APPROXIMATE DATE OF PROPOSED SALE TO PUBLIC: As soon as practicable after
this Registration Statement becomes effective.

If the securities being registered on this Form are being offered pursuant
to dividend or interest reinvestment plans, please check the following box. []

If any of the securities being registered on this Form are to be offered on
a delayed or continuous basis pursuant to Rule 415 under the Securities Act of
1933, other than securities offered only in connection with dividend or interest
reinvestment plans, please check the following box. []

If this Form is filed to register additional securities for an offering
pursuant to Rule 462(b) under the Securities Act, please check the following box
and list the Securities Act registration statement number of the earlier
effective registration statement for the same offering. []

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. []

If the delivery of the prospectus is expected to be made pursuant to Rule 434, please check the following box. []

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OF 1933 OR UNTIL THIS REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE COMMISSION, ACTING PURSUANT TO SAID SECTION 8(a), MAY DETERMINE.

EXPLANATORY NOTE

This Registration Statement contains two forms of prospectus: one to be used in connection with an underwritten public offering in the United States and Canada of 2,240,000 shares (the 'U.S. Prospectus'), and one to be used in a concurrent underwritten public offering outside the United States and Canada of 560,000 shares (the 'International Prospectus'). The two prospectuses are identical except for the front and back cover pages and the section entitled 'Underwriting' and the inclusion of the section entitled 'Certain United States Federal Tax Consequences to Non-United States Holders of Common Stock' in the International Prospectus. The form of U.S. Prospectus is included herein and is followed by the alternate pages to be used in the International Prospectus. Each of the alternate pages for the International Prospectus included herein is labeled 'International Prospectus -- Alternate Page.' Final forms of each Prospectus will be filed with the Securities and Exchange Commission under Rule 424(b) under the Securities Act of 1933.

SUBJECT TO COMPLETION
PRELIMINARY PROSPECTUS DATED NOVEMBER 20, 1997

PROSPECTUS

2,800,000 SHARES
[LOGO]

COMMON STOCK

All of the shares of common stock, par value \$.001 per share (the 'Common Stock'), offered hereby are being offered by CD Radio Inc. (the 'Company'). Of the 2,800,000 shares of Common Stock offered hereby, 2,240,000 shares are being offered in the United States and Canada (the 'U.S. Offering') and 560,000 shares are being offered outside the United States and Canada (the 'International Offering') and, together with the U.S. Offering, the 'Stock Offerings'). The public offering price per share and the underwriting discount per share will be identical for both Stock Offerings. See 'Underwriting.'

The Stock Offerings are one component of a financing transaction which includes an offer to exchange (the 'Exchange Offer') shares of the Company's 10 1/2% Series C Convertible Preferred Stock (the 'Series C Preferred Stock') for shares of the Company's outstanding 5% Delayed Convertible Preferred Stock (the '5% Preferred Stock') and an underwritten public offering of Units (the 'Units') consisting of the Company's Senior Discount Notes due 2007 (the 'Notes') and warrants (the 'Warrants') to purchase additional Notes (the 'Units Offering') and, together with the Stock Offerings, the 'Offerings'). Separate registration statements have been filed for each of the Exchange Offer and the Units Offering, and such offers have been, and will be, made by separate prospectuses. On November 20, 1997 the Exchange Offer was consummated and shares of Series C Preferred Stock were exchanged for all of the outstanding shares

of 5% Preferred Stock. The consummation of the Stock Offerings is not conditioned upon the consummation of the Units Offering but is conditioned upon the consummation of the Exchange Offer and, after giving effect to the Stock Offerings, there having occurred one or more Qualifying Offerings (as defined herein) yielding gross proceeds in an aggregate cash amount of at least \$100 million.

Since October 24, 1997, the Company's Common Stock has traded on the Nasdaq National Market under the symbol 'CDRD.' On November 19, 1997, the closing bid price of the Common Stock as reported on the Nasdaq National Market was \$19 5/16 per share.

SEE 'RISK FACTORS' BEGINNING ON PAGE 14 FOR A DISCUSSION OF CERTAIN FACTORS THAT SHOULD BE CONSIDERED BY PROSPECTIVE PURCHASERS OF THE COMMON STOCK OFFERED HEREBY.

 THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

- (1) The Company has agreed to indemnify the several Underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended. See 'Underwriting.'
 - (2) Before deducting expenses payable by the Company estimated to be \$.
 - (3) The Company has granted to the U.S. Underwriters and the International Managers options, exercisable within 30 days of the date hereof, to purchase up to an additional 336,000 and 84,000 shares of Common Stock, respectively, solely to cover over-allotments, if any. If such options are exercised in full, the total Price to Public, Underwriting Discount and Proceeds to Company will be \$, \$ and \$, respectively. See 'Underwriting.'

 The shares of Common Stock are being offered by the several Underwriters, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of certain legal matters by counsel for the Underwriters and certain other conditions. The Underwriters reserve the right to withdraw, cancel or modify such offer and to reject orders in whole or in part. It is expected that delivery of the shares of Common Stock will be made in New York, New York on or about , 1997.

ILLUSTRATIVE CHANNEL LISTINGS

The following channel list (which employs terminology common to the music industry) has been prepared by the Company to illustrate the manner in which the Company's music programming might be marketed. The Company intends to vary channel formats from time to time to reflect the results of its market research and subscriber tastes.

<TABLE>

<S>	<C>
1.	Symphonic Presenting the full range of the classical repertoire, with complete works from great composers -- Beethoven, Mozart, Handel, Copland -- performed by world-class artists and orchestras, including the New York Philharmonic Orchestra, Itzhak Perlman, Wynton Marsalis and Yo-Yo Ma.

2. Chamber Music
The lighter side of classical music, featuring chamber music from small ensembles, as well as solo performances. Composers like Vivaldi, Telemann and Liszt performed by Ruth Laredo, the Juilliard String Quartet, Julian Bream and Jean-Pierre Rampal.
3. Opera
Full-length operatic masterpieces from Verdi, Wagner and Puccini, along with arias and songs, showcasing the world's great vocal artists, including Luciano Pavarotti, Dawn Upshaw, the Hilliard Ensemble, Placido Domingo and Cecilia Bartoli.
4. Today's Country
The honest 90's sound of today's stars, including Tim McGraw, Leann Rimes, Vince Gill, Alan Jackson, Garth Brooks, Pam Tillis and Bryan White.
5. Traditional Country
Classic country hits from legends like Merle Haggard, Conway Twitty, Waylon Jennings, Loretta Lynn and George Jones.
6. Contemporary Jazz
The smooth instrumental sounds of David Sanborn, Kenny G, Larry Carlton, Dave Koz and Bob James, mixed with the vocal stylings of Manhattan Transfer, Al Jarreau and Michael Franks.
7. Classic Jazz
Mainstream jazz at its finest. Features the artistry of legends like Miles Davis, Oscar Peterson, Thelonious Monk, Sarah Vaughan and Dave Brubeck and performers following in the tradition like Dianne Schuur and Branford Marsalis.
8. Blues
The Blues from A to Z -- from legends like Muddy Waters and Howlin' Wolf to John Lee Hooker, Etta James, B.B. King, Robert Cray, Buddy Guy and exciting new artists like Keb' Mo', Duke Robillard and Jonny Lang.
9. Big Band/Swing
From the great bands of the 30s and 40s to bands today. Featuring the sounds of Artie Shaw, Tommy Dorsey, Glenn Miller, Benny Goodman, Harry James, Duke Ellington and Count Basie.
10. Top of the Charts
Today's hottest US hits. No Doubt, Mariah Carey, Spice Girls.
11. Classic Rock
Classic tracks and deep album cuts from the legends of rock, including the Who, the Beatles, the Rolling Stones, Led Zeppelin, The Doors, Eric Clapton, Neil Young, Jimi Hendrix and Jethro Tull.
12. 50's Oldies
Sock hops and going steady. Tune in and experience it all over again with Chuck Berry, Little Richard and Elvis Presley.
13. 60's Oldies
Put the top down and cruise to the sounds of the sixties. The solid gold sounds of Motown, the British Invasion and Surfer Rock.
14. Folk Rock
Singer-songwriters and bands with thoughtful lyrics and melodies, including Joni Mitchell, Lyle Lovett, James Taylor, Shawn Colvin, Chris Isaak, Tori Amos and Indigo Girls.
15. Latin Ballads
Emotive romantic sounds from Julio Iglesias, Rocio Durcal, Roberto Carlos, Ana Gabriel, Gloria Estefan and Jon Secada.

<CAPTION>

16. Latin Rhythms
Move to the music of Ruben Blades, Albita, Juan Luis Guerra and the legendary Tito Puente.
17. Reggae
Reggae from legends like Bob Marley & the Wailers, Peter Tosh and Third World to new sounds from Steel Pulse, UB40, Shaggy, Ziggy Marley, Maxi Priest, Aswad and Lady Saw.
18. Rap
Pure rap from the masters of the genre, including Puff Daddy, Fugees, DJ Kool, Freak Nasty, Warren G and M.C. Lyte.
19. Dance
Techno, club and pop remixes from around the world make this one of the hottest spots on the dial.
20. Urban Contemporary
The soulful sounds of Toni Braxton, Luther Vandross, Keith Sweat and Mary J. Blige.
21. Soft Rock
Mainstream pop hits from artists like Celine Dion, Phil Collins, Gloria Estefan and George Michael.
22. Singers & Songs
The greats sing the standards, with legends like Frank Sinatra, Nat King Cole, Tony Bennett and Barbra Streisand.
23. Beautiful Instrumentals
Melodic relaxing orchestrations from Richard Clayderman, Paul Mauriat, Zamfir, James Last, Roger Williams and James Galway.
24. Album Rock

- Mainstream rock from veteran bands and new artists, including Aerosmith, Collective Soul, Dave Matthews Band and John Mellencamp.
25. Alternative Rock
Modern rock from such diverse bands as Beck, Live, Stone Temple Pilots and Smashing Pumpkins.
26. New Age
Sounds that soothe and transport. Relax with Jim Brickman, Kitaro and Yanni.
27. Broadway's Best
The Great White Way shines with all your favorites from the past and today's hot new shows. Rodgers and Hammerstein, Marvin Hamlisch and Andrew Lloyd Webber.
28. Gospel
Soulful gospel sounds of joy. Mahalia Jackson, Al Green and the Winans.
29. Children's Entertainment
Entertaining songs and storytelling for younger listeners. Fred Penner, Raffi and Tom Chapin.
30. World Beat
Spanning continents, select sounds from all over the world: Gipsy Kings, Cheb Khaled, The Chieftains, Zap Mama, Ladysmith Black Mambazo and Youssou N'Dour.

ADDITIONAL INFORMATION

The Company is subject to the informational requirements of the Securities Exchange Act of 1934, as amended (the 'Exchange Act'), and in accordance therewith files reports, proxy statements and other information with the Securities and Exchange Commission (the 'Commission'). Such reports, proxy statements and other information can be inspected and copied at the public reference facilities of the Commission at 450 Fifth Street, N.W., Washington, D.C. 20549 and at its regional offices located at Suite 1400, 500 West Madison Street, Chicago, Illinois 60661-2511 and 13th Floor, 7 World Trade Center, New York, New York 10048. Copies of such material can be obtained from the Public Reference Section of the Commission at 450 Fifth Street, N.W., Washington, D.C. 20549, at prescribed rates. Such reports, proxy statements and other information concerning the Company also can be inspected and copied at the offices of the National Association of Securities Dealers, Inc., 1735 K Street, N.W., Washington, D.C. 20006, which supervises the Nasdaq National Market on which the Company's Common Stock is traded. The Commission maintains a web site that contains reports, proxy and information statements and other information regarding registrants that file electronically with the Commission. The address of the Commission's web site is <http://www.sec.gov>.

The Company has filed with the Commission a Registration Statement on Form S-3 (herein, together with all amendments and exhibits, referred to as the 'Registration Statement') under the Securities Act of 1933, as amended (the 'Securities Act'), with respect of the securities covered by this Prospectus. This Prospectus, which forms part of the Registration Statement, does not contain all of the information set forth in the Registration Statement, certain parts of which have been omitted in accordance with the rules and regulations of the Commission. For further information with respect to the Company and such securities, reference is hereby made to such Registration Statement, including the exhibits filed therewith. The Registration Statement and the exhibits thereto can be obtained by mail from or inspected and copied at the public reference facilities maintained by the Commission as provided in the prior paragraph.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The following documents, which have been filed by the Company with the Commission, are incorporated herein by reference:

1. The Company's Annual Report on Form 10-K, as amended by the Annual Report on Form 10-K/A, for the year ended December 31, 1996.
2. The Company's Quarterly Report on Form 10-Q, as amended by the Quarterly Report on Form 10-Q/A, for the period ended March 31, 1997.

11. The Company's Current Report on Form 8-K dated October 22, 1997.
12. The Company's Current Report on Form 8-K dated November 19, 1997.

13. The description of the Company's Common Stock contained in the Company's Registration Statement on Form 8-A, as amended, filed pursuant to Section 12(b) of the Exchange Act.

14. Issuer Tender Offer Statement on Form 13E-4.

15. Consent Solicitation Statement on Schedule 14A, dated October 23, 1997.

All documents subsequently filed by the Company pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act prior to the termination of the Stock Offerings shall be deemed to be incorporated by

5

reference in and to be a part of this Prospectus from the date of filing of such documents. Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of this Prospectus to the extent that a statement contained herein or in the Registration Statement containing this Prospectus or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Prospectus.

The Company will provide without charge to each person to whom this Prospectus is delivered, upon the request of such person, a copy of any or all of the documents incorporated herein by reference (other than exhibits, unless such exhibits are specifically incorporated by reference in such documents). Requests for such copies should be directed to: Secretary, CD Radio Inc., Sixth Floor, 1001 22nd Street, N.W., Washington D.C. 20037.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the 'Reform Act'), the Company is hereby providing cautionary statements identifying important factors that could cause the Company's actual results to differ materially from those projected in forward-looking statements (as such term is defined in the Reform Act) made in this Prospectus. Any statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions or future events or performance (often, but not always, through the use of words or phrases such as 'will likely result,' 'are expected to,' 'will continue,' 'is anticipated,' 'estimated,' 'intends,' 'plans,' 'projection' and 'outlook') are not historical facts and may be forward-looking and, accordingly, such statements involve estimates, assumptions and uncertainties which could cause actual results to differ materially from those expressed in the forward-looking statements. Accordingly, any such statements are qualified in their entirety by reference to, and are accompanied by, the factors discussed throughout this Prospectus, and particularly in the risk factors set forth herein under 'Risk Factors.' Among the key factors that have a direct bearing on the Company's results of operations are the potential risk of delay in implementing the Company's business plan; increased costs of construction and launch of necessary satellites; dependence on satellite construction and launch contractors; risk of

launch failure; unproven market and unproven applications of existing technology; and the Company's need for additional substantial financing. These and other factors are discussed herein under 'Risk Factors,' 'Management's Discussion and Analysis of Financial Condition and Results of Operations,' 'Business' and elsewhere in this Prospectus.

The risk factors described herein could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements of the Company made by or on behalf of the Company and investors, therefore, should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for management to predict all of such factors. Further, management cannot assess the impact of each such factor on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

6

PROSPECTUS SUMMARY

The following summary is qualified in its entirety by the more detailed information and financial data appearing elsewhere in this Prospectus. Prospective investors should carefully consider the factors set forth herein under the caption 'Risk Factors' and are urged to read this Prospectus in its entirety. Unless otherwise indicated, the information in this Prospectus does not give effect to the exercise of the Underwriters' over-allotment option and references herein to the 'Company' refer to CD Radio Inc. and, where appropriate, its subsidiary, Satellite CD Radio, Inc.

THE COMPANY

CD Radio Inc. was founded in 1990 to pioneer and commercialize a compact disc quality, multi-channel radio service broadcast directly from satellites to vehicles ('satellite radio'). In October 1997, the Company was granted one of two licenses ('FCC Licenses') from the Federal Communications Commission (the 'FCC') to build, launch and operate a national satellite radio broadcast system. The Company has begun construction of two satellites that it plans to launch into geosynchronous orbit to broadcast its radio service throughout the United States. The Company's service, which will be marketed under the brand name 'CD Radio,' is expected to consist of 30 channels of commercial-free, compact disc quality music programming and 20 channels of news, sports and talk programming. CD Radio will be broadcast over a frequency band (the 'S-band') that will augment traditional AM and FM radio bands. Under its FCC license, the Company has the exclusive use of a 12.5 megahertz portion of the S-band for this purpose. The Company currently expects to commence CD Radio broadcasts in late 1999 at a subscription price of \$10 per month.

The Company is positioning itself as an entertainment company and accordingly plans to design and originate programming on each of its 30 music channels. Each channel will be operated as a separate radio station with a distinct format. Certain music channels will offer continuous music while others will have program hosts, depending on the type of music programming. CD Radio will offer a wide range of music categories, such as:

Symphonic

Chamber Music
Opera
Today's Country
Traditional Country
Contemporary Jazz
Classic Jazz
Blues
Big Band/Swing
Top of the Charts

Classic Rock
50's Oldies
60's Oldies
Folk Rock
Latin Ballads
Latin Rhythms
Reggae
Rap
Dance
Urban Contemporary

Soft Rock
Singers & Songs
Beautiful Instrumentals
Album Rock
Alternative Rock
New Age
Broadway's Best
Gospel
Children's Entertainment
World Beat

THE CD RADIO OPPORTUNITY

The Company believes that there is a significant market for music and other radio programming delivered through advanced radio technology. While television technology has advanced steadily -- from black and white to color, from broadcast to cable, and from ordinary to high-definition television -- the last major advance in radio technology was the introduction of FM broadcasts. CD Radio will provide a new generation of radio service, offering a wide variety of music formats available on demand, nearly seamless signal coverage throughout the United States and commercial-free, compact disc quality music programming. The Company's planned multiplicity of formats currently is not available to motorists in any market within the United States.

CD Radio is primarily a service for motorists. The Yankee Group, a market research organization, estimates that there will be approximately 198 million registered private motor vehicles in the United States by the end of 1999, when the Company expects to commence broadcasting. At present, approximately 89% of all private vehicles have a radio that could easily be utilized to receive

7

CD Radio's broadcasts, with this number estimated to be approximately 182 million vehicles in 1999, and approximately 199 million in 2004. CD Radio initially will target a number of demographic groups among the drivers of these vehicles, including 110 million commuters, 34 million of whom spend between one and two hours commuting daily, three million truck drivers and three million owners of recreational vehicles. According to a 1996 market study, although almost all vehicles contain either a cassette or compact disc player, 87% of automobile commuters listened to the radio an average of 50 minutes a day while commuting.

The Company believes that the ability to offer a wide variety of musical formats simultaneously throughout the United States will enable it to tap significant unmet consumer demand for specialized music programming. The economics of the existing advertiser supported local radio industry dictate that radio stations generally program for the greatest potential audience. Even in the largest metropolitan areas, station formats are limited. Nearly half of all commercial radio stations in the United States offer one of only three formats: country, adult contemporary and news/talk, and the next three most prevalent formats account for another 30% of all stations. Although niche music categories such as classical, jazz, rap, gospel, oldies, soundtracks, new age, children's and others accounted for approximately 27% of sales of recorded music in 1996, such formats generally are unavailable on existing radio stations in many markets. Even in New York City, the nation's largest radio market, there are no radio stations devoted solely to such programming as opera, blues, chamber music, soundtracks, reggae, children's programming and many others. CD Radio's wide choice of formats is expected to appeal to a large number of currently underserved listeners.

In addition, due to the limited coverage area of conventional radio broadcasting, listeners often travel beyond the range of any single station. Unlike conventional FM stations, which have an average range of only approximately 30 miles before reception fades, CD Radio's signal is designed to cover the entire continental United States, enabling listeners almost always to remain within its broadcast range. The Company's satellite delivery system is designed to permit CD Radio to be received by motorists in all outdoor locations where a vehicle has an unobstructed line-of-sight with one of the Company's satellites or is within range of one of the Company's terrestrial repeating transmitters.

The ability to broadcast nationwide will also allow the Company to serve currently underserved radio markets. In the United States, there are more than 45 million people aged 12 and over living in areas with such limited radio station coverage that the areas are not monitored by The Arbitron Company, a broadcast industry ratings organization ('Arbitron'). Of these, the Company believes that approximately 22 million people receive five or fewer FM stations, 1.6 million receive only one FM station and at least one million people receive no FM stations. This segment of the population also has a limited choice of radio music formats and is one of CD Radio's primary target markets.

The Company also believes that CD Radio will have a competitive advantage over conventional radio stations because its music channels will be commercial-free. In contrast, conventional radio stations interrupt their broadcasts with up to 18 minutes of commercials in every hour of music programming, and most stations also frequently interrupt programming with news, promotional announcements, public service announcements and miscellaneous information. The Company believes that consumers dislike frequent radio commercial interruptions and that 'station surfing' to avoid them is common.

THE CD RADIO SERVICE

CD Radio will offer motorists: (i) a wide range of finely focused music formats; (ii) nearly seamless signal coverage throughout the continental United States; (iii) commercial-free music programming; and (iv) plug and play convenience.

Wide Choice of Programming. Each of CD Radio's 30 music channels will have a distinctive format, such as opera, reggae, classic jazz and children's entertainment, intended to cater to specific subscriber tastes. In most markets, radio broadcasters target their programming to broad audience segments. Even

8

in the largest metropolitan markets the variety of station formats generally is limited, and many of the Company's planned formats are unavailable.

'Seamless' Signal Coverage. CD Radio will be available throughout the continental United States, enabling listeners almost always to be within its broadcast range. The Company expects its nearly seamless signal will appeal to motorists who frequently travel long distances, including truck drivers and recreational vehicle owners, as well as commuters and others who outdrive the range of their FM signals. In addition, the Company expects its broadcasts will appeal to the 45 million consumers who live in areas that currently receive only a small number of FM stations.

Commercial-Free Music Programming. The Company will provide commercial-free music programming. The Company's market research indicates that a principal complaint of radio listeners concerning conventional broadcast radio is the frequency of commercials. Because CD Radio, unlike most commercial AM and FM stations, will be a subscription and not an advertiser supported service, its music channels will not contain commercials.

Plug and Play Convenience. Consumers will be able to receive CD Radio broadcasts by acquiring an adapter (a 'radio card') and an easily attachable, silver dollar-sized satellite dish antenna. Listeners will not be required to replace their existing car radios and will be able to use the radio card by plugging it into their radio's cassette or compact disc slot. CD Radio listeners using a radio card will be able to push a button to switch between AM, FM and CD Radio. Radio cards will have a visual display that will indicate the channel and format selected, as well as the title, recording artist and album title of the song being played. Radio cards will also be portable and will be able to be moved from car to car. Radio card activation will be accomplished directly via satellite by calling the Company's customer service center at 888-CD-RADIO.

THE CD RADIO DELIVERY SYSTEM

The CD Radio delivery system will consist of three principal components: (i) the satellites; (ii) the receivers; and (iii) the national broadcast studio.

The Satellites. The Company has designed the CD Radio delivery system to transmit an identical signal from two satellites placed in geosynchronous orbit at 80[d] W and 110[d] W longitude. The Company believes that these two satellites will provide nearly continuous, 'seamless' signal coverage throughout the continental United States. When the line-of-sight to one satellite is obstructed, the line-of-sight to the other generally will be available. In certain urban areas with significant line-of-sight obstructions, the Company intends to install terrestrial repeating transmitters that will rebroadcast its signals and improve the quality of reception.

There currently are no commercial satellites in orbit capable of transmitting radio signals on S-band frequencies to the United States. In order to provide CD Radio the Company must build and launch its own satellites. The Company has entered into a contract with Space Systems/Loral, Inc. ('Loral'), a subsidiary of Loral Space & Communications Ltd. ('Loral Space'), to build three satellites, one of which the Company intends to hold as a spare, and which grants an option to the Company to purchase an additional satellite (the 'Loral Satellite Contract'). The Company also has contracted for two launch slots (the 'Arianespace Launch Contract') with Arianespace S.A. ('Arianespace'), a leading supplier of satellite launch services.

The Receivers. Subscribers to CD Radio will not need to replace their existing AM/FM car radios. Instead they will be able to receive CD Radio in

their vehicles using a radio card similar in size to a cassette tape or compact disc that has been designed to plug easily into the cassette or compact disc slot of existing car radios. The radio card uses proprietary technology developed by the Company. In addition to radio cards, the Company expects that consumers will be able to receive CD Radio using a new generation of radios capable of receiving S-band as well as AM and FM signals ('S-band radios').

In addition to a radio card or S-band radio, a vehicle must be equipped with an antenna in order to receive CD Radio. The Company has designed a battery powered, miniature silver dollar-sized satellite dish antenna, the base of which has an adhesive backing so that consumers will be able to easily attach

9

the satellite dish antenna to a car's rear window. The base houses a wireless transmitter that will relay the CD Radio signal to the vehicle's radio card or S-band radio. The satellite dish antenna also uses proprietary technology developed by the Company.

The Company expects that radio cards, S-band radios and miniature satellite dish antennas will be manufactured by one or more consumer electronics manufacturers and sold at retail outlets that sell consumer electronics, and that the miniature satellite dish antennas will be sold together with the radio cards or S-band radios. The Company believes that, when manufactured in quantity, S-band radios will be incrementally more expensive than today's car radios. The Company currently expects that the radio card together with the miniature satellite dish antenna will be sold at a retail price of approximately \$200. Because subscribers will be able to use the radio card in almost all existing vehicles, the Company believes that the availability of plug and play radio cards will be of prime importance to its market penetration for a number of years.

The Company does not intend to manufacture or distribute radio cards, S-band radios or miniature satellite dish antennas. The Company has entered into non-binding memoranda of understanding with two major consumer electronics manufacturers, and has commenced discussions with several other such manufacturers, regarding the manufacture of radio cards, S-band radios and miniature satellite dish antennas for retail sale in the United States.

The National Broadcast Studio. The Company plans to originate its 50 channels of programming from a national broadcast studio (the 'National Broadcast Studio') to be located in the New York metropolitan region. The National Broadcast Studio will house the Company's music library, facilities for programming origination, programming personnel and program hosts, as well as facilities to uplink programming to the satellites, to activate or deactivate service to subscribers and to perform the tracking, telemetry and control of the orbiting satellites.

PROGRESS TO DATE

The Company was formed in May 1990 and at that time proposed that the FCC create a satellite radio broadcast service and also filed an application with the FCC for a license to provide such a service. Since that time, the Company has:

<S>	<C>
1993	Contracted with Loral for construction of its satellites Contracted with Arianespace for launch of two of its satellites
1994	Completed an initial public offering of its Common Stock
1995	Completed development of its proprietary miniature satellite dish antenna
1996	Designed the radio card receiver
1997	Received one of two FCC national satellite radio broadcast licenses Completed a \$135 million private placement of 5% Preferred Stock Commenced construction of two satellites Completed receipt of satellite broadcast patents Arranged \$105 million of vendor financing with Arianespace Finance S.A. Recruited its key programming, marketing and financial management team Completed a strategic sale of \$25 million of Common Stock to Loral Space

See 'Business -- Progress to Date and Significant Development Milestones.'

CONCURRENT OFFERINGS

The Stock Offerings are part of a financing transaction, which includes the Units Offering and the Exchange Offer, that is intended to raise capital to partially finance the construction and launch of the Company's satellites and for general corporate purposes. Pursuant to the terms of the Exchange Offer, the

Company has offered to exchange shares of its Series C Preferred Stock for up to all of the outstanding shares of its 5% Preferred Stock. On November 20, 1997 the Exchange Offer was consummated and shares of Series C Preferred Stock were exchanged for

10

all of the outstanding shares of 5% Preferred Stock. The Company expects that the Offerings will result in net proceeds to the Company of approximately \$191.8 million: \$49.0 million from the Stock Offerings (based on an assumed offering price of \$19.3125 per share, the closing price of the Company's Common Stock at November 19, 1997) and \$142.8 million from the Units Offering. The Company will receive no proceeds from the Exchange Offer. See 'Use of Proceeds.' The consummation of the Stock Offerings is conditioned upon there having occurred one or more Qualifying Offerings (as defined herein) after giving effect to the Offerings yielding gross proceeds in an aggregate cash amount of at least \$100 million.

There can be no assurance that the Units Offering will be completed.

RISK FACTORS

The Company's ability to meet its objectives will depend on several factors, including the timely receipt of necessary governmental approvals, obtaining additional financing, constructing and launching two satellites into orbit, developing and manufacturing radio cards, S-band radios and miniature satellite dish antennas by consumer electronics manufacturers, the rapid creation of an organization and the management of growth. The Company estimates that it will require approximately \$647.6 million to develop and commence commercial operation of CD Radio by the end of 1999. Of this amount, the Company has raised approximately \$266.6 million to date. After giving effect to the Offerings, the Company will have raised approximately \$470.7 million of funds, leaving anticipated additional cash needs of approximately \$176.9 million to fund its operations through 1999. The Company anticipates additional cash requirements of approximately \$100.0 million to fund its operations through the year 2000. The Company expects to finance the remainder of its funding requirements through the issuance of debt or equity securities or a combination thereof. See 'Risk Factors' for a discussion of important factors that should be considered by prospective purchasers in the Stock Offerings.

The Company was incorporated in the State of Delaware as Satellite CD Radio, Inc. on May 17, 1990. On December 7, 1992, the Company's name was changed to CD Radio Inc., and the Company formed a wholly-owned subsidiary, Satellite CD Radio, Inc., that is the holder of record of the Company's FCC License. The Company's executive offices are located at Sixth Floor, 1001 22nd Street, N.W., Washington, D.C. 20037, its telephone number is 202-296-6192 and its Internet address is www.cdradio.com.

</TABLE>

- (1) Includes a deemed dividend on the Company's 5% Preferred Stock of \$52.0 million, or \$4.83 per share. The deemed dividend relates to the discount feature associated with the 5% Preferred Stock, computed in accordance with the Commission's position on accounting for preferred stock which is convertible at a discount to the market price.
- (2) Represents proceeds of the offering of the 5% Preferred Stock which were classified as designated cash reflecting the balance due to the FCC for the Company's FCC License. The Company paid this amount to the FCC in October 1997.

13

RISK FACTORS

An investment in the shares of Common Stock offered hereby involves a high degree of risk. In addition to the other information in this Prospectus, the following factors should be considered carefully in evaluating the Company and its business before making an investment in the shares of Common Stock offered hereby. This Prospectus contains certain forward-looking statements within the meaning of the federal securities laws. Actual results and the timing of certain events could differ materially from those projected in the forward-looking statements due to a number of factors, including those set forth below and elsewhere in this Prospectus. See 'Special Note Regarding Forward-Looking Statements.'

EXPECTATION OF CONTINUING LOSSES; NEGATIVE CASH FLOW

The Company is a development stage company and its proposed service, CD Radio, is in an early stage of development. Since its inception, the Company's activities have been concentrated on raising capital, obtaining required licenses, developing technology, strategic planning and market research. From its inception on May 17, 1990 through September 30, 1997, the Company has had no revenues and has incurred aggregate net losses of approximately \$20.0 million, including net losses of approximately \$2.8 million during the year ended December 31, 1996 and \$1.5 million during the nine months ended September 30, 1997. The Company does not expect to generate any revenues from operations until late 1999 or 2000 at the earliest, and expects that positive cash flow from operations will not be generated until late 2000 at the earliest. The ability of the Company to generate revenues and achieve profitability will depend upon a number of factors, including the timely receipt of all necessary FCC authorizations, the successful and timely construction and deployment of its satellite system, the development and manufacture of radio cards, S-band radios and miniature satellite dish antennas by consumer electronics manufacturers, the timely establishment of its National Broadcast Studio and the successful marketing and consumer acceptance of CD Radio. There can be no assurance that any of the foregoing will be accomplished, that CD Radio will ever commence operations, that the Company will attain any particular level of revenues or that the Company will achieve profitability.

NEED FOR SUBSTANTIAL ADDITIONAL FINANCING

The Company estimates that it will require approximately \$647.6 million to develop and commence commercial operation of CD Radio by the end of 1999. Of this amount, the Company has raised approximately \$266.6 million to date. After giving effect to the Offerings, the Company will have raised approximately \$470.7 million of funds, leaving anticipated additional cash needs of approximately \$176.9 million to fund its operations through 1999. The Company anticipates additional cash requirements of approximately \$100.0 million to fund its operations through the year 2000. The Company expects to finance the remainder of its funding requirements through the issuance of debt or equity securities or a combination thereof. Additional funds, however, would be

required in the event of delays, cost overruns, launch failure or other adverse developments. Furthermore, if the Company were to exercise its option under the Loral Satellite Contract to purchase and deploy an additional satellite, substantial additional funds would be required. See 'Use of Proceeds.' The Company currently does not have sufficient financing commitments to fund all of its capital needs, and there can be no assurance that the Company will be able to obtain additional financing on favorable terms, if at all, or that it will be able to do so on a timely basis. The AEF Agreements (as defined herein) contain, the indenture governing the Notes (the 'Indenture') will contain and documents governing any other future indebtedness are likely to contain provisions that limit the ability of the Company to incur additional indebtedness. The Company has substantial near-term funding requirements related to the construction and launch of its satellites. The Company is committed to make aggregate payments of \$277.1 million under the Loral Satellite Contract and of \$176.0 million under the Arianespace Launch Contract. Under the Loral Satellite Contract, payments are to be made in 22 installments, which commenced in April 1997. Payments due under the Arianespace Launch Contract commence November 1997 for the first launch, and February 1998 for the second launch. See 'Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity and Capital Resources -- Funding Requirements.' Failure to secure the

14

necessary financing on a timely basis could result in delays and increases in the cost of satellite construction or launch or other activities necessary to put CD Radio into operation, could cause the Company to default on its commitments to its satellite construction or satellite launch contractors, its creditors or others, could render the Company unable to put CD Radio into operation and could force the Company to discontinue operations or seek a purchaser for its business. The issuance by the Company of additional equity securities could cause substantial dilution of the interest in the Company of purchasers of the shares of Common Stock offered hereby.

POSSIBLE DELAYS AND ADVERSE EFFECT OF DELAY ON FINANCING REQUIREMENTS

The Company currently expects to begin offering CD Radio in late 1999. The Company's ability to meet that objective will depend on several factors. For both of the two satellites required for the CD Radio service to be launched and in operation by the end of 1999, Loral will be required to deliver the second satellite three months prior to the delivery date specified in the contract, which cannot be assured. See 'Business -- The CD Radio Delivery System -- The Satellites -- Satellite Construction.' Furthermore, the launch of both satellites will have to occur within the early months of the launch periods reserved with Arianespace, which also cannot be assured. See 'Business -- The CD Radio Delivery System -- The Satellites -- Launch Services.' A significant delay in the planned development, construction, launch and commencement of operation of the Company's satellites would have a material adverse effect on the Company. Other delays in the development or commencement of commercial operations of CD Radio may also have a material adverse effect on the Company. Any such delays could result from a variety of causes, including delays associated with obtaining additional FCC authorizations, coordinating use of spectrum with Canada and Mexico, inability to obtain necessary financing in a timely manner, delays in or modifications to the design, development, construction or testing of satellites, the National Broadcast Studio or other aspects of the CD Radio system, changes of technical specifications, delay in commercial availability of radio cards, S-band radios or miniature satellite dish antennas, failure of the Company's vendors to perform as anticipated or a delayed or unsuccessful satellite launch or deployment. During any period of delay, the Company would continue to have significant cash requirements, including capital expenditures, administrative and overhead costs, contractual obligations and debt service requirements that could materially increase the aggregate amount of funding required to permit the Company to commence operating CD Radio. Additional financing may not be available on favorable terms or at all during periods of delay. Delay also could cause the Company to be placed at a competitive disadvantage in relation to any competitor that succeeds in beginning operations earlier than the Company. See ' -- Unavailability of Radio Cards, S-band Radios and Miniature Satellite Dish Antennas,' ' -- Continuing Oversight by the FCC,' 'Business -- The CD Radio Delivery System -- The Receivers' and 'Business -- Government Regulations -- Communications Laws.'

RELIANCE ON UNPROVEN APPLICATIONS OF TECHNOLOGY

CD Radio is designed to be broadcast from two satellites in geosynchronous orbit that transmit identical signals to radio cards or S-band radios through miniature satellite dish antennas. This design involves new applications of existing technology which have not been deployed and there can be no assurance that the CD Radio system will work as planned. In addition, radio cards, S-band radios and miniature satellite dish antennas are not currently available. In certain areas with high concentrations of tall buildings and other obstructions, such as large urban areas, or in tunnels, signals from both satellites will be

blocked and CD Radio reception will be adversely affected. In urban areas, the Company plans to install terrestrial repeating transmitters to rebroadcast CD Radio; however, certain areas with impediments to satellite line-of-sight may still experience 'dead zones.' Although management believes that the technology developed by the Company will allow the CD Radio system to operate as planned, there can be no assurance that it will do so. See ' -- Unavailability of Radio Cards, S-band Radios or Miniature Satellite Dish Antennas,' 'Business -- The CD Radio Delivery System' and 'Business -- Technology and Patents.'

15

DEPENDENCE UPON SATELLITE AND LAUNCH CONTRACTORS

The Company's business will depend upon the successful construction and launch of the satellites which will be used to transmit CD Radio. The Company will rely upon its satellite vendor, Loral, for the construction and timely delivery of these satellites. Failure by Loral to deliver functioning satellites in a timely manner could materially adversely affect the Company's business. Although the Loral Satellite Contract provides for certain late delivery penalties, Loral will not be liable for indirect or consequential damages or lost revenues or profits resulting from late delivery or other defaults. Title and risk of loss for the first and second satellites are to pass to the Company at the time of launch. The satellites are warranted to be in accordance with the performance specifications in the Loral Satellite Contract and free from defects in materials and workmanship at the time of delivery, which for the first two satellites will be deemed to occur at the time of arrival of the satellites at the launch base. After delivery, no warranty coverage applies if the satellite is launched. See 'Business -- The CD Radio Delivery System -- The Satellites -- Satellite Construction.'

The Company is dependent on its satellite launch vendor, Arianespace, for the construction of launch vehicles and the successful launch of the Company's satellites. Failure of Arianespace to launch the satellites in a timely manner could materially adversely affect the Company's business. The Arianespace Launch Contract entitles Arianespace to postpone either of the Company's launches for a variety of reasons, including technical problems, lack of co-passenger(s) for the Company's launch or the need to conduct a replacement launch for another customer, a launch of a scientific satellite whose mission may be degraded by delay, or a launch of another customer's satellite whose launch was postponed. Although the Arianespace Launch Contract provides liquidated damages for delay, depending on the length of the delay, and entitles the Company to terminate the agreement for delay exceeding 12 months, there can be no assurance that these remedies will adequately mitigate any damage to the Company's business caused by launch delays. See ' -- Possible Delays and Adverse Effect of Delay on Financing Requirements.' The liability of Arianespace in the event of a launch failure is limited to providing a replacement launch in the case of a total launch failure or paying an amount based on lost satellite capacity in the case of a partial launch failure. See 'Business -- The CD Radio Delivery System -- The Satellites -- Launch Services.'

SATELLITE LAUNCH RISKS

Satellite launches are subject to significant risks, including launch failure, satellite destruction or damage during launch and failure to achieve proper orbital placement. Launch failure rates may vary depending on the particular launch vehicle and contractor. Although past experience is not necessarily indicative of future performance, Arianespace has advised the Company that as of November 13, 1997, 87 of 92 Arianespace launches (or approximately 94.6%) have been completed successfully since May 1984. See 'Business -- The CD Radio Delivery System -- The Satellites -- Launch Services.' However, the Ariane 5, the particular launch vehicle intended for the launches of the Company's satellites, has had only two launches, one of which was a failure. In the event of a significant delay in the Ariane 5 program, the Company has the right to request launch on an Ariane 4 launch vehicle. There is no assurance that Arianespace's launches of the Company's satellites will be successful. Satellites also may fail to achieve a proper orbit or be damaged in space. See ' -- Limited Life of Satellites; In-orbit Failure.' As part of its risk management program, the Company plans to construct a third, backup satellite and to obtain insurance covering a replacement launch to the extent required to cover risks not assumed by Arianespace under the Arianespace Launch Contract. See ' -- Insurance Risks.' The launch of a replacement satellite would delay the commencement or continuation of the Company's commercial operations for a period of at least several months, which could have a material adverse effect on the demand for the Company's services and on its revenues and results of operations. See 'Business -- The CD Radio Delivery System -- The Satellites -- Launch Services.'

UNCERTAIN MARKET ACCEPTANCE

There is currently no satellite radio service such as CD Radio in

commercial operation in the United States. As a result, the extent of the potential demand for such a service and the degree to which the Company's proposed service will meet that demand cannot be estimated with certainty, and there

16

can be no assurance that there will be sufficient demand for CD Radio to enable the Company to achieve significant revenues or cash flow or profitable operations. The success of CD Radio in gaining market acceptance will be affected by a number of factors beyond the Company's control, including the willingness of consumers to pay subscription fees to obtain satellite radio broadcasts, the cost, availability and consumer acceptance of radio cards, S-band radios and miniature satellite dish antennas, the marketing and pricing strategies of competitors, the development of alternative technologies or services and general economic conditions. See 'Business -- The Radio Market,' 'Business -- The CD Radio Service,' 'Business -- Marketing Strategy,' 'Business -- The CD Radio Delivery System' and 'Business -- Competition.'

LIMITED LIFE OF SATELLITES; IN-ORBIT FAILURE

A number of factors will affect the useful lives of the Company's satellites, including the quality of construction, the expected gradual environmental degradation of solar panels, the amount of fuel on board and the durability of component parts. Random failure of satellite components could result in damage to or loss of a satellite. In rare cases, satellites could also be damaged or destroyed by electrostatic storms or collisions with other objects in space. If the Company is required to launch the spare satellite, due to failure of the launch or in-orbit failure of one of the operational satellites, its operational timetable would be delayed for approximately six months or more. The launch or in-orbit failure of two satellites would require the Company to arrange for additional satellites to be built and could delay the commencement or continuation of the Company's operations for three years or more. The Company's satellites are expected to have useful lives of approximately 15 years, after which their performance in delivering CD Radio is expected to deteriorate. There can be no assurance, however, of the specific longevity of any particular satellite. The Company's operating results would be adversely affected in the event the useful life of its initial satellites is significantly shorter than 15 years.

INSURANCE RISKS

Pursuant to the Loral Satellite Contract and the Arianespace Launch Contract, the Company is the beneficiary of certain limited warranties with respect to the services provided under each agreement. However, these limited warranties do not cover a substantial portion of the risks inherent in satellite launches or in-orbit operations, and the Company will have to obtain insurance to adequately protect against such risks.

The Arianespace Launch Contract contains a provision entitling the Company to a replacement launch in the event of a launch failure caused by the launch vehicle used to launch the Company's satellites. In such event, the Company would utilize the spare satellite that it is having constructed. Thus, the Company does not intend to purchase additional insurance for launch failure of the launch vehicle. The Company intends to insure against other contingencies, including a failure during launch caused by factors other than the launch vehicle and/or a failure involving the second or third satellite in a situation in which the spare satellite has been used to replace the first or second satellite. Any adverse change in insurance market conditions may result in an increase, which may be substantial, in the insurance premiums paid by the Company. There is no assurance that launch insurance will be available or, if available, that it can be obtained at a cost or on terms acceptable to the Company.

If the launch of either of the Company's two satellites is a full or partial failure or if, following launch, either of the satellites does not perform to specifications, there may be circumstances in which insurance will not fully reimburse the Company for its expenditures with respect to the applicable satellite. In addition, the Company has not acquired insurance that would reimburse the Company for business interruption, loss of business and similar losses which might arise from such events or from delay in the launch of either of the satellites. Any insurance obtained by the Company also will likely contain certain exclusions and material change conditions that are customary in the industry. See 'Business -- The CD Radio Delivery System -- The Satellites -- Risk Management and Insurance.'

17

RISK ASSOCIATED WITH CHANGING TECHNOLOGY

The industry in which the Company operates is characterized by rapid technological advances and innovations. There is no assurance that one or more of the technologies utilized or under development by the Company will not become obsolete, or that its services will be in demand at the time they are offered. The Company will be dependent upon technologies developed by third parties to implement key aspects of its proposed system, and there can be no assurance that more advanced technologies will be available to the Company on a timely basis or on reasonable terms or that more advanced technologies will be used by the Company's competitors and that such technologies will be available to the Company. In addition, unforeseen problems in the development of the Company's satellite radio broadcasting system may occur that could adversely affect performance, cost or timely implementation of the system and could have a material adverse effect on the Company.

