December 31, 1998, 1999 and 2000, approximately 16,646,000, 21,127,000 and 28,458,000 common stock equivalents were outstanding, respectively, and were excluded from the calculation of diluted loss per share because they were antidilutive.

DEFERRED DEBT ISSUANCE COSTS

Costs associated with the issuance of debt are deferred and amortized to interest expense over the terms of the respective notes using the effective interest rate method.

STOCK-BASED AWARDS

We use the intrinsic-value method of accounting for stock-based awards granted to employees as prescribed in Accounting Principles Board Opinion No. 25, 'Accounting for Stock Issued to Employees.' Accordingly, we measure the compensation cost for stock-based awards granted to employees as the excess of the market value of our common stock at the date of grant over the amount which must be paid to acquire our common stock. We have elected the disclosure-only provision of Financial Accounting Standards No. 123 ('SFAS No. 123'), 'Accounting for Stock-Based Compensation,' and have provided pro-forma disclosures on net loss and net loss per share in the notes to the financial statements. Stock-based awards granted to non-employees are accounted for at their fair value in accordance with SFAS No. 123.

COMPREHENSIVE INCOME

In 1997, the Financial Accounting Standards Board ('FASB') issued SFAS No. 130, 'Reporting Comprehensive Income,' that requires additional reporting with respect to certain changes in assets and liabilities that previously were included in stockholders' equity. During the periods presented, we had no comprehensive income items to report.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 1998, the FASB issued SFAS No. 133, 'Accounting for Derivative Instruments and Hedging Activities.' SFAS No. 133 requires companies to record derivatives on the balance sheet as assets or liabilities measured at fair value. Gains or losses resulting from changes in the values of those derivatives would be accounted for depending on the use of the derivative and whether it qualifies for hedge accounting. The key criterion for hedge accounting is that the hedging relationship must be highly effective in achieving offsetting changes in fair value or cash flows. In May 1999, the FASB issued SFAS No. 137, 'Accounting for Derivative Instruments and Hedging Activities -- Deferral of the Effective Date of FASB Statement No. 133,' which deferred the effective date of SFAS No. 133 by one year. As a result, SFAS No. 133 will be effective for all fiscal quarters beginning after June 15, 2000. The FASB amended SFAS No. 133 with SFAS No. 138, 'Accounting for Certain Derivative Instruments and Certain Hedge Activities--an Amendment of FASB Statement No. 133,' for certain derivative instruments and certain hedging activities. The adoption of SFAS No. 133 will not have a material impact on the financial statements.

RECLASSIFICATIONS

Certain amounts in the prior years' financial statements have been reclassified to conform to the current presentation.

We received title to our satellites on July 31, 2000, September 29, 2000 and December 22, 2000, following the completion of in-orbit testing of each satellite. We expect our fourth, spare, satellite to be delivered to ground storage in August 2001.

4. SHORT-TERM NOTES PAYABLE

We entered into a credit agreement with Bank of America and other lenders in July 1998 under which Bank of America and the other lenders provided us a \$115,000 term loan facility. The proceeds of the facility were used to fund progress payments for the purchase of launch services and to pay interest, fees and other related expenses. On February 29, 2000, we repaid these loans and cancelled the related credit agreement.

15% SENIOR SECURED DISCOUNT NOTES DUE 2007

In November 1997, we received net proceeds of \$116,000 from the issuance of 12,910 units, each consisting of \$20 aggregate principal amount at maturity of our 15% Senior Secured Discount Notes due 2007 and a warrant to purchase additional 15% Senior Secured Discount Notes due 2007 in an aggregate principal amount at maturity of \$3. Our 15% Senior Secured Discount Notes due 2007 will not require cash interest payments prior to December 1, 2002, and will accrete to a principal amount at stated maturity of \$297,000 by that date. As of December 31, 1999 and 2000, we had accreted interest relating to our 15% Senior Secured Discount Notes due 2007 of \$59,488 and \$93,381, respectively. Cash interest will be payable semi-annually on each June 1 and December 1 of the remaining years of our 15% Senior Secured Discount Notes due 2007. Our 15% Senior Secured Discount Notes due 2007 are redeemable, at our option, in whole

or in part, at any time on or after December 1, 2002 at specified redemption prices plus accrued interest, if any, to the date of redemption. Our 15% Senior Secured Discount Notes due 2007 are senior obligations and are secured by a pledge of the stock of Satellite CD Radio, Inc., our subsidiary that holds our FCC license. The indenture governing our 15% Senior Secured Discount Notes due 2007 contains limitations on our ability to incur additional indebtedness.