UNAVAILABILITY OF RADIO CARDS, S-BAND RADIOS OR MINIATURE SATELLITE DISH ANTENNAS

The Company's business strategy requires that subscribers to CD Radio purchase radio cards or S-band radios as well as the associated miniature satellite dish antennas in order to receive the service. See 'Business -- The CD Radio Delivery System.' Neither the radio cards, S-band radios nor miniature satellite dish antennas currently are available, and the Company is unaware of any manufacturer currently developing such products. The Company does not intend to manufacture or distribute radio cards, S-band radios or miniature satellite dish antennas. The Company has entered into non-binding memoranda of understanding with two major consumer electronics manufacturers, and has commenced discussions with several other such manufacturers, regarding the manufacture of radio cards, S-band radios and miniature satellite dish antennas for retail sale in the United States. The Company currently intends to select one manufacturer of these products on an exclusive basis for the first year of CD Radio broadcasts. There can be no assurance, however, that these discussions or memoranda of understanding will result in a binding commitment on the part of any manufacturer to produce radio cards, S-band radios and miniature satellite dish antennas in a timely manner and at an affordable price so as to permit the widespread introduction of CD Radio in accordance with the Company's business plan or that sufficient quantities of radio cards, S-band radios and miniature satellite dish antennas will be available to meet anticipated consumer demand. The failure to have one or more consumer electronics manufacturers develop these products for commercial sale in a timely manner, at an affordable price and with mass market nationwide distribution would have a material adverse effect on the Company's business. In addition, the FCC, in its order granting the FCC License, conditioned the Company's license on certification by the Company that its final receiver design is interoperable with respect to the final receiver design of the other licensee, which has proposed to use a significantly different transmission technology from that of the Company. The Company believes that it can design an interoperable receiver, but there can be no assurance that this effort will be successful or result in a commercially feasible receiver. See 'Business -- The CD Radio Delivery System,' 'Business -- Marketing Strategy,' and 'Business -- Technology and Patents.'

NEED TO OBTAIN RIGHTS TO PROGRAMMING

In connection with its music programming, the Company will be required to negotiate and enter into royalty arrangements with performing rights societies, such as The American Society of Composers, Authors and Publishers ('ASCAP'), Broadcast Music, Inc. ('BMI') and SESAC, Inc. ('SESAC'). These organizations collect royalties and distribute them to songwriters and music publishers. Copyright users negotiate a fee with these organizations based on a percentage of advertising and/or subscription revenues. Broadcasters currently pay a combined total of approximately 3% of their revenues to the performing rights societies. The Company also will be required to negotiate similar arrangements, pursuant to the Digital Performance Right in Sound Recordings Act of 1995 (the 'Digital Recording Act'), with the owners of the sound recordings. The determination of certain royalty arrangements with the owners of sound recordings under the Digital Recordings Act currently are subject to arbitration proceedings. The Company believes that it will be able to negotiate royalty arrangements with these organizations and the owners of sound recordings, but there can be no assurance as to the terms of any such royalty arrangements ultimately negotiated or established by arbitration.

DEVELOPMENT OF BUSINESS AND MANAGEMENT OF GROWTH

The Company has not yet commenced CD Radio broadcasts. The Company expects to experience significant and rapid growth in the scope and complexity of its business as it proceeds with the development of its satellite radio system and the commencement of CD Radio. Currently, the Company has only ten employees and does not have sufficient staff to program its broadcast service, manage operations, control the operation of its satellites, handle sales and marketing efforts or perform finance and accounting functions. Although the Company has

recently retained experienced executives in several of these areas, the Company will be required to hire a broad range of additional personnel before its planned service begins commercial operations. Growth, including the creation of a management infrastructure and staffing, is likely to place a substantial strain on the Company's management and operational resources. The failure to develop and implement effective systems or to hire and train sufficient personnel for the performance of all of the functions necessary to the effective provision of its service and management of its subscriber base and business, and the failure to manage growth effectively, would have a material adverse effect on the Company.

CONTINUING OVERSIGHT BY THE FCC

In order to offer CD Radio, the Company was required to obtain a license from the FCC to launch and operate its satellites. The Company was a winning bidder in the April 1997 FCC auction for an FCC license to build, launch and operate a national satellite radio broadcast service (the 'FCC License'), and the FCC's International Bureau issued such a license to the Company on October 10, 1997 (the 'IB Order'). Although the FCC License is effective immediately, for a period of 30 days following the grant of the FCC License certain parties could petition either the International Bureau or the full FCC to reconsider the decision to grant the FCC License to the Company. An application for review by the full Commission was filed by one of the low-bidding applicants in the auction. This petition requests, among other things, that the Commission adopt restrictions on foreign ownership, which were not applied in the IB Order, and, on the basis of the Company's ownership, overrule the IB Order. If this petition is denied, the complaining party may file an appeal with the U.S. Court of Appeals, which must find that the decision of the FCC was not supported by substantial evidence, or was arbitrary, capricious or unlawful in order to overturn the grant of the Company's FCC License. Although the Company believes the FCC will uphold the IB Order, the Company cannot predict the ultimate outcome of any proceedings relating to this petition or any other proceedings that may be filed. See 'Business -- Government Regulation -- Communications Laws.'

In order to ensure compliance with the transfer of control rule restrictions contained in the Communications Act of 1934, as amended (the 'Communication Act'), any future assignments or transfers of control of the Company's license must be approved by the FCC. There can be no assurance that the FCC would approve any such transfer or assignment.

The term of the FCC License with respect to each satellite is eight years, commencing from the date each satellite is declared operational after having been inserted into orbit. Upon the expiration of the term with respect to each satellite, the Company will be required to apply for a renewal of the relevant license. Although the Company believes that the FCC will grant such renewals absent significant misconduct on the part of the Company, there can be no assurance that such renewals in fact will be obtained.

The CD Radio system is designed to permit CD Radio to be received by motorists in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites. However, in certain areas with high concentrations of tall buildings, such as urban cores, or in tunnels, signals from both satellites will be blocked and reception will be adversely affected. Therefore, the Company plans to install terrestrial repeating transmitters to rebroadcast CD Radio in certain areas. The FCC has not yet established rules governing the application procedure for obtaining authorizations to construct and operate terrestrial repeating transmitters. The Company cannot predict the outcome of this process. In addition, in connection with the installation and operation of the terrestrial repeating transmitters, the Company will need to obtain the rights to use the roofs of certain structures where the repeating transmitters will be installed. There can be no assurance that the Company can obtain such roof rights on acceptable terms or in appropriate locations for the operation of CD Radio. Also, the

19

FCC Licensing Rules (as defined herein) require that the Company complete frequency coordination with Canada and Mexico. There can be no assurance that the Company will be able to coordinate use of this spectrum or will be able to do so in a timely manner.

Changes in law, FCC regulations or international agreements relating to communications policy generally or to matters relating specifically to the services to be offered by the Company could affect the Company's ability to retain the FCC License and obtain or retain other approvals required to provide CD Radio or the manner in which CD Radio would be offered or regulated. See 'Business -- Government Regulation.'

The IB Order determined that as a private carrier, the Company is not subject to the current provisions of the Communications Act restricting ownership in the Company by non-U.S. private citizens or organizations. The Executive Branch of the U.S. government has expressed interest in changing this policy, which could lead to restrictions on foreign ownership of the Company's shares in the future. The IB Order stated that its finding that the Company is not subject to the foreign ownership restrictions of the Communications Act is subject to being revisited in a future proceeding. The pending application for review of the IB Order brings the question of foreign ownership restrictions before the full FCC.

The FCC has indicated that it may in the future impose public service obligations, such as channel set-asides for educational programming, on satellite radio licensees. The Company cannot predict whether the FCC will impose public service obligations or the impact that any such obligations, if imposed, would have on the Company.

DEPENDENCE ON KEY PERSONNEL

The Company is highly dependent on the services of David Margolese, Chairman and Chief Executive Officer, who is responsible for the Company's operations and strategic planning. The loss of the services of Mr. Margolese could have a material adverse effect upon the business and prospects of the Company. See 'Business -- Government Regulation' and 'Management.'

APPLICATION OF EXPORT CONTROL REGULATIONS

Shipment of the Company's satellites to territory outside the United States is subject to U.S. export control regulation. Because Arianespace, the Company's satellite launch vendor, intends to launch the Company's satellites from an Arianespace launch facility in French Guiana, a department of France, export licenses will be required under U.S. export control regulations. There can be no assurance, however, that the required export licenses will be obtained.

RISK OF SIGNAL THEFT

The CD Radio signal, like all broadcasts, is subject to the risk of piracy. Although the Company plans to use encryption technology to mitigate signal theft, the Company does not believe that any such technology is infallible. Accordingly, there can be no assurance that theft of the CD Radio signal will not occur. Signal theft, if widespread, could have a material adverse effect on the Company.

COMPETITION

The Company will be seeking market acceptance of its proposed service in a new, untested market and will compete with established conventional radio stations, which do not charge subscription fees or require the purchase of radio cards or S-band radios and associated miniature satellite dish antennas to receive their services. Many radio stations also offer information programming of a local nature such as local news or traffic reports which the Company will be unable to offer. In addition, the Company expects that, prior to the commercial launch of CD Radio, some traditional FM radio broadcasting stations will begin to transmit digital, compact disc quality signals. The Company also expects to compete directly with American Mobile Radio Corporation ('AMRC'), a subsidiary of American Mobile Satellite Corporation ('AMSC'), which is the holder of the other FCC License. AMSC, which is owned in part by the Hughes Electronics Corporation subsidiary of General Motors Corporation, has

20

financial, management and technical resources that greatly exceed those of the Company. See 'Business -- Competition.' In addition, the FCC could grant new licenses which would enable further competition to broadcast satellite radio. Finally, there are many portions of the electromagnetic spectrum that are currently licensed for other uses and certain other portions for which licenses have been granted by the FCC without restriction as to use, and there can be no assurance that these portions of the spectrum could not be utilized for satellite radio broadcasting in the future. Although any such licensees would face cost and competition barriers, there can be no assurance that there will not be an increase in the number of competitors in the satellite radio industry or any assurance that one or more competitors will not design a satellite radio broadcast system that is superior to the Company's system, either of which events could have a material adverse effect on the Company. See 'Business -- Competition.'

UNCERTAIN PATENT PROTECTION

The Company has been granted certain U.S. patents covering various features

of satellite radio technology including, among other features, signal diversity and memory reception. There can be no certainty that the Company's system or products will be covered by the Company's patents. If the Company's system or products are not covered by the Company's patents, others may duplicate the Company's system or products without liability to the Company. In addition, there can be no assurance that the Company's U.S. patents will not be challenged, invalidated or circumvented by others. Litigation, which could result in substantial cost to the Company, may be necessary to enforce the Company's patents or may occur to determine the scope and validity of other parties' proprietary rights, and there can be no assurance of success in any such litigation. There can be no assurance that there are no patents, or pending patent applications which will later mature into patents, or inventions developed earlier which will later mature into patents, of others which may block the Company's ability to operate its system or license its technology. The earliest of the Company's patents is due to expire, upon payment of all necessary fees, on April 10, 2012. See 'Business -- Technology and Patents.'

NO DIVIDENDS

The Company has not declared or paid any dividends on its Common Stock since its inception, and does not currently anticipate paying any such dividends. The AEF Agreements contain and the Indenture will contain provisions that limit the Company's ability to pay dividends.

LIMITED PUBLIC MARKET FOR COMMON STOCK

The Common Stock is traded on the Nasdaq National Market. There can be no assurance that an active public market will continue to exist for the Common Stock or as to the liquidity of any such market, the ability of holders of the Common Stock to sell their securities or the price at which such holders would be able to sell. Such price may be influenced by many factors, including, but not limited to, investor perception of the Company and its industry and general economic and market conditions.

VOLATILITY OF STOCK PRICE

The trading price of the Common Stock has been volatile, and it may continue to be so. Such trading price could be subject to wide fluctuations in response to announcements of business and technical developments by the Company or its competitors, quarterly variations in operating results, and other events or factors, including expectations by investors and securities analysts and the Company's prospects. In addition, stock markets have experienced extreme price volatility in recent years. This volatility has had a substantial effect on the market prices of development stage companies, at times for reasons unrelated to their operating performance. Such broad market fluctuations may adversely affect the price of the Common Stock.

ANTI-TAKEOVER PROVISIONS

The Company's Board of Directors has the authority to issue up to 50,000,000 shares of preferred stock (the 'Preferred Stock') in one or more series and to determine the price, rights, preferences and privileges of those shares without any further vote or action by the stockholders. Of that amount, 8,000,000 shares have been designated as 5% Preferred Stock and 7,000,000 shares of Preferred Stock

have been designated Series C Preferred Stock. In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of Series C Preferred Stock (which constitute all of the issued and outstanding shares of preferred stock of the Company). In addition, the Company has adopted a stockholders rights plan and in connection with the stockholders rights plan, 300,000 shares of Preferred Stock have been designated Series B Preferred Stock. Any issuance of Preferred Stock, including Preferred Stock with voting and conversion rights, as well as the Series C Preferred Stock which are convertible into shares of Common Stock, may adversely affect the voting power of the holders of Common Stock. The stockholders rights plan and any issuance of Preferred Stock may be deemed to have anti-takeover effects and may delay, deter or prevent a change in control of the Company that a stockholder might consider to be in his or her best interest. The Company may also become subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law. The effect of these provisions could have the effect of delaying or preventing a change of control of the Company or adversely affect the market price of the Company's Common Stock. Furthermore, the severance provisions of employment agreements with certain members of the Company's management provide for payments that could discourage an attempted change in control of the Company.

Any change in the composition of the Company's ownership after Arianespace Finance S.A. ('AEF') has determined that the Tranche A Loans are eligible for Conversion (as defined below), which could reasonably be expected to have a Material Adverse Effect (as defined in the AEF Agreements), would constitute a default under the AEF Agreements. Therefore, upon the occurrence of such change in the Company's ownership, AEF would have the right to accelerate its loans to the Company and the Company may be required to prepay all of its outstanding obligations under the AEF Agreements. See 'Description of Certain Indebtedness -- Vendor Financing.' There can be no assurance that the Company will satisfy the conditions for Conversion. However, any other financing obtained by the Company to repay or refinance the Tranche A Loans likely would contain restrictions on significant changes in the Company's stock ownership.

Upon the occurrence of any Change of Control (as defined in the Indenture), or a Change in Control (as defined in the Series C Preferred Stock certificate of designations), the Company will be required to make an offer to purchase the Notes, after issuance thereof, and the Series C Preferred Stock. If such an offer is made, there can be no assurance that the Company will have available funds sufficient to pay the purchase price for any or all of the Notes and the Series C Preferred Stock that might be delivered by holders of the Notes or the Series C Preferred Stock seeking to accept the offer. After the issuance of the Notes the failure of the Company to make or consummate the Change of Control offer or to pay the purchase price for the Notes when due will give the trustee under the Indenture and the holders of the Notes the right to require the Company to prepay all of its outstanding indebtedness and other obligations under the Notes. The failure of the Company to make or consummate the offer to purchase or pay the purchase price for the Series C Preferred Stock when due will give the holders of a majority of the Series C Preferred Stock the right, voting as a separate class, to elect a number of directors of the Company equal to the lesser of two directors and the number of directors constituting at least 25% of the Board of Directors of the Company.

In addition, a change in control of the Company could require FCC approval. See 'Business -- Regulation.'

CONTROL BY EXISTING STOCKHOLDERS

As of September 30, 1997, the executive officers and directors of the Company beneficially owned, or had voting power with respect to, approximately 42.0% of the outstanding Common Stock, and upon consummation of the Stock Offerings, such executive officers and directors are expected to beneficially own, or have voting power with respect to, approximately 32.7% of the outstanding Common Stock (assuming none of the executive officers, directors, any grantor under a voting trust granting voting power over shares of Common Stock purchased by such grantor or such grantor's affiliates to any of such executives or directors, or such grantor's affiliates purchases any shares of Common Stock in the Stock Offerings). This concentration of ownership will enable such stockholders, either acting alone or

22

together with other existing stockholders, to exert considerable influence over the management and policies of the Company. Such a concentration of ownership may have the effect of delaying, deferring or preventing a change of control.

INVESTMENT COMPANY ACT OF 1940

On July 22, 1997, the Company filed an application with the Securities and Exchange Commission for an order declaring that the Company is not an 'investment company' as that term is defined in the Investment Company Act of 1940, as amended (the '1940 Act'). The 1940 Act defines an investment company to include a company that owns or proposes to acquire 'investment securities' (as that term is defined in the 1940 Act) exceeding 40% of the value of such company's assets (exclusive of U.S. government securities and cash items). Because the Company had temporarily invested the proceeds from its recent public and private offerings in investment securities prior to their expenditure, the Company could have fallen within the definition of an investment company. Investment companies must be registered and are subject to extensive regulation by the Commission under the 1940 Act.

The filing of the application gave the Company an automatic 60-day exemption (the final day of which was September 19, 1997) from the provisions of the 1940 Act pending a final determination of the merits of its application. Because the Commission has not yet acted on the Company's application, the Company has now invested in U.S. government securities at least that proportion of its assets as the Company believes will be sufficient to avoid any determination that it is an 'investment company' within the meaning of the 1940 Act.

If the requested relief is ultimately denied, the Company may be required

to register as an investment company or, in the alternative, to invest a substantial portion of the proceeds from the sale of the Common Stock offered hereby in U.S. government securities, pending expenditure of such proceeds by the Company for its corporate purposes.

SHARES ELIGIBLE FOR FUTURE SALE

Upon the consummation of the Stock Offerings, the Company will have 15,377,844 shares of Common Stock outstanding, assuming no exercise of (i) the Underwriters' over-allotment option and (ii) outstanding options. Of these shares, 9,695,896 shares will be freely tradeable without restriction under the Securities Act unless such shares are purchased in the Stock Offerings by 'affiliates' of the Company, as such term is defined in Rule 144 under the Securities Act (the 'Affiliates'). Of the remaining 6,381,988 shares of Common Stock, 3,547,488 shares are 'restricted securities' as that term is defined in Rule 144 under the Securities Act (the 'Restricted Shares'). Restricted Shares may be sold in the public market only if registered or if they qualify for an exemption from registration under Rules 144, 144(k) or 701 promulgated under the Securities Act. Up to 1,642,000 of the Restricted Shares held by the directors and certain officers of the Company will be eligible for sale, subject to the restrictions of Rule 144, upon expiration of certain lock-up agreements entered into between each of such directors and officers of the Company and the underwriters of the Stock Offering (the 'Lock-up Agreements'), which shall expire, with respect to a Lock-up Agreement concerning 1,600,000 of such shares, on a cumulative basis as to 25% of such 1,600,000 shares at the expiration of each of the 15th, 18th, 21st and 24th month following August 26, 1997, and, with respect to Lock-up Agreements concerning the remaining 42,000 shares, 180 days after the effective date of the Stock Offerings. The remaining 1,905,488 Restricted Shares will not become eligible for resale until August 1998, and then only pursuant to the restrictions under Rule 144. In addition, the Company's largest stockholder has entered into a lock-up agreement relating to 2,834,500 shares lasting for a period ending, on a cumulative basis, as to 25% of the shares of Common Stock owned by such holder, on the expiration of the 15th, 18th, 21st and 24th month following August 26, 1997. As such shares become free of such lock-up, they will be eligible for sale without restriction.

The Company is unable to predict the effect that sales made under Rule 144, pursuant to future registration statements, or otherwise, may have on any then prevailing market price for shares of the Common Stock. Nevertheless, sales of a substantial amount of Common Stock in the public market, or the perception that such sales could occur, could adversely affect market prices.

23

USE OF PROCEEDS

The net proceeds to the Company from the Stock Offerings are estimated to be approximately \$49.0 million (\$56.4 million if the Underwriters' over-allotment option is exercised in full) (based on an assumed offering price of \$19 5/16 per share, the closing price of the Company's Common Stock at November 19, 1997) after deducting estimated underwriting discounts and estimated expenses relating thereto. Concurrently with the sale of the shares of Common Stock, the Company intends to complete the Units Offering having consummated the Exchange Offer on November 20, 1997. The net proceeds to the Company from the Units Offering are estimated to be approximately \$142.8 million after deducting estimated underwriting discounts and estimated expenses of the Units Offering. The Company will receive no proceeds from the Exchange Offer.

The Company expects to use the net proceeds of the Offerings to partially finance the construction and launch of the Company's satellites. The remainder of the net proceeds of the Offerings will be used for general corporate purposes, including marketing and working capital.

The Company estimates that it will require approximately \$647.6 million to develop and commence commercial operation of CD Radio by the end of 1999. Of this amount, the Company has raised approximately \$266.6 million to date. After giving effect to the Offerings, the Company will have raised \$470.7 million of funds, leaving anticipated additional cash needs of approximately \$176.9 million to fund its operations through 1999. The Company anticipates additional cash requirements of approximately \$100.0 million to fund its operations through the year 2000. The Company expects to finance the remainder of its funding requirements through the issuance of debt or equity securities or a combination thereof. There can be no assurance, however, that the Company's cash requirements will not increase or that such funds will be sufficient. In addition, although the Company's business plan is based upon the deployment of two satellites and the construction of a third

spare satellite, it has the right to exercise an option under the Loral Satellite Contract to acquire an additional satellite. If the Company elects to exercise this option, substantial additional funds would be required and the Company would have to obtain additional regulatory approvals. Deployment of an additional satellite also could result in a delay in the introduction of CD Radio. Any decision to deploy a three satellite system would have to be made prior to the launch of the Company's first satellite. The Company intends to seek additional financing through the issuance of debt or equity securities in the public or private markets. However, there can be no assurance that the Company will be able to obtain additional financing on favorable terms, or at all, or that such financing will be available in a timely manner. See 'Risk Factors -- Need for Substantial Additional Financing.'

SOURCES AND USES OF FUNDS BY CD RADIO

The following table describes the estimated sources and uses of funds by the Company from its inception through the end of 1999 when CD Radio is targeted to commence commercial operations. The projection of total sources and total uses of funds is forward looking and could vary, perhaps substantially, from actual results, due to events outside the Company's control, including unexpected costs and unforeseen delays.

Estimated fees and expenses of the Offerings and the Exchange Offer.....	16.3

Total pre-operational uses.....	\$647.6

</TABLE>

(1) Assumes that CD Radio will commence commercial operations in December 1999. The Company anticipates that it will require total net future funds of \$176.9 million following the Offerings to finance additional expenses through 1999. The Company anticipates additional funding requirements of \$100.0 million to fund its operations through year end 2000. Many factors, including the Company's ability to generate significant revenues, could affect this estimate. See 'Risk Factors' and 'Management's Discussion

- (2) Includes (i) proceeds from sales of Common Stock and units of \$14.5 million, (ii) proceeds from exercise of warrants of \$4.6 million, (iii) proceeds from exercise of options of \$0.2 million, (iv) issuance of Common Stock in satisfaction of notes and interest of \$1.4 million and (v) issuance of Common Stock for services rendered of \$0.9 million.
- (3) In April 1997, the Company issued a total of 5,400,000 shares of 5% Preferred Stock for aggregate consideration of \$135 million in a private placement transaction. The net proceeds to the Company after fees payable to the placement agent and the Company's financial advisor and related expenses were approximately \$120.5 million.
- (4) On August 5, 1997, the Company completed the sale of 1,905,488 shares of Common Stock to Loral Space for aggregate consideration of \$25 million, less fees of \$0.5 million.
- (5) The Company has available up to \$105 million under the AEF Vendor Financing to finance a portion of the costs of launching two satellites, and \$20 million of deferred payments under the Loral Satellite Contract. Under the AEF Agreements not more than \$80 million may be converted into term loans that mature beyond the launch date of the satellites. The granting of the Stock Pledge may require the consent of the lender under the AEF Agreements before the Company may borrow thereunder. In addition, the Company may be unable to comply with certain conditions of conversion or to comply with the covenants of such term loans if converted, in which case the Company will need to refinance the amounts outstanding under the AEF Agreements. See 'Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity' and 'Description of Certain Indebtedness -- Vendor Financing.'
- (6) The Company currently expects to satisfy its future funding requirements through the incurrence of additional debt and/or the issuance of additional equity securities in the public or private markets. Although the Company believes that it will be able to meet its additional funding requirements, there can be no assurance that such financing will be available on favorable terms, on a timely basis, or not at all. Among other things, any financing is subject to market conditions at the time of any proposed financing. See 'Risk Factors -- Need for Substantial Additional Financing' and 'Management's Discussion and Analysis of Financial Condition and Results of Operations.'

(footnotes continued on next page)

(footnotes continued from previous page)

- (7) As of September 30, 1997, the Company had incurred \$31.1 million of this amount. See 'Risk Factors -- Dependence upon Satellite and Launch Contractors.' The amount shown excludes \$29.8 million related to the purchase of the Company's ground spare (third) satellite which is payable subsequent to December 31, 1999. The total contract amount of \$277.1 million assumes a one-time inflation adjustment (estimated by Loral to be 2%) for the period from November 1996 to September 1997.
- (8) Includes \$176 million for launch services and an estimated \$15.1 million for insurance. As of September 30, 1997, the Company had incurred \$3.5 million of the launch services amount. See 'Risk Factors -- Dependence on Satellite and Launch Contractors' and 'Business -- The CD Radio Delivery System -- The Satellites.'
- (9) Includes an estimated \$6.7 million for the National Broadcast Studio, \$38.2 million for terrestrial repeaters and \$2.4 million for corporate office capital expenditures.
- (10) Includes cumulative historical operating expenses through September 30, 1997 of \$23.1 million, and projected operating expenses from October 1, 1997 through the end of the pre-operational period of \$39.8 million.
- (11) Includes estimated cash interest expense of \$17.1 million, less cash interest income of \$14.9 million, based on assumed interest rates, cash balances, borrowing levels and the timing, amount and structure of future financings.

The Common Stock began trading on the Nasdaq SmallCap Market on September 13, 1994 under the symbol 'CDRD' and traded there until October 24, 1997, when it began trading on the Nasdaq National Market. The following table sets forth the high and low prices for the Common Stock, as reported by the Nasdaq SmallCap Market or Nasdaq National Market, as applicable for the periods indicated below. The prices set forth below reflect interdealer quotations, without retail markups, mark downs, fees or commissions and do not necessarily reflect actual transactions.

</TABLE>

On November 19, 1997, the closing bid price of the Common Stock on the Nasdaq National Market was \$19 5/16 per share. On September 30, 1997, there were approximately 105 record holders of the Common Stock.

DIVIDEND POLICY

The Company has never paid cash dividends on its capital stock. The Company currently intends to retain earnings, if any, for use in its business and does not anticipate paying any cash dividends in the foreseeable future. The AEF Agreements contain, and the Indenture will contain, provisions that limit the Company's ability to pay dividends on the Common Stock.

26

DILUTION

The pro forma net tangible book value of the Company's Common Stock at September 30, 1997 was approximately \$65.0 million, or \$2.87 per share. Pro forma net tangible book value per share represents the amount of the Company's stockholders' equity, less intangible assets (including amounts that represent deposits and designated cash for the Company's FCC License), divided by the number of shares of Common Stock outstanding as of September 30, 1997, assuming conversion of each outstanding share of 5% Preferred Stock into approximately 1.9297 shares of Common Stock.

Pro forma net tangible book value dilution per share represents the difference between the amount per share paid by purchasers of shares of Common Stock in the Stock Offerings and the pro forma net tangible book value per share of Common Stock immediately after completion of the Stock Offerings. After giving effect to the sale of the 2,800,000 shares of Common Stock being offered by the Company hereby and after deducting underwriting discounts and commissions and estimated offering expenses payable by the Company, the pro forma net tangible book value at September 30, 1997 would have been approximately \$114.0 million, or \$5.03 per share. This represents an immediate increase in pro forma net tangible book value of \$2.16 per share to existing stockholders and an immediate dilution in pro forma net tangible book value of \$14.28 per share to purchasers of Common Stock in the Stock Offerings as illustrated in the following table:

<TABLE>		
<S>		<C> <C>
Initial public offering price per share.....		\$19.31
Pro forma net tangible book value per share at September 30, 1997.....	\$2.87	
Increase per share attributable to new investors.....	2.16	

Pro forma net tangible book value per share after the Stock Offerings.....		5.03

Pro forma net tangible book value dilution per share to new investors.....		\$14.28

</TABLE>		

The following table sets forth, as of September 30, 1997, the number of shares of Common Stock purchased from the Company (assuming conversion of each share of 5% Preferred Stock into approximately 1.9297 shares of Common Stock), the total consideration paid and the average price per share paid by existing stockholders and the new investors purchasing shares in the Stock Offerings (after deducting underwriting discounts and commissions and estimated offering expenses payable by the Company):

</TABLE>					

The foregoing assumes no exercise of stock options outstanding at September 30, 1997. At September 30, 1997, there were outstanding stock options to purchase an aggregate of 1,733,000 shares of Common Stock.

CAPITALIZATION

The following table sets forth the cash and capitalization of the Company as of September 30, 1997 (i) on a historical basis; (ii) as adjusted for payment by the Company of the balance due to the FCC for the FCC License in October 1997 and the Exchange Offer (effective November 17, 1997 100% of the outstanding shares of the 5% Delayed Convertible Stock had been exchanged for shares of 10 1/2% Series C Convertible Preferred Stock) after deducting Dealer Manager fees and other estimated expenses; and (iii) as adjusted for the estimated net proceeds from the sale of 2,800,000 shares of Common Stock pursuant to the Stock Offerings (at an assumed offering price of \$19 5/16 per share, the closing price of the Company's Common Stock at November 19, 1997, after deducting the underwriting discounts and commissions and estimated offering expenses) and the sale of Units for net proceeds of \$142.8 million pursuant to the Units Offering.

- (1) Represents proceeds of the offering of the 5% Preferred Stock which have been classified as designated cash reflecting the balance due to the FCC for the Company's FCC License. The Company paid this amount to the FCC in October 1997.
- (2) In accordance with generally accepted accounting principles, a portion of the issue price of the Units will be allocated to the Warrants to reflect their fair market value at the date of issuance.
- (3) All capitalization excludes warrants issuable by the Company as of September 30, 1997 to purchase 486,000 shares of 5% Preferred Stock.
- (4) All capitalization excludes: (i) options outstanding as of September 30, 1997 to purchase 2,013,000 shares of Common Stock, of which 1,652,000 shares are subject to currently exercisable options, and (ii) warrants issuable as of September 30, 1997 to purchase 2,000,000 shares of Common Stock.
- (5) Total capitalization does not include any amounts for the AEF Agreements (as defined herein).

SELECTED HISTORICAL FINANCIAL INFORMATION

The selected consolidated financial data for the Company set forth below with respect to the statements of operations for the years ended December 31, 1994, 1995 and 1996 and with respect to the balance sheets at December 31, 1995 and 1996 are derived from the consolidated financial statements of the Company, audited by Coopers & Lybrand L.L.P., independent accountants, incorporated herein by reference. The selected consolidated financial data for the Company with respect to the balance sheets at December 31, 1992, 1993 and 1994 and with respect to the statement of operations data for the years ended December 31, 1992 and 1993, are derived from the Company's audited consolidated financial statements, which are not incorporated herein by reference. The financial information as of and for the nine months ended September 30, 1996 and 1997 is derived from unaudited consolidated financial statements incorporated herein by reference. In the opinion of management, the unaudited consolidated financial statements include all adjustments, consisting of normal recurring accruals, that are necessary for a fair presentation of the financial position and results of operations for these periods. The selected consolidated financial data should be read in conjunction with the consolidated financial statements and related notes thereto incorporated herein by reference.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Prospectus contains certain forward-looking statements within the meaning of the federal securities laws. Actual results and the timing of certain events could differ materially from those projected in the forward-looking statements due to a number of factors, including those set forth under 'Risk Factors' and elsewhere in this Prospectus. See 'Special Note Regarding Forward-Looking Statements.'

OVERVIEW

The Company was organized in May 1990 and is in its development stage. The Company's principal activities to date have included technology development, pursuing regulatory approval for CD Radio, market research, design, development, contract negotiations with satellite and launch vehicle contractors, technical efforts with respect to standards and specifications, strategic planning and securing adequate financing for working capital and capital expenditures. The Company does not expect to derive any revenues from operations prior to the commercial launch of CD Radio, which is expected to occur no earlier than the end of 1999. The Company has incurred substantial losses to date and expects to incur substantial losses until at least a year after the commercial launch of CD Radio. In addition, the Company will require substantial additional capital to complete development and commence commercial operations of CD Radio. There can be no assurance that CD Radio will ever commence operations, that the Company will attain any particular level of revenues or that the Company will achieve profitability.

Upon commencing commercial operations, the Company expects its primary source of revenues to be monthly subscription fees. The Company currently anticipates that its subscription fee will be approximately \$10 per month to receive CD Radio broadcasts, with a one time, modest activation fee per subscriber. To receive CD Radio, subscribers will need to purchase a radio card or S-band radio together with the associated miniature satellite dish antenna. The Company does not intend to manufacture these products and thus will not receive any revenues from their sale. Although the Company holds patents covering various features of its satellite broadcasting system, which system includes, among other features, certain technology to be used in the radio cards, S-band radios and miniature satellite dish antennas, the Company expects to license its technology to manufacturers at no charge. As the number of subscribers to CD Radio increases, the Company also may derive revenues from payments from producers of sports, news and talk programming for providing national distribution of their programming to subscribers.

The Company expects that the operating expenses associated with commercial

operations will consist primarily of costs to acquire programming; costs to maintain and operate its satellite broadcasting system and National Broadcasting Studio; and sales, general and administrative costs. Costs to acquire programming are expected to include payments to build and maintain an extensive music library and royalty payments for broadcasting music (calculated based on a percentage of revenues). Sales, general and administrative costs are expected to consist primarily of advertising costs, salaries of executives, studio personnel, program hosts, administrators, technical staff, rent and other administrative expenses. The Company expects that the number of its employees will increase from 11 to approximately 100 by the time it commences commercial operations.

In addition to funding initial operating losses, the Company will require funds for working capital, interest and financing costs on borrowings and capital expenditures. The Company's interest expense will increase significantly as a result of its financing plan. However, a substantial portion of its planned indebtedness will not require cash payments of interest and principal for some time.

RESULTS OF OPERATIONS

NINE MONTHS ENDED SEPTEMBER 30, 1997 COMPARED WITH NINE MONTHS ENDED SEPTEMBER 30, 1996

The Company recorded net losses of \$1,489,000 and \$1,872,000 for the nine months ended September 30, 1997 and 1996, respectively, and \$654,000 and \$667,000 for the three months ended September 30, 1997 and 1996, respectively. The Company's total operating expenses were \$4,357,000 and \$1,921,000 for the nine months ended September 30, 1997 and 1996, respectively, and were

30

\$2,230,000 for the three months ended September 30, 1997 compared to \$682,000 for the three months ended September 30, 1996.

Legal, consulting and regulatory fees increased for the nine months ended September 30, 1997 to \$2,603,000 from \$979,000 for the nine months ended September 30, 1996, and increased to \$1,357,000 from \$372,000 for the three months ended September 30, 1997 and 1996, respectively. These levels of expenditures are the result of increased activity since winning an auction for a national satellite radio broadcast license conducted by the FCC in April 1997.

Research and development costs were \$43,000 and \$77,000 for the nine months ended September 30, 1997 and 1996, respectively, and \$8,000 and \$24,000 for the three months ended September 30, 1997 and 1996, respectively. The Company completed the majority of such activities in 1994.

Other general and administrative expenses increased for the nine months ended September 30, 1997 to \$1,711,000 from \$866,000 for the nine months ended September 30, 1996 and to \$865,000 from \$285,000 for the three months ended September 30, 1997 and 1996, respectively. General and administrative expenses are expected to continue to increase as the Company continues to develop its business. The Company also incurred a non-cash charge of \$240,000 for the nine month period ended September 30, 1996, attributable to the recognition of compensation expense in connection with stock options issued to officers of the Company.

The increase in interest income to \$2,873,000 for the nine months ended September 30, 1997, from \$62,000 in the nine months ended September 30, 1996 and to \$1,575,000 from \$17,000 for the three months ended September 30, 1997 and 1996, respectively, was the result of a higher average cash balance during 1997. The cash and cash equivalents on hand were primarily obtained from the 5% Preferred Stock offering and the sale of Common Stock to Loral Space in 1997.

YEAR ENDED DECEMBER 31, 1996 COMPARED WITH YEAR ENDED DECEMBER 31, 1995

The Company recorded net losses of \$2,831,000 (\$.29 per share) and \$2,107,000 (\$.23 per share) for the years ended December 31, 1996 and 1995, respectively. The Company's total operating expenses were \$2,930,000 in 1996 compared to \$2,230,000 in 1995.

Legal, consulting and regulatory fees increased in 1996 to \$1,582,000 from \$1,046,000 in 1995, as the result of increased efforts to obtain the FCC License.

Research and development costs were \$117,000 in 1996, compared with \$122,000 in 1995. Non-recurring costs associated with the design and development of the CD Radio demonstration system were substantially completed in 1993. Costs incurred in subsequent years relate to the operations of the demonstration system, including leasing satellite time, taking transmission measurements, and testing multipath fading.

Other general and administrative expenses increased in 1996 to \$1,231,000

from \$1,062,000 in 1995. The increase is due to the Company requiring general administrative support for the effort to obtain the FCC License.

Interest income decreased to \$113,000 in 1996 from \$143,000 in 1995 as a result of the Company having a higher average cash balance in 1995. Proceeds relating to the exercise of stock warrants were not received until late 1996 and, therefore, did not generate a significant amount of interest income. Interest expense decreased from \$20,000 in 1995 to \$13,000 in 1996 as a result of the Company repaying a promissory note due to an officer of the Company in 1996.

YEAR ENDED DECEMBER 31, 1995 COMPARED WITH YEAR ENDED DECEMBER 31, 1994

The Company recorded net loss of \$2,107,000 (\$.23 per share) and \$4,065,000 (\$.48 per share) for the years ended December 31, 1995 and 1994, respectively. The Company's total operating expenses were \$2,230,000 in 1995 compared to \$4,076,000 in 1994.

31

Legal, consulting and regulatory fees decreased from \$1,245,000 in 1994 to \$1,046,000 in 1995 as the Company continued to reduce costs while awaiting action by the FCC on the Company's application for an FCC License.

Other general and administrative expenses also decreased from \$2,455,000 in 1994 to \$1,062,000 in 1995 reflecting a reduction of costs such as payroll, rent and compensation expense in connection with issuance of stock options.

The Company completed the majority of the research and development necessary for product development prior to FCC licensing by 1994 which was reflected in the decrease of research and development costs from \$375,000 in 1994 to \$122,000 in 1995.

The increase in interest income from \$51,000 in 1994 to \$143,000 in 1995 was the result of a higher average cash balance in 1995. The cash and cash equivalents on hand were originally obtained from the Company's initial public offering in September 1994, which raised \$4.8 million.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 1997, the Company had working capital of approximately \$29,870,000 compared to \$4,442,000 at December 31, 1996. The increase in working capital was primarily the result of remaining cash proceeds from the offering of 5% Preferred Stock and the sale of Common Stock to Loral Space in 1997.

FUNDING REQUIREMENTS

The Company is a development stage company and as such will require substantial amounts of continued outside financing to acquire and develop its assets and commence commercial operations. The Company estimates that it will require approximately \$647.6 million to develop and commence commercial operation of CD Radio by the end of 1999. Of this amount, the Company has raised approximately \$266.6 million to date. After giving effect to the Offerings, the Company will have raised approximately \$470.7 million, leaving anticipated additional cash needs of approximately \$176.9 million to fund its operations through 1999. The Company anticipates additional cash requirements of approximately \$100.0 million to fund its operations through the year 2000. The Company expects to finance the remainder of its funding requirements through the issuance of debt or equity securities or a combination thereof. Furthermore, if the Company were to exercise its option under the Loral Satellite Contract to purchase and deploy an additional satellite, substantial additional funds would be required. See 'Use of Proceeds.'

In April 1997, the Company was the winning bidder in an FCC auction for one of two national satellite broadcast licenses with a winning bid of \$83.3 million, of which \$16.7 million was paid as a deposit. The Company paid the balance due the FCC in October 1997 and was awarded the FCC License on October 10, 1997.

To build and launch the satellites necessary for the operations of CD Radio, the Company has entered into the Loral Satellite Contract and the Arianespace Launch Contract. The Loral Satellite Contract provides for Loral to construct for the Company three satellites, two of which the Company intends to launch and the third of which will be kept in reserve as a spare, and for an option to be granted to the Company to purchase a fourth satellite. Under the Arianespace Launch Contract, Arianespace has agreed to launch two of the Company's satellites into orbit. See 'Business -- The CD Radio Delivery System -- The Satellites.' The Company is committed to make aggregate payments of \$277.1 million under the Loral Satellite Contract and of \$176.0 million under the Arianespace Launch Contract. Under the Loral Satellite Contract, with the

exception of a payment made at the time of the signing of the Loral Satellite Contract in March 1993, payments are to be made in 22 installments commencing in April 1997 and ending in November 2000, the expected delivery date for the third satellite. Approximately half of these payments are contingent on Loral meeting specified milestones in the manufacture of the three satellites. In addition, Loral has agreed to defer a total of \$20.0 million of the contract price, which is to be paid in four equal installments of \$5.0 million commencing November 2001 until March 2003. See ' -- Sources of Funding.' Amounts due under the Arianespace Launch

32

Contract, except for payments made prior to the execution of the Arianespace Launch Contract, are payable on various dates between November 1997 and July 1999 for the first launch, and, for the second launch, are payable on various dates between February 1998 and the earlier of October 1999, or ten days prior to the second launch.

The Company also will require funds for construction of its National Broadcast Studio, working capital, interest on borrowings, acquisition of programming, financing costs and operating expenses until some time after the commencement of commercial operations of CD Radio. The Company's interest expense will increase significantly as a result of its financing plan; however, a substantial portion of its planned indebtedness will not require immediate cash payments. The Notes are not expected to require cash payments until 2003. Interest on funds borrowed by the Company under the AEF Agreements is deferred until repayment of such amounts.

SOURCES OF FUNDING

The Company historically has funded its operations through equity capital. As of September 30, 1997, the Company had received a total of \$166.6 million in equity capital and had no outstanding indebtedness. A significant portion of the Company's equity capital was received in April 1997 as a result of the Company's issuance of 5,400,000 shares of 5% Preferred Stock for aggregate net proceeds of \$120.5 million in a private placement transaction. These proceeds were used primarily to finance the payment of the purchase price for the FCC License and for working capital.

On July 22, 1997, the Company entered into two loan agreements (collectively the 'AEF Agreements') with AEF, a subsidiary of Arianespace, to finance approximately \$105 million of the estimated \$176 million price of the launch services to be provided by Arianespace (the 'AEF Vendor Financing'). Under these agreements, the Company is able to borrow funds to meet the progress payments due to Arianespace for the construction of each launch vehicle and other launch costs (the 'Tranche A Loans'). The Company has the opportunity upon satisfying a variety of conditions specified in the AEF Agreements to extend the term of the Tranche A Loans. If the term is not extended, or if the Company is unable to comply with the terms and covenants of such extended loans, the Company will be required to repay the Tranche A Loans in full, together with accrued interest and all fees and other amounts due, approximately three months before the applicable launch date, which will be prior to the time CD Radio commences commercial operations. There can be no assurance that the Company will have sufficient funds to make such repayment.

The AEF Agreements impose restrictions on the Company's ability to incur additional indebtedness, make investments or permit liens on certain assets of the Company, other than liens in favor of AEF. If AEF determines that the Tranche A Loans are eligible for conversion into term loans, the Company will also be subject to provisions restricting its ability to change its capital structure or organizational documents or to merge, consolidate or combine with another entity. If the Tranche A Loans are converted, the Company's obligations to AEF will be secured by a lien on specified assets of the Company, including the satellites and, to the extent permitted by applicable law, the FCC License. In addition, the Indenture permits indebtedness under the AEF Agreements to be secured on a pari passu basis with the Notes by a first priority security interest in the Pledged Stock. See 'Description of Certain Indebtedness -- Vendor Financing.'

Pursuant to a Multiparty Agreement among the Company, AEF and Arianespace in connection with the AEF Agreements, if the Company is unable to obtain sufficient financing to complete the construction and launch of the satellites, or if the Company terminates the Arianespace Launch Contract, the Company will be required to pay Arianespace a termination fee ranging from 5% to 40% of the launch services price, based on the proximity of the date of termination to the scheduled launch date. The termination fee will be payable prior to the time the Company commences commercial operations and there can be no assurance that the Company will have sufficient funds to pay this fee.

The Loral Satellite Contract provides for payments to be made in

installments commencing in April 1997 and ending in November 2000, subject to achievement by Loral of certain milestones in the manufacture of the satellites. Loral has agreed to defer payment of \$20.0 million from two milestone payments due in June and September of 1998. The deferred amount will be paid in four installments of

33

\$5.0 million, with the first payment to be made 27 months after the delivery of the first satellite, the second payment to be made 27 months after delivery of the second satellite, the third payment to be made 365 days after the first payment date and the fourth payment to be made 365 days after the second payment date.

In the event of a satellite or launch failure, the Company will be required to pay Loral the full deferred amount for the affected satellite no later than 120 days after the date of the failure. If the Company should elect to put a satellite into ground storage, rather than having it shipped to the launch site, the full deferred amount for the affected satellite will become due within 60 days of such election.

As a condition to the deferred payments, the Company has agreed to provide Loral a security interest in the properties and assets of the Company and its subsidiaries, of substantially the same nature and quality, and of substantially equivalent value relative to the amount of the secured obligations, and on the same terms and covenants, as the Company has provided or may provide to any other party under any and all of its loan, credit and other similar agreements. There currently is no such security interest. The Indenture permits indebtedness under the Loral Satellite Contract to be secured on a pari passu basis with the Notes by a first priority security interest in the Pledged Stock.

After giving effect to the Offerings and the AEF Agreements, the Company expects it will require an additional \$176.9 million in financing through 1999. However, there can be no assurance that the Company's actual cash requirements will not increase. Potential sources of additional financing include the sale of debt or equity securities in the public or private markets. There can be no assurance that the Company will be able to obtain additional financing on favorable terms, or at all, or that it will be able to do so in a timely fashion. The AEF Agreements contain, the Indenture will contain and documents governing any indebtedness incurred in the future are expected to contain provisions limiting the ability of the Company to incur additional indebtedness. The issuance by the Company of additional equity securities could cause substantial dilution of the interest in the Company of purchasers of the shares of Common Stock offered hereby. If additional financing were not available on a timely basis, the Company would be required to delay satellite and/or launch vehicle construction in order to conserve cash to fund continued operations, which would cause delays in the commencement of operations and increased costs. See 'Risk Factors -- Need for Substantial Additional Funding.'

The amount and timing of the Company's actual cash requirements will depend upon numerous factors, including costs associated with the construction and deployment of its satellite system and the rate of growth of its business subsequent to commencing service, costs of financing and the possibility of unanticipated costs. Additional funds would be required in the event of delay, cost overruns, launch failure, launch services or satellite system change orders, or any shortfalls in estimated levels of operating cash flow, or to meet unanticipated expenses.

As a result of the issuance of the Notes and the Warrants and the expected incurrence of significant additional indebtedness required to meet its capital requirements, the Company will have substantial indebtedness. The Company's ability to meet all of its debt service obligations when due may require it to refinance its then outstanding indebtedness. No assurance can be given that the Company will be able to generate sufficient cash flow to service its indebtedness or be able to refinance indebtedness. The AEF Agreements contain, the Indenture will contain, and debt instruments governing any future indebtedness of the Company are expected to contain, restrictions on, among other things, the ability of the Company to incur additional indebtedness.

34

BUSINESS

This Prospectus contains certain forward-looking statements within the meaning of the federal securities laws. Actual results and the timing of certain events could differ materially from those projected in the forward-looking

statements due to a number of factors, including those set forth under 'Risk Factors' and elsewhere in this Prospectus. See 'Special Note Regarding Forward-Looking Statements.'

GENERAL

CD Radio Inc. was founded in 1990 to pioneer and commercialize a compact disc quality, multi-channel radio service broadcast directly from satellites to vehicles. In October 1997, the Company was granted one of two licenses from the FCC to build, launch and operate a national satellite radio broadcast system. The Company has begun construction of two satellites that it plans to launch into geosynchronous orbit to broadcast its radio service throughout the United States. The Company's service, which will be marketed under the brand name 'CD Radio,' is expected to consist of 30 channels of commercial-free, compact disc quality music programming and 20 channels of news, sports and talk programming. CD Radio will be broadcast over a frequency band, the 'S-band', that will augment traditional AM and FM radio bands. Under its expected FCC license, the Company has the exclusive use of a 12.5 megahertz portion of the S-band for this purpose. The Company currently expects to commence CD Radio broadcasts in late 1999 at a subscription price of \$10 per month.

The Company is positioning itself as an entertainment company and accordingly plans to design and originate programming on each of its 30 music channels. Each channel will be operated as a separate radio station, with a distinct format. Certain music channels will offer continuous music while others will have program hosts, depending on the type of music programming. CD Radio will offer a wide range of music categories, such as:

- Symphonic
- Chamber Music
- Opera
- Today's Country
- Traditional Country
- Contemporary Jazz
- Classic Jazz
- Blues
- Big Band/Swing
- Top of the Charts

- Classic Rock
- 50's Oldies
- 60's Oldies
- Folk Rock
- Latin Ballads
- Latin Rhythms
- Reggae
- Rap
- Dance
- Urban Contemporary

- Soft Rock
- Singers & Songs
- Beautiful Instrumentals
- Album Rock
- Alternative Rock
- New Age
- Broadway's Best
- Gospel
- Children's Entertainment
- World Beat

The Company's 50 music and non-music stations will be housed at the National Broadcast Studio. The National Broadcast Studio will contain the Company's music library, facilities for programming origination, programming personnel and program hosts, as well as facilities to uplink programming to the satellites, to activate or deactivate service to subscribers and to perform the tracking, telemetry and control of the orbiting satellites.

THE CD RADIO OPPORTUNITY

The Company believes that there is a significant market for music and other radio programming delivered through advanced radio technology. While television technology has advanced steadily -- from black and white to color, from broadcast to cable, and from ordinary to high-definition television -- the last major advance in radio technology was the introduction of FM broadcasts. CD Radio will provide a new generation of radio service, offering a wide variety of music formats available on demand, 'seamless' signal coverage throughout the United States and commercial-free, compact disc quality music programming. The Company's planned multiplicity of formats currently is not available to motorists in any market within the United States.

CD Radio is primarily a service for motorists. The Yankee Group, a market research organization, estimates that there will be approximately 198 million registered private motor vehicles in the United States by the end of 1999, when the Company expects to commence broadcasting. At present, approximately 89% of

CD Radio's broadcasts, with this number estimated to be approximately 182 million vehicles in 1999, and approximately 199 million in 2004. CD Radio will initially target a number of demographic groups among the drivers of these vehicles, including 110 million commuters, 34 million of whom spend between one and two hours commuting daily, three million truck drivers and three million owners of recreational vehicles, among other groups.

According to Arbitron, in 1996, despite the fact that almost all vehicles contain either a cassette or compact disc player, 87% of automobile commuters listened to the radio an average of 50 minutes a day while commuting. According to the Radio Advertising Bureau, each week radio reaches approximately 95% of all Americans over the age of 12, with the average listener spending more than three hours per weekday and more than five hours per weekend listening to the radio. More than 40% of all radio listening is done in cars. In addition, in 1996, approximately 79% of total radio listening was to FM stations, which primarily provides music programming, as compared with AM stations which devote a greater proportion of their programming to talk and news.

The Company believes that its ability to offer a wide variety of musical formats simultaneously throughout the United States will enable it to tap significant unmet consumer demand for specialized musical programming. The economics of the existing advertiser supported radio industry dictate that conventional radio stations generally program for the greatest potential audience. Even in the largest metropolitan areas, station formats are limited. Nearly half of all commercial radio stations in the United States offer one of only three formats: country, adult contemporary and news/talk, and the next three most prevalent formats account for another 30% of all stations. Although niche music categories such as classical, jazz, rap, gospel, oldies, soundtracks, new age, children's programming and others accounted for approximately 27% of sales of recorded music in 1996, such formats generally are unavailable on existing radio stations in many markets. Even in New York City, the nation's largest radio market, there are no radio stations devoted solely to such programming as opera, blues, chamber music, soundtracks, reggae, children's programming and many others. CD Radio's wide choice of formats is expected to appeal to a large number of currently underserved listeners.

In addition, the limited coverage area of conventional radio broadcasting means that listeners often travel beyond the range of any single station. Unlike conventional FM stations, which have an average range of only approximately 30 miles before reception fades, CD Radio's signal is designed to cover the entire continental United States enabling listeners almost always to remain within its broadcast range. The Company's satellite delivery system is designed to permit CD Radio to be received by motorists in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites or is within range of one of the Company's terrestrial repeating transmitters.

The ability to broadcast nationwide will also allow the Company to serve currently underserved radio markets. In the United States, there are more than 45 million people aged 12 and over living in areas with such limited radio station coverage that the areas are not monitored by Arbitron. Of these, the Company believes approximately 22 million people receive five or fewer FM stations, 1.6 million receive only one FM station and at least one million people receive no FM stations. This segment of the population also has a limited choice of radio music formats and is one of CD Radio's primary target markets.

The Company also believes that CD Radio will have a competitive advantage over conventional radio stations due to its music channels being commercial-free. In contrast, conventional radio stations interrupt their broadcasts with up to 18 minutes of commercials in every hour of music programming, and most stations also frequently interrupt programming with news, promotional announcements, public service announcements and miscellaneous information. The Company believes that consumers dislike frequent radio commercial interruptions and that 'station surfing' to avoid them is common.

PROGRESS TO DATE AND SIGNIFICANT DEVELOPMENT MILESTONES

The following chart sets forth the Company's past and projected development milestones. There can be no assurance that the Company will be able to meet any of its projections for 1998 or 1999, including completion of construction of its National Broadcast Studio, completion of its satellite launches, or commencement of its commercial operations in late 1999 as planned. See 'Risk Factors -- Possible Delays and Adverse Effect of Delay on Financing Requirements.'

<S>	<C>
1990:	CD Radio Inc. incorporated Proposed FCC create satellite radio service and filed license application
1991:	Conducted stationary service simulation Conducted nationwide focus groups
1992:	Satellite radio spectrum allocated at WARC-92 Conducted radio manufacturer discussions
1993:	Contracted with Loral for construction of its satellites Contracted with Arianespace for launch of two of its satellites Conducted additional nationwide focus groups
1994:	Completed an initial public offering of its Common Stock
1995:	Completed Loral satellite design Filed orbital slot registrations Completed development of its proprietary miniature satellite dish antenna
1996:	Designed the radio card receiver
1997:	Won auction for FCC license Received one of two FCC national satellite radio broadcasting licenses Completed a \$135 million private placement of 5% Preferred Stock Commenced construction of two satellites Completed receipt of satellite broadcast patents Arranged \$105 million of vendor financing with Arianespace Finance S.A. Recruited its key programming, marketing and financial management team Completed a strategic sale of \$25 million of Common Stock to Loral Space Executed radio manufacturer memoranda of understanding
1998:	Select radio card manufacturer Select non-music channel content providers Complete significant satellite construction milestones Begin terrestrial repeating transmitter build-out
1999:	Complete construction of National Broadcast Studio Begin commercial production of radio cards Complete satellite launches Test markets Begin commercial operations

THE CD RADIO SERVICE

CD Radio will offer motorists (i) a wide choice of finely focused music formats; (ii) nearly seamless signal coverage throughout the continental United States; (iii) commercial-free music programming; and (iv) plug and play convenience.

37

Wide Choice of Programming. Each of CD Radio's 30 music channels will have a distinctive format, such as opera, reggae, classic jazz and children's entertainment, intended to cater to specific subscriber tastes. In most markets, radio broadcasters target their programming to broad audience segments. Even in the largest metropolitan markets the variety of station formats generally is limited, and many of the Company's planned formats are unavailable.

'Seamless' Signal Coverage. CD Radio will be available throughout the continental United States, enabling listeners almost always to be within its broadcast range. The Company expects its nearly seamless signal will appeal to motorists who frequently travel long distances, including truck drivers and recreational vehicle owners, as well as commuters and others who outdrive the range of their FM signals. In addition, the Company expects its broadcasts will appeal to the 45 million consumers who live in areas that currently receive only a small number of FM stations.

Commercial-Free Music Programming. The Company will provide commercial-free music programming. The Company's market research indicates that a principal complaint of radio listeners concerning conventional broadcast radio is the frequency of commercials. Because CD Radio, unlike most commercial AM and FM stations, will be a subscription and not an advertiser-supported service, its music channels will not contain commercials.

Plug and Play Convenience. Consumers will be able to receive CD Radio broadcasts by acquiring a radio card and an easily attachable, silver dollar-sized satellite dish antenna. Listeners will not be required to replace their existing car radios and will be able to use the radio card by plugging it into their radio's cassette or compact disc slot. CD Radio listeners using a radio card will be able to push a button to switch between AM, FM and CD Radio. Radio cards will be portable and will be able to be moved from car to car. Radio card activation will be accomplished directly via satellite by calling the Company's customer service center at 888-CD-RADIO.

The Company intends to offer 30 channels of commercial-free, all-music programming and 20 additional channels of other formats that do not require compact disc quality audio, such as all-news, all-sports and all-talk

programming. Each music channel will have a distinctive format, intended to cater to specific subscriber tastes. The Company expects the initial subscription fee for CD Radio, which will entitle subscribers to receive all CD Radio channels, will be \$10 per month.

The Company intends to recruit program managers from the recording, broadcasting and entertainment industries to manage the development of daily programming for each CD Radio channel. In order to be accessible to these industries, the Company plans to locate its programming operations and the National Broadcast Studio in the New York metropolitan region. Program managers also will coordinate the Company's continuing market research to measure audience satisfaction, refine channel definitions and themes and select program hosts for those channels that have hosts.

Music programming will be selected from the Company's music library. The Company intends to create an extensive music library which will consist of a deep range of recorded music in each genre broadcast. In addition to updating its music library with new recordings as they are released, the Company will seek to acquire recordings that in certain cases are no longer commercially available.

The Company believes that CD Radio will provide an opportunity for the recording industry to expose and promote new releases and artists to targeted listener groups nationwide. The Company plans to solicit promotional copies of new recordings, and contemplates showcasing these releases as part of a service to be developed for record companies. The Company intends to work with the recording industry and performing artists to develop innovative programming formats.

In connection with its music programming, the Company will be required to negotiate and enter into royalty arrangements with performing rights societies, such as ASCAP, BMI and SESAC. These organizations collect royalties and distribute them to songwriters and music publishers. Copyright users negotiate a fee with these organizations based on a percentage of revenues. Broadcasters currently pay a combined total of approximately 3% of their revenues to the performing rights societies. The Company also will be required to negotiate similar arrangements, pursuant to the Digital Recordings Act, with the owners of the sound recordings. The determination of certain royalty arrangements with the owners of sound recordings under the Digital Recordings Act currently are subject to arbitration proceedings. The Company believes that it will be able to negotiate satisfactory royalty arrangements

38

with the above organizations and the owners of sound recordings, but there can be no assurance as to the terms of any such royalty arrangements ultimately negotiated or established by arbitration.

In addition to its music channels, the Company expects to offer 20 channels of news, sports and talk programming. The Company does not intend to produce the programming for these non-music channels. The Company believes, based on its discussions to date, that there is sufficient interest on the part of providers of news, sports and talk programming in CD Radio to permit the Company to offer a variety of non-music programming. News, talk and sports programming obtained from third party sources will include commercial advertising. To date, the Company has not reached any understandings or entered into any agreements with respect to the supply of such programming.

MARKETING STRATEGY

The Company plans to offer a high quality broadcast service with targeted music formats, nearly seamless signal coverage throughout the continental United States, commercial-free music programming and compact disc quality fidelity. The Company's marketing strategy for CD Radio has three interrelated components: (i) the strategy for creating consumer awareness of CD Radio, (ii) the strategy for generating subscriptions to CD Radio and (iii) the strategy for generating purchases of radio cards and S-band radios and their associated miniature satellite dish antennas.

CREATING CONSUMER AWARENESS

The Company believes that the introduction of CD Radio will have high news value, which it expects will result in significant national and local publicity prior to and during the initial launch of the service. In addition, the Company plans to engage in extensive marketing, advertising and promotional activities to create consumer awareness of CD Radio. This includes an ongoing major advertising campaign funded principally by the Company, together with expected significant manufacturer and retailer cooperative advertising. A major national umbrella campaign will utilize a full mix of media, including network and cable television, radio, print and billboard.

GENERATING SUBSCRIPTIONS TO CD RADIO

The Company also intends to focus its initial efforts on a number of demographic groups that it believes represent potential target markets for CD Radio, including commuters, niche music listeners, truck drivers, recreational vehicle owners, consumers in areas with sparse radio coverage and operators of rental car fleets. In addition, the Company intends to aggressively target early adopters of new technologies, who it believes are likely to have a high level of interest in CD Radio.

Commuters. Of the 110 million commuters, the Company has identified 34 million as highly addressable by virtue of their commute times averaging between one and two hours daily. To reach these commuters, the Company plans to purchase radio advertising spots on stations with frequent traffic reports, purchase outdoor billboard advertising on long commute roads and place inserts in gasoline credit card bills.

Niche Music Listeners. Niche music categories, such as classical, jazz, rap, gospel, soundtracks, oldies and children's programming, constitute approximately 27% of the market for recorded music sales. To reach niche music listeners, the Company intends to work with the recording industry to include print material about CD Radio inside niche music compact disc packaging, place print advertising in specialty music magazines targeted to niche music listeners and members of fan clubs, conduct direct mailings to specialized music mailing lists of record clubs and sponsor and advertise at certain music events.

Truck Drivers. According to the U.S. Department of Transportation, there are approximately three million professional truck drivers in the United States, of whom approximately 1.1 million are long-distance haulers. The Company intends to place sampling displays at truck stops and to advertise in publications and on internet sites which cater to truck drivers.

Recreational Vehicle Owners. There are approximately three million recreational vehicles in the United States. The Company plans to advertise in magazines targeted to recreational vehicle

39

enthusiasts, conduct direct mailings targeted to these individuals and place sampling displays at recreational vehicle dealerships.

Sparse Radio Zones. More than 45 million people aged 12 and over live in areas with such limited radio station coverage that the areas are not monitored by Arbitron. The Company believes that of these people, approximately 22 million people receive five or fewer FM stations, 1.6 million receive only one FM station and at least one million people receive no FM stations. To reach these consumers, the Company plans to utilize local newspaper advertisements during the Company's initial launch period and target direct mailings to music enthusiasts in these areas.

Rental Car Fleets. The Company intends to conduct a major promotional effort with car rental companies to provide CD Radio in the approximately 1.4 million rental cars in the United States. The Company has begun discussions with car rental companies in this regard.

SALES OF RADIO CARDS AND S-BAND RADIOS

Consumers will receive CD Radio through radio cards or S-band radios and associated miniature satellite dish antennas. Although the Company does not intend to manufacture or distribute radio cards, S-band radios or miniature satellite dish antennas, their availability will be critical to the Company because they are the only means by which to receive CD Radio. Accordingly, the Company has devised strategies to make radio cards and S-band radios together with their associated miniature satellite dish antennas widely available to consumers.

Sales of Radio Cards. The Company believes that the availability of radio cards will be critical to the Company's market penetration for a number of years following the introduction of CD Radio. The Company expects that radio cards will be sold at retail outlets and mass merchandisers that sell consumer electronics. The retail price of the radio card together with the miniature satellite dish currently is expected to be approximately \$200.

Sales of S-band Radios. Distribution of S-band radios is an important element in the Company's marketing strategy. In 1996, U.S. consumers spent approximately \$3 billion on autosound equipment for aftermarket installation in their vehicles, which the Company believes included approximately 4.6 million new AM/FM radios. The Company believes that this autosound equipment market is comprised largely of young, music oriented early adopters of new technology and that, in the course of purchasing a new car radio, some of these consumers would select one with built-in S-band capability. The Company expects S-band radios to be sold at retail outlets that sell consumer electronics, as well as at autosound specialty dealers. Like existing autosound equipment, S-band radios

will require installation by the retailer or a third party.

The Company's long term objective is to promote the adoption of S-band radios as standard equipment or a factory-installed option in every vehicle sold in the United States. The Company, however, expects sales of radio cards and S-band radios through the consumer electronics retail distribution system to be the primary distribution channel for receivers capable of receiving CD Radio for many years.

SUBSCRIPTION AND BILLING

The Company intends to contract out customer service and billing functions to a national teleservices company, whose functions will include the handling of orders from subscribers, establishing and maintaining customer accounts, inbound telemarketing, billing and collections.

Access to the Company's customer service center will be via the Company's toll-free number, 888-CD-RADIO, with all interaction with subscribers being conducted under the CD Radio name. Payment to the Company's selected teleservices company is expected to be based on transaction volumes, and the Company plans to charge subscribers a modest one-time activation fee to cover certain transaction costs. The Company will require payment for CD Radio with a national credit or debit card.

40

THE CD RADIO DELIVERY SYSTEM

The Company has designed the CD Radio delivery system to transmit an identical signal from two satellites placed in geosynchronous orbit. The two satellite system will permit CD Radio to provide 'seamless' signal coverage throughout the continental United States. This means that listeners will almost always be within the broadcast range of CD Radio, unlike current FM radio broadcasts, which have an average range of only approximately 30 miles. The CD Radio system is designed to provide clear reception in most areas despite variations in terrain, buildings and other obstructions. The system is designed to enable motorists to receive CD Radio in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites or is within range of one of the Company's terrestrial repeating transmitters.

The portion of the S-band located between 2320 MHz and 2345 MHz has been allocated by the FCC exclusively for national satellite radio broadcasts, and will augment traditional AM and FM radio bands. This portion of the spectrum was selected because there are virtually no other users of this frequency band in the United States, thus minimizing potential signal interference. In addition, this frequency band is relatively immune to weather related attenuation, which is not the case with higher frequencies.

The Company expects to use 12.5 MHz of bandwidth in the 7025.0-7075.0 MHz band (or some other suitable frequency) for uplink transmissions from the National Broadcast Studio to the Company's satellites. Downlink transmission from the satellites to subscribers' radio cards or S-band radios will use 12.5 MHz of bandwidth in the 2320-2332.5 MHz frequency band.

The CD Radio delivery system will consist of three principal components: (i) the satellites; (ii) the receivers; and (iii) the National Broadcast Studio.

THE SATELLITES

Satellite Design. The Company's satellites are of the Loral FS-1300 model series. This family of satellites has a total in-orbit operation time of 270 years, and to date more than 62 such satellites have been built or ordered, including 24 that are currently in production. The satellites are designed to have a useful life of approximately 15 years. To ensure the durability of its satellites, the Company has selected components and subsystems that have a demonstrated track record on operational FS-1300 satellites, such as N-STAR, INTELSAT VII and TELSTAR. In addition, a full series of ground tests will be performed on each of the Company's satellites prior to launch in order to detect assembly defects and avoid premature satellite failure.

The satellites will utilize a three-axis stabilized design. Each satellite will contain an active attitude and position control subsystem; a telemetry, command and ranging subsystem; a thermal control subsystem and an electrical power subsystem. Power will be supplied by silicon solar arrays and, during eclipses, by nickel-hydrogen batteries. Each satellite after deployment will be 27.2 meters long, 8.65 meters wide and 3.8 meters tall.

Simple Design ('Bent Pipe'). The Company's satellites will incorporate a repeater design which will act essentially as a 'bent pipe,' relaying received signals directly to the ground. The Company's satellites will not contain on-board processors or switches. All of the Company's processing operations will be on the ground where they are accessible for maintenance and continuing

technological upgrade without the need to launch replacement satellites.

Spread Spectrum (Code Division Multiplex). The Company's radio transmission system will utilize Code Division Multiplex ('CDM') and spread spectrum technology which permits a large number of program channels to utilize a single radio frequency band. The system, incorporating CDM and spread spectrum modulation, combined with multiple satellite coverage and terrestrial repeating transmitters, is designed to provide a high capacity, high quality service.

Signal Diversity. The Company believes that two satellites are the minimum number required to provide nearly seamless signal coverage throughout the continental United States. The Company plans to position its two satellites in complementary orbital locations so as to achieve efficient signal diversity and thereby mitigate service interruptions which can result from signal blockage and fading. The

41

Company currently expects that its two satellites will be placed in a geosynchronous orbit at equatorial crossings of 80[d] W and 110[d] W longitude. Each of the Company's satellites will broadcast the same signal. The Company's transmission design also incorporates the use of a memory reception buffer contained within radio cards and S-band radios, designed to work in conjunction with signal diversity. The Company has been granted patents on its satellite broadcasting system, which incorporate a multi-satellite design and memory reception features.

As with any wireless broadcast service, the Company expects to experience occasional 'dead zones' where the service from one satellite will be interrupted by nearby tall buildings, elevations in topography, tree clusters, highway overpasses and similar obstructions; however, in most such places the Company expects subscribers will continue to receive a signal from its other satellite. In certain areas with high concentrations of tall buildings, such as urban cores, or in tunnels, however, signals from both satellites will be blocked and reception will be adversely affected. In such urban areas, the Company plans to install terrestrial repeating transmitters to rebroadcast its satellite signals, improving the quality of reception. The FCC has not yet established rules governing such terrestrial repeaters, and the Company cannot predict the outcome of the FCC's current rule making on this subject. See 'Business -- Government Regulation.' The Company also will need to obtain the rights to use of roofs of certain structures where the repeaters will be installed. There can be no assurance that the Company can obtain such roof rights on acceptable terms or in appropriate locations for the operation of CD Radio.

Satellite Construction. The Company has entered into the Loral Satellite Contract, pursuant to which Loral is building three satellites, two of which the Company intends to launch and one of which it intends to keep in reserve as a spare. Loral has agreed to deliver the first satellite to the launch site in Kourou, French Guiana by August 11, 1999, to deliver the second satellite to the launch site five months after the delivery of the first satellite and to deliver the third satellite to a Company designated storage site within eleven months of delivery of the second satellite. Loral has also agreed to endeavor to accelerate delivery of the second satellite to October 1999 and of the third satellite to April 2000. There can be no assurance, however, that Loral will be able to meet such an accelerated schedule. Although the Loral Satellite Contract provides for certain late delivery payments, Loral will not be liable for indirect or consequential damages or lost revenues or profits resulting from late delivery or other defaults. Under the Loral Satellite Contract, the Company has an option to order, at any time prior to March 10, 1999, a fourth satellite identical to the first three on preset price and delivery terms.

Title and risk of loss for the first and second satellites are to pass to the Company at the time of launch. Title for the third satellite is to pass to the Company at the time of shipment of the satellite to the designated storage site. The satellites are warranted to be in accordance with the performance specifications in the Loral Satellite Contract and free from defects in materials and workmanship at the time of delivery. After delivery, no warranty coverage applies, unless a satellite is not launched, in which case the warranty extends two years from the date of delivery. In the event of any delay in the construction of the satellites that is caused by the Company, the Loral Satellite Contract provides that the terms of the contract will be equitably adjusted.

Following the launch of each satellite, Loral will conduct in-orbit performance verification. In the event that such testing shows that a satellite is not meeting the satellite performance specifications contained in the Loral Satellite Contract, Loral and the Company have agreed to negotiate an equitable reduction in the final payment to be made by the Company for the affected satellite.

Launch Services. The Company entered into the Arianespace Launch Contract for two satellite launches with Arianespace on July 22, 1997. The initial launch

period for the first launch extends from August 1, 1999 to January 31, 2000. The initial launch period for the second launch extends from October 1, 1999 to March 31, 2000. These initial launch periods will be reduced to three-month periods at least twelve months prior to the start of the respective initial launch periods. One-month launch slots will be selected for each of the launches at least eight months prior to the start of the respective shortened launch periods. Launch dates will be selected for each of the launches at least four months prior to the start of the respective launch periods. The Company is entitled to accelerate the second launch by shipping the satellite to the launch base and preparing the satellite for launch at the next available launch opportunity.

42

If the Company's satellites are not available for launch during the prescribed periods, the Company will arrange to launch the satellites on the first launch dates available after the satellites are completed. While the Company has been able to reschedule its reserved launch dates with Arianespace in the past, there can be no assurance that it will be able to do so in the future. If the Company postpones a launch for more than 12 months, or postpones a launch within 12 months of a scheduled launch, postponement fees may be charged under the terms of the Arianespace Launch Contract.

Satellite launches are subject to significant risks, including satellite destruction or damage during launch or failure to achieve proper orbital placement. Launch failure rates vary depending on the particular launch vehicle and contractor. Arianespace, one of the world's leading commercial satellite launch service companies, has advised the Company that as of November 13, 1997, 87 of 92 Arianespace launches (approximately 94.6%) have been completed successfully since May 1984. See 'Risk Factors -- Dependence upon Satellites,' 'Risk Factors -- Dependence upon Satellite and Launch Contractors' and 'Risk Factors -- Satellite Launch Risks.' However, the Ariane 5, the particular launch vehicle being planned for the launch of the Company's satellites, has had only two launches, one of which was a failure. There is no assurance that Arianespace's launches of the Company's satellites will be successful. If the third qualification flight of the Ariane 5 launch vehicle results in a failure, or if for any reason there have not been at least two successful Ariane 5 launches prior to each of Company's scheduled launches, or if Arianespace postpones one of Company's launches for more than six months due to a delay in the development of the Ariane 5 program, then, under the terms of the Arianespace Launch Contract, the Company has the right to require Arianespace to negotiate in good faith an amendment to the Arianespace Launch Contract to provide for launches using the Ariane 4 launch vehicle, with launch dates on the first available Ariane 4 launch opportunities after the scheduled launch dates, unless the Company agrees to earlier launch dates.

Assuming use of an Ariane 5 launch vehicle, if a Company satellite is lost or destroyed during launch, or if, due to an anomaly occurring during launch caused by the launch vehicle or a co-passenger satellite, a Company satellite loses more than 50% of its operational capacity, Arianespace has agreed to perform a replacement launch at no cost. If, under the same circumstances, the Company satellite loses more than 20% but not more than 50% of its operational capacity, Arianespace is required to pay Company an amount based on the percent of lost capacity. If the Company purchases launch insurance on the commercial market, these percentages will be amended to match those contained in the insurance policy. If, following launch, a satellite should fail for any reason, including reasons unrelated to the launch, within 27 months after launch, the Company is entitled to purchase at the then applicable price a replacement launch from Arianespace with a one-month launch slot that falls within ten months of the request for the replacement launch.

The Company will rely upon Arianespace for the timely launch of the satellites. Failure of Arianespace to launch the satellites in a timely manner could materially adversely affect the Company's business. The Arianespace Launch Contract entitles Arianespace to postpone either of Company's launches for a variety of reasons, including technical problems, lack of co-passenger(s) for the Company's launch, the need to conduct a replacement launch for another customer, a launch of a scientific satellite whose mission may be degraded by delay, or a launch of another customer's satellite whose launch was postponed. Although the Arianespace Launch Contract provides liquidated damages for delay, depending on the length of the delay, and entitles the Company to terminate the agreement for delay exceeding 12 months, there can be no assurance that these remedies will adequately mitigate any damage to the Company's business caused by launch delays.

Under the terms of the Arianespace Launch Contract, the Company and Arianespace each agree to bear any damage to property or bodily injury that it or its associates may sustain caused by a launch or satellite failure. Arianespace is required to take out launch and in-orbit insurance policies to protect itself and the Company against liability for losses that third parties

may sustain caused by a launch vehicle or any satellite on the launch vehicle, and to indemnify the Company against any such losses that exceed the limits of the insurance policy.

Arianespace has assisted the Company in securing financing for the launch service prices through its subsidiary, AEF. The Company and AEF have entered into the AEF Agreements, which govern the provisions of such financing. See 'Description of Certain Indebtedness -- Vendor Financing.'

43

Risk Management and Insurance. Two custom-designed, fully dedicated satellites are required to broadcast CD Radio. The Company has selected a launch service supplier that has achieved the most reliable launch record in its class in the industry. Each of the Company's two operational satellites will be launched separately. The Arianespace Launch Contract contains a provision entitling the Company to a replacement launch in the event of a launch failure caused by the Arianespace launch vehicle. In such event, the Company would utilize the spare satellite that will be constructed. Thus, the Company does not intend to insure for this contingency. The Company intends to insure against other contingencies, including a failure during launch caused by factors other than the launch vehicle and/or a failure involving the second satellite in a situation in which the spare satellite has been used to replace the first satellite. If the Company is required to launch the spare satellite due to failure of the launch of one of the operational satellites, its operational timetable would be delayed for approximately six months or more. The launch or in-orbit failure of two satellites would require the Company to arrange for additional satellites to be built and could delay the commencement or continuation of the Company's operations for three years or more. See 'Risk Factors -- Dependence upon Satellites,' 'Risk Factors -- Dependence upon Satellite and Launch Contractors' and 'Risk Factors -- Satellite Launch Risks.'

Once properly deployed and operational, the historical risk of premature total satellite failure has been less than 1% for U.S. geosynchronous commercial communication satellites. Insurance against in-orbit failure is currently available and typically is purchased after the satellite is tested in orbit and prior to the expiration of launch insurance. In recent years, annual premiums have ranged from 1.3% to 2.5% of coverage. After the Company has launched the satellites and begun to generate revenues, the Company will evaluate the need for business interruption insurance.

Satellites are designed to minimize the adverse effects of transmission component failure through the incorporation of redundant components which activate automatically or by ground command upon failure. If multiple component failures occur as the satellite ages, and the supply of redundant components is exhausted, the satellite generally will continue to operate, but at reduced capacity. In that event, signal quality may be preserved by reducing the number of channels broadcast until a replacement satellite can be launched. Alternatively, the number of broadcast channels may be preserved by reducing the signal quality until a replacement satellite can be launched.

THE RECEIVERS

Subscribers to CD Radio will not need to replace their existing AM/FM car radios. Instead, they will be able to receive CD Radio in their vehicles using a radio card that has been designed to plug easily into the cassette or compact disc slot of their existing radio. Customers also will be able to receive CD Radio using an S-band radio. CD Radio reception with either a radio card or an S-band radio will be via a miniature silver dollar-sized satellite dish antenna mounted on a small base housing a wireless transmitter that will relay the CD Radio signal to the vehicle's radio card or S-band radio. Neither the radio cards, S-band radios nor the miniature satellite dish antennas currently are available and the Company is unaware of any manufacturer currently developing such products.

The Company anticipates that radio cards will be easy to install because they will require no wiring or other assembly and will be installed simply by inserting the card into the radio's cassette or compact disc slot. Upon insertion of the card into the radio, listeners will be able to switch between AM, FM and CD Radio. The radio card can be removed by pushing the radio's 'eject' button. Radio cards are portable and will be able to be moved from car to car, if desired. S-band radios will be capable of receiving AM, FM and S-band radio transmissions. The Company anticipates that S-band radios will be similar to conventional AM/FM radios in size and appearance. Like existing conventional radios, a number of these radios may also incorporate cassette or compact disc players.

In addition to a radio card or S-band radio, a vehicle must be equipped with a miniature satellite dish antenna in order to receive CD Radio. To satisfy this requirement, the Company has designed a miniature satellite dish antenna. The battery powered satellite dish antenna is approximately the size and shape of a silver dollar, measuring 2 in diameter and 1/8 thick. The base of the

satellite dish antenna will have an adhesive backing, so that consumers will be able to easily attach the satellite dish antenna to a car's rear window. Miniature satellite dish antennas will also be sold separately, so that

44

consumers will be able to receive CD Radio in a vehicle that has a satellite dish antenna attached to it simply by moving a radio card. The radio card, the S-band radio and the satellite dish antenna all use proprietary technology developed by the Company.

The Company's miniature satellite dish antenna design is substantially 'non-directional,' meaning it does not need to be pointed directly at a satellite in order to receive CD Radio broadcasts. All that is required is that the satellite dish antenna be positioned upward on an unobstructed line-of-sight with one of the Company's satellites or be within range of a terrestrial repeating transmitter. The satellite dish antenna will be mounted on a small base housing a solar recharging battery and wireless transmitter that will relay the CD Radio signal to a vehicle's radio card or S-band radio. The CD Radio system is designed to permit CD Radio to be received by motorists in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites. In certain areas with high concentrations of tall buildings, such as urban cores, or in tunnels, signals from both satellites will be blocked and reception will be adversely affected. In such cases, the Company plans to install terrestrial repeating transmitters to broadcast CD Radio.

A radio card or S-band radio tuned to CD Radio will have a visual display that will indicate the channel and format selected, as well as the title, recording artist and album title of the song being played. In order to reduce fraud, each radio card and S-band radio will contain a security circuit with an electronically encoded identification number. Upon verification of subscriber billing information, the Company will transmit a digital signal to activate the radio's S-band operation. This feature will help the Company to protect against piracy of the CD Radio signal. Through this feature, the Company can directly via satellite discontinue CD Radio and deactivate radio cards or S-band radios of subscribers who are delinquent in paying the monthly subscription fee.

The Company expects radio cards, S-band radios and miniature satellite dish antennas to be sold through a variety of retail outlets, including consumer electronics, car audio, department and music stores. The Company currently expects that the radio card together with the satellite dish antenna can be sold at a retail price of approximately \$200. Radio card or S-band activation will be accomplished directly via satellite by calling the Company's customer service center at 888-CD-RADIO. The Company currently expects to begin offering CD Radio in late 1999 at an initial subscription price of \$10 per month.

The Company believes that, when manufactured in quantity, S-band radios will be incrementally more expensive than today's car radios, while radio cards, which will have no installation costs if the customer has a radio with a cassette or compact disc slot, will be substantially less expensive. The Company expects that the satellite dish antenna will be substantially less expensive than the radio card for consumers wishing to purchase additional dish antennas separately. The Company believes that the availability and pricing of plug and play radio cards will be of prime importance to the Company's market penetration for a number of years.

Neither the radio cards, S-band radios nor miniature satellite dish antennas currently are available, and the Company is unaware of any manufacturer currently developing such products. The Company has entered into non-binding memoranda of understanding with two major consumer electronics manufacturers, and has commenced discussions with several other such manufacturers, regarding the manufacture of radio cards, S-band radios and miniature satellite dish antennas for retail sale in the United States. The Company currently intends to select one manufacturer to manufacture radio cards, S-band radios and miniature satellite dish antennas for retail sale in the United States on an exclusive basis for the first year of CD Radio broadcasts. There can be no assurance that these discussions will result in a binding commitment on the part of any manufacturer to produce radio cards, S-band radios and miniature satellite dish antennas in a timely manner so as to permit the widespread introduction of CD Radio in accordance with the Company's business plan or that sufficient quantities of these will be available to meet anticipated consumer demand. Failure to have at least one manufacturer develop and widely market radio cards and the associated miniature satellite dish antennas, and to a lesser extent S-band radios, at affordable prices, or to develop and widely market such products upon the launch of CD Radio, would have a material adverse effect on the Company's business. In addition, the IB Order conditions the Company's license on certification by the Company that its final receiver design is interoperable with respect to the final receiver design of the other licensee, which has proposed to use a significantly different transmission technology from that of the Company. The Company believes that it

45

can design an interoperable receiver, but there can be no assurance that this effort will be successful or result in a commercially feasible receiver.

THE NATIONAL BROADCAST STUDIO

The Company plans to originate its 50 channels of programming from its National Broadcast Studio, to be located in the New York metropolitan region. The National Broadcast Studio will house the Company's music library, facilities for programming origination, programming personnel and program hosts, as well as facilities to uplink programming to the satellites, to activate or deactivate service to subscribers and to perform the tracking, telemetry and control of the orbiting satellites.

The Company's music library will be located at the National Broadcast Studio. The Company intends to create an extensive music library which will consist of a deep range of recorded music. In addition to updating its music library with new recordings as they are released, the Company will seek to acquire recordings that in certain cases are no longer commercially available.

Programming will be originated at the National Broadcast Studio and transmitted to the Company's two satellites for broadcast to CD Radio subscribers. The Company expects that its broadcast transmissions will be uplinked to its satellites at frequencies in the 7025.0-7075.0 MHz band. The satellites will receive and convert the signal to the 2320.0-2332.5 MHz band. The satellites then will broadcast the signal to the United States, at a power sufficient to enable its receipt directly by the miniature satellite dish antennas to be used by subscribers.

Service-related commands also will be relayed from the National Broadcast Studio to the Company's satellites for retransmission to subscribers' radio cards and S-band radios. These service-related commands include those required to (i) initiate and suspend subscriber service, (ii) change the encryption parameters in radio cards and S-band radios to reduce piracy of CD Radio and (iii) activate radio card and S-band radio displays to show program-related information.

Tracking, telemetry and control operations for the Company's orbiting satellites also will be performed from the National Broadcast Studio. These activities include controlling the routine station keeping, which involves twice-monthly satellite orbital adjustments and the continuous monitoring of the satellites.

The Company expects that the National Broadcast Studio, which will include its executive offices, will be approximately 30,000 square feet in size. The Company currently is searching for appropriate space to lease and has commenced development of plans for its facility with a broadcast studio design firm.

DEMONSTRATIONS OF THE CD RADIO SYSTEM

In support of the Company's application for the FCC License, the Company conducted a demonstration of its proposed radio service from November 1993 through November 1994. The demonstration involved the transmission of S-band signals to a prototype S-band radio and miniature satellite dish antenna installed in a car to simulate certain transmission techniques the Company intends to employ. Because there currently are no commercial satellites in orbit capable of transmitting S-band frequencies to the United States, the Company constructed a terrestrial simulation of its planned system. For this purpose, the Company selected a test range covering several kilometers near Washington, D.C. which included areas shadowed by buildings, trees and overpasses. The Company placed S-band transmitters on the rooftops of a number of tall buildings in such a way as to simulate the signal power and angle of arrival of satellite transmissions to be used for its proposed service. The Company also modified the standard factory installed sound system of an automobile to create a radio receiving AM, FM and S-band, and integrated the Company's satellite dish antenna into the car roof. The demonstrations included the reception of 30 channels of compact disc quality stereo music by the prototype radio while the car was driven throughout the range. Prior to testing with orbiting satellites, miniature satellite dish antennas and radio cards or S-band radios suitable for commercial production, there can be no assurance that the CD Radio system will function as intended. See 'Risk Factors -- Reliance on Unproven Technology.'

COMPETITION

The Company expects to face competition from two principal sources: (i) conventional AM/FM radio broadcasting, including, when available, terrestrial digital radio broadcasting; and (ii) AMRC, the other holder of an FCC License.

The AM/FM radio broadcasting industry is very competitive. Radio stations compete for listeners and advertising revenues directly with other radio stations within their markets on the basis of a variety of factors, including program content, on-air talent, transmitter power, assigned frequency, audience characteristics, local program acceptance and the number and characteristics of other radio stations in the market. Many of the Company's radio broadcasting competitors have substantially greater financial, management and technical resources than the Company.

Unlike the Company, the radio industry has a well established market for its services and generally offers 'free' broadcast reception paid for by commercial advertising rather than by a subscription fee. In addition, certain AM and FM stations, such as National Public Radio, offer programming without commercial interruption. Many radio stations also offer information programming of a local nature, such as local news or traffic reports, which the Company will be unable to offer. CD Radio will compete with conventional radio stations on the basis of its targeted programming formats, nearly seamless signal coverage, freedom from advertising and compact disc quality sound, features which are largely unavailable on conventional broadcast radio.

The Company believes that cassettes and compact discs generally are used in automobiles as supplements to radio rather than as substitutes, and that these media are used primarily as backup when radio reception is unavailable or unsatisfactory, or when desired programming is unavailable or unsatisfactory. Cassettes and compact discs lack the convenience of radio, as well as the spontaneity and freshness that characterize radio programming. According to a 1996 market study, although almost all vehicles contain either a cassette or compact disc player, 87% of automobile commuters listened to the radio an average of 50 minutes a day while commuting. Accordingly, the Company does not view its service as directly competitive with these media.

Currently, radio stations broadcast by means of analog signals, as opposed to digital transmission. The Company believes, however, that prior to the commencement of CD Radio, terrestrial broadcasters may be able to place digital audio broadcasts into the bandwidth occupied by current AM and FM stations and simultaneously transmit both analog and digital signals on the AM and FM bands. The limited bandwidth assigned to AM stations will result in lower quality digital signals than can be broadcast by FM stations. As a result, the Company expects that the use of this technology will permit digital AM sound quality to approach monaural FM sound quality and permit digital FM broadcasts to approach compact disc sound quality. In order to receive these digital AM/FM broadcasts, listeners will need to purchase new digital radios which currently are not commercially available. While the development of digital broadcasting would eliminate one of the advantages of CD Radio over FM radio, the Company does not believe it would affect broadcasters' ability to address the other advantages of CD Radio. In addition, the Company views the growth of terrestrial digital broadcasting as a positive force that would be likely to encourage radio replacement and thereby facilitate the introduction of S-band radios.

Although certain existing satellite operators currently provide music programming to customers at fixed locations, these operators are incapable of providing CD Radio type service to vehicles as a result of some or all of the following reasons: (i) these operators do not broadcast on radio frequencies suitable for reception in a mobile environment; (ii) CD Radio type service requires fully dedicated satellites; (iii) CD Radio type service requires a custom satellite system design and (iv) CD Radio type service requires regulatory approvals, which existing satellite operators do not have.

AMRC, a subsidiary of AMSC, is the other holder of an FCC License. AMRC, in which WorldSpace, Inc. (a company that plans to provide satellite radio service outside of the United States) has a 20% interest, and AMSC, which is owned in part by the Hughes Electronics Corporation subsidiary of General Motors Corporation, have financial, management and technical resources that greatly exceed those of the Company. In addition, the FCC could grant new licenses which would enable further competition to broadcast satellite radio. Finally, there are many portions of the electromagnetic spectrum that are currently licensed for other uses and certain other portions for which licenses have been granted by the FCC without restriction as to use, and there can be no assurance that

47

these portions of the spectrum could not be utilized for satellite radio broadcasting in the future. Although any such licensees would face cost and competition barriers, there can be no assurance that there will not be an increase in the number of competitors in the satellite radio industry. See 'Risk Factors -- Competition.'

TECHNOLOGY AND PATENTS

The Company has been granted certain U.S. patents (U.S. Patent Nos. 5,278,863; 5,319,673; 5,485,485; 5,592,471) on various features of satellite

radio technology. There can be no assurance, however, that any U.S. patent issued to the Company will cover the actual commercialized technology of the Company or will not be circumvented or infringed by others, or that if challenged would be held to be valid. The Company has filed patent applications covering CD Radio system technology in Argentina, Australia, Brazil, Canada, China, France, Germany, India, Italy, Japan, South Korea, Mexico, the Netherlands, Spain, Switzerland and the United Kingdom, and has been granted patents in a number of these countries. There can be no assurance that additional foreign patents will be awarded to the Company or, if any such patents are granted, that the laws of foreign countries where the Company receives patents will protect the Company's proprietary rights to its technology to the same extent as the laws of the United States. Although the Company believes that obtaining patent protection may provide benefits to the Company, the Company does not believe that its business is dependent on obtaining patent protection or successfully defending any such patents that may be obtained against infringement by others.