14 1/2% SENIOR SECURED NOTES DUE 2009

In May 1999, we received net proceeds of approximately \$190,000 from the issuance of 200,000 units, each consisting of \$1 aggregate principal amount of our 14 1/2% Senior Secured Notes due 2009 and three warrants, each to purchase 3.65 shares of our common stock. The warrants are exercisable through May 15, 2009 at an exercise price of \$28.60 per share. Cash interest is payable semi-annually on each May 15 and November 15 of the remaining years of our 14 1/2% Senior Secured Notes due 2009. We invested \$79,300 of the net proceeds of our 14 1/2% Senior Secured Notes due 2009 in a portfolio of U.S. government securities, which we pledged as security for the payment in full of interest on our 14 1/2% Senior Secured Notes due 2009 through May 15, 2002. Our 14 1/2% Senior Secured Notes due 2009 are redeemable, at our option, in whole or in part, at any time on or after May 15, 2004 at a specified redemption price plus accrued interest, if any, to the date of redemption. Our 14 1/2% Senior Secured Notes due 2009 are senior obligations and are secured by a pledge of the stock of Satellite CD Radio, Inc., our subsidiary that holds our FCC license. The indenture governing our 14 1/2% Senior Secured Notes due 2009 contains limitations on our ability to incur additional indebtedness.

As required by the terms of the warrants issued in conjunction with our 14 1/2% Senior Secured Notes due 2009, we adjusted the number of shares for which each warrant may be exercised and the exercise price per share on January 31, 2000, in connection with the issuance of our 9.2% Series D Cumulative Convertible Preferred Stock. As of December 31, 2000, these warrants may be exercised to purchase 3.947 shares of our common stock at an exercise price per share of \$26.45.

8 3/4% CONVERTIBLE SUBORDINATED NOTES DUE 2009

In September 1999, we issued \$125,000 aggregate principal amount of our 8 3/4% Convertible Subordinated Notes due 2009 in an underwritten public offering resulting in net proceeds of \$119,000. In October 1999, we issued an additional \$18,750 aggregate principal amount of our 8 3/4% Convertible Subordinated Notes due 2009 to satisfy the underwriters' over-allotment option, resulting in net proceeds of \$18,000. Our 8 3/4% Convertible Subordinated Notes due 2009 are convertible, at the option of the holder, unless previously redeemed, into shares of our common stock at any time at a conversion rate of 35.134 shares of common stock per \$1 principal amount, subject to certain adjustments. We may redeem our 8 3/4% Convertible Subordinated Notes due 2009, in whole or in part, at our option, on or after September 29, 2002, contingent upon certain circumstances. As of December 31, 2000, we had acquired \$62,914 of our 8 3/4% Convertible Subordinated Notes due 2009 in exchange for shares of our common stock. Cash interest is payable semi-annually on each March 29 and September 29 of the remaining years of our 8 3/4% Convertible Subordinated Notes due 2009.

LEHMAN TERM LOAN FACILITY

In June 2000, we entered into an agreement with Lehman Commercial Paper Inc. ('Lehman') and Lehman Brothers Inc. pursuant to which Lehman agreed to provide a term loan facility (the 'Lehman Term Loan Facility') for us in the aggregate principal amount of \$150,000. The loans under the Lehman Term Loan Facility will be made available to us upon the demonstration of our broadcast system and upon satisfaction of certain customary conditions.

In connection with the Lehman Term Loan Facility, we have placed into escrow, for the benefit of Lehman, 2,100,000 warrants, each to purchase one share of our common stock at an exercise price of \$29.00 per share. 525,000 of these warrants are vested, 1,050,000 of these warrants will vest upon the making of the loans under the Lehman Term Loan Facility and the remaining 525,000 will vest only under certain conditions relating to the performance of our publicly issued senior notes.