Certain of the Company's know-how and technology are not the subject of U.S. patents. To protect its rights, the Company requires certain employees, consultants, advisors and collaborators to enter into confidentiality agreements. There can be no assurance, however, that these agreements will provide meaningful protection for the Company's trade secrets, know-how or other proprietary information in the event of any unauthorized use or disclosure. In addition, the Company's business may be adversely affected by competitors who independently develop competing technologies.

The Company's proprietary technology was developed by Robert D. Briskman, the Company's co-founder, and was assigned to the Company. The Company believes that Mr. Briskman independently developed the technology covered by the Company's issued patents and that it does not violate the proprietary rights of any person. There can be no assurance, however, that third parties will not bring suit against the Company for patent infringement or for declaratory judgment to have any patents which may be issued to the Company declared invalid.

If a dispute arises concerning the Company's technology, litigation might be necessary to enforce the Company's patents, to protect the Company's trade secrets or know-how or litigation may occur to determine the scope of the proprietary rights of others. Any such litigation could result in substantial cost to, and diversion of effort by, the Company, and adverse findings in any proceeding could subject the Company to significant liabilities to third parties, require the Company to seek licenses from third parties or otherwise adversely affect the Company's ability to successfully develop and market CD Radio.

GOVERNMENT REGULATION

COMMUNICATIONS LAWS

As an operator of a privately owned satellite system, the Company is subject to the regulatory authority of the FCC under the Communications Act. The FCC is the government agency with primary authority in the United States over satellite radio communications. The Company is currently subject to regulation by the FCC principally with respect to (i) the licensing of its satellite system; (ii) preventing interference with or to other users of radio frequencies; and (iii) compliance with rules that the FCC has established specifically for United States satellites and rules that the FCC has established for providing satellite radio service.

On May 18, 1990, the Company proposed that the FCC establish a satellite radio service and applied for an FCC License. On March 3, 1997, the FCC adopted rules for the national satellite radio broadcast service (the 'FCC Licensing Rules'). Pursuant to the FCC Licensing Rules, an auction was held among the applicants on April 1 and 2, 1997. The Company was a winning bidder for one of the two FCC Licenses with a bid of \$83 million. AMRC was the other winning bidder for an FCC License with a bid of \$89 million. After payment of the full amount by the Company, the FCC's International

Bureau issued the FCC License to the Company on October 10, 1997. Although the FCC License is effective immediately; however, for a period of 30 days following the grant of the FCC License, those parties that had filed comments or petitions to deny in connection with the Company's application for an FCC License could petition the International Bureau to reconsider its decision to grant the FCC License to the Company or request review of the decision by the full FCC. An application for review by the full Commission was filed by one of the low-bidding applicants in the auction. This petition requests, among other things, that the Commission adopt restrictions on foreign ownership, which were not applied in the IB Order, and, on the basis of the Company's ownership, overrule the IB Order. Although the Company believes the FCC will uphold the IB

Order, the Company cannot predict the ultimate outcome of any proceedings relating to this petition or any other proceeding that may be filed. If this petition is denied, the complaining party may file an appeal with the U.S. Court of Appeals which must find that the decision of the FCC was not supported by substantial evidence, or was arbitrary, capricious or unlawful in order to overturn the grant of the Company's FCC License.

Pursuant to the FCC Licensing Rules, the Company is required to meet certain progress milestones. Licensees are required to begin satellite construction within one year of the grant of the FCC License; to launch and begin operating their first satellites within four years; and to begin operating their entire system within six years. The IB Order states that failure to meet those milestones will render the FCC License null and void. On May 6, 1997, the Company notified the FCC that it had begun construction on the first of its satellites. On March 27, 1997, a third party requested reconsideration of the FCC Licensing Rules, seeking, among other things, that the time period allotted for these milestones be shortened. The Company cannot predict the outcome of this petition.

The term of the FCC License for each satellite is eight years, commencing from the time each satellite is declared operational after having been inserted into orbit. Upon the expiration of the term with respect to each satellite, the Company will be required to apply for a renewal of the relevant FCC License. Although the Company anticipates that, absent significant misconduct on the part of the Company, the FCC Licenses will be renewed in due course to permit operation of the satellites for their useful lives, and that a license would be granted for any replacement satellites, there can be no assurance of such renewal or grant.

Satellite orbit locations are registered internationally for each country. International regulations at present allocate the S-Band for satellite broadcasting only in the United States and India. Mexico has proposed in a currently on-going World Radiotelecommunications Conference that the S-Band also be allocated for satellite broadcasting in Mexico. The Company cannot predict the outcome of this action. The Company does not anticipate difficulty in obtaining international registration or renewing or extending such registrations. There can be no assurance, however, that such registrations will be obtained.

The spectrum allocated for satellite radio is used in Canada and Mexico for terrestrial microwave links, mobile telemetry and other purposes. The United States government must coordinate the United States' use of this spectrum with the Canadian and Mexican governments before any United States satellite may become operational. The Company has performed analyses which show that its proposed use will not cause undue interference to most Canadian stations and can be coordinated with others by various techniques. The FCC Licensing Rules require that the licensees successfully complete detailed frequency coordination with existing operations in Canada and Mexico, and the IB Order conditions the FCC License on such coordination. There can be no assurance that the licensees will be able to coordinate the use of this spectrum with Canadian or Mexican operators or will be able to do so in a timely manner.

In order to operate its satellites, the Company also will have to obtain a license from the FCC to operate its uplink facility. Normally, such approval is sought after issuance of the FCC License. Although there can be no assurances that such licenses will be granted, the Company does not expect difficulties in obtaining a feeder link frequency and ground station approval in the ordinary course.

In the future, any assignments or transfers of control of the FCC License must be approved by the FCC. There can be no assurance that the FCC would approve any such transfer or assignment.

The CD Radio system is designed to permit CD Radio to be received by motorists in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites. In certain areas with high concentrations of tall buildings, such as urban cores, or in tunnels, signals from

both satellites will be blocked and reception will be adversely affected. In such cases, the Company plans to install terrestrial repeating transmitters to broadcast CD Radio. The FCC has not yet established rules governing the application procedure for obtaining authorizations to construct and operate terrestrial repeating transmitters. A rulemaking on the subject was initiated by the FCC on March 3, 1997. The deadline for the public to file comments was June 13, 1997 and the deadline for filing reply comments was June 27, 1997. Several comments were received by the FCC that sought to cause the FCC to consider

placing restrictions on the Company's ability to deploy its terrestrial repeating transmitters. However, the Company believes that the FCC will neither prohibit it from deploying such transmitters nor place unreasonable requirements upon such deployment.

The Communications Act prohibits the issuance of a license to a foreign government or a representative thereof, and contains limitations on the ownership of common carrier, broadcast and certain other radio licenses by non-U.S. citizens. Pursuant to the FCC Licensing Rules, the Company is regulated as a private carrier. The IB Order determined that, as a private carrier, the Company is not subject to the current provisions of the Communications Act restricting ownership in the Company by non-U.S. private citizens or organizations. The Executive Branch of the U.S. government has expressed interest in changing this policy, which could lead to restrictions on foreign ownership of the Company's shares in the future. The IB Order stated that its finding that the Company is not subject to the foreign ownership restrictions of the Communications Act is subject to being revisited in a future proceeding. The pending application for review of the IB Order brings the question of foreign ownership restrictions before the full FCC. As a private carrier, the Company is free to set its own prices and serve customers according to its own business judgment, without economic regulation.

The other holder of an FCC License has proposed to use a significantly different transmission technology from that of the Company. The IB Order conditions the Company's license on certification by the Company that its final receiver design is interoperable with respect to the final receiver design of the other licensee. The Company believes that it can design an interoperable receiver, but there can be no assurance that this effort will be successful or result in a commercially feasible receiver.

The foregoing discussion reflects the application of current communications law, FCC regulations and international agreements to the Company's proposed service in the United States. Changes in law, regulations or international agreements relating to communications policy generally or to matters affecting specifically the services proposed by the Company could adversely affect the Company's ability to retain the FCC License and obtain or retain other approvals required to provide CD Radio or the manner in which the Company's proposed service would be regulated. Further, actions of the FCC are subject to judicial review and there can be no assurance that if challenged, such actions would be upheld.

OTHER REGULATORY MATTERS

The Company's business operations as currently contemplated may require a variety of permits, licenses and authorizations from governmental authorities other than the FCC, but the Company has not identified any such permit, license or authorization that it believes could not be obtained in the ordinary course of business.

PERSONNEL

As of October 1, 1997, the Company had 11 employees, of whom three were involved in technology development, three in business development and five in administration. In addition, the Company relies upon a number of consultants and other advisors. By commencement of operations, the Company expects to have approximately 100 employees. The extent and timing of the increase in staffing will depend on the availability of qualified personnel and other developments in the Company's business. None of the Company's employees is represented by a labor union, and the Company believes that its relationship with its employees is good.

PROPERTY

The Company's executive offices are located at Sixth Floor, 1001 22nd Street, N.W., Washington, D.C. 20037, and are leased pursuant to a lease agreement that will expire on October 31, 1998.

LEGAL PROCEEDINGS

The Company is not a party to any material litigation.

MANAGEMENT

DIRECTORS AND EXECUTIVE OFFICERS

The following table sets forth information concerning the directors, executive officers and certain key employees of the Company.

<TABLE>
<CAPTION>

NAME	AGE	POSITION(S) WITH COMPANY
David Margolese.....	40	Chairman, Chief Executive Officer and Director
Robert D. Briskman.....	65	Executive Vice President, Engineering and Operations and Director
Andrew J. Greenebaum.....	35	Executive Vice President and Chief Financial Officer
Keno V. Thomas.....	39	Executive Vice President, Marketing
Joseph S. Capobianco.....	48	Executive Vice President, Content
Paul Sharma.....	49	Executive Director, Space Segment
Brian Stockwell.....	61	Executive Director, Launch Services
Lawrence F. Gilberti(1)(2).....	47	Director and Secretary
Peter K. Pitsch(1).....	45	Director
Jack Z. Rubinstein(1).....	48	Director
Ralph V. Whitworth(1)(2).....	41	Director

</TABLE>

(1) Member of the Audit Committee.

(2) Member of the Compensation Committee.

All directors hold office until the next annual meeting of stockholders and the election and qualification of their successors. Officers are elected by and serve at the discretion of the Board of Directors.

David Margolese. Mr. Margolese was elected Chief Executive Officer of the Company in November 1992 and Chairman in August 1993 and has served as a director since August 1991. In 1991, Mr. Margolese founded a consortium with AT&T Corp. and Hutchison Telecommunications Ltd., a subsidiary of Hutchison Whampoa Limited, a diversified conglomerate based in Hong Kong, to bid for Israel's national cellular telephone license and served as Chairman of this consortium until June 1993. From 1987 until August 1991, Mr. Margolese was a private investor. In 1982, Mr. Margolese co-founded Cantel Inc., Canada's national cellular telephone company, and served as Vice President, RCC Operations, until 1984. In 1980, Mr. Margolese co-founded Canadian Telecom Inc., a radio paging company, and served as that company's President until its sale in 1987.

Robert D. Briskman. Mr. Briskman has served as Executive Vice President, Engineering and Operations and as a director of the Company since October 1991 and as President of Satellite CD Radio, Inc., a subsidiary of the Company, since September 1994. In addition, Mr. Briskman served as Chief Executive Officer of the Company from April to November 1992. From March 1991 to June 1992, Mr. Briskman was President of Telecommunications Engineering Consultants, which provided engineering and consulting services to the Company. From March 1986 to March 1991, Mr. Briskman was Senior Vice President, Engineering and Operations at Geostar Corporation, a satellite company, responsible for the development, design, implementation and operation of a nationwide satellite message communication service. Prior to 1986, Mr. Briskman held senior management positions at Communications Satellite Corporation ('COMSAT'), a satellite operator, where he was employed for over 20 years. Prior to joining COMSAT, Mr. Briskman was a communications specialist with IBM and the National Aeronautics and Space Administration. Mr. Briskman holds a bachelor's degree in engineering from Princeton and a master's degree in electrical engineering from the University of Maryland. He has published over 50 technical papers, holds a number of U.S. patents, and is a Fellow of the Institute of Electrical and Electronics Engineers and the American Institute of Aeronautics and Astronautics.

Andrew J. Greenebaum. Mr. Greenebaum has served as Executive Vice President and Chief Financial Officer of the Company since August 1997. From August 1989 to August 1997, he held a variety of senior management positions with The Walt Disney Company. From March 1996 to August

1997, Mr. Greenebaum was Vice President, Corporate Finance in charge of corporate and project finance. From May 1995 to March 1996, he was Corporate Strategic Planning Director, Corporate Development. From October 1992 to May 1995, he was Director, Corporate Finance and from April 1991 to October 1992, he was Manager, Corporate Finance. From August 1989 to April 1991, he was a Senior Treasury Analyst, Foreign Exchange. From October 1984 to June 1987, Mr. Greenebaum was a financial analyst with L.F. Rothschild & Co., Inc., an investment bank.

Keno V. Thomas. Mr. Thomas has served as Executive Vice President,

Marketing of the Company since April 1997. From July 1995 to April 1997, he was an independent management consultant to the media and entertainment industry. From January 1994 to July 1995, Mr. Thomas was Executive Vice President, Marketing at DMX Inc., a cable radio company. From February 1992 to January 1994, he served as Vice President of Programming at DIRECTV, a satellite television company. From December 1986 to February 1992, he held senior management positions, including Vice President, International at ESPN Enterprises, Inc., a cable television sports network. From May 1982 to December 1986, he held senior management positions, including Vice President, Marketing at Times Mirror Cable, an operator of cable television systems and a subsidiary of the Times Mirror Company.

Joseph S. Capobianco. Mr. Capobianco has served as Executive Vice President, Content of the Company since April 1997. From 1981 to April 1997, he was an independent consultant providing programming, production, marketing and strategic planning consulting services to media and entertainment companies, including Home Box Office, a cable television service and a subsidiary of Time Warner Entertainment Company, L.P., and the ABC Radio Networks. From May 1990 to February 1995, he served as Vice President of Programming at Music Choice, which operates a 40-channel music service available to subscribers to DIRECTV, and is partially owned by Warner Music Group Inc., Sony Music Entertainment Inc. and EMI.

Paul Sharma. Mr. Sharma has served as Executive Director, Space Segment of the Company since April 1997. From November 1988 to April 1997, he was an independent consultant providing project management services for numerous major satellite programs worldwide. From 1982 to 1988, he served as Deputy Projects Director for the Direct Broadcast Satellite program at COMSAT, a satellite operator.

Brian Stockwell. Mr. Stockwell has served as Executive Director, Launch Services of the Company since April 1997. He has provided management consulting services to the space industry since 1992. From June 1981 to January 1992, he served as President of Willis Corroon Inspace, an aerospace insurance company. From January 1979 to May 1981, he was Deputy Head of the Ariane Launch Vehicle Program for the European Space Agency. Prior to that, he was Communications Satellite Systems Manager with the European Space Agency from September 1969.

Lawrence F. Gilberti. Mr. Gilberti was elected Secretary of the Company in November 1992 and has served as a director since September 1993. Since December 1992, he has been the Secretary and sole director of, and from December 1992 to September 1994 was the President of, Satellite CD Radio, Inc. Mr. Gilberti has been a partner in the law firm of Fischbein Badillo Wagner Harding since August 1994, and has provided legal services to the Company since 1992. From 1987 to August 1994, Mr. Gilberti was an attorney with the law firm of Goodman Phillips & Vineberg.

Peter K. Pitsch. Mr. Pitsch became a director of the Company in January 1995. Since September 1989, Mr. Pitsch has been the principal of Pitsch Communications, a telecommunications law and economic consulting firm that has rendered legal services to the Company since 1991. From April 1987 to August 1989, he served as Chief of Staff at the Federal Communications Commission. From November 1981 to April 1987, he served as Chief of the Office of Plans and Policy at the Federal Communications Commission. He is an adjunct fellow at the Hudson Institute, Inc.

Jack Z. Rubinstein. Mr. Rubinstein became a director of the Company in January 1995. Since May 1991, Mr. Rubinstein has been the General Partner of Dica Partners, L.P., a hedge fund based in Hartsdale, New York. From September 1988 to October 1990, Mr. Rubinstein was a consultant to institutional clients at Morgan Stanley & Co. Incorporated, an investment bank. From February 1978 to September 1988, he was an Associate Director at Bear Stearns & Co. Inc., an investment bank, responsible for corporate insider portfolio management.

52

Ralph V. Whitworth. Mr. Whitworth became a director of the Company in March 1994. Since April 1996, he has been a managing member at Relational Investors, LLC, a financial management firm. In January 1997, Mr. Whitworth became a partner of Batchelder & Partners, Inc., a financial advisory firm. From August 1988 to December 1996, he was President of Whitworth and Associates, a Washington, D.C.-based consulting firm. Mr. Whitworth was President of United Shareholders Association, a shareholders' association, from its founding in 1986 to 1993. From 1989 to 1992, he served as President of Development of United Thermal Corporation, the owner of the district heating systems for the cities of Baltimore, Philadelphia, Boston and St. Louis.

COMPENSATION OF EXECUTIVE OFFICERS AND DIRECTORS
EXECUTIVE OFFICERS

The following table sets forth the compensation for services rendered during the three-year period ending December 31, 1996 for the executive officers

of the Company whose 1996 salary and bonus exceeded \$100,000.

SUMMARY COMPENSATION TABLE

<TABLE>
<CAPTION>

NAME AND PRINCIPAL POSITION	FISCAL YEAR	ANNUAL COMPENSATION			LONG-TERM COMPENSATION AWARDS
		SALARY	BONUS	OTHER ANNUAL COMPENSATION	SECURITIES UNDERLYING OPTIONS
David Margolese	1996	\$ 95,833	\$ --	\$ --	400,000
Chairman of the Board	1995	100,000	--	--	--
and Chief Executive Officer	1994	122,000 (1)	--	26,052 (2)	300,000
Robert D. Briskman	1996	106,249	20,000	190,938	60,000
Executive Vice President,	1995	100,000	--	1,340	--
Engineering and Operations	1994	122,000	--	--	192,500

</TABLE>

- (1) In October 1994, Mr. Margolese waived his base salary payable for the three-month period ended December 31, 1994.
- (2) The Company reimbursed Mr. Margolese for the following expenses incurred in establishing residency in the United States: \$18,521 for tax advice, \$2,311 for moving expenses and \$5,220 for real estate commissions.

DIRECTORS

Commencing in 1994, directors of the Company who are not full-time employees of the Company were entitled to receive a director's fee of \$20,000 per year for serving on the Company's Board of Directors. In June 1994, all directors entitled to receive directors' fees agreed to forgo any payments for their services as directors of the Company. Pursuant to the Company's 1994 Directors' Nonqualified Stock Option Plan (the 'Directors' Plan'), each director who is not a full-time employee of the Company is entitled to an option to purchase 15,000 shares of Common Stock upon becoming a director (or upon the effective date of the plan in the case of non-employee directors who become directors prior to the effective date) and to an automatic annual grant of an option to purchase 10,000 shares of Common Stock. The exercise price for annual grants is fair market value of the Company's Common Stock on the date of grant. Prior to the implementation of the Directors' Plan, the Company from time to time granted options to certain non-employee directors. See ' -- Employee and Director Stock Options.' The Company reimburses each director for reasonable expenses incurred in attending meetings of the Board of Directors.

The Company has retained Pitsch Communications to provide legal services to the Company for a monthly retainer of \$5,000. The retainer may be terminated by either party at any time. The principal of Pitsch Communications, Peter K. Pitsch, is a director of the Company. The monthly retainer was terminated in May 1997.

The Company has retained Jack Z. Rubinstein to provide consulting services to the Company for a monthly retainer of \$5,000. The retainer may be terminated by either party at any time. Jack Z. Rubinstein is a director of the Company.

EMPLOYMENT AGREEMENTS

The Company has entered into employment agreements with its executive officers.

Effective January 1, 1994, the Company entered into an employment agreement to employ David Margolese as Chairman and Chief Executive Officer of the Company for a term of five years. The agreement provided for an annual base salary of \$300,000, subject to increase from time to time by the Board of Directors. An amendment to this agreement, dated as of June 8, 1994, provided for an annual base salary of \$100,000, effective June 8, 1994. Subsequently, Mr. Margolese waived his base salary payable for the three-month period ended December 31, 1994. In January 1997, the Board of Directors increased Mr. Margolese's annual base salary to \$150,000. In July 1997, the Board of Directors increased Mr. Margolese's annual base salary to \$400,000. Under his original employment agreement and pursuant to the Company's 1994 Stock Option Plan, the Company granted to Mr. Margolese an option to purchase 300,000 shares of Common Stock at

\$5.00 per share, which option is fully vested and exercisable. If Mr. Margolese is terminated without Cause, as defined in the agreement, or if Mr. Margolese resigns for 'Good Reason,' as defined in the agreement, the Company is obligated to pay to Mr. Margolese the sum of \$800,000. In January 1994, Mr. Margolese was paid \$162,000 for deferred salary earned in 1993 and \$216,000 in recognition of his service without pay in 1992. The employment agreement restricts Mr. Margolese from engaging in any business involving the transmission of radio entertainment programming in North America for a period of two years after the termination of his employment.

Effective January 1, 1994, the Company entered into an agreement to employ Robert D. Briskman as the Vice President and Chief Technical Officer of the Company. The agreement provided for an annual base salary of \$150,000. An amendment to this agreement, dated as of June 8, 1994, provided for an annual base salary of \$100,000, effective June 8, 1994. In October 1996, the Board of Directors increased Mr. Briskman's annual base salary to \$150,000 and in January 1997, extended the term of the agreement until January 1, 1998. In addition, under his original employment agreement and pursuant to the Company's 1994 Stock Option Plan, the Company granted to Mr. Briskman an option to purchase 80,000 shares of Common Stock at \$1.00 per share, which option is fully vested and exercisable. In May 1997, the Board of Directors named Mr. Briskman the Company's Executive Vice President, Engineering and Operations and extended the term of the agreement until December 31, 2000. The Board of Directors also increased Mr. Briskman's annual base salary to \$235,000, effective May 1, 1997, with an additional increase to \$260,000, effective January 1, 1998. The original employment agreement also provides for the grant to Mr. Briskman of options to purchase 112,500 shares of Common Stock at \$1.00 per share upon completion of certain milestones prior to December 31, 1994. Such options were granted to Mr. Briskman on December 23, 1994 and are fully vested and exercisable. In January 1996, Mr. Briskman exercised options to purchase 80,000 shares of the Company's Common Stock. On July 9, 1997, the Board of Directors granted Mr. Briskman further options to purchase up to 57,500 shares of Common Stock at a price per share of \$14.50. The options will vest and become exercisable in two stages contingent upon Mr. Briskman's continued employment with the Company and the replenishment of the 1994 Stock Option Plan by the Company. If Mr. Briskman's employment is terminated for any reason other than cause, as defined in the agreement, the Company is obligated to pay to Mr. Briskman a sum equal to 50% of his then annual salary and, at Mr. Briskman's option, to repurchase all of the shares of Common Stock then owned by him at a price of \$1.25 per share. The Company also has entered into a proprietary information and non-competition agreement with Mr. Briskman. Under this agreement, Mr. Briskman may not (i) disclose any proprietary information of the Company during or after his employment with the Company or (ii) engage in any business directly competitive with any business of the Company in North America for a period of one year after termination of his employment.

Effective August 25, 1997, the Company entered into an employment agreement with Andrew J. Greenebaum which provides for his employment as Executive Vice President and Chief Financial

Officer of the Company. The agreement has a term of three years. Pursuant to the agreement with Mr. Greenebaum, the Company will pay Mr. Greenebaum an annualized base salary of \$250,000 per year for the period of his employment with the Company through December 31, 1997 and thereafter an annualized base salary of \$275,000, subject to any increases approved by the Board of Directors. Upon the commencement of his employment with the Company, the Company paid Mr. Greenebaum an additional sum of \$90,000. The Company has also granted Mr. Greenebaum options to purchase up to 175,000 shares of Common Stock at a price per share of \$15.125; however, the options relating to 10,500 of such shares are subject to replenishment of the Plan by the Company. The options will vest and be exercisable in three stages contingent upon the continued employment of Mr. Greenebaum with the Company at predetermined dates. The dismissal of Mr. Greenebaum other than for 'cause' (as defined in the agreement) subsequent to the passing of certain milestones, however, will cause the options otherwise exercisable only at the end of that stage to vest immediately notwithstanding the dismissal. If Mr. Greenebaum's employment is terminated for any reason other than by the Company for 'cause,' as defined in the agreement, or by Mr. Greenebaum voluntarily, Mr. Greenebaum will be entitled to receive, in addition to any other sums then due to him, an amount equal to his annualized base salary then in effect. The Company and Mr. Greenebaum also have entered into a proprietary information and non-competition agreement. Under this agreement, Mr. Greenebaum may not (i) during his employment with the Company and for three years thereafter disclose any proprietary information of the Company or (ii) during his employment with the Company and for one year thereafter engage in any business involving any satellite radio broadcast service or any subscription-based digital audio radio service delivered to cars or other mobile vehicles in North America.

The Company has entered into employment and non-competition agreements to employ Joseph S. Capobianco as Executive Vice President, Content, and Keno V.

Thomas as Executive Vice President, Marketing, both for terms of three years. The agreement with Mr. Capobianco, effective April 16, 1997, provided for an annual base salary of \$200,000, subject to increase from time to time by the Board of Directors. The agreement with Mr. Thomas, effective April 28, 1997, provided for an annualized base salary of \$225,000 through December 31, 1997, increasing to an annualized base salary of \$250,000 thereafter through the term of the agreement, subject to increase from time to time by the Board of Directors. The Company has granted each of Mr. Capobianco and Mr. Thomas an option to purchase 50,000 shares of Common Stock at \$13 and \$12.875 per share, respectively, each such option to vest pursuant to the schedule set forth in the applicable option agreement. On July 9, 1997, the Company granted each of Messrs. Capobianco and Thomas further options to purchase up to 25,000 shares of Common Stock at a price per share of \$14.50. These options will vest and become exercisable in two stages contingent upon Messrs. Capobianco's and Thomas' respective continued employment with the Company and the replenishment of the number of shares of Common Stock in the 1994 Stock Option Plan by the Company. If either Mr. Capobianco or Mr. Thomas is terminated except by the Company for 'Cause,' as defined in the agreement, or by the applicable executive voluntarily, the Company will be obligated to pay to Mr. Capobianco an amount equal to one-third of his then annual salary if the termination is on or prior to October 16, 1997 and one-half of his then annual salary thereafter, and to pay to Mr. Thomas an amount equal to one-half of his then annual salary. The Company also has entered into a proprietary information and non-competition agreement with each of Mr. Capobianco and Mr. Thomas. Under these agreements each of Mr. Capobianco and Mr. Thomas may not (i) disclose any proprietary information of the Company during his employment with the Company and for three years thereafter or (ii) during their respective employment and for one year thereafter, engage in any business involving any satellite radio broadcast service or any subscription-based digital audio radio service delivered to cars or other mobile vehicles in North America.

EMPLOYEE AND DIRECTOR STOCK OPTIONS AND STOCK GRANTS

In February 1994, the Company adopted its 1994 Stock Option Plan (the '1994 Plan') and its Director's Plan. The Director's Plan was amended by the Board of Directors in December 1994 and January 1995 and approved at the annual meeting of stockholders on June 27, 1995 to extend the exercise period of the option after termination for reason other than death or disability and to increase the initial option grants and annual option grants to non-employee directors.

55

The 1994 Plan, as amended, provides for options to purchase Common Stock and is administered by the Plan Administrator, which may be either the Company's Board of Directors or a committee designated by the Board of Directors. In accordance with the 1994 Plan, the Plan Administrator determines the employees to whom options are granted, the number of shares subject to each option, the exercise price and the vesting schedule of each option. Options generally vest over a four-year period, but may vest over a different period at the discretion of the Plan Administrator. Under the 1994 Plan, outstanding options vest, unless they are assumed by an acquiring entity, upon the occurrence of certain transactions, including certain mergers and other business combinations involving the Company. Options granted under the 1994 Plan are exercisable for a period of ten years from the date of grant, except that incentive stock options granted to persons who own more than 10% of the Common Stock terminate after five years. Unless otherwise provided at the time of grant, vested options terminate 90 days after the optionee's termination of employment with the Company for any reason other than death or disability, and one year after termination upon death or disability. Unless otherwise determined by the Plan Administrator, the exercise price of options granted under the 1994 Plan must be equal to or greater than the fair market value of the Common Stock on the date of grant. Upon exercise, the aggregate exercise price may be paid to the Company (i) in cash, (ii) upon approval of the Plan Administrator, by delivering to the Company shares of Common Stock previously held by such Optionee, or (iii) by complying with any other payment mechanism approved by the Plan Administrator from time to time.

The Directors' Plan provides that current non-employee directors of the Company and persons who become non-employee directors of the Company shall be granted options to purchase 15,000 shares of Common Stock upon becoming directors (or upon the effective date of the Director's Plan in the case of non-employee directors who became directors prior to the effective date), and thereafter shall annually be granted options to purchase 10,000 shares of Common Stock on the first business day following the Company's annual meeting. The exercise price for annual grants is the fair market value of the Company's Common Stock on the date of grant. Options granted under the Directors' Plan vest immediately upon grant and are exercisable for a period of ten years from the date of grant. Options terminate 18 months after a director's termination as a director of the Company for any reason other than death or disability, and one year after termination upon death or disability. Upon exercise, the exercise price may be paid (i) in cash, (ii) in shares of Common Stock, or (iii) by the Company withholding that number of shares of Common Stock with a fair market

value on the date of exercise equal to the aggregate exercise price of the option.

In June 1995, the Company adopted its 1995 Stock Compensation Plan (the 'Stock Compensation Plan'). Pursuant to the terms of the Stock Compensation Plan, all employees of the Company or a Related Company (as defined in the Stock Compensation Plan) are eligible to receive awards under the Stock Compensation Plan. Bonuses granted pursuant to the Stock Compensation Plan are made by a plan administrator. The plan administrator, in its absolute discretion, determines the employees to whom, and the time or times at which, Common Stock awards are granted, the number of shares within each award and all other terms and conditions of the awards. The terms, conditions and restrictions applicable to the awards made under the Stock Compensation Plan need not be the same for all recipients, nor for all awards. The plan administrator may grant to any officer of the Company the authority to make awards or otherwise administer the Stock Compensation Plan solely with respect to persons who are not subject to the reporting and liability provisions of Section 16 of the Exchange Act.

In September 1996, the Stock Compensation Plan was amended to allow the plan to be administered by the entire Board of Directors, and if so authorized by the Board of Directors, a committee of at least two non-employee directors. Prior to this amendment, the plan permitted the administration only by a committee of the Board of Directors. The purpose of the amendment was to comply more readily with the new rules under Section 16 of the Securities Act, which changed the eligibility requirements for these committees. The new rules under Section 16 allow either the entire Board of Directors or a committee composed of two or more 'non-employee' directors to act as Plan Administrator. Amending the Stock Compensation Plan provided more flexibility for the Company in the administration of the Stock Compensation Plan.

56

Awards under the Stock Compensation Plan may not exceed 175,000 shares of Common Stock in the aggregate, subject to certain adjustments. Shares awarded may be from authorized but unissued shares or from Company treasury shares of Common Stock. All shares of Common Stock received by employees pursuant to bonuses under the Stock Compensation Plan (except for shares received by executive officers or other persons who are subject to the reporting and liability provisions of Section 16 of the Exchange Act) are freely transferable. Nevertheless, the shares of Common Stock granted to recipients may be subject to such terms and conditions as the Committee, in its sole discretion, deems appropriate. During 1996, 67,500 shares of the Company's Common Stock were issued pursuant to this Compensation Plan.

As of December 31, 1996, 162,500 shares of Common Stock have been issued under the Stock Compensation Plan, and 12,500 shares of Common Stock remain available for issuance thereunder.

An aggregate of 1,600,000 shares of Common Stock were available for issuance pursuant to the 1994 Plan and the Directors' Plan. As of July 31, 1997, options to purchase all of the 1,600,000 shares of Common Stock had been granted pursuant to the 1994 Plan and the Directors' Plan and a further 133,000 options have been issued subject to the replenishment of these Plans by the Company prior to any of such options vesting.

STOCK OPTION INFORMATION

In April 1996, the Company granted to David Margolese pursuant to the 1994 Plan a stock option to purchase 400,000 shares of Common Stock which are now exercisable following the grant of the FCC License. In April 1996, the Company also granted to Robert Briskman pursuant to the 1994 Plan a stock option to purchase 60,000 shares of Common Stock, 30,000 shares of which are exercisable upon the FCC's grant of a license to the Company and the remaining 30,000 shares of which were exercisable on September 18, 1997 if, as of such date, the FCC had granted the FCC License and if Mr. Briskman was still employed by the Company. In recognition of Mr. Briskman's services to the Company and in view of the unexpected delay by the FCC in awarding the Company's FCC License, on October 15, 1997, the Compensation Committee of the Board of Directors granted Mr. Briskman options to purchase 30,000 shares of Common Stock at a price of \$8.5625 per share under the 1994 Plan. Such options are exercisable immediately.

The following table sets forth certain information for the fiscal year ended December 31, 1996, with respect to options granted to the individuals named in the Summary Compensation table above.

OPTION GRANTS IN LAST FISCAL YEAR

<TABLE> <CAPTION>	INDIVIDUAL GRANTS	POTENTIAL

LIABILITY AND INDEMNIFICATION OF OFFICERS AND DIRECTORS OF THE COMPANY

As permitted by the Delaware General Corporation Law, the Company's Amended and Restated Certificate of Incorporation provides that directors of the Company shall not be personally liable to the Company or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Company or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the Delaware General Corporation Law or (iv) for any transaction from which the director derives an improper personal benefit. In addition, the Company's Amended and Restated Bylaws provide that the Company shall indemnify all directors and officers and may indemnify employees and certain other persons to the full extent and in the manner permitted by Section 145 of the Delaware General Corporation Law, as amended from time to time. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling the Company pursuant to the foregoing provisions, the Company has been informed that, in the opinion of the Commission, such indemnification is against public policy as expressed in the Securities Act and, therefore, is unenforceable. The Company's Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws provide that the Company may, to the full extent permitted by law, purchase and maintain insurance on behalf of any director, officer, employee or agent of the Company against any liability which may be asserted against him or her and the Company currently maintains such insurance.

58

The following tables set forth certain information regarding beneficial ownership of the Company's Common Stock and 5% Preferred Stock, as of September 30, 1997, by (i) each stockholder known by the Company to be the beneficial owner of more than 5% of the outstanding Common Stock or 5% Preferred Stock, (ii) in relation to the Common Stock, each director of the Company, (iii) in relation to the Common Stock, each executive officer of the Company and (iv) in relation to each of the Common Stock and the 5% Preferred Stock, all directors and executive officers as a group. Except as otherwise indicated, the Company believes that the beneficial owners of the Common Stock and 5% Preferred Stock listed below, based on information furnished by such owners, have sole investment and voting power with respect to such shares, subject to community property laws where applicable. The table of beneficial ownership of Common Stock also sets forth information concerning the number of shares of Common Stock issuable upon conversion of shares of the Company's 5% Preferred Stock to holders of the 5% Preferred Stock.

* Less than 1%

- (1) This table is based upon information supplied by directors, officers and principal stockholders. Percentage of ownership is based on 12,577,884 shares of Common Stock outstanding on September 30, 1997. Unless otherwise indicated, the address of the beneficial owner is the Company.
- (2) Determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended. Under this rule, a person is deemed to be the beneficial owner of securities that can be acquired by such person within 60 days from September 30, 1997 upon the exercise of options, and each beneficial owner's percentage ownership is determined by assuming that options that are held by such person (but not those held by any other person) and that are exercisable within 60 days from September 30, 1997 have been exercised. Unless otherwise noted, the Company believes that all persons named in the table have sole voting and investment power with respect to all shares of Common Stock beneficially owned by them.
- (3) Darlene Friedland is the spouse of Robert Friedland. Robert Friedland was a director of the Company from June 1993 until October 1993. From May 1992, Mr. Friedland and Ivanhoe Capital Corporation, a venture capital firm he controls, collectively were the Company's largest shareholder until their shares were transferred to Darlene Friedland in October 1993.
- (4) Subject to demand registration rights after the Company's two satellites are launched and operational.
- (5) Includes 300,000 shares issuable pursuant to stock options that are exercisable within 60 days. Does not include 400,000 shares issuable pursuant to stock options that are not exercisable within 60 days. Pursuant to a voting trust agreement entered into by Darlene Friedland, as grantor, David Margolese, as trustee, and the Company, Mr. Margolese will have the power to vote in his discretion all shares of Common Stock owned or hereafter acquired by Darlene Friedland and certain of her affiliates (currently 2,734,500 shares) for a period of five years commencing on the first to occur of the closing dates of the Stock Offerings or Notes Offering (both as defined below) or the consummation of the Exchange Offer.
- (6) Shares are owned by a group including the following: The Robertson Stephens Orphan Fund (which has shared voting and shared dispositive power over 1,069,200 shares), The Robertson Stephens Orphan Offshore Fund (with shared voting and shared dispositive power over 226,800 shares), The Robertson Stephens Global Low-Priced Stock Fund (with shared voting and shared dispositive power over 70,000 shares), The Robertson Stephens & Company Investment Management L.P. (with shared voting and shared dispositive power over 1,366,000 shares), Bayview Investors, LTD (with shared voting and shared dispositive power over 1,069,200 shares), Robertson, Stephens & Company, Incorporated ('RS&Co.') (with shared voting and shared dispositive power over 1,366,000 shares), and RS&Co.'s five shareholders, namely Paul H. Stephens (with sole voting and sole dispositive power over 96,880 shares, and shared voting and shared dispositive power over 1,366,000 shares), Sanford R. Robertson (with sole voting and sole dispositive power over 11,620 shares, and shared voting and shared dispositive power over 1,366,000 shares), Michael G. McCaffery, G. Randy Hecht and Kenneth R. Fitzsimmons (the three of whom have shared voting and shared dispositive power over 1,366,000 shares). Messrs. Stephens, Robertson, McCaffery, Hecht and Fitzsimmons disclaim any beneficial ownership with respect to shares of the Company that RS&Co. may be deemed to beneficially own. The source of the information in this footnote is the Schedule 13D dated August 13, 1997 filed by Robertson, Stephens & Company LLC, et al.
- (7) Includes 132,500 shares of Common Stock issuable pursuant to stock options exercisable within 60 days. Does not include 117,500 shares issuable pursuant to stock options that are not exercisable within 60 days of such date.

- (8) Includes 195,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days and 7,700 shares of Common Stock held in trust for his daughters. Excludes 20,000 shares held by DICA Partners, L.P. of which Mr. Rubinstein is the General Partner.
- (9) Includes 60,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days.
- (10) Represents 35,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days.
- (11) Represents 35,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days.
- (12) Does not include 75,000 shares issuable pursuant to stock options that are not exercisable within 60 days.

(footnotes continued on next page)

60

(footnotes continued from previous page)

- (13) Does not include 75,000 shares issuable pursuant to stock options that are not exercisable within 60 days.
- (14) Represents 59,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days. Does not include 116,000 shares of Common Stock issuable pursuant to stock options not exercisable within 60 days.
- (15) Includes 732,500 shares of Common Stock issuable pursuant to stock options exercisable within 60 days. Does not include 857,500 shares issuable pursuant to options that are not exercisable within 60 days.
- (16) Estimated solely for the purposes of this table. Such beneficial ownership represents an estimate of the number of shares of Common Stock issuable upon the conversion of shares of 5% Preferred Stock beneficially owned by such person, assuming a conversion date of September 30, 1997 and that all dividends on shares of the 5% Preferred Stock are paid, in lieu of cash, in additional shares of 5% Preferred Stock. The number of shares of Common Stock issuable upon conversion of the shares of the 5% Preferred Stock would equal the liquidation preference of the shares being converted plus any cash payments divided by the then-effective conversion price applicable to the Common Stock (the 'Conversion Price'). The Conversion Price, as of any date up to and including November 15, 1997, is determined in accordance with a formula based on market prices of the Common Stock or actual prices at which the converting holder sold the Common Stock, in either case multiplied by an amount equal to 1 minus an applicable percentage. The actual number of shares of Common Stock upon conversion is subject to adjustment and could be materially less or more than the estimated amount indicated depending upon factors which cannot be predicted by the Company at this time, including, among others, application of the conversion provisions based on market prices prevailing at the actual date of conversion and whether dividends on shares of 5% Preferred Stock are paid in cash or added to the liquidation preference. This presentation is not intended to constitute a prediction as to the future market price of the Common Stock or as to when holders will elect to convert shares of the 5% Preferred Stock into shares of Common Stock. See 'Description of Capital Stock -- 5% Delayed Convertible Preferred Stock.'
- (17) Includes 1,137,155 shares of 5% Preferred Stock. The following limitations (the 'Standstill Agreement') apply to Everest Capital International, Ltd. and Everest Capital Fund, L.P. (the 'Everest Funds') and their affiliates, and to certain transferees. Until the date one year after the execution of a certain Commitment Term Sheet between such Everest Funds and the Company, the Everest Funds and their affiliates (i) shall not acquire Common Stock, including by means of conversion of their 5% Preferred Stock or exercise any other right, if, upon such acquisition or exercise, the Everest Funds and their affiliates will have or share, directly or indirectly, voting or investment power over ten percent or more of the Common Stock (for purposes of this clause (i), a right to acquire upon exercise or conversion will not be deemed to confer voting or investment power over the underlying security in the absence of an exercise or conversion), and (ii) shall not sell or otherwise dispose of warrants or 5% Preferred Stock to any purchaser, if, following such sale or disposition, the purchaser and its affiliates would be beneficial owners of ten percent or more of the Common Stock, except for a sale or disposition of warrants or 5% Preferred Stock to a purchaser who, for itself and its affiliates, agrees to be bound by the limitations set forth in the Standstill Agreement.
- (18) Includes 1,114,630 shares of 5% Preferred Stock held on its own behalf and

on behalf of its Designated A/C High Yield Fund.

- (19) Includes 678,350 shares of 5% Preferred Stock held by the Mainstay Funds, on behalf of its High Yield Corporate Bond Fund Series, for which Mackay-Shields Financial Corporation acts as financial advisor. Such Funds and such advisor share investment and voting power with respect to such shares. The Fund has agreed that it will not, following any conversion of its shares, be the beneficial owner of more than 9.99% of the outstanding Common Stock unless it chooses to waive this restriction upon 61 days prior notice to the Company.
- (20) Represents 64,757 shares of 5% Preferred Stock beneficially owned by Mr. Ravich, 146,800 shares of 5% Preferred Stock that are issuable pursuant to warrants to be issued to Libra Investments, Inc. ('Libra') and 261,700 shares of 5% Preferred Stock that are issuable pursuant to warrants to be issued to The Ravich Revocable Trust of 1989 (the 'Ravich Trust'). Jess M. Ravich is the Chairman, Chief Executive Officer and the controlling shareholder of Libra and a trustee of the Ravich Trust. Mr Ravich disclaims beneficial ownership in the shares issuable to Libra except to the extent of his ownership interest in Libra. Libra and the Ravich Trust have agreed that they will not, following any conversion of their shares of 5% Preferred Stock, be the beneficial owner of more than 4.99% of the outstanding Common Stock unless they choose to waive this restriction upon 61 days prior notice to the Company. Amount does not include warrants to purchase 60,000 shares of Common Stock to be issued to the Ravich Trust at a purchase price of \$50.00 per share. The warrants are exercisable from June 15, 1998 through and including June 15, 2005.
- (21) Includes 450,536 shares of 5% Preferred Stock. Grace Brothers, Ltd. has agreed that it will not, following any conversion of its shares, be the beneficial owner of more than 9.99% of the outstanding Common Stock unless it chooses to waive this restriction upon 61 days prior notice to the Company.
- (22) Includes 427,020 shares of 5% Preferred. Does not include shares of Common Stock issuable pursuant to warrants to be issued to Everest Capital Fund, L.P. or an affiliate thereof to purchase 1,740,000 shares of Common Stock at a purchase price of \$50.00 per share. The warrants are exercisable from June 15, 1998 through and including June 15, 2005. See footnote (17) above for further commentary.

* Less than 1%

- (1) This table is based upon information supplied by principal stockholders. Percentage of ownership is based on 5,222,608 shares of 5% Preferred Stock outstanding on September 30, 1997. Unless otherwise indicated, the address of the Beneficial Owner is the Company.
- (2) Determined in accordance with Rule 13D-3 under the Securities Exchange Act of 1934, as amended. Under this rule, a person is deemed to be the beneficial owner of securities that can be acquired by such person within 60 days from September 30, 1997 upon the exercise of options, and each beneficial owner's percentage ownership is determined by assuming that options that are held by such person (but not those held by any other person) and that are exercisable within 60 days from September 30, 1997 have been exercised. Unless otherwise noted, the Company believes that all persons named in the table have sole voting and investment power with respect to all shares of 5% Preferred Stock beneficially owned by them.
- (3) No executive officer or director of the Company beneficially owns any shares of 5% Preferred Stock.

VOTING TRUST AGREEMENT

The Company is a party to a voting trust agreement dated August 26, 1997 (the 'Voting Trust Agreement') by and among Darlene Friedland, as grantor, David Margolese, as the voting trustee thereunder, and the Company. The following summary description of the Voting Trust Agreement does not purport to be complete and is qualified in its entirety by reference to the complete text thereof, a copy of which has been filed with the SEC as an exhibit to the Issuer Tender Offer Statement on Schedule 13E-4 and incorporated herein by reference.

The Voting Trust Agreement provides for the establishment of a trust (the 'Trust') into which (i) there have been deposited all of the shares of Common Stock owned by Mrs. Friedland on August 26, 1997 and (ii) there shall be deposited any shares of Common Stock acquired by Mrs. Friedland, her spouse Mr. Robert Friedland, any member of either of their immediate families or any entity directly or indirectly controlled by Mrs. Friedland, her spouse or any member of either of their immediate families (the 'Friedland Affiliates') between the date shares are initially deposited and the termination of the Trust. The voting trust will terminate on the fifth anniversary of the initial deposit of shares into the Trust.

62

The Voting Trust Agreement does not restrict the ability of Mrs. Friedland or any of the Friedland Affiliates to sell, assign, transfer or pledge any of the shares deposited into the Trust, nor does it prohibit Mrs. Friedland or the Friedland Affiliates from purchasing additional shares of Common Stock, provided those shares become subject to the Trust, as described above.

Under the Voting Trust Agreement, the trustee has the power to vote shares held in the Trust in relation to any matter upon which the holders of such stock would have a right to vote, including without limitation the election of directors. For so long as David Margolese remains trustee of the Trust, he may exercise such voting rights in his discretion. Any successor trustee or trustees of the Trust must vote as follows: (i) on the election of directors, the trustee(s) must vote the entire number of shares held by the Trust, with the number of shares voted for each director (or nominee for director) determined by multiplying the total number of votes held by the Trust by a fraction, the numerator of which is the number of votes cast for such person by other stockholders of the Company and the denominator of which is the sum of the total number of votes represented by all shares casting any votes in the election of directors; (ii) if the matter under Delaware law or the Certificate of Incorporation or the Bylaws of the Company requires at least an absolute majority of all outstanding shares of Common Stock of the Company in order to be approved, the trustee(s) must vote all of the shares in the Trust in the same manner as the majority of all votes that are cast for or against the matter by all other stockholders of the Company; and (iii) on all other matters, including without limitation any amendment of the Voting Trust Agreement for which a stockholder vote is required, the trustee(s) must vote all of the shares in the Trust for or against the matter in the same manner as all votes that are cast for or against the matter by all other stockholders of the Company.

The Voting Trust Agreement may not be amended without the prior written consent of the Company, acting by unanimous vote of the Board of Directors, and

approval of the Company's stockholders, acting by the affirmative vote of two-thirds of the total voting power of the Company, except in certain limited circumstances where amendments to the Voting Trust Agreement are required to comply with applicable law.

DESCRIPTION OF CERTAIN INDEBTEDNESS

SENIOR SECURED DISCOUNT NOTES DUE 2007

The Notes are expected to have the following terms when issued. The Notes will mature in 2007, are expected to be issued, together with the Warrants, for approximately \$150 million aggregate gross proceeds and will be secured obligations of the Company, secured by a pledge of the stock of Satellite CD Radio, Inc. The Notes will accrete the original issue discount for five years at a rate to be determined, and thereafter will bear interest at the same rate, payable in cash semiannually in arrears. The Indenture will not provide for a sinking fund. The Notes will be subject to redemption at any time on or after a date to be determined in 2002, at the option of the Company, in whole or in part, in amounts of principal at maturity of \$1,000 or an integral multiple of \$1,000 at declining redemption prices set forth in the Indenture. Notwithstanding the foregoing, during the first 36 months after the date of the Indenture, the Company will be permitted to redeem up to 33% of the aggregate principal amount at maturity of the Notes with the net proceeds of any Public Equity Offerings (as defined in the Indenture) at a redemption price to be determined.

Upon a change of control of the Company, or in the event of asset sales in certain circumstances, the Company will be required by the terms of the Indenture to make an offer to purchase the outstanding Notes at a purchase price equal to, or at a premium to, the accreted value thereof.

The indebtedness of the Company evidenced by the Notes will rank pari passu in right of payment with all other existing and future unsubordinated indebtedness of the Company and senior in right of payment to all existing and future obligations of the Company expressly subordinated in right of payment to the Notes. The Indenture will contain a number of covenants restricting the operations of the Company and its subsidiaries, including those restricting the incurrence of indebtedness; the making of restricted payments (in the form of the declaration or payment of certain dividends or distributions, the purchase, redemption or other acquisition of any capital stock of the Company, the voluntary prepayment of pari passu or subordinated indebtedness and the making of certain investments, loans and advances); transactions with stockholders and affiliates; the incurrence of liens; sale-leaseback

63

transactions; the transfer of assets; issuances and sales of capital stock of subsidiaries; the incurrence of guarantees by subsidiaries; dividend and other payment restrictions affecting subsidiaries; and consolidation, merger or sale of substantially all of the Company's assets and requiring the purchase of Notes, at the option of the holder, upon the occurrence of a change in control.

The events of default under the Indenture will include provisions that are typical of senior debt financings, including a cross-acceleration to a default by the Company or any material subsidiary on any indebtedness that has an aggregate principal amount in excess of certain levels. Upon the occurrence of such an event of default, the trustee or the holders of not less than 25% in principal amount at maturity of the outstanding Notes may immediately accelerate the maturity of all the Notes as provided in the Indenture.

WARRANTS TO PURCHASE NOTES

The Warrants are expected to have the following terms when issued. From and after the date of issuance until the expiration of the Warrants in 2007, each Warrant will entitle the holder thereof to acquire a to-be determined principal amount at maturity of Notes for an exercise price of \$0.01. The Notes issuable upon exercise of the Warrants will be the same class as the Notes issued in the Units Offerings. Holders of Warrants will not, by virtue of being such holders, have any rights of holders of Notes.

VENDOR FINANCING

On July 22, 1997, the Company entered into the AEF Agreements with AEF to finance approximately \$105 million of the estimated \$176 million price of the launch services to be provided by Arianespace for the Company's two satellites. Under the AEF Agreements, the Company is able to borrow funds to meet the progress payments due to Arianespace for the construction of each launch vehicle

and other launch costs (the 'Tranche A Loans'). The obligation of AEF to make the Tranche A Loans is subject to the Company's satisfaction of certain conditions precedent, and the Company has confirmed with AEF that its issuance of the Notes will not violate such conditions. Interest on the Tranche A Loans will be capitalized and will accrue at a rate of 3% per annum above the rate at which dollar deposits are offered in the London interbank market for three months or, during a certain time period following the Conversion Commitment Date (defined below), one month (the 'Interest Basis'). Unless the Company satisfies the conditions for conversion of the Tranche A Loans to long-term loans, the Company will be required to repay the Tranche A Loans in full, together with accrued interest and all fees and other amounts due, approximately three months before the applicable launch date, which will be prior to the time CD Radio commences commercial operations. There can be no assurance that the Company will have sufficient funds to make such repayment.

If the Company satisfies certain conditions set forth in the AEF Agreements and otherwise meets the requirements of AEF by a specified date prior to the applicable launch (the 'Conversion Commitment Date'), Tranche A Loans representing up to 60% of the launch costs may be converted ('Conversion') on the launch date into term loans (the 'Tranche B Loans') which will amortize over a period not to exceed seven years. However, not more than \$80 million of the Tranche A Loans may be converted in the aggregate under the AEF Agreements.

Prior to Conversion, based on documents and materials to be submitted by the Company, including its business plan, AEF will place the Company into one of three pre-established borrower categories for the purpose of determining the conditions to Conversion that the Company must satisfy. It is anticipated that the Company will be placed in the category for which the conditions to Conversion are the most restrictive ('Category 3'). If the Company is placed in Category 3, AEF, at its discretion, may impose conditions to Conversion and require covenants in addition to those initially set forth in AEF Agreements. There can be no assurance that the Company will be able to satisfy the conditions to Conversion.

Interest on the Tranche B Loans will accrue at a rate of 3.5% per annum above the Interest Basis and will be payable quarterly (or, in certain time periods, monthly) in arrears. Any amounts due and

64

payable by the Company which are not paid on their due date will accrue interest at a default rate of 2% above the interest rate otherwise applicable at such time.

The Company may, at any time, prepay the Tranche A Loans or the Tranche B Loans by providing prior irrevocable written notice to AEF. The Company will be required to prepay the loans in full, together with accrued interest and all fees and other amounts due, if certain events occur, including the following: (i) any of the applicable AEF Agreements, the Launch Services Agreement or the related Multiparty Agreement among the Company, AEF and Arianespace is terminated; (ii) following a launch failure, the Company does not request a replacement launch within 180 days after the original launch date or a replacement launch is not accomplished within two years following the original launch date; (iii) an initial launch has not occurred by April 12, 2002; (iv) a replacement launch results in a launch failure; or (v) the satellite fails to enter commercial service within eight months following launch. The Company also will be required to make a prepayment of the loans in proportion to any prepayment (whether voluntary or mandatory) made by the Company under any other financing agreement relating to the construction, launch and operation of the satellites. Following Conversion, the Company will be required to apply a percentage of its excess cash flow (cash flow not needed to service debt, pay taxes or fund capital expenditures) to prepay the Tranche B Loans on certain specified dates, with the percentage so applied decreasing as the outstanding principal amount of the Tranche B loan decreases.

If Conversion occurs, the Company will not be permitted to pay any dividends on any shares of its stock or purchase any capital stock or other equity interest in, or make any loan to or investment in, any of its affiliates unless the aggregate amount of all such payments for the applicable time period is less than or equal to the amount of the Company's excess cash flow for such period minus the amounts needed to make required prepayments of the Tranche B loans and not used during such period to make loans, investments, capital expenditures, scheduled payments on subordinated indebtedness or other purposes.

If Conversion occurs, it is anticipated that the Tranche B Loans will be amortized as set forth in the following schedule, with the final payment of principal to be made no later than April 14, 2009 (the 'maturity date'):

<TABLE>
<CAPTION>

QUARTERLY PERIOD FOLLOWING LAUNCH DATE	PERCENTAGE OF PRINCIPAL AMOUNT OF TRANCHE B LOANS TO BE REPAID PER QUARTER
<S>	<C>
1 and 2.....	No Repayment
3 and 4.....	1.0%
5 through 8.....	2.0%
9 through 12.....	2.5%
13 through maturity date.....	5.0%

</TABLE>

However, based on the business plan and other documents to be submitted by the Company during the review process required for Conversion, AEF may impose a shorter amortization schedule for the Tranche B Loans.

If AEF determines that the Tranche A Loans are eligible for Conversion, the Company also will be prohibited from changing its capital structure (including the terms of its outstanding stock or other equity interests), permitting any change in the composition of its ownership, or changing its organizational documents, if such change could reasonably be expected to have a material adverse effect on the Company, its business, assets or financial condition or its ability to perform its obligations under any agreements relating to the financing or the value of the Collateral (as defined below) or the license granted under the Collateral Documents (as defined below). The Company will also be prohibited from merging, consolidating or combining with any other entity.

As a condition to Conversion, the Company will be required to create, in favor of a security agent (the 'Security Agent') (and on behalf of AEF, a bank group providing funding to AEF to on-lend to the Company and any other lender to the project), liens on specified assets of the Company, including the satellites, the Company's interests in gateway, ground reception and similar facilities and the FCC License (the 'Collateral'). In addition, if, as expected, the Company is determined to be in Category 3, it will be required to provide a lien on the Common Stock of Satellite CD Radio, Inc. In connection with such liens, the Company must execute certain agreements (the 'Collateral Documents'), including an assignment and security agreement granting the liens to the security agent, a mortgage on any tracking, telemetry, control and monitoring equipment owned by the

Company and an intercreditor agreement (the 'Intercreditor Agreement'). All obligations of the Company under the AEF Agreements will be secured by such liens from and following the date of execution of the Collateral Documents, subject to the condition that neither AEF nor any member of the bank group providing funds to AEF may direct the security agent to exercise rights with respect to the Collateral prior to Conversion. If AEF does not approve the pledge of stock of CD Radio Inc. securing the Notes, the Company may be precluded from converting the Tranche A Loans. From and following the date of execution of any Collateral Document, the Company will be prohibited from creating or incurring any lien on the Collateral other than liens in favor of AEF (or the other parties to the Intercreditor Agreement) and certain specified permitted liens. From such date, the Company will be prohibited from selling or transferring any Collateral having an aggregate fair market value in excess of \$1.0 million. In addition, the Indenture permits indebtedness under the AEF Agreements to be secured on a pari passu basis with the Notes by a first priority security interest in the Pledged Stock.

Following the Conversion Commitment Date, neither the Company nor its subsidiaries may sell or transfer any assets (other than permitted dispositions of the Collateral), except for (i) sales of inventory in the ordinary course of business, (ii) the trade-in of machinery or equipment in connection with the acquisition of similar machinery or equipment, (iii) the sale of obsolete or worn-out property having a value not exceeding \$1.5 million in the aggregate in any fiscal year and (iv) sales or transfers of assets that (x) do not exceed in the aggregate 2% of the Company's total assets in any fiscal year, (y) together with all prior permitted sales or transfers do not exceed in the aggregate 5% of the Company's total assets at the time of such action or (z) do not have a fair market value in excess of \$1.0 million per item.

Commencing on the Conversion Commitment Date, prior to incurring additional indebtedness in an aggregate principal amount of \$10.0 million or more, the Company will be required to deliver to AEF a certificate stating that no default

will occur as a result of the incurrence of such indebtedness. From and after Conversion, the Company also will be required to maintain certain financial ratios relating to its ability to service debt. If the Company is placed in Category 3 (as anticipated), it will be in breach of the AEF Agreements if its ratio of earnings before interest, tax, depreciation and amortization ('EBITDA') to total interest accrued or payable for any period of four fiscal quarters ending on the relevant date of calculation is less than: (i) at any time after the first anniversary and on or prior to the second anniversary of Conversion, 1.0 to 1, (ii) thereafter, through and including the third anniversary of Conversion, 1.5 to 1, (iii) thereafter, through and including the fourth anniversary of Conversion, 2.0 to 1, (iv) thereafter, through and including the fifth anniversary of Conversion, 2.5 to 1, and (v) any time thereafter, 3.0 to 1.

The Company will also be prohibited from permitting its ratio of EBITDA to the sum of (a) total interest accrued or payable and (b) scheduled principal payments for any period of four fiscal quarters ending on the relevant date of calculation to be less than: (i) at any time after the first anniversary and on or prior to the third anniversary of Conversion, 1.0 to 1, (ii) thereafter, through and including the fourth anniversary of Conversion, 1.5 to 1, (iii) thereafter, through and including the fifth anniversary of Conversion, 2.0 to 1, and (iv) at any time thereafter, 2.5 to 1.

66

In addition, the Company may not permit its ratio of indebtedness to EBITDA for the four fiscal quarters ending on the relevant calculation date to exceed: (i) at any time after the first anniversary and on or prior to the second anniversary of Conversion, 6.0 to 1, (ii) thereafter, through and including the third anniversary of Conversion, 5.5 to 1, (iii) thereafter, through and including the fourth anniversary of Conversion, 5.0 to 1, (iv) thereafter, through and including the fifth anniversary of Conversion, 4.0 to 1, and (v) at any time thereafter, 3.0 to 1.

From and following the Conversion Commitment Date, the Company may not make any advances or loans other than (i) extensions of credit for a period not exceeding ninety days in the nature of accounts receivable or notes receivable arising from the sale or lease of goods or services in the ordinary course of business, and (ii) if no default exists or would result therefrom, (x) loans or extensions of credit in the ordinary course of business to affiliates, not exceeding \$2.5 million in an aggregate principal amount outstanding at any one time and (y) loans or extension of credit to the Company's key management employees, not exceeding \$1.25 million in an aggregate principal amount outstanding at any one time.

Neither the Company nor any of its subsidiaries may make any payments in respect of any indebtedness subordinated to the prior payment of all amounts payable by the Company under any of the AEF Agreements, except for regularly scheduled payments of principal and interest required by the instruments evidencing such subordinated indebtedness.

A default under either of the AEF Agreements, which includes the non-payment of principal and interest and breaches of covenants, will constitute a default under the other AEF Agreement. In addition, the AEF Agreements will be cross-defaulted to a default by the Company under any other financing agreement relating to the project or any other agreement or instrument relating to indebtedness in an aggregate principal amount exceeding five million dollars. If the Company is subject to more restrictive cross-default provisions under any other agreement providing for long-term, asset-based financing, those more restrictive cross-default provisions will be deemed to be set forth in the AEF Agreements. Upon the occurrence of an event of default, AEF may terminate all commitments to make advances to the Company or convert loans, declare all unpaid principal and interest immediately due and payable, and exercise its rights with respect to any security.

Pursuant to a Multiparty Agreement to be executed among the Company, AEF and Arianespace in connection with the AEF Agreements, if the Company is unable to obtain sufficient financing to complete the construction and launch of the satellites, and if the Company terminates the Arianespace Launch Contract, the Company will be required to pay Arianespace a termination fee ranging from 5% to 40% of the launch services price, based on the proximity of the date of termination to the scheduled launch date. The termination fee will be payable prior to the time the Company commences commercial operations and there can be no assurance that the Company will have sufficient funds to pay this fee.

DESCRIPTION OF CAPITAL STOCK

The Company's Amended and Restated Certificate of Incorporation provides for authorized capital of 250,000,000 shares, consisting of 200,000,000 shares of Common Stock, par value \$0.001 per share, and 50,000,000 shares of Preferred Stock, par value \$0.001 per share.

COMMON STOCK

As of September 30, 1997, the Company had 12,577,884 shares of Common Stock outstanding held of record by 105 persons, and had reserved for issuance 3,763,000 shares of Common Stock with respect to outstanding options and warrants, including 1,800,000 shares pursuant to warrants exercisable at \$50.00 per share and expiring in 2005.

Holder of the Company's Common Stock are entitled to cast one vote for each share held of record on all matters acted upon at any stockholders' meeting and to dividends if, as and when declared by the Board of Directors out of funds legally available therefor. There are no cumulative voting rights. In the event of any liquidation, dissolution or winding up of the Company, each holder of the Company's Common Stock will be entitled to participate, subject to the rights of any outstanding Preferred Stock, ratably in all assets of the Company remaining after payment of liabilities. Holders of the Company's Common Stock have no preemptive or conversion rights. All outstanding shares of

67

Common Stock are, and the shares of Common Stock offered hereby will be when issued against the consideration set forth in this prospectus, fully paid and non-assessable.

The Company's Common Stock is quoted on the Nasdaq National Market under the symbol 'CDRD.'

PREFERRED STOCK

The Board of Directors has the authority to issue shares of Preferred Stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof including dividend rights, conversion rights, voting rights, redemption rights, liquidation preferences and the number of shares constituting any series, without any further vote or action by the stockholders. The issuance of Preferred Stock with voting and conversion rights may adversely affect the voting power of the holders of Common Stock. In addition, because the terms of such Preferred Stock may be fixed by the Board of Directors without stockholder action, the Preferred Stock could be designated and issued quickly in the event the Company determines to issue preferred stock to raise additional equity capital. The Preferred Stock could also be designated and issued with terms calculated to deter, delay or defeat a proposed takeover of the Company, or with terms making the removal of management more difficult. Under certain circumstances, this could have the effect of decreasing the market price of the Common Stock. Otherwise, the Company currently has no plans to issue Preferred Stock.

5% DELAYED CONVERTIBLE PREFERRED STOCK

On March 19, 1997, the Board of Directors authorized the issuance of up to 8,000,000 shares of the 5% Preferred Stock. As of September 30, 1997, there were 5,222,608 shares of the 5% Preferred Stock outstanding held of record by 37 entities. In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of Series C Preferred Stock. The Company has agreed to grant a warrant to purchase an additional 486,000 shares of 5% Preferred Stock at a price of \$25.00 per share to Libra Investments, Inc. ('Libra'), the original placement agent for the 5% Preferred Stock. Following consummation of the Exchange Offer, the Company will instead grant Libra a warrant to purchase 121,500 shares of Series C Preferred Stock at a price of \$100.00 per share.

10 1/2% SERIES C CONVERTIBLE PREFERRED STOCK

On October 13, 1997, the Board of Directors authorized the issuance of up to 7,000,000 shares of the 10 1/2% Series C Convertible Preferred Stock (the 'Series C Preferred Stock'). In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of Series C Preferred Stock.

Dividends. The annual dividend rate per share of the Series C Preferred Stock will be an amount equal to 10.5% of the sum of (x) the Liquidation Preference (as defined herein) of the Series C Preferred Stock and (y) all accrued and unpaid dividends, if any, whether or not declared, from the date of issuance of the shares of Series C Preferred Stock to the applicable dividend payment date. Dividends on the shares of Series C Preferred Stock will be cumulative, accruing quarterly and, when and as declared by the Board of Directors of the Company, will be payable quarterly initially on November 15, 2002 (the 'First Scheduled Dividend Payment Date') and on February 15, May 15, August 15 and November 15 of each year (each, a 'Dividend Payment Date') in each

year thereafter. In addition, accrued dividends on the shares of Series C Preferred Stock will be paid on the redemption date of any share of Series C Preferred Stock redeemed by the Company, on the purchase date of any share of Series C Preferred Stock purchased by the Company pursuant to an Offer to Purchase (as defined herein) or on the conversion date of any share of Series C Preferred Stock converted into shares of Common Stock on or after the First Scheduled Dividend Payment Date. No accrued dividends will be paid on any shares of Series C Preferred Stock that are converted by the holders thereof prior to the First Scheduled Dividend Payment Date, unless such shares of Series C Preferred Stock are converted on or prior to a redemption date by holders thereof electing to convert such shares after having received a notice of redemption for such shares. Dividends may be paid in cash, shares of Common Stock or any combination thereof, at the option of the Company. Common Stock issued to pay dividends will be valued at the average closing price of the Common Stock as reported in The Wall

Street Journal for the 20 consecutive trading days immediately preceding the date of such payment. Dividends with respect to any share of Series C Preferred Stock will accumulate from November 15, 1997.

If and so long as any full cumulative dividends payable on the shares of Series C Preferred Stock in respect of all prior dividend periods will not have been paid or set apart for payment, the Company will not pay any dividends or make any distributions of assets on or redeem, purchase or otherwise acquire for consideration shares of capital stock of the Company ranking junior to or on a par with the Series C Preferred Stock in payment of dividends.

Redemption. Except as described below, the shares of Series C Preferred Stock may not be redeemed by the Company at its option prior to November 15, 2002. From and after November 15, 1999 and prior to November 15, 2002, the Company may redeem shares of Series C Preferred Stock, in whole or in part, at any time at a redemption price of 100% of the Liquidation Preference of the shares of Series C Preferred Stock redeemed, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date, if the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days prior to the notice of redemption thereof equals or exceeds \$31.50 per share (subject to adjustments). From and after November 15, 2002, the Company may redeem shares of Series C Preferred Stock, in whole or in part, at the following redemption prices per share, expressed as percentages of the Liquidation Preference thereof, if redeemed during the 12-month period beginning November 15 in the year indicated below:

<TABLE>
<CAPTION>

YEAR	PERCENTAGE
2002.....	105.25%
2003.....	103.50
2004.....	101.75
2005 and thereafter.....	100.00

</TABLE>

plus, in each case, accrued and unpaid dividends, if any, to the redemption date.

Following the issuance of the Series C Preferred Stock, within 30 days of the closing date of the first offering by the Company of debt securities in excess of \$50,000,000 pursuant to a registration statement filed with the Commission under the Securities Act or pursuant to Rule 144A under the Securities Act, the Company may redeem up to 50% of the outstanding shares of Series C Preferred Stock at a redemption price of 100% of the Liquidation Preference of the shares of Series C Preferred Stock redeemed, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date. On November 15, 2012 (the 'Mandatory Redemption Date'), the Company is required to redeem all outstanding shares of Series C Preferred Stock at a redemption price of 100% of the Liquidation Preference of the shares of Series C Preferred Stock, plus accrued and unpaid dividends, if any, whether or not declared, to the Mandatory Redemption Date.

The amount paid to the holders of shares of Series C Preferred Stock upon redemption which is allocable to the Liquidation Preference of the shares of Series C Preferred Stock shall be paid in cash and the amount of any accrued and unpaid dividends to be paid on the shares of Series C Preferred Stock redeemed shall be paid in cash, shares of Common Stock or any combination thereof at the option of the Company.

Change in Control. Upon the occurrence of a Change in Control, the Company must make an offer to purchase (an 'Offer to Purchase') all then outstanding

shares of Series C Preferred Stock at a purchase price (the 'Change in Control Purchase Price') in cash equal to 101% of their Liquidation Preference, plus all accrued and unpaid dividends (paid in cash), if any, whether or not declared, to the date such shares are purchased (the 'Change in Control Purchase Date'). A 'Change in Control' is defined as the occurrence of any of the following events: (a) any 'person' or 'group' (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act), other than Loral Space, Arianespace or David Margolese is or becomes the 'beneficial owner' (as defined in Rules 13d-3 and 13d-5 under the Exchange Act, except that a person shall be deemed to have 'beneficial ownership' of all securities that such person has the right to acquire, whether such right is exercisable immediately or only after the passage of time), directly or indirectly, of more than 40% of the total outstanding voting stock of the Company; (b) the Company consolidates with, or merges with or into another person or conveys,

69

transfers, leases or otherwise disposes of all or substantially all of its assets to any person, or any person consolidates with or merges with or into the Company, in any such event, pursuant to a transaction in which the outstanding voting stock of the Company is converted into or exchanged for cash, securities or other property, other than, at all times when the Notes are outstanding, those transactions that are not deemed a 'Change of Control' under the terms of the Indenture; (c) during any consecutive two-year period, individuals who at the beginning of such period constituted the Board of Directors of the Company (together with any new directors whose election to such Board of Directors, or whose nomination for election by the stockholders of the Company, was approved by a vote of 66 2/3% of the directors then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of the Board of Directors of the Company then in office; or (d) the Company is liquidated or dissolved or a special resolution is passed by the shareholders of the Company approving the plan of liquidation or dissolution, other than, at all times when the Notes are outstanding, those transactions that are not deemed a 'Change of Control' under the terms of the Indenture.

Conversion. Each share of Series C Preferred Stock may be converted at any time, at the option of the holder, unless previously redeemed, into a number of shares of Common Stock calculated by dividing the Liquidation Preference of the Series C Preferred Stock (without accrued and unpaid dividends) by a conversion price (the 'Conversion Price') equal to (x) prior to the date of the first underwritten public offering of the Company's Common Stock following the initial issuance of the Series C Preferred Stock, \$21.00 and (y) thereafter, the lower of \$21.00 per share or the issue price per share of the Common Stock in such underwritten public offering. The Conversion Price will not be adjusted at any time for accrued and unpaid dividends on the shares of Series C Preferred Stock, but will be subject to adjustment for the occurrence of certain corporate events affecting the Common Stock. Upon conversion, at any time after the First Scheduled Dividend Payment Date, holders of the Series C Preferred Stock will be entitled to receive all accrued and unpaid dividends upon the shares of Series C Preferred Stock converted payable in cash or shares of Common Stock, or a combination thereof, at the option of the Company. No accrued dividends will be paid on any shares of Series C Preferred Stock that are converted by the holders thereof prior to the First Scheduled Dividend Payment Date, unless such shares of Series C Preferred Stock are converted prior to a redemption date by holders thereof electing to convert such shares after having received a notice of redemption for such shares. Common Stock issued to pay dividends will be valued at the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days immediately preceding the date of such payment.

The Conversion Price for shares of Series C Preferred Stock is subject to adjustment in certain events, including (i) dividends and other distributions payable in Common Stock on any class of capital stock of the Company, (ii) the issuance to all holders of Common Stock of rights or warrants entitling them to subscribe for or purchase Common Stock at less than fair market value, (iii) subdivisions, combinations and reclassifications of the Common Stock, (iv) distributions to all holders of Common Stock of evidences of indebtedness of the Company or assets and (v) a consolidation or merger to which the Company is a party or the sale or transfer of all or substantially all of the assets of the Company.

Automatic Exchange. If the Company has not consummated one or more Qualifying Offerings yielding gross proceeds in an aggregate cash amount of at least \$100 million by May 15, 1998 (the 'Automatic Exchange Date'), all outstanding shares of Series C Preferred Stock shall be exchanged automatically (the 'Automatic Exchange') for shares of the Series D Preferred Stock, with an initial liquidation preference of \$102.50 on the Automatic Exchange Date, at an exchange rate of one share of Series D Preferred Stock for each \$100 of Automatic Exchange Rate Liquidation Preference represented by the shares of Series C Preferred Stock held by any holder. The 'Automatic Exchange Rate Liquidation Preference' for the shares of Series C Preferred Stock shall be

\$69.6145 per share (the amount determined by multiplying (x) the Liquidation Preference for the Series C Preferred Stock (without accrued and unpaid dividends thereon), by (y) 0.696145.) The Company will pay cash to holders of Series C Preferred Stock in lieu of issuing fractional shares of Series D Preferred Stock in the Automatic Exchange. Although holders of Series C Preferred Stock will not be entitled to receive accrued dividends thereon on or after the Automatic Exchange Date, shares of Series D Preferred

70

Stock will be issued with an initial liquidation preference equal to \$102.50. For a description of the terms, preferences and rights of the Series D Preferred Stock, see ' -- Series D Preferred Stock.'

In the event of an Automatic Exchange, the Company will give written notice to the holders of record on the Automatic Exchange Date of shares of Series C Preferred Stock at their addresses appearing on the books of the Company that the shares of Series C Preferred Stock have been automatically exchanged into shares of Series D Preferred Stock. The notice of exchange will specify the number of shares of Series D Preferred Stock into which the shares of Series C Preferred Stock have been automatically exchanged and the place where the holders are to deliver the certificates evidencing shares of Series C Preferred Stock in exchange for certificates evidencing shares of Series D Preferred Stock. Thereafter, the holders will surrender their certificates evidencing shares of Series C Preferred Stock at the place designated in the notice of exchange. As promptly as practicable after receipt of such certificates, the Company will issue and deliver to each holder a certificate or certificates for the number of shares of Series D Preferred Stock to which such holder is entitled. Shares of Series D Preferred Stock will be deemed to have been exchanged immediately prior to the close of business on the Automatic Exchange Date and the holders of the Series C Preferred Stock of record on such date shall be treated for all purposes as the record holders of the Series D Preferred Stock at such time.

Voting Rights. Other than the consent rights described below with respect to certain corporate actions, and except as otherwise provided by applicable law, holders of shares of Series C Preferred Stock will have no voting rights. Consent of the holders of a majority of the outstanding shares of Series C Preferred Stock will be required before the Company may take certain corporate actions, including (i) any amendment, alteration or repeal of any of the provisions of the Company's Certificate of Incorporation or Bylaws which affects adversely the voting powers, rights or preferences of the holders of the shares of Series C Preferred Stock, (ii) the authorization or creation of, or the increase in authorized amount of, any shares of any class or series of equity securities that ranks senior to or on a parity with the Series C Preferred Stock with respect to dividend rights and rights upon liquidation, winding up or dissolution and (iii) the merger or consolidation of the Company with or into any other entity, unless the resulting corporation will thereafter have no class or series of shares and no other securities either authorized or outstanding ranking prior to, or on a parity with, the Series C Preferred Stock in the payment of dividends or the distribution of its assets on liquidation, dissolution or winding up. In addition, in the event that (i) after the First Scheduled Dividend Payment Date, dividends payable on the shares of Series C Preferred Stock shall be in arrears in an aggregate amount equal to at least six quarterly dividend payments, (ii) the Company fails to redeem all of the outstanding shares of Series C Preferred Stock on the Mandatory Redemption Date, or (iii) the Company fails to make an Offer to Purchase upon a Change in Control, the holders of a majority of the outstanding shares of Series C Preferred Stock, voting as a class, will be entitled to elect (i) one director in the event that there are seven or fewer directors on the Board of Directors at such time or (ii) two directors in the event that there are eight or more directors on the Board of Directors at such time.

In exercising the voting rights set forth herein or when otherwise granted voting rights by operation of law, each share of Series C Preferred Stock will be entitled to one vote per share.

No consent of the holders of the Series C Preferred Stock will be required for (i) the creation of any indebtedness of any kind of the Company or (ii) the authorization or issuance of any class of capital stock of the Company ranking junior to the Series C Preferred Stock in payment of dividends or upon liquidation, dissolution or winding up of the Company.

Liquidation. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, before any distribution of the assets of the Company to the holders of shares of Common Stock or any other capital stock of the Company ranking junior to the Series C Preferred Stock upon liquidation, dissolution or winding up of the Company, the holders of shares of Series C Preferred Stock will be entitled to receive out of the assets of the Company available for distribution to its stockholders, whether from capital, surplus or earnings, an amount per share of Series C Preferred Stock equal to \$100.00 (the 'Liquidation Preference'), plus accrued and unpaid dividends on

such share of Series C Preferred Stock, if any, to the date of final distribution.

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, before any distribution of assets of the Company to the holders of shares of Series C Preferred Stock or

71

any capital stock of the Company ranking on a par with the shares of Series C Preferred Stock, the holders of any shares of capital stock of the Company ranking senior to the Series C Preferred Stock and such parity stock shall be entitled to receive out of the assets of the Company available for distribution to its stockholders, whether from capital, surplus or earnings, an amount per share of such senior stock equal to the liquidation preference thereof, plus accrued and unpaid dividends thereon, if any, to the date of final distribution.

If, upon any liquidation, dissolution or winding up of the Company, the amounts payable with respect to the shares of Series C Preferred Stock or any capital stock ranking on a par with the shares of Series C Preferred Stock are not paid in full, then such holders will share ratably in any such distribution of assets, or proceeds thereof, in proportion to the full respective preferential amounts to which they are entitled. Neither a consolidation nor a merger of the Company with one or more other corporations, nor a sale or a transfer of all or substantially all of the assets of the Company, will be deemed to be a voluntary or involuntary liquidation, dissolution or winding up of the Company.

SERIES D PREFERRED STOCK

On October 13, 1997, the Board of Directors approved the issuance of up to 7,000,000 shares of Series D Preferred Stock. Shares of Series D Preferred Stock will be issued in the event of an Automatic Exchange with respect to the New Preferred Stock. See ' -- 10 1/2% Series C Convertible Preferred Stock -- Automatic Exchange.'

PREFERRED STOCK PURCHASE RIGHTS

On October 22, 1997, the Board of Directors adopted a stockholders rights plan and, in connection with the adoption of such plan, declared a dividend distribution of one 'Right' for each outstanding share of Common Stock (a 'Common Share') of the Company to stockholders of record at the close of business on November 3, 1997 (the 'Rights Record Date'). Except as set forth below, each Right will entitle the registered holder thereof to purchase from the Company one one-hundredth of a share of Series B Preferred Stock, par value \$0.001 per share (the 'Series B Shares'), at a purchase price of \$115.00 (the 'Purchase Price'), subject to adjustment. The Purchase Price shall be paid in cash. The description and terms of the Rights will be set forth in a Rights Agreement (the 'Rights Agreement') to be entered into by the Company and Continental Stock Transfer & Trust Company, as Rights Agent.

Initially, no separate Right Certificates will be distributed and the Rights will be evidenced, with respect to any Common Shares outstanding on the Rights Record Date, by the certificates representing such Common Shares. Until the Separation Date (as defined below), the Rights will be transferred with, and only with, Common Share certificates. Until the earlier of the Separation Date and the redemption or expiration of the Rights, new Common Share certificates issued after the Rights Record Date will contain a notation incorporating the Rights Agreement by reference. The Rights are not exercisable until the earlier to occur of (a) 10 business days following a public announcement that a person or

72

group of affiliated or associated persons (an 'Acquiring Person') has acquired, or obtained the right to acquire, beneficial ownership of 15% or more of the outstanding Common Shares (except by reason of (i) exercise by such person of stock options granted to such person by the Company pursuant to any stock option or similar plan of the Company (ii) the exercise of conversion rights contained in specified classes of Preferred Stock, or (iii) the exercise of Warrants owned on the date of the Rights Agreement to acquire Common Shares deemed to be beneficially owned by such person on such date, which will include warrants to acquire 1,740,000 Common Shares to be issued to an affiliate of Everest Capital Fund, Ltd.) or (b) 15 business days following the commencement of a tender offer or exchange offer by any person (other than the Company, any subsidiary of the Company or any employee benefit plan thereof) if, upon consummation hereof, such

person or group would be the beneficial owner of 15% or more of such outstanding Common Shares (the earlier of such dates being called the 'Separation Date'), and will expire on October 22, 2002, unless earlier redeemed by the Company as described below. As soon as practicable following the Separation Date, separate certificates evidencing the Rights ('Right Certificates') will be mailed to holders of record of the Common Shares as of the close of business on the Separation Date and, thereafter, such separate Right Certificates alone will evidence the Rights. A holder of 15% or more of the Common Stock as of the date of the Rights Agreement will be excluded from the definition of 'Acquiring Person' unless such holder increases the aggregate percentage of its and its affiliates' beneficial ownership interest in the Company by an additional 1%.

In the event that, at any time following the Separation Date, (a) the Company is the surviving corporation in a merger with an Acquiring Person and the Company's Common Shares are not changed or exchanged, (b) a person (other than the Company, any subsidiary of the Company or any employee benefit plan thereof), together with its Affiliates and Associates (as defined in the Rights Agreement), becomes an Acquiring Person (in any manner, except pursuant to (i) the exercise of stock options granted pursuant to the Company's existing and future stock option plans, (ii) the exercise of conversion rights contained in specified Preferred Stock issues of the Company, (iii) the exercise of certain warrants specified in the Rights Agreement and (iv) a tender offer for any and all outstanding Common Shares made in accordance with applicable laws, which remains open for at least 40 Business Days and into which holders of 80% or more of the Company's outstanding Common Shares tender their shares), (c) an Acquiring Person engages in one or more 'self-dealing' transactions as set forth in the Rights Agreement or (d) during such time as there is an Acquiring Person, an event occurs (e.g., a reverse stock split), that results in such Acquiring Person's ownership interest being increased by more than one percent, the Rights Agreement provides that proper provision shall be made so that each holder of a Right will thereafter be entitled to receive, upon the exercise thereof at the then current exercise price of the Right, Common Shares (or, in certain circumstances, cash, property or other securities of the Company) having a value equal to two times the exercise price of the Right.

In the event that, at any time following the first date of public announcement by the Company or an Acquiring Person indicating that an Acquiring Person has become such (the 'Shares Acquisition Date'), (a) the Company consolidates or merges with another person and the Company is not the surviving corporation, (b) the Company consolidates or merges with another person and is the surviving corporation, but in such transaction its Common Shares are changed or exchanged or (c) 50% or more of the Company's assets or earning power is sold or transferred, the Rights Agreement provides that proper provision shall be made so that each holder of a Right shall thereafter have the right to receive, upon the exercise thereof at the then current exercise price of the Right, common shares of the acquiring company having a value equal to two times the exercise price of the Right.

The Board may, at its option, at any time after the right of the Board to redeem the Rights has expired or terminated (with certain exceptions), exchange all or part of the then outstanding and exercisable Rights (other than those held by the Acquiring Person and Affiliates and Associates of the Acquiring Person) for Common Shares at a ratio of one Common Share per Right, as adjusted; provided, however, that such Right cannot be exercised once a Person, together with such Person's Affiliates and Associates, becomes the beneficiary owner of 50% or more of the Common Shares then outstanding. If the Board authorizes such an exchange, the Rights will immediately cease to be exercisable.

73

Notwithstanding any of the foregoing, following the occurrence of any of the events set forth in the fourth and fifth paragraphs of this section, any Rights that are, or (under certain circumstances specified in the Rights Agreement) were, beneficially owned by any Acquiring Person or Affiliate or Associate thereof shall immediately become null and void. The Rights Agreement contains provisions intended to prevent the utilization of voting trusts or similar arrangements (except for the voting arrangement between two of the Company's principal stockholders and the Company) that could have the effect of rendering ineffective or circumventing the beneficial ownership rules set forth in the Rights Agreement.

The Purchase Price payable, and the number of Series B Shares or other securities or property issuable, upon exercise of the Rights are subject to adjustment from time to time to prevent dilution (a) in the event of a dividend of Series B Shares on, or a subdivision, combination or reclassification of, the Series B Shares, (b) upon the grant to holders of the Series B Shares of certain rights or warrants to subscribe for Series B Shares or securities convertible into Series B Shares at less than the current market price of the Series B Shares or (c) upon the distribution to holders of the Series B Shares of debt securities or assets (excluding regular quarterly cash dividends and dividends

payable in Series B Shares) or of subscription rights or warrants (other than those referred to above).

At any time after the date of the Rights Agreement until ten Business Days (as defined in the Rights Agreement) (a period that can be extended) following the Shares Acquisition Date, the Board of Directors, with the concurrence of a majority of the Independent Directors (those members of the Board who are not officers or employees of the Company or of any Subsidiary of the Company and who are not Acquiring Persons or their Affiliates, Associates, nominees or representatives, and who either (a) were members of the Board prior to the adoption of the Rights Plan or (b) were subsequently elected to the Board and were recommended for election or approved by a majority of the Independent Directors then on the Board), may redeem the Rights, in whole but not in part, at a price of \$0.01 per Right, subject to adjustment (the 'Redemption Price'). Thereafter, the Board may only redeem the Rights in certain specified circumstances including in connection with certain events not involving an Acquiring Person or an Affiliate or Associate of an Acquiring Person. In addition, the Company's right of redemption may be reinstated if (a) an Acquiring Person reduces its beneficial ownership to 10% or less of the outstanding Common Shares in a transaction or series of transactions not involving the Company and (b) there is at such time no other Acquiring Person. The Rights Agreement may also be amended, as described below, to extend the period of redemption.

Until a Right is exercised, the holder thereof, as such, will have no rights as a shareholder of the Company, including, without limitation, the right to vote or to receive dividends. While the distribution of the Rights will not be taxable to shareholders or to the Company, shareholders may, depending upon the circumstances, recognize taxable income in the event that the Rights become exercisable for Common Shares (or other consideration) of the Company or for common shares of the Acquiring Person as set forth above.

Other than those provisions relating to the principal economic terms of the Rights or imposing limitations on the right to amend the Agreement, any of the provisions of the Rights Agreement may be amended by the Board with the concurrence of a majority of the Independent Directors or by special approval of the stockholders of the Company prior to the Separation Date. Thereafter, the period during which the Rights may be redeemed may be extended (by action of the Board, with the concurrence of a majority of the Independent Directors or by special approval of the stockholders of the Company), and other provisions of the Rights Agreement may be amended by action of the Board with the concurrence of a majority of the Independent Directors or by special approval of the shareholders of the Company; provided, however, that (a) such amendment will not adversely affect the interests of holders of Rights (excluding the interests of any Acquiring Person) and (b) no amendment shall be made at such time as the Rights are no longer redeemable (except for the possibility of the right of redemption being reinstated as described above).

DELAWARE ANTI-TAKEOVER LAW AND CERTAIN CHARTER PROVISIONS

Section 203 of the Delaware General Corporation Law ('Section 203') generally provides that a stockholder acquiring more than 15% of the outstanding voting stock of a corporation subject to the statute (an 'Interested Stockholder') but less than 85% of such stock may not engage in certain

Business Combinations (as defined in Section 203) with the corporation for a period of three years after the time the stockholder became an Interested Stockholder unless (i) prior to such time, the corporation's board of directors approved either the Business Combination or the transaction in which the stockholder became an Interested Stockholder or (ii) the Business Combination is approved by the corporation's board of directors and authorized at a stockholders' meeting by a vote of at least two-thirds of the corporation's outstanding voting stock not owned by the Interested Stockholder. Under Section 203, these restrictions will not apply to certain Business Combinations proposed by an Interested Stockholder following the earlier of the announcement or notification of one of certain extraordinary transactions involving the corporation and a person who was not an Interested Stockholder during the previous three years, who became an Interested Stockholder with the approval of the corporation's board of directors or who became an Interested Stockholder at a time when the restrictions contained in Section 203 did not apply for reasons specified in Section 203, if such extraordinary transaction is approved or not opposed by a majority of the directors who were directors prior to such person becoming an Interested Stockholder during the previous three years or were recommended for election or elected to succeed such directors by a majority of such directors.

Section 203 defines the term 'Business Combination' to encompass a wide variety of transactions with or caused by an Interested Stockholder, including transactions in which the Interested Stockholder receives or could receive a benefit on other than a pro rata basis with other stockholders, transactions

with the corporation which increase the proportionate interest in the corporation directly or indirectly owned by the Interested Stockholder or transactions in which the Interested Stockholder receives certain other benefits.

The provisions of Section 203, coupled with the Board's authority to issue preferred stock without further stockholder action, could delay or frustrate the removal of incumbent directors or a change in control of the Company. The provisions also could discourage, impede or prevent a merger, tender offer or proxy contest, even if such event would be favorable to the interests of stockholders. The Company's stockholders, by adopting an amendment to the Company's Amended and Restated Certificate of Incorporation (the 'Certificate'), may elect not to be governed by Section 203 effective 12 months after such adoption. Neither the Certificate nor the Company's Amended and Restated Bylaws exclude the Company from the restrictions imposed by Section 203.

TRANSFER AGENT

The transfer agent and registrar for the Common Stock, the 5% Preferred Stock and the Series C Preferred Stock is Continental Stock Transfer & Trust Company, New York, New York.