6. DEFERRED SATELLITE PAYMENTS

Under an amended and restated contract (the 'Loral Satellite Contract') with Space Systems/Loral, Inc. ('Loral'), Loral agreed to defer certain amounts due under the Loral Satellite Contract. The amounts deferred, which approximate fair value, bear interest at 10% per year and were originally due in quarterly installments beginning in June 2002; however, the agreement governing these deferred amounts provides that this date, and subsequent payment dates, will be extended by the number of days that the achievement of any milestone under the Loral Satellite Contract is delayed beyond the date set forth in the Loral Satellite Contract. Our fourth, ground spare, satellite is expected to be delivered to ground storage in August 2001 and was originally expected to be delivered to ground storage in October 2000. As a result of Loral's delay in delivering this satellite, we do not expect to make any required payments with respect to these deferred amounts until April 2003, at the earliest. We do, however, have the right to prepay any deferred payments together with accrued interest, without penalty. As collateral security for these deferred payments, we have granted Loral a security interest in our terrestrial repeater network.

7. CAPITAL STOCK

COMMON STOCK, PAR VALUE \$.001 PER SHARE

On September 29, 1994, we completed our initial public offering by issuing 1,491,940 shares of our common stock for net proceeds of approximately \$4,800. On August 5, 1997, we sold 1,905,488 shares of our common stock to Loral Space & Communications Ltd. for net proceeds of approximately \$24,400. In November 1997, we issued 2,800,000 shares of our common stock for net proceeds of \$42,200 in a public offering. In December 1997, we issued an additional 250,000 shares of our common stock, in connection with the partial exercise of the option granted to the underwriters of our November 1997 public offering solely to cover over-allotments, for net proceeds of \$4,200. In November 1998, we issued 5,000,000 shares of our common stock to Prime 66 Partners, L.P. for net proceeds of \$98,000. In September 1999, we issued 3,000,000 shares of our common stock in an underwritten public offering for net proceeds of approximately \$68,000. In October 1999, we issued an additional 450,000 shares of our common stock in connection with the exercise of the option granted to the underwriters of our September 1999 public offering solely to cover over-allotments, for net proceeds of approximately \$10,000. In February 2000, we sold 2,290,322 shares of our common stock to DaimlerChrysler Corporation for an aggregate purchase price of approximately \$100,000.

As of December 31, 2000, approximately 43,000,000 shares of our common stock were reserved for issuance in connection with outstanding shares of convertible preferred stock, convertible debt, warrants and stock options.

PREFERRED STOCK

In April 1997, we completed a private placement of our 5% Delayed Convertible Preferred Stock. We sold a total of 5,400,000 shares of our 5% Delayed Convertible Preferred Stock for an aggregate price of \$135,000. The 5% Delayed Convertible Preferred Stock was immediately convertible at a discount to the fair market value of our common stock and, accordingly, we recorded approximately \$52,000 as a deemed dividend in determining net loss attributable to common stockholders.

In November 1997, we exchanged 1,846,799 shares of our 10 1/2% Series C Convertible Preferred Stock for all outstanding shares of our 5% Delayed Convertible Preferred Stock. Each share of our 10 1/2% Series C Convertible Preferred Stock was convertible into a number of shares of our common stock calculated by dividing the \$100.00 per share liquidation preference by a conversion price of \$18.00. On March 3, 2000, we notified the holders of our 10 1/2% Series C Convertible Preferred Stock and the holders of all outstanding warrants to purchase our 10 1/2% Series C Convertible Preferred Stock that we would redeem these securities on April 12, 2000. As of April 12, 2000, all of the outstanding warrants to

purchase shares of our 10 1/2% Series C Convertible Preferred Stock were exercised and all of the outstanding shares of 10 1/2% Series C Convertible Preferred Stock (including those shares received upon the exercise of such warrants) had been converted into shares of our common stock.