SHARES ELIGIBLE FOR FUTURE SALE

SHARES ELIGIBLE FOR FUTURE SALE

Upon the consummation of the Stock Offerings, the Company will have 15,377,844 shares of Common Stock outstanding, assuming no exercise of (i) the Underwriters' over-allotment option and (ii) outstanding options. Of these shares, 9,695,896 shares will be freely tradeable without restriction under the Securities Act unless such shares are purchased in the Stock Offerings by Affiliates. Of the remaining 6,381,988 shares of Common Stock, 3,547,488 shares are Restricted Shares. Restricted Shares may be sold in the public market only if registered or if they qualify for an exemption from registration under Rules 144, 144(k) or 701 promulgated under the Securities Act. Up to 1,642,000 of the Restricted Shares held by the directors and certain officers of the Company will be eligible for sale, subject to the restrictions of Rule 144, upon expiration of the Lock-up Agreements, which shall expire, with respect to a Lock-up Agreement concerning 1,600,000 of such shares, on a cumulative basis as to 25% of such 1,600,000 shares at the expiration of each of the 15th, 18th, 21st and 24th month following August 26, 1997, and, with respect to Lock-up Agreements concerning the remaining 42,000 shares, 180 days after the effective date of the Stock Offerings. The remaining 1,905,488 Restricted Shares will not become eligible for resale until August 1998, and then only pursuant to the restrictions under Rule 144. In addition, the Company's largest stockholder has entered into a lock-up agreement relating to 2,834,500 shares lasting for a period ending, on a cumulative basis, as to 25% of the shares of Common Stock

75

owned by such holder, on the expiration of the 15th, 18th, 21st and 24th month following August 26, 1997. As such shares become free of such lock-up, they will be eligible for sale without restriction.

In general, under Rule 144 as currently in effect, beginning 90 days after the conclusion of the Stock Offerings, a person (or persons whose shares are aggregated) who has beneficially owned restricted shares for at least one year, including persons who may be deemed 'affiliates' of the Company, will be entitled to sell in any three month period a number of shares that does not exceed the greater of (i) 1% of the then outstanding shares of Common Stock or (ii) the average weekly trading volume of the Common Stock during the four calendar weeks immediately preceding the date on which notice of the sale is filed with the Securities and Exchange Commission. Sales pursuant to Rule 144 are also subject to certain other requirements relating to manner of sale, notice and availability of current public information about the Company. A person (or persons whose shares are aggregated) who is not deemed to have been an affiliate of the Company at any time during the three months immediately preceding the sale is entitled to sell restricted shares pursuant to Rule 144(k) without regard to the limitations described above, provided that two years have expired since the later of the date on which such restricted shares were first acquired from the Company or from an affiliate of the Company. Certain of the Company's current stockholders have demand and incidental registration rights. See 'Principal Stockholders.'

The Company has granted options to purchase 1,733,000 shares of Common Stock to certain directors, officers and key employees of the Company pursuant to the stock plans. Of the shares underlying these outstanding options, 1,705,000 are subject to the agreements described above restricting the sale of such shares for a period of 180 days after the date of this Prospectus. Following the Stock Offerings, the Company intends to file a registration

statement under the Securities Act to register shares of Common Stock issuable upon the exercise of stock options granted under the Company's stock option plans. Except as limited by the agreements described above and by Rule 144 volume limitations applicable to affiliates, shares issued upon the exercise of stock options after the effective date of such registration statement generally will be available for sale in the open market.

The Company is unable to predict the effect that sales made under Rule 144, pursuant to future registration statements, or otherwise, may have on any then prevailing market price for shares of the Common Stock. Nevertheless, sales of a substantial amount of Common Stock in the public market, or the perception that such sales could occur, could adversely affect market prices.

UNDERWRITING

Subject to the terms and conditions set forth in a U.S. purchase agreement (the 'U.S. Purchase Agreement') among the Company and each of the underwriters named below (the 'U.S. Underwriters') and concurrently with the sale of 560,000 shares of Common Stock to the International Managers (as defined below), the Company has agreed to sell to each of the U.S. Underwriters, and each of the U.S. Underwriters for whom Merrill Lynch, Pierce, Fenner & Smith Incorporated ('Merrill Lynch'), Lehman Brothers Inc. and C.E. Unterberg, Towbin are acting as representatives (the 'U.S. Representatives'), has severally agreed to purchase from the Company, the number of shares of Common Stock set forth opposite its name below.

<TABLE>
<CAPTION>

U.S. UNDERWRITERS	NUMBER OF SHARES

<S>	<C>
Merrill Lynch, Pierce, Fenner & Smith Incorporated.....	
Lehman Brothers Inc.....	
C.E. Unterberg, Towbin.....	

Total.....	2,240,000

</TABLE>

The Company has also entered into an international purchase agreement (the 'International Purchase Agreement' and, together with the U.S. Purchase Agreement, the 'Purchase Agreements') with certain underwriters outside the United States and Canada (the 'International Managers' and, together with the U.S. Underwriters, the 'Underwriters') for whom Merrill Lynch International, Lehman Brothers International (Europe) and C.E. Unterberg, Towbin are acting as representatives (the 'International Representatives'). Subject to the terms and conditions set forth in the International Purchase Agreement, and concurrently with the sale of 2,240,000 shares of Common Stock to the U.S. Underwriters pursuant to the U.S. Purchase Agreement, the Company has agreed to sell to the International Managers, and the International Managers severally have agreed to purchase, an aggregate of 560,000 shares of Common Stock. The public offering price per share and the underwriting discount per share of Common Stock are identical under the U.S. Purchase Agreement and the International Purchase Agreement.

In each Purchase Agreement, the several U.S. Underwriters and the several International Managers, respectively have agreed, subject to the terms and conditions set forth in such Purchase Agreement, to purchase all the shares of Common Stock offered hereby, if any are purchased. In the event of default by an Underwriter, the Purchase Agreement provides that, in certain circumstances, purchase commitments of the nondefaulting Underwriters may be increased or the Purchase Agreement may be terminated. The sale of Common Stock to the U.S. Underwriters is conditioned upon the sale of shares of Common Stock to the International Managers, and vice versa.

The U.S. Underwriters and the International Managers have entered into an Intersyndicate agreement (the 'Intersyndicate Agreement') that provides for the coordination of their activities. Pursuant to the Intersyndicate Agreement, the U.S. Underwriters and the International Managers are permitted to sell shares of Common Stock to each other for purposes of resale at the initial public offering

price set forth on the cover page of this Prospectus, less an amount not greater than the selling concession. Under the terms of the Intersyndicate Agreement, the U.S. Underwriters and any dealer to whom they sell shares of Common Stock will not offer to sell or sell shares of Common Stock to persons who are non-U.S. or non-Canadian persons, or to persons they believe intend to resell to persons who are non-U.S. or non-Canadian persons, and the International Managers and any dealer to whom they sell shares of Common Stock will not offer to sell or sell shares of Common Stock to U.S.

77

persons or Canadian persons or to persons they believe intend to resell to U.S. persons or Canadian persons, except, in each case, for transactions pursuant to the Intersyndicate Agreement.

The U.S. Representatives have advised the Company that the U.S. Underwriters propose initially to offer the shares of Common Stock to the public at the public offering price set forth on the cover page of this Prospectus, and to certain dealers at such price less a concession not in excess of \$ per share of Common Stock. The U.S. Underwriters may allow, and such dealers may reallocate, a discount not in excess of \$ per share of Common Stock on sales to certain other dealers. After the initial public offering, the public offering price, concession and discount may be changed.

The Company, its directors, executive officers and certain stockholders have agreed, subject to certain exceptions, not to directly or indirectly (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant for the sale of, or otherwise dispose of or transfer any Common Stock or any securities convertible into or exchangeable or exercisable for any shares of Common Stock or request the filing of any registration statement under the Securities Act, with respect to any of the foregoing or (ii) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly the economic consequence of ownership of Common Stock, whether any such swap transaction is to be settled by delivery of the Common Stock or other securities, in cash or otherwise without the prior written consent of Merrill Lynch, on behalf of the Underwriters, for a period of 180 days after the date of this Prospectus. In addition, certain stockholders have entered into lock-up agreements relating to an aggregate of 4,334,500 shares of Common Stock lasting for a period ending, on a cumulative basis, as to 25% of the shares of Common Stock owned by each such holder, on the expiration of the 15th, 18th, 21st and 24th month following August 26, 1997.

The Company has granted an option to the U.S. Underwriters, exercisable for 30 days after the date of this Prospectus, to purchase up to an aggregate of 336,000 additional shares of Common Stock at the public offering price set forth on the cover page of this Prospectus, less the underwriting discount. The U.S. Underwriters may exercise this option only to cover over-allotments, if any, made on the sale of the Common Stock offered hereby. To the extent that the U.S. Underwriters exercise this option, each U.S. Underwriter will be obligated, subject to certain conditions, to purchase a number of additional shares of Common Stock proportionate to such U.S. Underwriter's initial amount reflected in the foregoing table. The Company has also granted an option to the International Managers, exercisable for 30 days after the date of this Prospectus, to purchase up to an additional 84,000 shares of Common Stock to cover over-allotments, if any, on terms similar to those granted to U.S. Underwriters.

The Company has agreed to indemnify the several U.S. Underwriters and the International Managers against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the Underwriters may be required to make in respect thereof.

The Underwriters do not intend to confirm sales of Common Stock offered hereby to any accounts over which they exercise discretionary authority.

Until the distribution of the Common Stock is completed, rules of the Securities and Exchange Commission may limit the ability of the U.S. Underwriters and certain selling group members to bid for and purchase the Common Stock. As an exception to these rules, the U.S. Representatives are permitted to engage in certain transactions that stabilize the price of the Common Stock. Such transactions consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of the Common Stock.

If the Underwriters create a short position in the Common Stock in connection with the Offerings, (i.e., if they sell more shares of Common Stock than are set forth on the cover page of this Prospectus), the U.S. Representatives may reduce that short position by purchasing Common Stock in the open market. The U.S. Representatives may also elect to reduce any short position by exercising all or part of the over-allotment option described above.

The U.S. Representatives may also impose a penalty bid on certain Underwriters and selling group members. This means that if the U.S. Representatives purchase shares of Common Stock in the open market to reduce the Underwriters' short position or to stabilize the price of the Common Stock, they

78

may reclaim the amount of the selling concession from the Underwriters and selling group members who sold those shares as part of the Stock Offerings.

In general, purchases of a security for the purpose of stabilization or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases. The imposition of a penalty bid might also have an effect on the price of a security to the extent that it were to discourage resales of the security before the distribution is completed.

The Underwriters and dealers may engage in passive market making transactions in the Common Stock in accordance with Rule 103 of Regulation M promulgated by the Commission. In general, a passive market maker may not bid for, or purchase, the Common Stock at a price that exceeds the highest independent bid. In addition, the net daily purchases made by any passive market maker generally may not exceed 30% of its average daily trading volume in the Common Stock during a specified two-month prior period or 200 shares, whichever is greater. A passive market maker must identify passive market making bids as such on the Nasdaq electronic inter-dealer reporting system. Passive market making may stabilize or maintain the market price of the Common Stock above independent market levels. The Underwriters and dealers are not required to engage in passive market making and may end passive market making activities at any time.

Neither the Company nor any of the Underwriters makes any representation or prediction, however, as to the direction or magnitude of any effect that the transactions described above may have on the price of the Common Stock. In addition, neither the Company nor any of the Underwriters makes any representation that the U.S. Representatives will engage in such transaction or that such transactions, once commenced, will not be discontinued without notice.

Pursuant to an agreement, dated October 21, 1992, Batchelder & Partners, Inc., the Company's financial advisor, will receive fees in the amount of 2% of the proceeds of the Stock Offerings.

LEGAL MATTERS

Certain legal matters relating to the securities offered hereby are being passed upon for the Company by Paul, Weiss, Rifkind, Wharton & Garrison, New York, New York. Certain regulatory matters arising under the Communications Act are being passed upon by Wiley, Rein & Fielding, Washington, D.C. Certain legal matters are being passed upon for the Underwriters by Shearman & Sterling, New York, New York.

INDEPENDENT ACCOUNTANTS

The consolidated financial statements of the Company as of December 31, 1995 and 1996, for each of the three years in the period ended December 31, 1996, and for the period from May 17, 1990 (the date of inception) to December 31, 1996, incorporated herein by reference, have been included herein in reliance on the report of Coopers & Lybrand L.L.P., independent accountants, given on the authority of said firm as experts in accounting and auditing.

INTERNATIONAL PROSPECTUS -- ALTERNATE PAGE

SUBJECT TO COMPLETION
PRELIMINARY PROSPECTUS DATED NOVEMBER 20, 1997

PROSPECTUS

2,800,000 SHARES
[LOGO]
COMMON STOCK

All of the shares of common stock, par value \$.001 per share (the 'Common Stock'), offered hereby are being offered by CD Radio Inc. (the 'Company'). Of the 2,800,000 shares of Common Stock offered hereby, 560,000 shares are being offered outside the United States and Canada (the 'International Offering') and 2,240,000 shares are being offered in the United States and Canada (the 'U.S. Offering' and, together with the International Offering, the 'Stock Offerings'). The public offering price per share and the underwriting discount per share will be identical for both Stock Offerings. See 'Underwriting.'

The Stock Offerings are one component of a financing transaction which includes an offer to exchange (the 'Exchange Offer') shares of the Company's 10 1/2% Series C Convertible Preferred Stock (the 'Series C Preferred Stock') for shares of the Company's outstanding 5% Delayed Convertible Preferred Stock (the '5% Preferred Stock') and an underwritten public offering of Units (the 'Units') consisting of the Company's Senior Discount Notes due 2007 (the 'Notes') and warrants (the 'Warrants') to purchase additional Notes (the 'Units Offering' and, together with the Stock Offerings, the 'Offerings'). Separate registration statements have been filed for each of the Exchange Offer and the Units Offering, and such offers have been, and will be, made by separate prospectuses. On November 20, 1997 the Exchange Offer was consummated and shares of Series C Preferred Stock were exchanged for of all of the outstanding shares of 5% Preferred Stock. The consummation of the Stock Offerings is not conditioned upon the consummation of the Units Offering but is conditioned upon the consummation of the Exchange Offer and, after giving effect to the Stock Offerings, there having occurred one or more Qualifying Offerings (as defined herein) yielding gross proceeds in an aggregate cash amount of at least \$100 million.

Since October 24, 1997, the Company's Common Stock has traded on the Nasdaq National Market under the symbol 'CDRD.' On November 19, 1997, the closing bid price of the Common Stock as reported on the Nasdaq National Market was \$19 5/16 per share.

SEE 'RISK FACTORS' BEGINNING ON PAGE 14 FOR A DISCUSSION OF CERTAIN FACTORS THAT SHOULD BE CONSIDERED BY PROSPECTIVE PURCHASERS OF THE COMMON STOCK OFFERED HEREBY.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

<TABLE>

	PRICE TO PUBLIC	UNDERWRITING DISCOUNT (1)	PROCEEDS TO COMPANY (2)
<S>	<C>	<C>	<C>
Per Share.....	\$	\$	\$

- (1) The Company has agreed to indemnify the several Underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended. See 'Underwriting.'
- (2) Before deducting expenses payable by the Company estimated to be \$.
- (3) The Company has granted to the International Managers and the U.S. Underwriters options, exercisable within 30 days of the date hereof, to purchase up to an additional 84,000 and 336,000 shares of Common Stock, respectively, solely to cover over-allotments, if any. If such options are exercised in full, the total Price to Public, Underwriting Discount and Proceeds to the Company will be \$, \$ and \$, respectively. See 'Underwriting.'

The shares of Common Stock are being offered by the several Underwriters, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of certain legal matters by counsel for the Underwriters and certain other conditions. The Underwriters reserve the right to withdraw, cancel or modify such offer and to reject orders in whole or in part. It is expected that delivery of the shares of Common Stock will be made in New York, New York on or about , 1997.

MERRILL LYNCH INTERNATIONAL
LEHMAN BROTHERS
C.E. UNTERBERG, TOWBIN

The date of this Prospectus is , 1997.

Information contained herein is subject to completion or amendment. A registration statement relating to these securities has been filed with the Securities and Exchange Commission. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This prospectus shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any State in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such State.

INTERNATIONAL PROSPECTUS -- ALTERNATE PAGE -- (CONTINUED)

CERTAIN UNITED STATES FEDERAL TAX CONSEQUENCES
TO NON-UNITED STATES HOLDERS OF COMMON STOCK

The following is a general discussion of certain U.S. Federal income and estate tax consequences of the ownership and disposition of Common Stock by a 'Non-United States Holder.' A 'Non-United States Holder' is a person or entity that, for U.S. Federal income tax purposes, is (i) a non-resident alien individual, (ii) a foreign corporation or partnership, or (iii) a non-resident fiduciary of a foreign estate or trust.

This discussion is based on the Internal Revenue Code of 1986, as amended (the 'Code'), and administrative interpretations as of the date hereof, all of which may be changed either retroactively or prospectively. This discussion does not address all aspects of U.S. Federal income and estate taxation that may be relevant to Non-United States Holders in light of their particular circumstances and does not address any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

Prospective holders should consult their tax advisors with respect to the United States Federal, state, local and non-United States income and other tax consequences to them of holding and disposing of Common Stock.

DIVIDENDS

Subject to the discussion below, dividends paid to a Non-United States Holder of Common Stock generally will be subject to withholding tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty unless the dividend is effectively connected with the conduct of a trade or business within the United States, or, if an income tax treaty applies, is attributable to a United States permanent establishment of the Non-United States Holder and the Non-United States Holder provides the payor with proper documentation (generally Form 4224).

In order to claim the benefit of an applicable tax treaty rate, a

Non-United States Holder may have to file with the Company or its dividend paying agent an exemption or reduced treaty rate certificate or letter in accordance with the terms of such treaty. Under United States Treasury regulations currently in effect, for purposes of determining whether tax is to be withheld at a 30% rate or at a reduced rate as specified by an income tax treaty, the Company ordinarily will presume that dividends paid to the address in a foreign country are paid to a resident of such country absent knowledge that such presumption is not warranted (the 'address rule'). However, on October 6, 1997, the U.S. Treasury Department issued final regulations on withholding of income tax payments to foreign persons, effective January 1, 1999, which will abolish the address rule. Effective January 1, 1999, a Non-United States Holder seeking a reduced rate of withholding under an income tax treaty would generally be required to provide to the Company a valid Internal Revenue Service Form W-8 certifying that such Non-United States Holder is entitled to benefits under an income tax treaty. The final regulations also provide special rules for determining whether, for purposes of assessing the applicability of an income tax treaty, dividends paid to a Non-United States Holder that is an entity should be treated as being paid to the entity itself or to the persons holding an interest in that entity. A Non-United States Holder who is eligible for a reduced withholding rate may obtain a refund of any excess amounts withheld by filing an appropriate claim for a refund with the Internal Revenue Service.

In the case of dividends that are effectively connected with the Non-United States Holder's conduct of a trade or business with the United States or, if an income tax treaty applies, is attributable to a United States permanent establishment of the Non-United States Holder, the Non-United States Holder will generally be subject to regular U.S. income tax in the same manner as if the Non-United States Holder were a United States resident. A Non-United States corporation receiving effectively connected dividends also may be subject to an additional 'branch profits tax' which is imposed, under certain circumstances, at a rate of 30% (or such lower rate as may be specified by an applicable treaty) of the Non-United States corporation's 'effectively connected earnings and profits,' subject to certain adjustments.

76

INTERNATIONAL PROSPECTUS -- ALTERNATE PAGE -- (CONTINUED)

GAIN ON DISPOSITION OF COMMON STOCK

A Non-United States Holder generally will not be subject to U.S. Federal income tax with respect to gain realized on a sale or other disposition of Common Stock unless (i) the gain is effectively connected with a trade or business of such Non-United States Holder in the U.S., (ii) in the case of certain Non-United States Holders who are non-resident alien individuals and hold the Common Stock as a capital asset, such individuals are present in the U.S. for 183 or more days in the taxable year of the disposition and either (a) such individuals have a 'tax home' (as defined for United States Federal income tax purposes) in the U.S., or (b) the gain is attributable to an office or other fixed place of business maintained by such individuals in the U.S., (iii) the Non-United States Holder is subject to tax, pursuant to the provisions of U.S. tax law applicable to certain U.S. expatriates whose loss of U.S. citizenship has as one of its principal purposes the avoidance of U.S. taxes, or (iv) under certain circumstances if the Company is or has been during certain time periods a 'United States real property holding corporation' within the meaning of Section 897(c)(2) of the Code and, assuming that the Common Stock is regularly traded on an established securities market for tax purposes, the Non-United States Holder held, directly or indirectly, at any time within the five-year period preceding such disposition more than 5% of the outstanding Common Stock. The Company is not, and does not anticipate becoming, a United States real property holding corporation.

INFORMATION REPORTING REQUIREMENTS AND BACKUP WITHHOLDING

Under the United States Treasury regulations, the Company must report annually to the Internal Revenue Service and to each Non-United States Holder the amount of dividends paid to such holder and any tax withheld with respect to such dividends. These information reporting requirements apply regardless of whether withholding is required because the dividends were effectively connected with a trade or business in the United States of the Non-United States Holder or withholding was reduced or eliminated by an applicable income tax treaty. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the Non-United States Holder is a resident under the provisions of an applicable income tax treaty or agreement.

United States backup withholding (which generally is a withholding tax imposed at the rate of 31% on certain payments to persons that fail to furnish certain information under the United States information reporting requirements) generally will not apply to (i) dividends paid to Non-United States Holders that are subject to the 30% withholding discussed above (or that are not so subject because a tax treaty applies that reduces or eliminates such 30% withholding) or

(ii) under current law, dividends paid to a Non-United States Holder at an address outside of the United States. However, under final United States Treasury regulations, effective as of January 1, 1999, a Non-United States Holder will generally be subject to United States withholding tax at a 31% rate, unless certain certification procedures (or, in the case of payments made outside the United States with respect to an offshore account, certain documentary evidence procedures) are satisfied, directly or through a foreign intermediary.

Backup withholding and information reporting generally will apply to dividends paid to addresses inside the United States on shares of Common Stock to beneficial owners that are not 'exempt recipients' and that fail to provide in the manner required certain identifying information.

The payment of the proceeds of the disposition of Common Stock to or through the U.S. office of a broker is subject to information reporting unless the disposing holder, under penalty of perjury, certifies its Non-United States status or otherwise establishes an exemption. Generally, U.S. information reporting and backup withholding will not apply to a payment of disposition proceeds if the payment is made outside the U.S. through a Non-United States office of a Non-United States broker. However, information reporting requirements (but probably, prior to January 1, 1999, not backup withholding) will apply to a payment of disposition proceeds outside the U.S. if (A) the payment is made through an office outside the U.S. of a broker that is either (i) a U.S. person, (ii) a foreign person which derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the U.S., (iii) a 'controlled foreign corporation' for U.S. Federal income tax purposes, or (iv) effective January 1, 1999, but probably not prior to such date, a foreign broker that is (1) a foreign partnership, one or more

77

INTERNATIONAL PROSPECTUS -- ALTERNATE PAGE -- (CONTINUED)

of whose partners are U.S. persons who, in the aggregate hold more than 50% of the income or capital interest in the partnership at any time during its tax year, or (2) a foreign partnership engaged at any time during its tax year in the conduct of a trade or business in the United States, and (B) the broker fails to maintain documentary evidence that the holder is a Non-United States Holder and that certain conditions are met, or that the holder otherwise is entitled to an exemption.

Backup withholding is not an additional tax. Rather, the tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund may be obtained, provided that the required information is furnished to the Internal Revenue Service.

FEDERAL ESTATE TAX

An individual Non-United States Holder who is treated as the owner of or has made certain lifetime transfers of an interest in the Common Stock will be required to include the value thereof in his gross estate for U.S. Federal estate tax purposes, and may be subject to U.S. Federal estate tax unless an applicable estate tax treaty provides otherwise. Estates of non-resident aliens are generally allowed a statutory credit which generally has the effect of offsetting the U.S. Federal estate tax imposed on the first \$60,000 of the taxable estate.

THE FOREGOING DISCUSSION IS INCLUDED FOR GENERAL INFORMATION ONLY. ACCORDINGLY, EACH PROSPECTIVE PURCHASER IS URGED TO CONSULT HIS TAX ADVISOR WITH RESPECT TO THE UNITED STATES FEDERAL INCOME TAX AND FEDERAL ESTATE TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF COMMON STOCK, INCLUDING THE APPLICATION AND EFFECT OF THE LAWS OF ANY STATE, LOCAL, FOREIGN, OR OTHER TAXING JURISDICTION.

78

INTERNATIONAL PROSPECTUS -- ALTERNATE PAGE -- (CONTINUED)

UNDERWRITING

Subject to the terms and conditions set forth in an international purchase agreement (the 'International Purchase Agreement') among the Company and each of the underwriters named below (the 'International Managers') and concurrently with the sale of 2,240,000 shares of Common Stock to the U.S. Underwriters (as defined below), the Company has agreed to sell to each of the International Managers, and each of the International Managers for whom Merrill Lynch International ('Merrill Lynch'), Lehman Brothers Inc. and C.E. Unterberg, Towbin

are acting as representatives (the 'International Representatives'), has severally agreed to purchase from the Company, the number of shares of Common Stock set forth opposite its name below.

<TABLE>
<CAPTION>

INTERNATIONAL MANAGERS	NUMBER OF SHARES
<S>	<C>
Merrill Lynch International.....	
Lehman Brothers International (Europe).....	
C.E. Unterberg, Towbin.....	

Total.....	560,000

</TABLE>

The Company has also entered into a U.S. purchase agreement (the 'U.S. purchase agreement' and, together with the International Purchase Agreement, the 'Purchase Agreements') with certain underwriters in the United States and Canada (the 'U.S. Underwriters' and, together with the International Managers, the 'Underwriters') for whom Merrill Lynch, Pierce, Fenner & Smith Incorporated, Lehman Brothers Inc. and C.E. Unterberg, Towbin are acting as representatives (the 'U.S. Representatives'). Subject to the terms and conditions set forth in the U.S. Purchase Agreement, and concurrently with the sale of 560,000 shares of Common Stock to the International Managers pursuant to the International Purchase Agreement, the Company has agreed to sell to the U.S. Underwriters, and the U.S. Underwriters severally have agreed to purchase, an aggregate of 2,240,000 shares of Common Stock. The public offering price per share and the underwriting discount per share of Common Stock are identical under the International Purchase Agreement and the U.S. Purchase Agreement.

In each Purchase Agreement, the several International Managers and the several U.S. Underwriters, respectively have agreed, subject to the terms and conditions set forth in such Purchase Agreement, to purchase all the shares of Common Stock offered hereby, if any are purchased. In the event of default by an Underwriter, the Purchase Agreement provides that, in certain circumstances, purchase commitments of the nondefaulting Underwriters may be increased or the Purchase Agreement may be terminated. The sale of Common Stock to the U.S. Underwriters is conditioned upon the sale of shares of Common Stock to the International Managers, and vice versa.

The International Managers and the U.S. Underwriters have entered into an intersyndicate agreement (the 'Intersyndicate Agreement') that provides for the coordination of their activities. Pursuant to the Intersyndicate Agreement, the International Managers and the U.S. Underwriters are permitted to sell shares of Common Stock to each other for purposes of resale at the initial public offering price set forth on the cover page of this Prospectus, less an amount not greater than the selling concession. Under the terms of the Intersyndicate Agreement, the U.S. Underwriters and any dealer to whom they sell shares of Common Stock will not offer to sell or sell shares of Common Stock to persons who are non-U.S. or non-Canadian persons or to persons they believe intend to resell to persons who are non-U.S. or non-Canadian persons, and the International Managers and any dealer to whom they sell shares of Common Stock will not offer to sell or sell shares of Common Stock to U.S. persons or Canadian persons or to persons they believe intend to resell to U.S. persons or Canadian persons, except, in each case, for transactions pursuant to the Intersyndicate Agreement.

INTERNATIONAL PROSPECTUS -- ALTERNATE PAGE -- (CONTINUED)

The International Representatives have advised the Company that the International Managers propose initially to offer the shares of Common Stock to the public at the public offering price set forth on the cover page of this Prospectus, and to certain dealers at such price less a concession not in excess of \$ per share of Common Stock. The International Managers may allow, and such dealers may allow, a discount not in excess of \$ per share of Common Stock on sales to certain other dealers. After the initial public offering, the public offering price, concession and discount may be changed.

The Company, its directors, executive officers and certain stockholders have agreed, subject to certain exceptions, not to directly or indirectly (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase,

purchase any option or contract to sell, grant any option, right or warrant for the sale of, or otherwise dispose of or transfer any Common Stock or any securities convertible into or exchangeable or exercisable for any shares of Common Stock, or request the filing of any registration statement under the Securities Act, with respect to any of the foregoing or (ii) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of Common Stock, whether any such swap transaction is to be settled by delivery of the Common Stock or other securities, in cash or otherwise without the prior written consent of Merrill Lynch, on behalf of the Underwriters, for a period of 180 days after the date of this Prospectus. In addition, certain stockholders have entered into lock-up agreements relating to an aggregate of 4,334,500 shares of Common Stock lasting for a period ending, on a cumulative basis, as to 25% of the shares of Common Stock owned by each such holder, on the expiration of the 15th, 18th, 21st and 24th month following August 26, 1997.

The Company has granted an option to the International Managers, exercisable for 30 days after the date of this Prospectus, to purchase up to an aggregate of 84,000 additional shares of Common Stock at the public offering price set forth on the cover page of this Prospectus, less the underwriting discount. The International Managers may exercise this option only to cover over-allotments, if any, made on the sale of the Common Stock offered hereby. To the extent that the International Managers exercise this option, each International Manager will be obligated, subject to certain conditions, to purchase a number of additional shares of Common Stock proportionate to such International Manager's initial amount reflected in the foregoing table. The Company has also granted an option to the U.S. Underwriters, exercisable for 30 days after the date of this Prospectus, to purchase up to an additional 336,000 shares of Common Stock to cover over-allotments, if any, on terms similar to those granted to International Managers.

The Company has agreed to indemnify the several International Managers and the U.S. Underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the Underwriters may be required to make in respect thereof.

The Underwriters do not intend to confirm sales of Common Stock offered hereby to any accounts over which they exercise discretionary authority.

Until the distribution of the Common Stock is completed, rules of the Securities and Exchange Commission may limit the ability of the U.S. Underwriters and certain selling group members to bid for and purchase the Common Stock. As an exception to these rules, the U.S. Representatives are permitted to engage in certain transactions that stabilize the price of the Common Stock. Such transactions consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of the Common Stock.

If the Underwriters create a short position in the Common Stock in connection with the Offerings, (i.e., if they sell more shares of Common Stock than are set forth on the cover page of this Prospectus), the U.S. Representatives may reduce that short position by purchasing Common Stock in the open market. The U.S. Representatives may also elect to reduce any short position by exercising all or part of the over-allotment option described above.

The U.S. Representatives may also impose a penalty bid on certain Underwriters and selling group members. This means that if the U.S. Representatives purchase shares of Common Stock in the open market to reduce the Underwriters' short position or to stabilize the price of the Common Stock, they may reclaim the amount of the selling concession from the Underwriters and selling group members who sold those shares as part of the Stock Offerings.

In general, purchases of a security for the purpose of stabilization or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases. The imposition of a penalty bid might also have an effect on the price of a security to the extent that it were to discourage resales of the security before the distribution is completed.

The Underwriters and dealers may engage in passive market making transactions in the Common Stock in accordance with Rule 103 of Regulation M promulgated by the Commission. In general, a passive market maker may not bid for, or purchase, the Common Stock at a price that exceeds the highest independent bid. In addition, the net daily purchases made by any passive market maker generally may not exceed 30% of its average daily trading volume in the Common Stock during a specified two-month prior period or 200 shares, whichever is greater. A passive market maker must identify passive market making bids as such on the Nasdaq electronic inter-dealer reporting system. Passive market making may stabilize or maintain the market price of the Common Stock above independent market levels. The Underwriters and dealers are not required to

engage in passive market making and may end passive market making activities at any time.

COMPLIANCE WITH U.K. LAW

Each Underwriter agrees that (a) it has not offered or sold and, for a period of six months following consummation of the Stock Offerings, will not offer or sell any Common Stock to persons in the United Kingdom except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances which do not constitute an offer to the public in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995, (b) it has complied with and will comply with all applicable provisions of the Public Offers of Securities Regulations 1995 and the Financial Services Act 1986 with respect to anything done by it in relation to the Common Stock in, from, or otherwise involving the United Kingdom and (c) it has only issued or passed on and will only issue or pass on in the United Kingdom any document received by it in connection with the issue or sale of the Common Stock to a person who is of a kind described in Article 11(3) of the Financial Services Act 1986 (Investment Advertisements) (Exemptions) Order 1996 or to a person to whom the document may otherwise lawfully be issued or passed on.

Neither the Company nor any of the U.S. Underwriters makes any representation or prediction, however, as to the direction or magnitude of any effect that the transactions described above may have on the price of the Common Stock. In addition, neither the Company nor any of the Underwriters makes any representation that the Representatives will engage in such transaction or that such transactions, once commenced, will not be discontinued without notice.

Pursuant to an agreement, dated October 21, 1992, Batchelder & Partners, Inc., the Company's financial advisor, will receive fees in the amount of 2% of the proceeds of the Stock Offerings.

LEGAL MATTERS

Certain legal matters relating to the securities offered hereby are being passed upon for the Company by Paul, Weiss, Rifkind, Wharton & Garrison, New York, New York. Certain regulatory matters arising under the Communications Act are being passed upon by Wiley, Rein & Fielding, Washington, D.C. Certain legal matters are being passed upon for the Underwriters by Shearman & Sterling, New York, New York.

INDEPENDENT ACCOUNTANTS

The consolidated financial statements of the Company as of December 31, 1995 and 1996, for each of the three years in the period ended December 31, 1996, and for the period from May 17, 1990 (the date of inception) to December 31, 1996, incorporated herein by reference, have been included herein in reliance on the report of Coopers & Lybrand L.L.P., independent accountants, given on the authority of said firm as experts in accounting and auditing.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Section 145 of the Delaware General Corporation Law authorizes a corporation to indemnify its directors, officers, employees and agents against certain liabilities they may incur in such capacities, including liabilities under the Securities Act, provided they act in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation. The Company's Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws require the Company to indemnify its officers and directors to the full extent permitted by Delaware law.

Section 102 of the Delaware General Corporation Law authorizes a corporation to limit or eliminate its directors' liability to the corporation or its stockholders for monetary damages for breaches of fiduciary duties, other than for (i) breaches of the duty of loyalty, (ii) acts or omissions involving bad faith, intentional misconduct or knowing violations of the law, (iii) unlawful payments of dividends, stock purchases or redemptions, or (iv) transactions from which a director derives an improper personal benefit. The Company's Amended and Restated Certificate of Incorporation contains provisions limiting the liability of the directors to the Company and to its shareholders to the full extent permitted by Delaware law.

Section 145 of the Delaware General Corporation Law authorizes a corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation against any liability asserted against him and incurred by him or her in any such capacity, or arising out of his or her status as such. The Company's Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws provide that the Company may, to the full extent permitted by law, purchase and maintain insurance on behalf of any director, officer, employee or agent of the Company against any liability which may be asserted against him or her and the Company currently maintains such insurance.

The Purchase Agreements between the Company and the Underwriters with respect to the Stock Offerings registered hereunder will provide for indemnification of the registrant and its officers and directors by the Underwriters or agents, as the case may be, against certain liabilities including liabilities under the Securities Act.

ITEM 17. UNDERTAKINGS.

The undersigned registrant hereby undertakes:

(a) That, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Exchange Act that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(b) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

(c) (1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

U.S. PURCHASE AGREEMENT

[, 1997

MERRILL LYNCH & CO.
Merrill Lynch, Pierce, Fenner & Smith
Incorporated
Lehman Brothers Inc.
C.E. Unterberg, Towbin, a California Limited Partnership
as U.S. Representatives of the several U.S. Underwriters
C/O MERRILL LYNCH & CO.
North Tower
World Financial Center
New York, New York 10281

Ladies and Gentlemen:

CD Radio Inc., a Delaware corporation (the "Company"), confirms its agreement with Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated ("Merrill Lynch") and each of the other U.S. Underwriters named in Schedule A hereto (collectively, the "U.S. Underwriters", which term shall also include any underwriter substituted as hereinafter provided in Section 10 hereof), for whom Merrill Lynch, Lehman Brothers Inc., and C.E. Unterberg, Towbin are acting as representatives (in such capacity, the "U.S. Representatives"), with respect to the issue and sale by the Company and the purchase by the U.S. Underwriters, acting severally and not jointly, of the respective numbers of shares of Common Stock, par value \$.001 per share, of the Company ("Common Stock") set forth in said Schedule A, and with respect to the grant by the Company to the U.S. Underwriters, acting severally and not jointly, of the option described in Section 2(b) hereof to purchase all or any part of 420,000 additional shares of Common Stock to cover over-allotments, if any. The aforesaid 2,800,000 shares of Common Stock (the "Initial U.S. Securities") to be purchased by the U.S. Underwriters and all or any part of the 420,000 shares of Common Stock subject to the option described in Section 2(b) hereof (the "U.S. Option Securities") are hereinafter called, collectively, the "U.S. Securities".

It is understood that the Company is concurrently entering into an agreement dated the date hereof (the "International Purchase Agreement") providing for the offering by the Company of an aggregate of 700,000 shares of Common Stock (the "Initial International

2

Securities") through arrangements with certain underwriters outside the United States and Canada, which underwriters are Merrill Lynch International, Lehman Brothers International (Europe) and C.E. Unterberg, Towbin, (the "International Managers"), and the grant by the Company to the International Managers, acting severally and not jointly, of an option to purchase all or any part of the International Managers' pro rata portion of up to 105,000 additional shares of Common Stock solely to cover over-allotments, if any (the "International Option Securities" and, together with the U.S. Option Securities, the "Option Securities"). The Initial International Securities and the International Option Securities are hereinafter called the "International Securities". It is understood that the Company is not obligated to sell and the U.S. Underwriters are not obligated to purchase, any Initial U.S. Securities unless all of the Initial International Securities are contemporaneously purchased by the International Managers.

The U.S. Underwriters and the International Managers are hereinafter collectively called the "Underwriters", the Initial U.S. Securities and the Initial International Securities are hereinafter collectively called the "Initial Securities", and the U.S. Securities and the International Securities are hereinafter collectively called the "Securities".

The Underwriters will concurrently enter into an Intersyndicate Agreement of even date herewith (the "Intersyndicate Agreement") providing for the coordination of certain transactions among the Underwriters under the direction of Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated (in such capacity, the "Global Coordinator").

The Company understands that the U.S. Underwriters propose to make a public offering of the U.S. Securities as soon as the U.S. Representatives deem advisable after this Agreement has been executed and delivered. The public offering of the Securities by the U.S. Underwriters and the International Managers is referred to herein as the "Stock Offerings."

The Company also has made an exchange offer (the "Exchange Offer") for its outstanding 5% Delayed Convertible Preferred Stock ("5% Preferred Stock") pursuant to a registration statement on Form S-4 (No. 333-34761) (the "Exchange Offer Registration Statement") and is undertaking a public offering of Units (the "Units Offering"), each Unit consisting of \$1,000 aggregate principal amount at maturity Senior Discount Notes due 2007 (the "Notes") and warrants (the "Warrants") to purchase Common Stock, pursuant to a registration statement on Form S-3 (No. 333-34769).

The Company has filed with the Securities and Exchange Commission (the "Commission") a registration statement on Form S-3 (No. 333-34767) covering the registration of the Securities under the Securities Act of 1933, as amended (the "1933 Act"), including the related preliminary prospectus or prospectuses. Promptly after execution and delivery of this Agreement, the Company will either

(i) prepare and file a prospectus in accordance with the provisions of Rule 430A ("Rule 430A") of the rules and regulations of the Commission under the 1933 Act (the "1933 Act Regulations") and paragraph (b) of

3

Rule 424 ("Rule 424(b)") of the 1933 Act Regulations or (ii) if the Company has elected to rely upon Rule 434 ("Rule 434") of the 1933 Act Regulations, prepare and file a term sheet (a "Term Sheet") in accordance with the provisions of Rule 434 and Rule 424(b). Two forms of prospectus are to be used in connection with the offering and sale of the Securities: one relating to the U.S. Securities (the "Form of U.S. Prospectus") and one relating to the International Securities (the "Form of International Prospectus"). The Form of International Prospectus is identical to the Form of U.S. Prospectus, except for the front cover and back cover pages and the information under the caption "Underwriting" and the inclusion in the Form of International Prospectus of a section under the caption "Certain United States Tax Considerations for Non-United States Holders". The information included in any such prospectus or in any such Term Sheet, as the case may be, that was omitted from such registration statement at the time it became effective but that is deemed to be part of such registration statement at the time it became effective (a) pursuant to paragraph (b) of Rule 430A is referred to as "Rule 430A Information" or (b) pursuant to paragraph (d) of Rule 434 is referred to as "Rule 434 Information". Each Form of U.S. Prospectus and Form of International Prospectus used before such registration statement became effective, and any prospectus that omitted, as applicable, the Rule 430A Information or the Rule 434 Information, that was used after such effectiveness and prior to the execution and delivery of this Agreement, is herein called a "preliminary prospectus". Such registration statement, including the exhibits thereto, schedules thereto, if any, and the documents incorporated by reference therein pursuant to Item 12 of Form S-3 under the 1933 Act, at the time it became effective and including the Rule 430A Information and the Rule 434 Information, as applicable, is herein called the "Registration Statement". Any registration statement filed pursuant to Rule 462(b) of the 1933 Act Regulations is herein referred to as the "Rule 462(b) Registration Statement", and after such filing the term "Registration Statement" shall include the Rule 462(b) Registration Statement. The final Form of U.S. Prospectus and the final Form of International Prospectus, including the documents incorporated by reference therein pursuant to Item 12 of Form S-3 under the 1933 Act, in the forms first furnished to the Underwriters for use in connection with the offering of the Securities are herein called the "U.S. Prospectus" and the "International Prospectus," respectively, and collectively, the "Prospectuses". If Rule 434 is relied on, the terms "U.S. Prospectus" and "International Prospectus" shall refer to the preliminary U.S. Prospectus dated October 30, 1997 and preliminary International Prospectus dated October 30, 1997, respectively, each together with the applicable Term Sheet and all references in this Agreement to the date of such Prospectuses shall mean the date of the applicable Term Sheet. For purposes of this Agreement, all references to the Registration Statement, any preliminary prospectus, the U.S. Prospectus, the International Prospectus or any Term Sheet or any amendment or supplement to any of the foregoing shall be deemed to include the copy filed with the Commission pursuant to its Electronic Data Gathering, Analysis and Retrieval system ("EDGAR").

All references in this Agreement to financial statements and schedules and other information which is "contained", "included" or "stated" in the Registration Statement, any preliminary prospectus (including the Form of U.S. Prospectus and Form of International Prospectus) or the Prospectuses (or other references of like import) shall be deemed to mean

4

and include all such financial statements and schedules and other information which is incorporated by reference in the Registration Statement, any preliminary prospectus (including the Form of U.S. Prospectus and Form of International Prospectus) or the Prospectuses, as the case may be; and all

references in this Agreement to amendments or supplements to the Registration Statement, any preliminary prospectus (including the Form of U.S. Prospectus and Form of International Prospectus) or the Prospectuses shall be deemed to mean and include the filing of any document under the Securities Exchange Act of 1934 (the "1934 Act") which is incorporated by reference in the Registration Statement, such preliminary prospectus or the Prospectuses, as the case may be.

SECTION 1. Representations and Warranties.

(a) Representations and Warranties by the Company. The Company represents and warrants to each U.S. Underwriter as of the date hereof, as of the Closing Time referred to in Section 2(c) hereof, and as of each Date of Delivery (if any) referred to in Section 2(b) hereof, and agrees with each U.S. Underwriter, as follows:

(i) Compliance with Registration Requirements. Pursuant to an oral waiver granted to the Company by the Commission, the Company is permitted to use Form S-3 under the 1933 Act in connection with the Stock Offerings. Each of the Registration Statement and any Rule 462(b) Registration Statement has become effective under the 1933 Act and no stop order suspending the effectiveness of the Registration Statement or any Rule 462(b) Registration Statement has been issued under the 1933 Act and no proceedings for that purpose have been instituted or are pending or, to the knowledge of the Company, are contemplated by the Commission, and any request on the part of the Commission for additional information has been complied with.

At the respective times the Registration Statement, any Rule 462(b) Registration Statement and any post-effective amendments thereto became effective and at the Closing Time (and, if any U.S. Option Securities are purchased, at the Date of Delivery), the Registration Statement, the Rule 462(b) Registration Statement and any amendments and supplements thereto complied and will comply in all material respects with the requirements of the 1933 Act and the 1933 Act Regulations and did not and will not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading. Neither of the Prospectuses nor any amendments or supplements thereto, at the time the Prospectuses or any amendments or supplements thereto were issued and at the Closing Time (and, if any U.S. Option Securities are purchased, at the Date of Delivery), included or will include an untrue statement of a material fact or omitted or will omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading. If Rule 434 is used, the Company will comply with the requirements of Rule 434. The representations and warranties in this subsection shall

5

not apply to statements in or omissions from the Registration Statement or the U.S. Prospectus made in reliance upon and in conformity with information furnished to the Company in writing by any U.S. Underwriter through the U.S. Representatives expressly for use in the Registration Statement or the U.S. Prospectus.

Each preliminary prospectus and the prospectuses filed as part of the Registration Statement as originally filed or as part of any amendment thereto, or filed pursuant to Rule 424 under the 1933 Act, complied when so filed in all material respects with the 1933 Act Regulations and each preliminary prospectus and the Prospectuses delivered to the Underwriters for use in connection with this offering was identical to the electronically transmitted copies thereof filed with the Commission pursuant to EDGAR, except to the extent permitted by Regulation S-T.

(ii) Incorporated Documents. The documents incorporated or deemed to be incorporated by reference in the Registration Statement and the Prospectuses, at the time they were or hereafter are filed with the Commission, complied and will comply in all material respects with the requirements of the 1934 Act, and, when read together with the other information in the Prospectuses, at the time the Registration Statement became effective, at the time the Prospectuses were issued and at the Closing Time (and if any Option Securities are purchased, at the Date of Delivery), did not and will not contain an untrue statement of a

material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading.

(iii) Independent Accountants. The accountants who certified the financial statements and supporting schedules included in the Registration Statement are independent public accountants as required by the 1933 Act.

(iv) Financial Statements. The financial statements and the related notes of the Company included in the Registration Statement and the Prospectuses present fairly in accordance with generally accepted accounting principles ("GAAP") the financial position of the Company and its consolidated subsidiary as of the dates indicated and the statement of operations, stockholders' equity and cash flows of the Company and its consolidated subsidiary for the periods specified. Such financial statements have been prepared in conformity with GAAP applied on a consistent basis throughout the periods involved. The selected financial data and the summary financial information included in the Registration Statement and the Prospectuses present fairly in accordance with GAAP the information shown therein and have been compiled on a basis consistent with that of the audited financial statements of the Company for each of the years in the five-year period ended December 31, 1996.

(v) No Material Adverse Charge in Business. Since the respective dates as of which information is given in the Registration Statement and the Prospectuses, except as otherwise stated therein or contemplated thereby, there has not been (A) any

6

material adverse change in the condition, financial or otherwise, or in the earnings, business affairs or business prospects of the Company and its subsidiary considered as one enterprise, whether or not arising in the ordinary course of business (a "Material Adverse Effect"), (B) any transaction entered into by the Company or its subsidiary, other than in the ordinary course of business, that is material with respect to the Company and its subsidiary considered as one enterprise, or (C) any dividend or distribution of any kind declared, paid or made by the Company on any class of its capital stock.

(vi) Good Standing of the Company. The Company has been duly organized and is validly existing as a corporation in good standing under the laws of the State of Delaware and has corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Prospectuses, to enter into and perform its obligations under this Agreement and to consummate the Stock Offerings; the Company is duly qualified as a foreign corporation to transact business and is in good standing in each other jurisdiction in which each such qualification is required, whether by reason of the ownership or leasing of property or the conduct of business, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect.

(vii) Good Standing of the Subsidiary. Satellite CD Radio, Inc. has been duly organized and is validly existing as a corporation in good standing under the laws of the State of Delaware and has corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Prospectuses and is duly qualified as a foreign corporation to transact business and is in good standing in each jurisdiction in which such qualification is required, whether by reason of the ownership or leasing of property or the conduct of business, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect. All of the issued and outstanding capital stock of Satellite CD Radio, Inc. has been duly authorized and validly issued, is fully paid and non-assessable and is owned by the Company free and clear of any security interest, mortgage, pledge, lien, encumbrance, claim or equity; none of the outstanding shares of capital stock of Satellite CD Radio, Inc. was issued in violation of the preemptive or similar rights of any securityholder of Satellite CD Radio, Inc. Satellite CD Radio, Inc. is the only subsidiary of the Company.

(viii) Capitalization. The authorized, issued and outstanding capital stock of the Company is as set forth in the Prospectuses in the

column entitled "Actual" under the caption "Capitalization" (except for subsequent issuances, if any, pursuant to reservations, agreements or employee benefit plans referred to in the Prospectuses, pursuant to the Exchange Offer or pursuant to the exercise of convertible securities, warrants or options referred to in the Prospectuses). The shares of issued and outstanding capital stock of the Company have been duly authorized and validly issued and are fully paid and non-assessable; none of the outstanding shares of capital

7

stock of the Company was issued in violation of the preemptive or other similar rights of any securityholder of the Company.

(ix) Authorization of Agreements. This Agreement and the International Purchase Agreement have been duly authorized, executed and delivered by the Company.

(x) Authorization and Description of Securities. The Securities to be purchased by the U.S. Underwriters and the International Managers from the Company have been duly authorized for issuance and sale to the U.S. Underwriters pursuant to this Agreement and the International Managers pursuant to the International Purchase Agreement, respectively, and, when issued and delivered by the Company pursuant to this Agreement and the International Purchase Agreement, respectively, against payment of the consideration set forth herein and in the International Purchase Agreement, respectively, will be validly issued, fully paid and non-assessable; the Common Stock conforms to all statements relating thereto contained in the Prospectuses and the description thereof in the Prospectuses conforms to the rights set forth in the instruments defining the same; no holder of the Securities will be subject to personal liability by reason of being such a holder; and the issuance of the Securities is not subject to the preemptive or other similar rights of any securityholder of the Company.

(xi) Absence of Defaults and Conflicts. Neither the Company nor its subsidiary is in violation of its charter or by-laws or in default in the performance or observance of any obligation, agreement, covenant or condition contained in any contract, indenture, mortgage, deed of trust, loan or credit agreement, note, lease or other agreement or instrument to which the Company or its subsidiary is a party or by which it or any of them may be bound, or to which any of the property or assets of the Company or its subsidiary is subject (collectively, "Agreements and Instruments") except for such defaults that would not result in a Material Adverse Effect; and the execution, delivery and performance of this Agreement and the International Purchase Agreement and the consummation of the transactions contemplated in this Agreement, the International Purchase Agreement and in the Registration Statement (including the issuance and sale of the Securities and the use of the proceeds from the sale of the Securities as described in the Prospectuses under the caption "Use of Proceeds") and compliance by the Company with its obligations under this Agreement and the International Purchase Agreement have been duly authorized by all necessary corporate action and do not and will not, whether with or without the giving of notice or passage of time or both, conflict with or constitute a breach of, or default or Repayment Event (as defined below) under, or result in the creation or imposition of any lien, charge or encumbrance upon any property or assets of the Company or its subsidiary pursuant to, the Agreements and Instruments (except for such conflicts, breaches or defaults or liens, charges or encumbrances that would not result in a Material Adverse Effect), nor will such action result in any violation of the provisions

8

of the charter or by-laws of the Company or its subsidiary or any applicable law, statute, rule, regulation, judgment, order, writ or decree of any government, government instrumentality or court, domestic or foreign, having jurisdiction over the Company or its subsidiary or any of their assets, properties or operations. As used herein, a "Repayment Event" means any event or condition which gives the holder of any note, debenture or other evidence of indebtedness (or any person acting on such holder's behalf) the right to require the repurchase, redemption or repayment of all or a portion of such indebtedness by the Company or its subsidiary.

(xii) Absence of Labor Dispute. No labor dispute with the employees of the Company or its subsidiary exists or, to the knowledge of the Company, is imminent, and the Company is not aware of any existing or imminent labor disturbance by the employees of any of its or its subsidiary's principal suppliers, manufacturers or contractors, which, in either case, may reasonably be expected to result in a Material Adverse Effect.

(xiii) Absence of Proceedings. There is no action, suit, proceeding, inquiry or investigation before or brought by any court or governmental agency or body, domestic or foreign, now pending, or, to the knowledge of the Company, threatened, against or affecting the Company or its subsidiary, which is required to be disclosed in the Registration Statement and the Prospectuses (other than as disclosed therein), or which might reasonably be expected to result in a Material Adverse Effect, or which might reasonably be expected to materially and adversely affect the properties or assets thereof or the transactions contemplated by this Agreement and the International Purchase Agreement or the performance by the Company of its obligations hereunder or thereunder; all pending legal or governmental proceedings to which the Company or its subsidiary is a party or of which any of their respective property or assets is the subject which are not described in the Registration Statement, including ordinary routine litigation incidental to the business, in the aggregate could not reasonably be expected to result in a Material Adverse Effect.

(xiv) Accuracy of Exhibits. There are no contracts or documents which are required to be described in the Registration Statement, the Prospectuses or the documents incorporated by reference therein or to be filed as exhibits thereto which have not been so described and filed as required.

(xv) Possession of Intellectual Property. The Company and its subsidiary own or possess adequate patents, patent rights, licenses, inventions, copyrights, know-how (including trade secrets and other unpatented and/or unpatentable proprietary or confidential information, systems or procedures), trademarks, service marks, trade names or other intellectual property (collectively, "Intellectual Property") necessary to carry on the business now operated by them and intended to be operated by them in the manner described in the Registration Statement and the Prospectuses, and neither the Company nor its subsidiary has received any notice or is otherwise

aware of any infringement of or conflict with asserted rights of others with respect to any Intellectual Property or of any facts or circumstances which would render any Intellectual Property invalid or inadequate to protect the interest of the Company or its subsidiary therein, and which infringement or conflict (if the subject of any unfavorable decision, ruling or finding) or invalidity or inadequacy, singly or in the aggregate, would result in a Material Adverse Effect.

(xvi) Absence of Further Requirements. No filing with, or authorization, approval, consent, license, order, registration, qualification or decree of, any court or governmental authority or agency is necessary or required for the performance by the Company of its obligations hereunder or under the International Purchase Agreement, in connection with the offering, issuance or sale of the Securities under this Agreement and the International Purchase Agreement or the consummation of the transactions contemplated by this Agreement and the

International Purchase Agreement, except such as have been already obtained or as may be required under the 1933 Act or the 1933 Act Regulations and state securities or blue sky laws.

(xvii) Possession of Licenses and Permits. Except as disclosed in the Prospectuses, the Company and its subsidiary possess such permits, licenses (including, without limitation, the FCC License, as defined in the Prospectuses), approvals, consents and other authorizations (collectively, "Governmental Licenses") issued by the appropriate federal, state, local or foreign regulatory agencies or bodies necessary to conduct the business now operated by them or intended to be operated by them in the manner described in the Registration Statement and the Prospectuses; the Company and its subsidiary are in compliance with the terms and conditions of all such Governmental Licenses, except where the failure so to comply would not, singly or in the aggregate, have a Material Adverse Effect; all of the Governmental Licenses are valid and in full force and effect, except when the invalidity of such Governmental Licenses or the failure of such Governmental Licenses to be in full force and effect would not have a Material Adverse Effect; and neither the Company nor its subsidiary has received any notice of proceedings relating to the revocation or modification of any such Governmental Licenses which, singly or in the aggregate, if the subject of an unfavorable decision, ruling or finding, would result in a Material Adverse Effect.

(xviii) Title to Property. The Company and its subsidiary have good and marketable title to all real property owned by the Company and its subsidiary and good title to all other properties owned by them, in each case, free and clear of all mortgages, pledges, liens, security interests, claims, restrictions or encumbrances of any kind except such as (a) are described in the Prospectuses or (b) do not, singly or in the aggregate, materially affect the value of such property and do not interfere with the use made and proposed to be made of such property by the Company or its subsidiary; and all of the leases and subleases material to the business of the Company and its subsidiary, considered as one enterprise, and under which the

10

Company or its subsidiary holds properties described in the Prospectuses, are in full force and effect, and neither the Company nor its subsidiary has any notice of any material claim of any sort that has been asserted by anyone adverse to the rights of the Company or its subsidiary under any of the leases or subleases mentioned above, or affecting or questioning the rights of the Company or such subsidiary to the continued possession of the leased or subleased premises under any such lease or sublease.

(xix) Investment Company Act. The Company is not, and upon the issuance and sale of the Securities as herein contemplated, the issuance and sale of Units in connection with the Units Offering, and the application of the net proceeds therefrom as described in the Prospectuses will not be, an "investment company" or an entity "controlled" by an "investment company" as such terms are defined in the Investment Company Act of 1940, as amended (the "1940 Act").

(xx) Environmental Laws. Except as described in the Registration Statement and except as would not, singly or in the aggregate, result in a Material Adverse Effect, (A) neither the Company nor its subsidiary is in violation of any federal, state, local or foreign statute, law, rule, regulation, ordinance, code, policy or rule of common law or any judicial or administrative interpretation thereof, including any judicial or administrative order, consent, decree or judgment, relating to pollution or protection of human health, the environment (including, without limitation, ambient air, surface water, groundwater, land surface or subsurface strata) or wildlife, including, without limitation, laws and regulations relating to the release or threatened release of chemicals, pollutants, contaminants, wastes, toxic substances, hazardous substances, petroleum or petroleum products (collectively, "Hazardous Materials") or to the manufacture, processing, distribution, use, treatment, storage, disposal, transport or handling of Hazardous Materials (collectively, "Environmental Laws"), (B) the Company and its subsidiary have all permits, authorizations and approvals required under any applicable Environmental Laws and are each

in compliance with their requirements, (C) there are no pending or threatened administrative, regulatory or judicial actions, suits, demands, demand letters, claims, liens, notices of noncompliance or violation, investigation or proceedings relating to any Environmental Law against the Company or its subsidiary and (D) there are no events or circumstances that might reasonably be expected to form the basis of an order for clean-up or remediation, or an action, suit or proceeding by any private party or governmental body or agency, against or affecting the Company or its subsidiary relating to Hazardous Materials or any Environmental Laws.

(xxi) Taxes. All United States federal income tax returns of the Company and its subsidiary required by law to be filed have been filed and all taxes shown by such returns or otherwise assessed, which are due and payable, have been paid, except assessments against which appeals have been or will be promptly taken and as to which adequate reserves have been provided. The Company and its subsidiary

11

have filed all other tax returns that are required to have been filed by them pursuant to applicable foreign, state, local or other law, except insofar as the failure to file such returns would not result in a Material Adverse Effect, and have paid all taxes due pursuant to such returns or pursuant to any assessment received by the Company and its subsidiary, except for such taxes, if any, as are being contested in good faith and as to which adequate reserves have been provided.

(xxii) Internal Controls. The Company and its subsidiary maintain a system of internal accounting controls sufficient to provide reasonable assurances that (A) transactions are executed in accordance with management's general or specific authorization, (B) transactions are recorded as necessary to permit preparation of financial statements in conformity with generally accepted accounting principles and to maintain accountability for assets, (C) access to assets is permitted only in accordance with management's general or specific authorization and (D) the recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences.

(xxiii) Registration Rights. Except as described in the Prospectuses, there are no persons with registration rights or other similar rights to have any securities registered pursuant to the Registration Statement or otherwise registered by the Company under the 1933 Act.

(xxiv) Related Parties. No relationship, direct or indirect, exists between or among any of the Company or any affiliate of the Company, on the one hand, and any director, officer, stockholder or supplier of any of them, on the other hand, which is required to be described in the Registration Statement or the Prospectuses which is not so described or is not described as required.

(xxv) Offering Materials. The Company has not distributed and, prior to the Closing Time, will not distribute any Offering Materials in connection with the offering and sale of Securities, other than the Registration Statement, any preliminary prospectus, the Prospectuses or any other Offering Materials, if any, permitted by the 1933 Act and the 1934 Act and approved by the Representatives.

(xxvi) Voting Trust Agreement. The Voting Trust Agreement, dated August 26, 1997 among the Company, Darlene Friedland and David Margolese and consented to by Robert M. Friedland has been duly authorized, executed and delivered by the Company and, assuming due authorization, execution and delivery thereof by the parties thereto (other than the Company), is a valid, legal and binding obligation of the Company and Darlene Friedland, enforceable against the Company and Darlene Friedland in accordance with its terms, except as the enforcement thereof may be limited by bankruptcy, insolvency (including, without limitation, all laws relating to fraudulent transfers), reorganization, moratorium or similar laws affecting enforcement of creditors' rights generally and except as enforcement thereof is subject

12

to general principles of equity (regardless of whether enforcement is considered in a proceeding in equity or at law).

(xxvii) Proposed Amendment. The Proposed Amendment (as defined in the Exchange Offer Registration Statement) has been approved by the Board of Directors of the Company and the stockholders of the Company and has been validly filed with the Secretary of State of the State of Delaware, and prior to the date hereof the Company's Articles of Incorporation have been amended by the Proposed Amendment.

(xxviii) Exchange Offer. Prior to the date hereof, the Exchange Offer has been consummated, and in the Exchange Offer shares of the Company's 10 1/2% Series C Convertible Preferred Stock were exchanged for [] % of the outstanding shares of 5% Preferred Stock.

(xxix) Qualifying Offerings. Immediately after giving effect to the issuance and sale of the Initial Securities, there will have occurred one or more Qualifying Offerings (as defined in the Certificate of Designations for the 5% Preferred Stock) yielding gross proceeds to the Company in an aggregate cash amount of at least \$100 million.

(b) Officer's Certificate. Any certificate signed by any officer of the Company delivered to the Representatives or to its counsel shall be deemed a representation and warranty by the Company to the Representatives as to the matters covered thereby.

SECTION 2. Sale and Delivery to U.S. Underwriters; Closing.

(a) Initial Securities. On the basis of the representations and warranties herein contained and subject to the terms and conditions herein set forth, the Company agrees to sell to each U.S. Underwriter, severally and not jointly, and each U.S. Underwriter, severally and not jointly, agrees to purchase from the Company, at the price per share set forth in Schedule B, the number of Initial U.S. Securities set forth in Schedule A opposite the name of such U.S. Underwriter, plus any additional number of Initial U.S. Securities which such Underwriter may become obligated to purchase pursuant to the provisions of Section 10 hereof.

(b) Option Securities. In addition, on the basis of the representations and warranties herein contained and subject to the terms and conditions herein set forth, the Company hereby grants an option to the U.S. Underwriters, severally and not jointly, to purchase up to an additional 420,000 shares of Common Stock at the price per share set forth in Schedule B, less an amount per share equal to any dividends or distributions declared by the Company and payable on the Initial U.S. Securities but not payable on the U.S. Option Securities. The option hereby granted will expire 30 days after the date hereof and may be exercised in whole or in part from time to time only for the purpose of covering

over-allotments which may be made in connection with the offering and distribution of the Initial U.S. Securities upon notice by the Global Coordinator to the Company setting forth the number of U.S. Option Securities as to which the several U.S. Underwriters are then exercising the option and the time and date of payment and delivery for such U.S. Option Securities. Any such time and date of delivery for the U.S. Option Securities (a "Date of Delivery") shall be determined by the Global Coordinator, but shall not be later than seven full business days after the exercise of said option, nor in any event prior to the Closing Time, as hereinafter defined. If the option is exercised as to all or any portion of the U.S. Option Securities, each of the U.S. Underwriters, acting severally and not jointly, will purchase that proportion of the total

number of U.S. Option Securities then being purchased which the number of Initial U.S. Securities set forth in Schedule A opposite the name of such U.S. Underwriter bears to the total number of Initial U.S. Securities, subject in each case to such adjustments as the Global Coordinator in its discretion shall make to eliminate any sales or purchases of fractional shares.

(c) Payment. Payment of the purchase price for, and delivery of certificates for, the Initial Securities shall be made at the offices of Shearman & Sterling, 599 Lexington Avenue, New York, New York 10022, or at such other place as shall be agreed upon by the Global Coordinator and the Company, at 9:00 A.M. (Eastern time) on the third (fourth, if the pricing occurs after 4:30 P.M. (Eastern time) on any given day) business day after the date hereof (unless postponed in accordance with the provisions of Section 10), or such other time not later than ten business days after such date as shall be agreed upon by the Global Coordinator and the Company (such time and date of payment and delivery being herein called "Closing Time").

In addition, in the event that any or all of the U.S. Option Securities are purchased by the U.S. Underwriters, payment of the purchase price for, and delivery of certificates for, such U.S. Option Securities shall be made at the above-mentioned offices, or at such other place as shall be agreed upon by the Global Coordinator and the Company, on each Date of Delivery as specified in the notice from the Global Coordinator to the Company.

Payment shall be made to the Company by wire transfer of immediately available funds to a bank account designated by the Company, against delivery to the U.S. Representatives for the respective accounts of the U.S. Underwriters of certificates for the U.S. Securities to be purchased by them. It is understood that each U.S. Underwriter has authorized the U.S. Representatives, for its account, to accept delivery of, receipt for, and make payment of the purchase price for, the Initial U.S. Securities and the U.S. Option Securities, if any, which it has agreed to purchase. Merrill Lynch, individually and not as representative of the U.S. Underwriters, may (but shall not be obligated to) make payment of the purchase price for the Initial U.S. Securities or the U.S. Option Securities, if any, to be purchased by any U.S. Underwriter whose funds have not been received by the Closing Time or the relevant Date of Delivery, as the case may be, but such payment shall not relieve such U.S. Underwriter from its obligations hereunder.

14

(d) Denominations; Registration. Certificates for the Initial U.S. Securities and the U.S. Option Securities, if any, shall be in such denominations and registered in such names as the U.S. Representatives may request in writing at least one full business day before the Closing Time or the relevant Date of Delivery, as the case may be. The certificates for the Initial U.S. Securities and the U.S. Option Securities, if any, will be made available for examination and packaging by the U.S. Representatives in The City of New York not later than 10:00 A.M. (Eastern time) on the business day prior to the Closing Time or the relevant Date of Delivery, as the case may be.

SECTION 3. Covenants of the Company. The Company covenants with each U.S. Underwriter as follows:

(a) Compliance with Securities Regulations and Commission Requests. The Company, subject to Section 3(b), will comply with the requirements of Rule 430A or Rule 434, as applicable, and will notify the Global Coordinator immediately, and confirm the notice in writing, (i) when any post-effective amendment to the Registration Statement shall become effective, or any supplement to the Prospectuses or any amended Prospectuses shall have been filed, (ii) of the receipt of any comments from the Commission, (iii) of any request by the Commission for any amendment to the Registration Statement or any amendment or supplement to the Prospectuses or for additional information, and (iv) of the issuance by the Commission of any stop order suspending the effectiveness of the Registration Statement or of any order preventing or suspending the use of any preliminary prospectus, or of the suspension of the qualification of the Securities for offering or sale in any jurisdiction, or of the initiation or threatening of any proceedings for any of such purposes. The Company will promptly effect the filings necessary pursuant to Rule 424(b) and will take such steps as it deems necessary to ascertain promptly whether the form of prospectus transmitted for filing under Rule 424(b) was received for

filing by the Commission and, in the event that it was not, it will promptly file such prospectus. The Company will make every reasonable effort to prevent the issuance of any stop order and, if any stop order is issued, to obtain the lifting thereof at the earliest possible moment.

(b) Filing of Amendments. The Company will give the Global Coordinator notice of its intention to file or prepare any amendment to the Registration Statement (including any filing under Rule 462(b)), any Term Sheet or any amendment, supplement or revision to either any prospectus included in the Registration Statement at the time it became effective or to the Prospectuses, whether pursuant to the 1933 Act, the 1934 Act or otherwise, will furnish the Global Coordinator with copies of any such documents a reasonable amount of time prior to such proposed filing or use, as the case may be, and will not file or use any such document to which the Global Coordinator or counsel for the U.S. Underwriters shall object.

15

(c) Delivery of Registration Statements. The Company has furnished or will deliver to the U.S. Representatives and counsel for the U.S. Underwriters, without charge, signed copies of the Registration Statement as originally filed and of each amendment thereto (including exhibits filed therewith or incorporated by reference therein and documents incorporated or deemed to be incorporated by reference therein) and signed copies of all consents and certificates of experts, and will also deliver to the U.S. Representatives, without charge, a conformed copy of the Registration Statement as originally filed and of each amendment thereto (without exhibits) for each of the U.S. Underwriters. The copies of the Registration Statement and each amendment thereto furnished to the U.S. Underwriters will be identical to the electronically transmitted copies thereof filed with the Commission pursuant to EDGAR, except to the extent permitted by Regulation S-T.

(d) Delivery of Prospectuses. The Company has delivered to each U.S. Underwriter, without charge, as many copies of each preliminary prospectus as such U.S. Underwriter reasonably requested, and the Company hereby consents to the use of such copies for purposes permitted by the 1933 Act. The Company will furnish to each U.S. Underwriter, without charge, during the period when the U.S. Prospectus is required to be delivered under the 1933 Act or the 1934 Act, such number of copies of the U.S. Prospectus (as amended or supplemented) as such U.S. Underwriter may reasonably request. The U.S. Prospectus and any amendments or supplements thereto furnished to the U.S. Underwriters will be identical to the electronically transmitted copies thereof filed with the Commission pursuant to EDGAR, except to the extent permitted by Regulation S-T.

(e) Continued Compliance with Securities Laws. The Company will comply with the 1933 Act and the 1933 Act Regulations and the 1934 Act and the rules and regulations of the Commission under the 1934 Act (the "1934 Act Regulations") so as to permit the completion of the distribution of the Securities as contemplated in this Agreement, the International Purchase Agreement and in the Prospectuses. If at any time when a prospectus is required by the 1933 Act to be delivered in connection with sales of the Securities, any event shall occur or condition shall exist as a result of which it is necessary, in the opinion of counsel for the U.S. Underwriters or for the Company, to amend the Registration Statement or amend or supplement any Prospectus in order that the Prospectuses will not include any untrue statements of a material fact or omit to state a material fact necessary in order to make the statements therein not misleading in the light of the circumstances existing at the time any such Prospectus is delivered to a purchaser, or if it shall be necessary, in the opinion of such counsel, at any such time to amend the Registration Statement or amend or supplement any Prospectus in order to comply with the requirements of the 1933 Act or the 1933 Act Regulations, the Company will promptly prepare and file with the Commission, subject to Section 3(b), such amendment or supplement as may be necessary to correct such statement or omission or to make the Registration Statement or the Prospectuses comply with such requirements, and the Company will

furnish to the U.S. Underwriters such number of copies of such amendment or supplement as the U.S. Underwriters may reasonably request.

(f) Blue Sky Qualifications. The Company will use its best efforts, in cooperation with the U.S. Underwriters, to qualify the Securities for offering and sale under the applicable securities laws of such states and other jurisdictions as the Global Coordinator may designate and to maintain such qualifications in effect for a period of not less than one year from the later of the effective date of the Registration Statement and any Rule 462(b) Registration Statement; provided, however, that the Company shall not be obligated to file any general consent to service of process or to qualify as a foreign corporation or as a dealer in securities in any jurisdiction in which it is not so qualified or to subject itself to taxation in respect of doing business in any jurisdiction in which it is not otherwise so subject. In each jurisdiction in which the Securities have been so qualified, the Company will file such statements and reports as may be required by the laws of such jurisdiction to continue such qualification in effect for a period of not less than one year from the effective date of the Registration Statement and any Rule 462(b) Registration Statement.

(g) Rule 158. The Company will timely file such reports pursuant to the 1934 Act as are necessary in order to make generally available to its securityholders as soon as practicable an earnings statement for the purposes of, and to provide the benefits contemplated by, the last paragraph of Section 11(a) of the 1933 Act.

(h) Use of Proceeds. The Company will use the net proceeds received by it from the sale of the Securities in the manner specified in the Prospectuses under "Use of Proceeds".

(i) Listing. The Company will use its best efforts to maintain the quotation of the Securities on the Nasdaq National Market and will file with the Nasdaq National Market all documents and notices required by the Nasdaq National Market of companies that have securities that are traded on the Nasdaq National Market and quotations for which are reported by the Nasdaq National Market.

(j) Restriction on Sale of Securities. During a period of 180 days from the date of the Prospectuses, the Company will not, without the prior written consent of the Global Coordinator, (i) directly or indirectly, offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any share of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock or file any registration statement under the 1933 Act with respect to any of the foregoing or (ii) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of the Common Stock, whether any such swap or transaction described in clause (i) or (ii) above is to be settled by delivery of Common

Stock or such other securities, in cash or otherwise. The foregoing sentence shall not apply to (A) the Securities to be sold hereunder or under the International Purchase Agreement, (B) any shares of Common Stock issued by the Company upon the exercise of an option or warrant or

the conversion of a security outstanding on the date hereof, or required to be issued by the Company pursuant to a contract entered into prior to the date hereof, and referred to in the Prospectuses, (C) any shares of Common Stock issued or options to purchase Common Stock granted pursuant to existing employee benefit plans of the Company referred to in the Prospectuses, (D) any shares of Common Stock issued pursuant to any non-employee director stock plan or dividend reinvestment plan or (E) any shares of Common Stock or Warrants issued in connection with the Exchange Offer or the Units Offering or the issuance of Common Stock upon the exercise of such Warrants.

(k) Reporting Requirements. The Company, during the period when the Prospectuses are required to be delivered under the 1933 Act or the 1934 Act, will file all documents required to be filed with the Commission pursuant to the 1934 Act within the time periods required by the 1934 Act and the 1934 Act Regulations.

SECTION 4. Payment of Expenses. (a) Expenses. The Company will pay all expenses incident to the performance of its obligations under this Agreement, including (i) the preparation, printing and filing of the Registration Statement (including financial statements and exhibits) as originally filed and of each amendment thereto, (ii) the preparation, printing and delivery to the Underwriters of this Agreement, any Agreement among Underwriters and such other documents as may be required in connection with the offering, purchase, sale, issuance or delivery of the Securities, (iii) the preparation, issuance and delivery of the certificates for the Securities to the Underwriters, including any stock or other transfer taxes and any stamp or other duties payable upon the sale, issuance or delivery of the Securities to the Underwriters and the transfer of the Securities between the U.S. Underwriters and the International Managers, (iv) the fees and disbursements of the Company's counsel, accountants and other advisors, (v) the qualification of the Securities under securities laws in accordance with the provisions of Section 3(f) hereof, including filing fees and the reasonable fees and disbursements of counsel for the Underwriters in connection therewith and in connection with the preparation of the Blue Sky Survey and any supplement thereto, (vi) the printing and delivery to the Underwriters of copies of each preliminary prospectus, any Term Sheets and of the Prospectuses and any amendments or supplements thereto, (vii) the preparation, printing and delivery to the Underwriters of copies of the Blue Sky Survey and any supplement thereto, (viii) the fees and expenses of any transfer agent or registrar for the Securities, (ix) the filing fees incident to, and the reasonable fees and disbursements of counsel to the Underwriters in connection with, the review by the National Association of Securities Dealers, Inc. (the "NASD") of the terms of the sale of the Securities and (x) the fees and expenses incurred in connection with the inclusion of the Securities in the Nasdaq National Market.

18

(b) Termination of Agreement. If this Agreement is terminated by the U.S. Representatives in accordance with the provisions of Section 5 or Section 9(a)(i) hereof, the Company shall reimburse the U.S. Underwriters for all of their out-of-pocket expenses, including the reasonable fees and disbursements of counsel for the U.S. Underwriters.

SECTION 5. Conditions of U.S. Underwriters' Obligations. The obligations of the several U.S. Underwriters hereunder are subject to the accuracy of the representations and warranties of the Company contained in Section 1 hereof or in certificates of any officer of the Company or any subsidiary of the Company delivered pursuant to the provisions hereof, to the performance by the Company of its covenants and other obligations hereunder, and to the following further conditions:

(a) Effectiveness of Registration Statement. The Registration Statement, including any Rule 462(b) Registration Statement, has become effective and at Closing Time no stop order suspending the effectiveness of the Registration Statement shall have been issued under the 1933 Act or proceedings therefor initiated or threatened by the Commission, and any request on the part of the Commission for additional information shall have been complied with to the reasonable satisfaction of counsel to the U.S. Underwriters. A prospectus containing the Rule 430A Information shall have been filed with the Commission in accordance with Rule 424(b) (or a post-effective amendment providing such information shall have been filed and declared effective in accordance with the requirements of Rule 430A) or, if the Company has elected to rely upon

Rule 434, a Term Sheet shall have been filed with the Commission in accordance with Rule 424(b).

(b) Opinion of Counsel for Company. At Closing Time, the U.S. Representatives shall have received the favorable opinion, dated as of Closing Time, of Paul, Weiss, Rifkind, Wharton & Garrison, counsel for the Company, in form and substance satisfactory to counsel for the U.S. Underwriters, together with signed or reproduced copies of such letter for each of the other U.S. Underwriters to the effect set forth in Exhibit A hereto and to such further effect as counsel to the U.S. Underwriters may reasonably request.

(c) Opinion of Regulatory Counsel for Company. At the Closing Time, the U.S. Representatives shall have received the favorable opinion, dated as of the Closing Time, of Wiley, Rein & Fielding, regulatory counsel for the Company, in form and substance satisfactory to counsel for the U.S. Underwriters to the effect set forth in Exhibit B hereto and to such further effect as counsel for the U.S. Underwriters may reasonably request.

(d) Opinion of Patent Counsel for Company. At the Closing Time, the U.S. Representatives shall have received the favorable opinion, dated as of the Closing Time, of [Bright & Lorig], patent counsel for the Company, in form and substance satisfactory to counsel for the U.S. Underwriters, together with signed or reproduced

19

copies of such letter for each of the other U.S. Underwriters, to the effect set forth in Exhibit C hereto and to such further effect as counsel for the U.S. Underwriters may reasonably request.

(e) Opinion of Intellectual Property Counsel for Company. At the Closing Time, the U.S. Representatives shall have received the favorable opinion, dated as of the Closing Time, of Marzouk & Parry, intellectual property counsel for the Company, in form and substance satisfactory to counsel for the U.S. Underwriters, together with signed or reproduced copies of such letter for each of the other U.S. Underwriters, to the effect set forth in Exhibit D hereto and to such further effect as counsel to the U.S. Underwriters may reasonably request.

(f) Opinion of Counsel for U.S. Underwriters. At Closing Time, the U.S. Representatives shall have received the favorable opinion, dated as of Closing Time, of Shearman & Sterling, counsel for the U.S. Underwriters, together with signed or reproduced copies of such letter for each of the other U.S. Underwriters with respect to the matters set forth in clauses (i), (ii), (v), (vi) (solely as to preemptive or other similar rights arising by operation of law or under the charter or by-laws of the Company), (viii) through (x), inclusive, (xiv) (solely as to the information in the Prospectus under "Description of Capital Stock--Common Stock") and the penultimate paragraph of Exhibit A hereto. In giving such opinion such counsel may rely, as to all matters governed by the laws of jurisdictions other than the law of the State of New York and the federal law of the United States and the General Corporation Law of the State of Delaware, upon the opinions of counsel satisfactory to the U.S. Representatives. Such counsel may also state that, insofar as such opinion involves factual matters, they have relied, to the extent they deem proper, upon certificates of officers of the Company and its subsidiaries and certificates of public officials.

(g) Officers' Certificate. At Closing Time, there shall not have been, since the date hereof or since the respective dates as of which information is given in the Prospectuses, any material adverse change in the condition, financial or otherwise, or in the earnings, business affairs or business prospects of the Company and its subsidiary considered as one enterprise, whether or not arising in the ordinary course of business, and the U.S. Representatives shall have received a certificate of the chief executive officer of the Company and of the chief financial or chief accounting officer of the Company, dated as of Closing Time, to the effect that (i) there has been no such material adverse change, (ii) the representations and warranties in Section 1(a) hereof are true and correct with the same force and effect as though expressly made at and as of Closing Time, (iii) the Company has complied

with all agreements and satisfied all conditions on its part to be performed or satisfied at or prior to Closing Time, and (iv) no stop order suspending the effectiveness of the Registration Statement has been issued and no proceedings for that purpose have been instituted or are pending or are contemplated by the Commission.

20

(h) Accountants' Comfort Letter. At the time of the execution of this Agreement, the U.S. Representatives shall have received from Coopers & Lybrand L.L.P. a letter dated such date, in form and substance satisfactory to the U.S. Representatives, together with signed or reproduced copies of such letter for each of the other U.S. Underwriters containing statements and information of the type ordinarily included in accountants' "comfort letters" to underwriters with respect to the financial statements and certain financial information contained in the Registration Statement and the Prospectuses.

(i) Bring-down Comfort Letter. At Closing Time, the Representatives shall have received from Coopers & Lybrand L.L.P. a letter, dated as of Closing Time, to the effect that they reaffirm the statements made in the letter furnished pursuant to subsection (h) of this Section, except that the specified date referred to shall be a date not more than three business days prior to Closing Time.

(j) Approval of Listing. At Closing Time, the Securities shall have been approved for inclusion in the Nasdaq National Market.

(k) No Objection. The NASD has confirmed that it has not raised any objection with respect to the fairness and reasonableness of the underwriting terms and arrangements.

(l) Lock-up Agreements. At the date of this Agreement, the U.S. Representatives shall have received an agreement substantially in the form of Exhibit B hereto signed by the persons listed on Schedule D hereto.

(m) Consummation of the Exchange Offer. The Company shall have consummated the Exchange Offer.

(o) Proposed Amendment. The company's Articles of Incorporation shall have been amended by the Proposed Amendment.

(p) Qualifying Offerings. After giving effect to the issuance and sale of the Initial Securities, there shall have occurred one or more Qualifying Offerings yielding gross proceeds to the Company in an aggregate cash amount of at least \$100 million.

(q) Purchase of Initial International Securities. Contemporaneously with the purchase by the U.S. Underwriters of the Initial U.S. Securities under this Agreement, the International Managers shall have purchased the Initial International Securities under the International Purchase Agreement.

(r) Conditions to Purchase of U.S. Option Securities. In the event that the U.S. Underwriters exercise their option provided in Section 2(b) hereof to purchase all or any portion of the U.S. Option Securities, the representations and warranties of

21

shall be true and correct as of each Date of Delivery and, at the relevant Date of Delivery, the U.S. Representatives shall have received:

(i) Officers' Certificate. A certificate, dated such Date of Delivery, of the President or a Vice President of the Company and of the chief financial or chief accounting officer of the Company confirming that the certificate delivered at Closing Time pursuant to Section 5(g) hereof remains true and correct as of such Date of Delivery.

(ii) Opinion of Counsel for Company. The favorable opinion of Paul, Weiss, Rifkind, Wharton & Garrison, counsel for the Company, together with the favorable opinions of Wiley, Rein & Fielding, regulatory counsel for the Company, Bright & Lorig, patent counsel for the Company, and Mazouk & Parry, intellectual property counsel for the Company each in form and substance satisfactory to counsel for the U.S. Underwriters, dated such Date of Delivery, relating to the U.S. Option Securities to be purchased on such Date of Delivery and otherwise to the same effect as the opinions required by Section 5(b), (c), (d) and (e) hereof.

(iii) Opinion of Counsel for U.S. Underwriters. The favorable opinion of Shearman & Sterling, counsel for the U.S. Underwriters, dated such Date of Delivery, relating to the U.S. Option Securities to be purchased on such Date of Delivery and otherwise to the same effect as the opinion required by Section 5(f) hereof.

(iv) Bring-down Comfort Letter. A letter from Coopers & Lybrand L.L.P., in form and substance satisfactory to the U.S. Representatives and dated such Date of Delivery, substantially in the same form and substance as the letter furnished to the U.S. Representatives pursuant to Section 5(h) hereof, except that the "specified date" in the letter furnished pursuant to this paragraph shall be a date not more than five days prior to such Date of Delivery.

(s) Additional Documents. At Closing Time and at each Date of Delivery, counsel for the U.S. Underwriters shall have been furnished with such documents and opinions as they may reasonably require for the purpose of enabling them to pass upon the issuance and sale of the Securities as herein contemplated, or in order to evidence the accuracy of any of the representations or warranties, or the fulfillment of any of the conditions, herein contained; and all proceedings taken by the Company in connection with the issuance and sale of the Securities as herein contemplated shall be satisfactory in form and substance to the U.S. Representatives and counsel for the U.S. Underwriters.

22

(t) Termination of Agreement. If any condition specified in this Section shall not have been fulfilled when and as required to be fulfilled, this Agreement, or, in the case of any condition to the purchase of U.S. Option Securities on a Date of Delivery which is after the Closing Time, the obligations of the several U.S. Underwriters to purchase the relevant Option Securities, may be terminated by the U.S. Representatives by notice to the Company at any time at or prior to Closing Time or such Date of Delivery, as the case may be, and such termination shall be without liability of any party to any other party except as provided in Section 4 and except that Sections 1, 6, 7 and 8 shall survive any such termination and remain in full force and effect.

SECTION 6. Indemnification.

(a) Indemnification of U.S. Underwriters. The Company agrees to indemnify and hold harmless each U.S. Underwriter and each person, if any, who controls any U.S. Underwriter within the meaning of Section 15 of the 1933 Act or Section 20 of the 1934 Act as follows:

(i) against any and all loss, liability, claim, damage and expense whatsoever, as incurred, arising out of any untrue

statement or alleged untrue statement of a material fact contained in the Registration Statement (or any amendment thereto), including the Rule 430A Information and the Rule 434 Information, if applicable, or the omission or alleged omission therefrom of a material fact required to be stated therein or necessary to make the statements therein not misleading or arising out of any untrue statement or alleged untrue statement of a material fact included in any preliminary prospectus or the Prospectuses (or any amendment or supplement thereto), or the omission or alleged omission therefrom of a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(ii) against any and all loss, liability, claim, damage and expense whatsoever, as incurred, to the extent of the aggregate amount paid in settlement of any litigation, or any investigation or proceeding by any governmental agency or body, commenced or threatened, or of any claim whatsoever based upon any such untrue statement or omission, or any such alleged untrue statement or omission; provided that (subject to Section 6(d) below) any such settlement is effected with the written consent of the Company; and

(iii) against any and all expense whatsoever, as incurred (including the fees and disbursements of counsel chosen by Merrill Lynch), reasonably incurred in investigating, preparing or defending against any litigation, or any investigation or proceeding by any governmental agency or body, commenced

23

or threatened, or any claim whatsoever based upon any such untrue statement or omission, or any such alleged untrue statement or omission, to the extent that any such expense is not paid under (i), (ii) or (iii) above;

provided, however, that this indemnity agreement shall not apply to any loss, liability, claim, damage or expense to the extent arising out of any untrue statement or omission or alleged untrue statement or omission made in reliance upon and in conformity with written information furnished to the Company by any U.S. Underwriter through the U.S. Representatives expressly for use in the Registration Statement (or any amendment thereto), including the Rule 430A Information and the Rule 434 Information, if applicable, or any preliminary prospectus or the U.S. Prospectus (or any amendment or supplement thereto) and provided, further, that the Company will not be liable to an U.S. Underwriter with respect to any preliminary prospectus to the extent that the Company shall sustain the burden of proving that any such loss, liability, claim, damage or expense resulted from the fact that such U.S. Underwriter, in contravention of a requirement of this Agreement or applicable law, sold Securities to a person to whom such U.S. Underwriter failed to send or give, at or prior to the Closing Time, a copy of the Prospectus, as then amended or supplemented if (i) the Company has previously furnished copies thereof (sufficiently in advance of the Closing Time to allow for distribution by the Closing Time) to the Underwriters and the loss, liability, claim, damage or expense of such U.S. Underwriter resulted from an untrue statement or omission or alleged untrue statement or omission of a material fact contained in or omitted from the preliminary prospectus which was corrected in the Prospectus as, if applicable, amended or supplemented prior to the Closing Time and (ii) such failure to give or send such Prospectus by the Closing Time to the party or parties asserting such loss, liability, claim, damage or expense would have constituted the sole defense to the claim asserted by such person.

(b) Indemnification of Company, Directors and Officers. Each U.S. Underwriter severally agrees to indemnify and hold harmless the Company, its directors, each of its officers who signed the Registration Statement, and each person, if any, who controls the Company within the meaning of Section 15 of the 1933 Act or Section 20 of the 1934 Act against any and all loss, liability, claim, damage and expense described in the indemnity contained in subsection (a) of this Section, as incurred, but only with respect to untrue statements or omissions, or alleged untrue statements or omissions, made in the Registration Statement (or any amendment thereto), including the Rule 430A Information and the Rule 434 Information, if applicable, or any preliminary U.S. prospectus or the U.S. Prospectus (or any amendment or supplement thereto) in reliance upon and in conformity with written information furnished to the Company by such U.S.

Underwriter through the U.S. Representatives expressly for use in the Registration Statement (or any amendment thereto) or such preliminary prospectus or the U.S. Prospectus (or any amendment or supplement thereto).

(c) Actions against Parties; Notification. Each indemnified party shall give notice as promptly as reasonably practicable to each indemnifying party of any action

24

commenced against it in respect of which indemnity may be sought hereunder, but failure to so notify an indemnifying party shall not relieve such indemnifying party from any liability hereunder to the extent it is not materially prejudiced as a result thereof and in any event shall not relieve it from any liability which it may have otherwise than on account of this indemnity agreement. In the case of parties indemnified pursuant to Section 6(a) above, counsel to the indemnified parties shall be selected by Merrill Lynch, and, in the case of parties indemnified pursuant to Section 6(b) above, counsel to the indemnified parties shall be selected by the Company. An indemnifying party may participate at its own expense in the defense of any such action; provided, however, that counsel to the indemnifying party shall not (except with the consent of the indemnified party) also be counsel to the indemnified party. In no event shall the indemnifying parties be liable for fees and expenses of more than one counsel (in addition to any local counsel) separate from their own counsel for all indemnified parties in connection with any one action or separate but similar or related actions in the same jurisdiction arising out of the same general allegations or circumstances. No indemnifying party shall, without the prior written consent of the indemnified parties, settle or compromise or consent to the entry of any judgment with respect to any litigation, or any investigation or proceeding by any governmental agency or body, commenced or threatened, or any claim whatsoever in respect of which indemnification or contribution could be sought under this Section 6 or Section 7 hereof (whether or not the indemnified parties are actual or potential parties thereto), unless such settlement, compromise or consent (i) includes an unconditional release of each indemnified party from all liability arising out of such litigation, investigation, proceeding or claim and (ii) does not include a statement as to or an admission of fault, culpability or a failure to act by or on behalf of any indemnified party.