On December 23, 1998, we completed a transaction with Apollo Investment Fund IV, L.P., a Delaware limited partnership, and Apollo Overseas Partners IV, L.P., a Cayman Islands limited partnership (collectively, the 'Apollo Investors'),

pursuant to which we sold to the Apollo Investors 1,350,000 shares of our 9.2% Series A Junior Cumulative Convertible Preferred Stock, par value \$.001 per share, for an aggregate purchase price of \$135,000. Each share of our 9.2% Series A Junior Cumulative Convertible Preferred Stock is convertible into a number of shares of our common stock calculated by dividing the \$100.00 per share liquidation preference (the 'Series A Liquidation Preference') by a conversion price of \$30.00. This conversion price is subject to adjustment for certain corporate events. Dividends on our 9.2% Series A Junior Cumulative Convertible Preferred Stock are payable annually in cash or additional shares of our 9.2% Series A Junior Cumulative Convertible Preferred Stock, at our option. From and after November 15, 2001 and prior to November 15, 2003, we may redeem our 9.2% Series A Junior Cumulative Convertible Preferred Stock at the Series A Liquidation Preference, plus any unpaid dividends, provided the price of our common stock is at least \$60.00 per share for a period of twenty consecutive trading days immediately preceding the date of the notice of redemption. From and after November 15, 2003, our right to redeem our 9.2% Series A Junior Cumulative Convertible Preferred Stock is not restricted by the market price of our common stock. We are required to redeem all outstanding shares of our 9.2% Series A Junior Cumulative Convertible Preferred Stock at a price equal to the Series A Liquidation Preference plus any unpaid dividends on November 15, 2011. On the date of issuance, the 9.2% Series A Junior Cumulative Convertible Preferred Stock was immediately convertible at a discount to the then fair market value of our common stock and, accordingly, we recorded approximately \$11,000 as a deemed dividend in net loss applicable to common stockholders. At December 31, 2000, the estimated fair value of our 9.2% Series A Junior Cumulative Convertible Preferred Stock approximated book value and accrued dividends payable relating to this stock totaled \$26,421.

The Apollo Investors granted to us, in conjunction with the 9.2% Series A Junior Cumulative Convertible Preferred Stock transaction, an option to sell to the Apollo Investors 650,000 shares of our 9.2% Series B Junior Cumulative Convertible Preferred Stock, par value \$.001 per share, for an aggregate purchase price of \$65,000. We recorded the value of our 9.2% Series B Junior Cumulative Convertible Preferred Stock at fair value and recorded approximately \$3,101 of deemed dividends related primarily to the amortization of the value of this option during 1999. We exercised the option to sell our 9.2% Series B Junior Cumulative Convertible Preferred Stock to the Apollo Investors on October 13, 1999. The terms of our 9.2% Series B Junior Cumulative Convertible Preferred Stock are similar to those of our 9.2% Series A Junior Cumulative Convertible Preferred Stock. At December 31, 2000, the estimated fair value of our 9.2% Series B Junior Cumulative Convertible Preferred Stock approximated book value and accrued dividends payable relating to this stock totaled \$7,400.

On January 31, 2000, we completed a transaction with certain affiliates of The Blackstone Group, L.P. ('Blackstone') pursuant to which we sold to Blackstone 2,000,000 shares of our 9.2% Series D Junior Cumulative Convertible Preferred Stock, par value \$.001 per share, for an aggregate purchase price of \$200,000. Each share of our 9.2% Series D Junior Cumulative Convertible Preferred Stock is convertible into a number of shares of our common stock calculated by dividing the \$100.00 per share liquidation preference (the 'Series D Liquidation Preference') by a conversion price of \$34.00. This conversion price is subject to adjustment for certain corporate events. Dividends on our 9.2% Series D Junior Cumulative Convertible Preferred Stock are payable annually in cash or additional shares of our 9.2% Series D Junior Cumulative Convertible Preferred Stock, at our option. From and after December 23, 2002 and prior to December 23, 2004, we may redeem our 9.2% Series D Junior Cumulative Convertible Preferred Stock at the Series D Liquidation Preference, plus any unpaid dividends, provided the price of our common stock is at least \$68.00 per share for a period of twenty consecutive

trading days immediately preceding the date of the notice of redemption. From and after December 23, 2004, our right to redeem our 9.2% Series D Junior Cumulative Convertible Preferred Stock is not restricted by the market price of our common stock. We are required to redeem all outstanding shares of our 9.2% Series D Junior Cumulative Convertible Preferred Stock at a price equal to the Series D Liquidation Preference plus any unpaid dividends on November 15, 2011. At December 31, 2000, the estimated fair value of our 9.2% Series D Junior Cumulative Convertible Preferred Stock was \$188,931 and accrued dividends payable relating to this stock totaled \$17,057.

WARRANTS

In connection with our initial public offering in 1994, we issued warrants to purchase 745,970 shares of our common stock. Additionally, we issued to the underwriters, as consideration, warrants to purchase 123,560 shares of our common stock. In September 1996, we received proceeds of \$4,589 relating to the exercise of 864,848 warrants and the remaining 4,682 warrants expired

unexercised. Of the warrants exercised, 764,848 shares of our common stock were issued in exchange for cash at a purchase price of \$6.00 per share and 27,083 shares of our common stock were issued in a cashless exercise of 100,000 warrants held by the underwriters.

In connection with the November 1997 issuance of our 10 1/2% Series C Convertible Preferred Stock, we granted our investment advisor and certain related persons, in lieu of a warrant to purchase shares of 5% Delayed Convertible Preferred Stock, warrants to purchase an aggregate of 177,178 shares of our 10 1/2% Series C Convertible Preferred Stock at an initial exercise price of \$68.47 per share. The warrants were convertible at a discount to the then fair market value of our common stock and accordingly, we will record, over the life of the warrant, \$1,600 as a deemed dividend in connection with the issuance of warrants on the 10 1/2% Series C Convertible Preferred Stock. During 2000, we accreted dividends of \$900 related to this warrant. As of April 12, 2000, all of the outstanding warrants to purchase shares of our 10 1/2% Series C Convertible Preferred Stock had been exercised.

We granted to an investor warrants to purchase 1,800,000 shares of our common stock at \$50.00 per share during the period from June 15, 1998 until June 15, 2005, subject to certain conditions. After June 15, 2000, we may redeem all of these warrants, provided that the price of our common stock is at least \$75.00 per share during a specified period.

As part of our agreement with Ford Motor Company ('Ford') on June 11, 1999, we issued to Ford 4,000,000 warrants, each to purchase one share of our common stock at an exercise price of \$30.00 per share. These warrants are exercisable based upon the number of new Ford vehicles equipped to receive our broadcasts Ford manufactures, and are fully exercisable after 4,000,000 new Ford vehicles equipped to receive our broadcasts are manufactured.

As part of our agreement with DaimlerChrysler Corporation, Mercedes-Benz USA, Inc. and Freightliner Corporation (collectively, 'DaimlerChrysler') on January 28, 2000, we issued to DaimlerChrysler Corporation 4,000,000 warrants, each to purchase one share of our common stock at an exercise price of \$60.00 per share. These warrants are exercisable based upon the number of new DaimlerChrysler vehicles equipped to receive our broadcasts DaimlerChrysler manufactures, and are fully exercisable after 4,000,000 new DaimlerChrysler vehicles equipped to receive our broadcasts are manufactured.

8. BENEFIT PLANS

STOCK OPTION PLANS

In February 1994, we adopted our 1994 Stock Option Plan (the '1994 Plan') and our 1994 Directors' Nonqualified Stock Option Plan (the 'Directors' Plan'). In June 1999, we adopted our 1999 Long-Term Stock Incentive Plan (the '1999 Plan'). Our stock option plans provide for grants of options as incentives and rewards to encourage employees, officers, consultants and directors in our long term success. Generally, options granted under the plans vest over a four year period and are exercisable for a period of ten years from the date of grant. Compensation expense for options granted to non-

401(k) SAVINGS PLAN

We sponsor the Sirius Satellite Radio 401(k) Savings Plan (the '401(k) Plan') for eligible employees. The 401(k) Plan allows eligible employees to voluntarily contribute from 1% to 12% of their pretax salary subject to certain defined limits. We may match up to 100% of the voluntary employee contribution in the form of our common stock. Our matching contribution vests at a rate of 33 1/3% each year and is fully vested after three years of employment. Contribution expense resulting from our matching contribution to the 401(k) Plan was \$104, \$454, \$864 and \$1,422 for 1998, 1999, 2000 and for the period May 17, 1990 (date of inception) to December 31, 2000, respectively.

9. INCOME TAXES

The types of temporary differences between the tax bases of assets and liabilities and their financial reporting amounts that give rise to the deferred

tax assets and deferred tax liability are as follows:

</TABLE>

Realization of deferred tax assets at the balance sheet date is dependent upon future earnings, which are uncertain. Accordingly, a full valuation allowance was recorded against the assets.

At December 31, 2000, we had net operating loss carryforwards of approximately \$57,576 for federal and state income tax purposes available to offset future taxable income. The net operating loss carryforwards expire at various dates beginning in 2008. A significant portion of costs incurred to date has been capitalized for tax purposes as a result of our status as a development stage enterprise. Total start-up costs as of December 31, 2000 were \$160,689. Once we begin our active trade or business, these capitalized costs will be amortized over 60 months. The total deferred tax asset related to capitalized start-up costs of \$65,586 includes \$18,100 which, when realized, would not affect financial statement income but will be recorded directly to stockholders' equity.

10. SPECIAL CHARGES

During 1998, we decided to enhance our satellite delivery system to include a third in-orbit satellite and to terminate certain launch and orbit related contracts. We recorded special charges totaling \$25,682 related primarily to the termination of such contracts.

11. RELATED PARTIES

Since inception, we have relied upon related parties for certain consulting, legal and management services. We have paid for these services with cash and with the issuance of our common stock. Total cash expenses incurred in transactions with related parties during the years ended December 31, 1998, 1999 and 2000 and the period from May 17, 1990 (date of inception) to December 31, 2000 were \$127, \$94, \$24 and \$2,564, respectively. We have also issued common stock in lieu of cash in settlement of other related party liabilities. There were no related party expenses settled with the issuance of common stock during the years ended December 31, 1998, 1999 and 2000. Related party expenses settled with

During the years ended December 31, 1998, 1999 and 2000 we made payments of \$2,000, \$9,379 and \$67 to a financial advisory firm, of which a related party is a partner.

12. LEASES AND RENTALS

Total rent expense for the years ended December 31, 1998, 1999 and 2000 and the period May 17, 1990 (date of inception) to December 31, 2000 was \$1,985, \$4,976, \$6,712 and \$15,156, respectively. SATELLITE CONSTRUCTION AND LAUNCH SERVICES

To build and launch the satellites necessary to provide our service, we entered into the Loral Satellite Contract. The Loral Satellite Contract provides for Loral to construct, launch and deliver three satellites in-orbit and checked-out, to construct a fourth satellite for use as a ground spare and to deliver \$15,000 of long-lead time parts for a fifth satellite. We are committed to make aggregate payments of \$745,890 under the Loral Satellite Contract. As of December 31, 2000, \$674,080 of this commitment has been satisfied. Under the Loral Satellite Contract, with the exception of a payment made to Loral in March 1993, payments are made in installments that commenced in April 1997 and will end in October 2004. Future contractual payments are due as follows: \$21,810 in 2001, \$0 in 2002, \$25,000 in 2003 and \$25,000 in 2004.

INTEGRATED CIRCUITS

During 1998, we signed an agreement with Lucent Technologies, Inc. ('Lucent') pursuant to which Lucent agreed to use commercially reasonable efforts to deliver commercial quantities of integrated circuits ('chip sets'), which will be used in radios capable of receiving our broadcasts. We agreed to pay Lucent the costs of the chip set development work totaling \$9,000. On February 1, 1999, we amended and restated this agreement because the design and development of the chip sets required more engineering resources than originally estimated. We estimate that the costs of this development work could total approximately \$50,000.