(d) Settlement without Consent if Failure to Reimburse. If at any time an indemnified party shall have requested an indemnifying party to reimburse the indemnified party for fees and expenses of counsel, and shall have, if requested, provided such indemnifying party reasonably detailed information regarding such fees and expenses (including with respect to the services performed, the rate or rates charged and the expenses incurred) such indemnifying party agrees that it shall be liable for any settlement of the nature contemplated by Section 6(a) (ii) effected without its written consent if (i) such settlement is entered into more than 45 days after receipt by such indemnifying party of the aforesaid request, (ii) such indemnifying party shall have received notice of the terms of such settlement at least 30 days prior to such settlement being entered into and (iii) such indemnifying party shall not have reimbursed such indemnified party in accordance with such request prior to the date of such settlement.

SECTION 7. Contribution. If the indemnification provided for in Section 6 hereof is for any reason unavailable to or insufficient to hold harmless an indemnified party in respect of any losses, liabilities, claims, damages or expenses referred to therein, then each indemnifying party shall contribute to the aggregate amount of such losses, liabilities, claims, damages and expenses incurred by such indemnified party, as incurred, (i) in such proportion as is appropriate to reflect the relative benefits received by the Company on the

25

one hand and the U.S. Underwriters on the other hand from the offering of the Securities pursuant to this Agreement or (ii) if the allocation provided by clause (i) is not permitted by applicable law, in such proportion as is appropriate to reflect not only the relative benefits referred to in clause (i) above but also the relative fault of the Company on the one hand and of the U.S. Underwriters on the other hand in connection with the statements or omissions which resulted in such losses, liabilities, claims, damages or expenses, as well as any other relevant equitable considerations.

The relative benefits received by the Company on the one hand and the U.S. Underwriters on the other hand in connection with the offering of the U.S. Securities pursuant to this Agreement shall be deemed to be in the same respective proportions as the total net proceeds from the offering of the U.S. Securities pursuant to this Agreement (before deducting expenses) received by the Company and the total underwriting discount received by the U.S. Underwriters, in each case as set forth on the cover of the U.S. Prospectus, or, if Rule 434 is used, the corresponding location on the Term Sheet, bear to the aggregate initial public offering price of the U.S. Securities as set forth on such cover.

The relative fault of the Company on the one hand and the U.S. Underwriters on the other hand shall be determined by reference to, among other things, whether any such untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact relates to information supplied by the Company or by the U.S. Underwriters and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission.

The Company and the U.S. Underwriters agree that it would not be just and equitable if contribution pursuant to this Section were determined by pro rata allocation (even if the U.S. Underwriters were treated as one entity for such purpose) or by any other method of allocation which does not take account of the equitable considerations referred to above in this Section. The aggregate amount of losses, liabilities, claims, damages and expenses incurred by an indemnified party and referred to above in this Section shall be deemed to include any legal or other expenses reasonably incurred by such indemnified party in investigating, preparing or defending against any litigation, or any investigation or proceeding by any governmental agency or body, commenced or threatened, or any claim whatsoever based upon any such untrue or alleged untrue statement or omission or alleged omission.

Notwithstanding the provisions of this Section, no U.S. Underwriter shall be required to contribute any amount in excess of the amount by which the total price at which the U.S. Securities underwritten by it and distributed to the public were offered to the public exceeds the amount of any damages which such U.S. Underwriter has otherwise been required to pay by reason of any such untrue or alleged untrue statement or omission or alleged omission.

26

No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the 1933 Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation.

For purposes of this Section, each person, if any, who controls a U.S. Underwriter within the meaning of Section 15 of the 1933 Act or Section 20 of the 1934 Act shall have the same rights to contribution as such U.S. Underwriter, and each director of the Company, each officer of the Company who signed the Registration Statement, and each person, if any, who controls the Company within the meaning of Section 15 of the 1933 Act or Section 20 of the 1934 Act shall have the same rights to contribution as the Company. The U.S. Underwriters' respective obligations to contribute pursuant to this Section are several in proportion to the number of Initial U.S. Securities set forth opposite their respective names in Schedule A hereto and not joint.

SECTION 8. Representations, Warranties and Agreements to Survive Delivery. All representations, warranties and agreements contained in this Agreement or in certificates of officers of the Company or any of its subsidiaries submitted pursuant hereto shall remain operative and in full force and effect, regardless of any investigation made by or on behalf of any U.S. Underwriter or controlling person, or by or on behalf of the Company, and shall survive delivery of the Securities to the U.S. Underwriters.

SECTION 9. Termination of Agreement.

(a) Termination; General. The U.S. Representatives may terminate this Agreement, by notice to the Company, at any time at or prior to Closing Time (i) if there has been, since the time of execution of this Agreement or since the respective dates as of which information is given in the U.S. Prospectus, any material adverse change in the condition, financial or otherwise, or in the earnings, business affairs or business prospects of the Company and its subsidiary considered as one enterprise, whether or not arising in the ordinary course of business, or (ii) if there has occurred any material adverse change in the financial markets in the United States or the international financial markets, any outbreak of hostilities or escalation thereof or other calamity or crisis or any change or development involving a prospective change in national or international political, financial or economic conditions, in each case the effect of which is such as to make it, in the judgment of the U.S. Representatives, impracticable to market the Securities or to enforce contracts for the sale of the Securities, or (iii) if trading in any securities of the Company has been suspended or materially limited by the Commission or the Nasdaq National Market, or if trading generally on the American Stock Exchange or the New York Stock Exchange or in the Nasdaq National Market has been suspended or materially limited, or minimum or maximum prices for trading have been fixed, or maximum ranges for prices have been required, by any of said exchanges or by such system or by order of the Commission, the National Association of Securities Dealers, Inc. or any other governmental authority, or (iv) if a banking moratorium has been declared by either Federal or New York authorities.

27

(b) Liabilities. If this Agreement is terminated pursuant to this Section, such termination shall be without liability of any party to any other party except as provided in Section 4 hereof, and provided further that Sections 1, 6, 7 and 8 shall survive such termination and remain in full force and effect.

SECTION 10. Default by One or More of the U.S. Underwriters. If one or more of the U.S. Underwriters shall fail at Closing Time or a Date of Delivery to purchase the Securities which it or they are obligated to purchase under this Agreement (the "Defaulted Securities"), the U.S. Representatives shall have the right, within 24 hours thereafter, to make arrangements for one or more of the non-defaulting U.S. Underwriters, or any other underwriters, to purchase all, but not less than all, of the Defaulted Securities in such amounts as may be agreed upon and upon the terms herein set forth; if, however, the U.S. Representatives shall not have completed such arrangements within such 24-hour period, then:

(a) if the number of Defaulted Securities does not exceed 10% of the number of U.S. Securities to be purchased on such date, the non-defaulting U.S. Underwriters shall be obligated, each severally and not jointly, to purchase the full amount thereof in the proportions that their respective underwriting obligations hereunder bear to the underwriting obligations of all non-defaulting U.S. Underwriters, or

(b) if the number of Defaulted Securities exceeds 10% of the number of U.S. Securities to be purchased on such date, this Agreement or, with respect to any Date of Delivery which occurs after Closing Time, the obligation of the U.S. Underwriters to purchase and of the Company to sell the Option Securities to be purchased and sold on such Date of Delivery shall terminate without liability on the part of any non-defaulting U.S. Underwriter.

No action taken pursuant to this Section shall relieve any defaulting U.S. Underwriter from liability in respect of its default.

In the event of any such default which does not result in a termination of this Agreement or, in the case of a Date of Delivery which is after Closing Time, which does not result in a termination of the obligation of the U.S. Underwriters to purchase and the Company to sell the relevant U.S. Option Securities, as the case may be, either the U.S. Representatives or the Company shall have the right to postpone Closing Time or the relevant Date of Delivery, as the case may be, for a period not exceeding seven days in order to effect any required changes in the Registration Statement or Prospectuses or in

any other documents or arrangements. As used herein, the term "U.S. Underwriter" includes any person substituted for a U.S. Underwriter under this Section.

SECTION 11. Notices. All notices and other communications hereunder shall be in writing and shall be deemed to have been duly given if mailed or transmitted by any

28

standard form of telecommunication. Notices to the U.S. Underwriters shall be directed to the U.S. Representatives at North Tower, World Financial Center, New York, New York 10281, attention of General Counsel; and notices to the Company shall be directed to it at CD Radio Inc, 1001 22nd St. N.W., Washington, D.C. 20037, attention of Chairman and Chief Executive Officer.

SECTION 12. Parties. This Agreement shall inure to the benefit of and be binding upon the U.S. Underwriters and the Company and their respective successors. Nothing expressed or mentioned in this Agreement is intended or shall be construed to give any person, firm or corporation, other than the U.S. Underwriters and the Company and their respective successors and the controlling persons and officers and directors referred to in Sections 6 and 7 and their heirs and legal representatives, any legal or equitable right, remedy or claim under or in respect of this Agreement or any provision herein contained. This Agreement and all conditions and provisions hereof are intended to be for the sole and exclusive benefit of the U.S. Underwriters and the Company and their respective successors, and said controlling persons and officers and directors and their heirs and legal representatives, and for the benefit of no other person, firm or corporation. No purchaser of Securities from any U.S. Underwriter shall be deemed to be a successor by reason merely of such purchase.

SECTION 13. GOVERNING LAW AND TIME. THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, EXCEPT AS OTHERWISE SET FORTH HEREIN, SPECIFIED TIMES OF DAY REFER TO NEW YORK CITY TIME.

SECTION 14. Effect of Headings. The Article and Section headings herein and the Table of Contents are for convenience only and shall not affect the construction hereof.

29

If the foregoing is in accordance with your understanding of our agreement, please sign and return to the Company a counterpart hereof, whereupon this instrument, along with all counterparts, will become a binding agreement between the U.S. Underwriters and the Company in accordance with its terms.

Very truly yours,

CD RADIO INC.

Exhibit A

FORM OF OPINION OF COMPANY'S COUNSEL

(i) The Company has been duly organized and is validly existing as a corporation in good standing under the laws of the State of Delaware.

(ii) The Company has corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Prospectuses and to enter into and perform its obligations under the U.S. Purchase Agreement and the International Purchase Agreement.

(iii) The Company is duly qualified as a foreign corporation to transact business and is in good standing in each jurisdiction in the District of Columbia, which is the only jurisdiction in which the Company is required to be qualified, whether by reason of the ownership or leasing of property or the conduct of business as of the date hereof, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect.

(iv) The authorized, issued and outstanding capital stock of the Company is as set forth in the Prospectuses in the column entitled "Actual" under the

caption "Capitalization" (except for subsequent issuances, if any, pursuant to the U.S. Purchase Agreement, the International Purchase Agreement or the Exchange Offer, pursuant to reservations, agreements or employee benefit plans referred to in the Prospectuses or pursuant to the exercise of convertible securities or options referred to in the Prospectuses); the shares of issued and outstanding capital stock of the Company have been duly authorized and validly issued and are fully paid and non-assessable; and none of the outstanding shares of capital stock of the Company was issued in violation of the preemptive rights contained in (i) the Charter Documents or (ii) the General Corporation Law of the State of Delaware (the "DGCL").

(v) The Securities to be purchased by the U.S. Underwriters and the International Managers from the Company have been duly authorized for issuance and sale to the Underwriters pursuant to the U.S. Purchase Agreement and the International Purchase Agreement, respectively, and, when issued and delivered by the Company pursuant to the U.S. Purchase Agreement and the International Purchase Agreement, respectively, against payment of the consideration set forth in the U.S. Purchase Agreement and the International Purchase Agreement, will be validly issued, fully paid and non-assessable and no holder of the Securities is or will be subject to personal liability by reason of being such a holder.

(vi) The issuance of the Securities is not subject to the preemptive rights provisions contained in (i) the Charter Documents or (ii) the DGCL.

A-1

(vii) Satellite CD Radio, Inc. has been duly incorporated and is validly existing as a corporation in good standing under the laws of the State of Delaware, has corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Prospectuses and is duly qualified as a foreign corporation to transact business and is in good standing in the District of Columbia, which is the only jurisdiction in which such company is required to be qualified, whether by reason of the ownership or leasing of property or the conduct of business, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect; all of the issued and outstanding capital stock of Satellite CD Radio, Inc. has been duly authorized and validly issued, is fully paid and non-assessable and, to our knowledge, is owned by the Company free and clear of any security interest, mortgage, pledge, lien, encumbrance, claim or equity; none of the outstanding shares of capital stock of Satellite CD Radio, Inc. was issued in violation of the preemptive rights provisions contained in (i) Satellite CD Radio Inc's certificate of incorporation or by-laws or (ii) the DGCL. .

(viii) The U.S. Purchase Agreement and the International Purchase Agreement have been duly authorized, executed and delivered by the Company.

(ix) The Registration Statement, including any Rule 462(b) Registration Statement, has been declared effective under the 1933 Act; any required filing of the Prospectuses pursuant to Rule 424(b) has been made in the manner and within the time period required by Rule 424(b); and, to the best of our knowledge, no stop order suspending the effectiveness of the Registration Statement or any Rule 462(b) Registration Statement has been issued under the 1933 Act and no proceedings for that purpose have been instituted or are pending or threatened by the Commission.

(x) The Registration Statement, including any Rule 462(b) Registration Statement, the Rule 430A Information and the Rule 434 Information, as applicable, the Prospectuses, excluding the documents incorporated by reference therein, and each amendment or supplement to the Registration Statement and the Prospectuses, excluding the documents incorporated by reference therein, as of their respective effective or issue dates (other than the financial statements and supporting schedules included therein or omitted therefrom, as to which we need express no opinion) as of the date thereof each complied as to form in all material respects with the requirements of the 1933 Act.

(xi) The documents incorporated by reference in the Prospectuses (other than the financial statements and supporting schedules included therein or omitted therefrom, as to which we need express no opinion), when they were filed with the Commission complied as to form in all material respects with the requirements of the 1934 Act and the rules and regulations of the Commission

thereunder.

(xii) The form of certificate used to evidence the Common Stock complies in all material respects with all applicable statutory requirements, with any applicable requirements of the charter and by-laws of the Company and the requirements of the Nasdaq National Market.

A-2

(xiii) To our knowledge without having done any search of judicial records or records of any governmental agency or body, there is not pending or threatened any action, suit, proceeding, inquiry or investigation, to which the Company or its subsidiary is a party, or to which the property of the Company or its subsidiary is subject, before or brought by any court or governmental agency or body, domestic or foreign, which might reasonably be expected to result in a Material Adverse Effect, or which might reasonably be expected to materially and adversely affect the properties or assets thereof or the consummation of the transactions contemplated in the U.S. Purchase Agreement and International Purchase Agreement or the performance by the Company of its obligations thereunder (other than any pending or threatened actions, proceedings, inquiries or investigations relating to the Federal Communications Commission, as to which we express no opinion).

(xiv) The information in the Prospectuses under "Description of Capital Stock", "Certain United States Federal Income Tax Consequences to Non-United States Holders of Common Stock" and "Business--Legal Proceedings" and in the Registration Statement under Item 15, to the extent that it constitutes matters of law, summaries of legal matters, summaries of the Company's charter and by-laws or legal proceedings, or legal conclusions, has been reviewed by us and is correct in all material respects.

(xv) To our knowledge, there are no statutes or regulations of the United States or the State of New York or provisions of the DGCL that are required to be described in the Prospectuses that are not described as required (except that we express no opinion as to the Federal Communications Act or other federal statutes or regulations of the Federal Communications Commission affecting digital radio satellite broadcasting).

(xvi) All descriptions in the Registration Statement of contracts and other documents to which the Company or its subsidiary are a party are accurate in all material respects; to our knowledge, there are no franchises, contracts, indentures, mortgages, loan agreements, notes, leases or other instruments required to be described or referred to in the Registration Statement or to be filed as exhibits thereto other than those described or referred to therein or filed or incorporated by reference as exhibits thereto.

(xvii) To our knowledge, (a) neither the Company nor its subsidiary is in violation of its charter or by-laws and, (b) except as described in the Registration Statement, no default by the Company or its subsidiary exists in the due performance or observance of any material obligation, agreement, covenant or condition contained in any contract, indenture, mortgage, loan agreement, note, lease or other agreement or instrument that is described or referred to in the Registration Statement or the Prospectuses or filed or incorporated by reference as an exhibit to the Registration Statement.

(xviii) No filing with, or authorization, approval, consent, license, order, registration, qualification or decree of, any court or governmental authority or agency of the State of New York or the United States (other than under the 1933 Act and the 1933 Act Regulations, which were made, or as may be required under the securities or blue sky laws of the various states,

A-3

as to which we need express no opinion) or under the DGCL is necessary or required in connection with the due authorization, execution and delivery of the U.S. Purchase Agreement and the International Purchase Agreement by the Company or for the offering, issuance, sale or delivery of the Securities.

(xix) The execution, delivery and performance of the U.S. Purchase Agreement and the International Purchase Agreement and the consummation of the transactions contemplated in the U.S. Purchase Agreement, the International Purchase Agreement and in the Registration Statement (including the issuance and sale of the Securities, and the use of the proceeds from the sale of the Securities as described in the Prospectuses under the caption "Use Of Proceeds") and compliance by the Company with its obligations under the U.S. Purchase Agreement and the International Purchase Agreement do not and will not, whether with or without the giving of notice or lapse of time or both, conflict with or constitute a breach of, or default or Repayment Event (as defined in Section 1(a)(xi) of the Purchase Agreements) under, or result in the creation or imposition of any lien, charge or encumbrance upon any property or assets of the Company or any subsidiary pursuant to, any contract, indenture, mortgage, deed of trust, loan or credit agreement, note, lease or any other agreement or instrument, filed as an exhibit to or described in the Registration Statement, to which the Company or its subsidiary is a party or by which it or any of them may be bound, or to which any of the property or assets of the Company or its subsidiary is subject (except for such conflicts, breaches or defaults or liens, charges or encumbrances that would not have a Material Adverse Effect), nor will such action result in any violation of the provisions of the charter or by-laws of the Company or its subsidiary, or any applicable law, statute, rule, regulation, judgment, order, writ or decree, known to us, of any government, government instrumentality or court of the State of New York or the United States having jurisdiction over the Company or its subsidiary or any of their respective properties, assets or operations.

(xx) The Company is not, and upon consummation of the Stock Offerings and the Units Offering will not be, an "investment company" or an entity "controlled" by an "investment company," as such terms are defined in the Investment Companies Act of 1940, as amended.

(xxi) The Rights under the Company's Shareholder Rights Plan to which holders of the Securities will be entitled have been duly authorized and validly issued.

(xxii) The Voting Trust Agreement constitutes a valid and binding agreement of the Company, enforceable against the Company in accordance with its terms, except as the enforcement thereof may be limited by bankruptcy, insolvency (including, without limitation, all laws relating to fraudulent transfers), reorganization, moratorium or other similar laws relating to or affecting enforcement of creditors' rights generally, or by general principles of equity (regardless of whether enforcement is considered in a proceeding in equity or at law); the provisions of the Voting Trust Agreement create a "voting trust" as provided in Section 218 under the Delaware General Corporation Law.

In addition, although we have not undertaken to investigate or verify independently, and are not passing upon and do not assume any responsibility for, the accuracy, completeness or fairness of the contents of the Registration Statement and the Prospectuses (except with respect to certain matters of corporate law, as set forth in paragraphs 5, 14, and 16 above), in connection with the preparation of the Registration Statement and the Prospectuses, we have participated in conferences with representatives and counsel of Merrill Lynch and with certain officers and employees of, and counsel and independent certified public accountants for, the Company, at which conferences the contents of the Registration Statement, the Prospectuses and related matters were discussed, and advise you that nothing has come to our attention that would lead us to believe that the Registration Statement or any amendment thereto, including the Rule 430A Information and Rule 434 Information (if applicable), (except for financial statements and schedules and other financial data included

or incorporated by reference therein or omitted therefrom, as to which we need make no statement), at the time such Registration Statement or any such amendment became effective, contained an untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make the statements therein not misleading or that the Prospectuses or any amendment or supplement thereto (except for financial statements and schedules and other financial data included or incorporated by reference therein or omitted therefrom, as to which we need make no statement), at the time the Prospectuses were issued, at the time any such amended or supplemented prospectus was issued or at the Closing Time, included or includes an untrue statement of a material fact or omitted or omits to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

In rendering such opinion, such counsel may rely (A) as to matters involving the application of the federal communications laws of the United States, upon the opinion of Wiley, Rein & Fielding, special counsel to the Company (which opinion shall be dated and furnished to Merrill Lynch at the Closing Time, shall be satisfactory in form and substance to counsel for Merrill Lynch and shall expressly state that Merrill Lynch may rely on such opinion as if it were addressed to Merrill Lynch), provided that Paul, Weiss, Rifkind, Wharton & Garrison shall state in their opinion that they believe that they and Merrill Lynch are justified in relying upon such opinion, and (B), as to matters of fact (but not as to legal conclusions), to the extent they deem proper, on certificates of responsible officers of the Company and public officials. Such opinion shall not state that it is to be governed or qualified by, or that it is otherwise subject to, any treatise, written policy or other document relating to legal opinions, including, without limitation, the Legal Opinion Accord of the ABA Section of Business Law (1991).

A-5

Exhibit B

FORM OF OPINION OF REGULATORY COUNSEL TO THE COMPANY

(A) (1) the execution, and delivery and performance of the Purchase Agreements relating to the Stock Offerings and the Units Offering and the consummation of the transactions contemplated therein and in the Prospectuses used in connection with the Stock Offerings and the Units Offering, the consummation of the Stock Offerings, the Units Offering and the Exchange Offer and compliance by the Company with its obligations thereunder do not violate (i) the Federal Communications Act of 1934, as amended (the "Communications Act"), (ii) any rules or regulations of the Federal Communications Commission ("FCC") applicable to the Company or its subsidiaries, (iii) any state telecommunications law, rules or regulations ("State Law") applicable to the Company or its subsidiaries, and (iv) to the best of such counsel's knowledge, any decree from any court, and (2) no consent, approval, authorization or order of or filing with the FCC or any state authority overseeing telecommunications matters ("State Authority"), is necessary for the execution, delivery and performance of the Purchase Agreements relating to the Stock Offerings and the Units Offering, the consummation of the Stock Offerings, the Units Offering and Exchange Offer and except for consents, approvals, authorizations or orders of or qualifications as have already been obtained and except to the extent that the failure to obtain such consents, approvals, authorizations or orders or to qualify with the FCC or any State Authority would not, individually or in the aggregate, have a material adverse effect on the prospects, condition (financial or otherwise) or in the earnings, business or operations of the Company and its subsidiaries, taken as a whole;

(B) Except as described in the Prospectuses used in connection with the Stock Offerings and the Units Offering, (1) each of the Company and all of its subsidiaries have made all reports and filings, and paid all fees, required by the FCC and the State Authorities, and have all certificates, orders, permits, licenses, authorizations, consents and approvals of and from, and have made all filings and registrations, with the FCC and the State Authorities necessary to own, lease, license and use its properties and assets and to conduct the business now operated by them or intended to be operated by them in the manner described in the Prospectuses used in connection with the Stock Offerings and the Units Offering; and (2) neither the Company nor any of its subsidiaries has

received any notice of proceedings relating to the violation, revocation or modification of any such certificates, orders, permits, licenses, authorizations, consents or approvals, or the qualification or rejection of any such filing or registration, the effect of which, singly or in the aggregate, would have a material adverse effect on the prospects, condition, financial or otherwise, earnings, operations or business of the Company and its subsidiaries now operated by them or intended to be operated by them in the manner described in the Prospectuses used in connection with the Stock Offerings and the Units Offering, taken as a whole;

B-1

(C) neither the Company nor any of its subsidiaries is in violation of, or in default under the Communications Act, the telecommunications rules or regulations of the FCC or State Law, the effect of which, singly or in the aggregate, would have a material adverse change in the condition, financial or otherwise, or in the earnings, business affairs or business prospects of the Company and its subsidiaries, taken as a whole;

(D) to the best of such counsel's knowledge after due inquiry (i) no adverse judgment, decree or order of the FCC or any State Authority has been issued against the Company or any of its subsidiaries and (ii) no litigation, proceeding, inquiry or investigation has been commenced or threatened against the Company or any of its subsidiaries before or by the FCC or any State Authority which, if decided adversely to the Company's interest, would have a material adverse effect on the Company and its subsidiaries, taken as a whole; and

(E) the statements in the Prospectuses used in connection with the Stock Offerings and the Units Offering under the captions "Risk Factors - Continuing Oversight by the FCC," "Risk Factors - Application of Export Control Regulations," "Risk Factors - Competition," "Business - Competition," and "Business - Government Regulation," insofar as such statements constitute a summary of the legal matters, documents or proceedings referred to therein, fairly summarize the matters referred to therein.

B-2

Exhibit C

FORM OF OPINION OF PATENT COUNSEL TO THE COMPANY

(A) The Company has received the following U.S. patents: _____, and no facts have come to the attention of such counsel that have led such counsel to express an opinion that any of such patents is unenforceable or invalid.

(B) Such counsel is not aware of any pending or threatened action, suit, proceeding or claim by others that the Company is infringing or otherwise violating any patents or other proprietary information of others.

(C) Such counsel has no knowledge of any adversarial legal or governmental proceedings or interference proceedings pending relating to patents of the Company; and

(D) the statements in the Prospectuses used in connection with the Stock Offerings and the Units Offering under the captions "Risk Factors--Uncertain Protection" and "Business--Technology, Patents and Trademarks," insofar as such statements constitute a summary of the legal matters, documents or proceedings

referred to therein, fairly summarize the matters referred to therein.

C-1

Exhibit D

FORM OF OPINION OF OTHER
INTELLECTUAL PROPERTY COUNSEL TO THE COMPANY

(A) To such counsel's knowledge, the Applications are still pending and all filings required to be made by the date of such opinion have been made.

(B) Such counsel is not aware of any pending or threatened action, suit, proceeding or claim by others that the Company is infringing or otherwise violating any trademarks of others.

(C) Aside from the pending Applications, we have no knowledge of any pending or threatened adversarial legal or governmental proceedings or interference proceedings relating to the Applications.

Re: Proposed Public Offering by CD Radio Inc.

Dear Ladies and Gentlemen:

The undersigned, a stockholder [and an officer and/or director] of CD Radio Inc., a Delaware corporation (the "Company"), understands that Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated ("Merrill Lynch") and Lehman Brothers Inc. propose to enter into a Purchase Agreement (the "Purchase Agreement") with the Company providing for the public offering of shares (the "Securities") of the Company's common stock, par value \$0.001 per share (the "Common Stock"). In recognition of the benefit that such an offering will confer upon the undersigned as a stockholder [and an officer and/or

director] of the Company, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned agrees with each underwriter to be named in the Purchase Agreement that, during a period of 180 days from the date of the Purchase Agreement, the undersigned will not, without the prior written consent of Merrill Lynch, directly or indirectly, (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant for the sale of, or otherwise dispose of or transfer any shares of the Company's Common Stock or any securities convertible into or exchangeable or exercisable for Common Stock, whether now owned or hereafter acquired by the undersigned or with respect to which the undersigned has or hereafter acquires the power of disposition, or file any registration statement under the Securities Act of 1933, as amended, with respect to any of the foregoing or (ii) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of the Common Stock, whether any such swap or transaction is to be settled by delivery of Common Stock or other securities, in cash or otherwise; provided that the foregoing shall not apply to transfers

E-1

of shares of Common Stock by operation of law. During such 180-day period, the undersigned (a) may make gifts of shares of Common Stock or securities convertible into Common Stock, or may transfer to its affiliates shares of Common Stock or securities convertible into Common Stock, upon the condition that such donees or transferees agree to be bound by the foregoing restriction in the same manner as it applies to the undersigned and (b) may sell shares of Common Stock pursuant to an exchange offer for all of the outstanding shares of Common Stock.

Very truly yours,

CD RADIO INC.
(a Delaware corporation)

3,500,000 Shares of Common Stock
(par value \$.001 per share)

INTERNATIONAL PURCHASE AGREEMENT

[, 1997

MERRILL LYNCH INTERNATIONAL
Lehman Brothers International (Europe)
C.E. Unterberg, Towbin, a California Limited Partnership
as International Managers
C/O MERRILL LYNCH INTERNATIONAL
Ropemaker Place
25 Ropemaker Street
London EC2Y 9LY
England

Ladies and Gentlemen:

CD Radio Inc., a Delaware corporation (the "Company"), confirms its agreement with Merrill Lynch International ("Merrill Lynch"), Lehman Brothers International (Europe) and C.E. Unterberg, Towbin (collectively, the "International Managers", which term shall also include any underwriter substituted as hereinafter provided in Section 10 hereof), with respect to the issue and sale by the Company and the purchase by the International Managers, acting severally and not jointly, of the respective numbers of shares of Common Stock, par value \$.001 per share, of the Company ("Common Stock") set forth in said Schedule A, and with respect to the grant by the Company to the International Managers, acting severally and not jointly, of the option described in Section 2(b) hereof to purchase all or any part of 105,000 additional shares of Common Stock to cover over-allotments, if any. The aforesaid 700,000 shares of Common Stock (the "Initial International Securities") to be purchased by the International Managers and all or any part of the 105,000 shares of Common Stock subject to the option described in Section 2(b) hereof (the "International Option Securities") are hereinafter called, collectively, the "International Securities."

It is understood that the Company is concurrently entering into an agreement dated the date hereof (the "U.S. Purchase Agreement") providing for the offering by the Company of an aggregate of 2,800,000 shares of Common Stock (the "Initial U.S. Securities") through arrangements with certain underwriters in the United States and Canada (the "U.S.

Underwriters") for which Merrill Lynch, Pierce, Fenner & Smith Incorporated, Lehman Brothers Inc. and C.E. Unterberg, Towbin, are acting as representatives (the "U.S. Representatives") and the grant by the Company to the U.S. Underwriters, acting severally and not jointly, of an option to purchase all or any part of the U.S. Underwriters' pro rata portion of up to 420,000 additional shares of Common Stock solely to cover over-allotments, if any (the "U.S. Option Securities" and, together with the International Option Securities, the "Option Securities"). The Initial U.S. Securities and the U.S. Option Securities are hereinafter called the "U.S. Securities." It is understood that the Company is not obligated to sell and the International Managers are not obligated to purchase, any Initial International Securities unless all of the Initial U.S. Securities are contemporaneously purchased by the U.S. Underwriters.

The International Managers and the U.S. Underwriters are hereinafter collectively called the "Underwriters", the Initial International Securities and the Initial U.S. Securities are hereinafter collectively called the "Initial Securities", and the International Securities and the U.S. Securities are hereinafter collectively called the "Securities."

The Underwriters will concurrently enter into an Intersyndicate Agreement of even date herewith (the "Intersyndicate Agreement") providing for the coordination of certain transactions among the Underwriters under the direction of Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated (in such capacity, the "Global Coordinator").

The Company understands that the International Managers propose to make a public offering of the International Securities as soon as they deem advisable after this Agreement has been executed and delivered. The public offering of the Securities by the U.S. Underwriters and the International Managers is referred to herein as the "Stock Offerings."

The Company also has made an exchange offer (the "Exchange Offer") for its outstanding 5% Delayed Convertible Preferred Stock ("5% Preferred Stock") pursuant to a registration statement on Form S-4 (No. 333-34761) (the "Exchange Offer Registration Statement") and is undertaking a public offering of Units (the "Units Offering"), each Unit consisting of \$1,000 aggregate principal amount at maturity Senior Discount Notes due 2007 (the "Notes") and warrants (the "Warrants") to purchase Common Stock, pursuant to a registration statement on Form S-3 (No. 333-34769).

The Company has filed with the Securities and Exchange Commission (the "Commission") a registration statement on Form S-3 (No. 333-34767) covering the registration of the Securities under the Securities Act of 1933, as amended (the "1933 Act"), including the related preliminary prospectus or prospectuses. Promptly after execution and delivery of this Agreement, the Company will either (i) prepare and file a prospectus in accordance with the provisions of Rule 430A ("Rule 430A") of the rules and regulations of the Commission under the 1933 Act (the "1933 Act Regulations") and paragraph (b) of Rule 424 ("Rule 424(b)") of

the 1933 Act Regulations or (ii) if the Company has elected to rely upon Rule 434 ("Rule 434") of the 1933 Act Regulations, prepare and file a term sheet

2

(a "Term Sheet") in accordance with the provisions of Rule 434 and Rule 424(b). Two forms of prospectus are to be used in connection with the offering and sale of the Securities: one relating to the International Securities (the "Form of International Prospectus") and one relating to the U.S. Securities (the "Form of U.S. Prospectus"). The Form of International Prospectus is identical to the Form of U.S. Prospectus, except for the front cover and back cover pages and the information under the caption "Underwriting" and the inclusion in the Form of International Prospectus of a section under the caption "Certain United States Tax Considerations for Non-United States Holders." The information included in any such prospectus or in any such Term Sheet, as the case may be, that was omitted from such registration statement at the time it became effective but that is deemed to be part of such registration statement at the time it became effective (a) pursuant to paragraph (b) of Rule 430A is referred to as "Rule 430A Information" or (b) pursuant to paragraph (d) of Rule 434 is referred to as "Rule 434 Information." Each Form of International Prospectus and Form of U.S. Prospectus used before such registration statement became effective, and any prospectus that omitted, as applicable, the Rule 430A Information or the Rule 434 Information, that was used after such effectiveness and prior to the execution and delivery of this Agreement, is herein called a "preliminary prospectus." Such registration statement, including the exhibits thereto, schedules thereto, if any, and the documents incorporated by reference therein pursuant to Item 12 of Form S-3 under the 1933 Act, at the time it became effective and including the Rule 430A Information and the Rule 434 Information, as applicable, is herein called the "Registration Statement." Any registration statement filed pursuant to Rule 462(b) of the 1933 Act Regulations is herein referred to as the "Rule 462(b) Registration Statement," and after such filing the term "Registration Statement" shall include the Rule 462(b) Registration Statement. The final Form of International Prospectus and the final Form of U.S. Prospectus, including the documents incorporated by reference therein pursuant to Item 12 of Form S-3 under the 1933 Act, in the forms first furnished to the Underwriters for use in connection with the offering of the Securities are herein called the "International Prospectus" and the "U.S. Prospectus," respectively, and collectively, the "Prospectuses." If Rule 434 is relied on, the terms "International Prospectus" and "U.S. Prospectus" shall refer to the preliminary International Prospectus dated October 30, 1997 and the preliminary U.S. Prospectus dated October 30, 1997, respectively, each together with the applicable Term Sheet and all references in this Agreement to the date of such Prospectuses shall mean the date of the applicable Term Sheet. For purposes of this Agreement, all references to the Registration Statement, any preliminary prospectus, the International Prospectus, the U.S. Prospectus or any Term Sheet or any amendment or supplement to any of the foregoing shall be deemed to include the copy filed with the Commission pursuant to its Electronic Data Gathering, Analysis and Retrieval system ("EDGAR").

All references in this Agreement to financial statements and schedules and other information which is "contained," "included" or "stated" in the Registration Statement, any preliminary prospectus (including the Form of U.S. Prospectus and Form of International Prospectus) or the Prospectuses (or other references of like import) shall be deemed to mean and include all such financial statements and schedules and other information which is

3

incorporated by reference in the Registration Statement, any preliminary prospectus or the Prospectuses, as the case may be; and all references in this Agreement to amendments or supplements to the Registration Statement, any preliminary prospectus (including the Form of U.S. Prospectus and Form of International Prospectus) or the Prospectuses shall be deemed to mean and

include the filing of any document under the Securities Exchange Act of 1934 (the "1934 Act") which is incorporated by reference in the Registration Statement, such preliminary prospectus or the Prospectuses, as the case may be.

SECTION 1. Representations and Warranties.

(a) Representations and Warranties by the Company. The Company represents and warrants to each International Manager as of the date hereof, as of the Closing Time referred to in Section 2(c) hereof, and as of each Date of Delivery (if any) referred to in Section 2(b) hereof, and agrees with each International Manager, as follows:

(i) Compliance with Registration Requirements. Pursuant to an oral waiver granted to the Company by the Commission, the Company is permitted to use Form S-3 under the 1933 Act in connection with the Stock Offerings. Each of the Registration Statement and any Rule 462(b) Registration Statement has become effective under the 1933 Act and no stop order suspending the effectiveness of the Registration Statement or any Rule 462(b) Registration Statement has been issued under the 1933 Act and no proceedings for that purpose have been instituted or are pending or, to the knowledge of the Company, are contemplated by the Commission, and any request on the part of the Commission for additional information has been complied with.

At the respective times the Registration Statement, any Rule 462(b) Registration Statement and any post-effective amendments thereto became effective and at the Closing Time (and, if any International Option Securities are purchased, at the Date of Delivery), the Registration Statement, the Rule 462(b) Registration Statement and any amendments and supplements thereto complied and will comply in all material respects with the requirements of the 1933 Act and the 1933 Act Regulations and did not and will not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading. Neither of the Prospectuses nor any amendments or supplements thereto, at the time the Prospectuses or any amendments or supplements thereto were issued and at the Closing Time (and, if any International Option Securities are purchased, at the Date of Delivery), included or will include an untrue statement of a material fact or omitted or will omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading. If Rule 434 is used, the Company will comply with the requirements of Rule 434. The representations and warranties in this subsection shall not apply to statements in or omissions from the Registration Statement or the International Prospectus made in reliance upon and in conformity

4

with information furnished to the Company in writing by any International Managers expressly for use in the Registration Statement or the International Prospectus.

Each preliminary prospectus and the prospectuses filed as part of the Registration Statement as originally filed or as part of any amendment thereto, or filed pursuant to Rule 424 under the 1933 Act, complied when so filed in all material respects with the 1933 Act Regulations and each preliminary prospectus and the Prospectuses delivered to the Underwriters for use in connection with this offering was identical to the electronically transmitted copies thereof filed with the Commission pursuant to EDGAR, except to the extent permitted by Regulation S-T.

(ii) Incorporated Documents. The documents incorporated or deemed to be incorporated by reference in the Registration Statement and the Prospectuses, at the time they were or hereafter are filed with the Commission, complied and will comply in all material respects with the requirements of the 1934 Act, and, when read together with the other information in the Prospectuses, at the time the Registration Statement became effective, at the time the Prospectuses were issued and at the Closing Time (and if any Option Securities are purchased, at the Date of Delivery), did not and will not contain an untrue statement of a material fact or omit to state a material fact required to be stated

therein or necessary to make the statements therein not misleading.

(iii) Independent Accountants. The accountants who certified the financial statements and supporting schedules included in the Registration Statement are independent public accountants as required by the 1933 Act.

(iv) Financial Statements. The financial statements and the related notes of the Company included in the Registration Statement and the Prospectuses present fairly in accordance with generally accepted accounting principles ("GAAP") the financial position of the Company and its consolidated subsidiary as of the dates indicated and the statement of operations, stockholders' equity and cash flows of the Company and its consolidated subsidiary for the periods specified. Such financial statements have been prepared in conformity with GAAP applied on a consistent basis throughout the periods involved. The selected financial data and the summary financial information included in the Registration Statement and the Prospectuses present fairly in accordance with GAAP the information shown therein and have been compiled on a basis consistent with that of the audited financial statements of the Company for each of the years in the five-year period ended December 31, 1996.

(v) No Material Adverse Charge in Business. Since the respective dates as of which information is given in the Registration Statement and the Prospectuses, except as otherwise stated therein or contemplated thereby, there has not been (A) any material adverse change in the condition, financial or otherwise, or in the earnings, business affairs or business prospects of the Company and its subsidiary considered as

5

one enterprise, whether or not arising in the ordinary course of business (a "Material Adverse Effect"), (B) any transaction entered into by the Company or its subsidiary, other than in the ordinary course of business, that is material with respect to the Company and its subsidiary considered as one enterprise, or (C) any dividend or distribution of any kind declared, paid or made by the Company on any class of its capital stock.

(vi) Good Standing of the Company. The Company has been duly organized and is validly existing as a corporation in good standing under the laws of the State of Delaware and has corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Prospectuses, to enter into and perform its obligations under this Agreement and to consummate the Stock Offerings; the Company is duly qualified as a foreign corporation to transact business and is in good standing in each other jurisdiction in which each such qualification is required, whether by reason of the ownership or leasing of property or the conduct of business, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect.

(vii) Good Standing of the Subsidiary. Satellite CD Radio, Inc. has been duly organized and is validly existing as a corporation in good standing under the laws of the State of Delaware and has corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Prospectuses and is duly qualified as a foreign corporation to transact business and is in good standing in each jurisdiction in which such qualification is required, whether by reason of the ownership or leasing of property or the conduct of business, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect. All of the issued and outstanding capital stock of Satellite CD Radio, Inc. has been duly authorized and validly issued, is fully paid and non-assessable and is owned by the Company free and clear of any security interest, mortgage, pledge, lien, encumbrance, claim or equity; none of the outstanding shares of capital stock of Satellite CD Radio, Inc. was issued in violation of the preemptive or similar rights of any securityholder of Satellite CD Radio, Inc. Satellite CD Radio, Inc. is the only subsidiary of the Company.

(viii) Capitalization. The authorized, issued and outstanding capital stock of the Company is as set forth in the Prospectuses in the column entitled "Actual" under the caption "Capitalization" (except for

subsequent issuances, if any, pursuant to reservations, agreements or employee benefit plans referred to in the Prospectuses, pursuant to the Exchange Offer or pursuant to the exercise of convertible securities, warrants or options referred to in the Prospectuses). The shares of issued and outstanding capital stock of the Company have been duly authorized and validly issued and are fully paid and non-assessable; none of the outstanding shares of capital stock of the Company was issued in violation of the preemptive or other similar rights of any securityholder of the Company.

6

(ix) Authorization of Agreements. This Agreement and the International Purchase Agreement have been duly authorized, executed and delivered by the Company.

(x) Authorization and Description of Securities. The Securities to be purchased by the International Managers and the U.S. Underwriters from the Company have been duly authorized for issuance and sale to the International Managers pursuant to this Agreement and the U.S. Underwriters pursuant to the U.S. Purchase Agreement, respectively, and, when issued and delivered by the Company pursuant to this Agreement and the U.S. Purchase Agreement, respectively, against payment of the consideration set forth herein and in the U.S. Purchase Agreement, respectively, will be validly issued, fully paid and non-assessable; the Common Stock conforms to all statements relating thereto contained in the Prospectuses and the description thereof in the Prospectuses conforms to the rights set forth in the instruments defining the same; no holder of the Securities will be subject to personal liability by reason of being such a holder; and the issuance of the Securities is not subject to the preemptive or other similar rights of any securityholder of the Company.

(xi) Absence of Defaults and Conflicts. Neither the Company nor its subsidiary is in violation of its charter or by-laws or in default in the performance or observance of any obligation, agreement, covenant or condition contained in any contract, indenture, mortgage, deed of trust, loan or credit agreement, note, lease or other agreement or instrument to which the Company or its subsidiary is a party or by which it or any of them may be bound, or to which any of the property or assets of the Company or its subsidiary is subject (collectively, "Agreements and Instruments") except for such defaults that would not result in a Material Adverse Effect; and the execution, delivery and performance of this Agreement and the U.S. Purchase Agreement and the consummation of the transactions contemplated in this Agreement, the U.S. Purchase Agreement and in the Registration Statement (including the issuance and sale of the Securities and the use of the proceeds from the sale of the Securities as described in the Prospectuses under the caption "Use of Proceeds") and compliance by the Company with its obligations under this Agreement and the U.S. Purchase Agreement have been duly authorized by all necessary corporate action and do not and will not, whether with or without the giving of notice or passage of time or both, conflict with or constitute a breach of, or default or Repayment Event (as defined below) under, or result in the creation or imposition of any lien, charge or encumbrance upon any property or assets of the Company or its subsidiary pursuant to, the Agreements and Instruments (except for such conflicts, breaches or defaults or liens, charges or encumbrances that would not result in a Material Adverse Effect), nor will such action result in any violation of the provisions of the charter or by-laws of the Company or its subsidiary or any applicable law, statute, rule, regulation, judgment, order, writ or decree of any government, government instrumentality or court, domestic or foreign, having jurisdiction over the Company or its subsidiary or

7

any of their assets, properties or operations. As used herein, a "Repayment Event" means any event or condition which gives the holder of any note, debenture or other evidence of indebtedness (or any person acting on such holder's behalf) the right to require the repurchase, redemption or repayment of all or a portion of such indebtedness by the Company or its subsidiary.

(xii) Absence of Labor Dispute. No labor dispute with the employees of the Company or its subsidiary exists or, to the knowledge of the Company, is imminent, and the Company is not aware of any existing or imminent labor disturbance by the employees of any of its or its subsidiary's principal suppliers, manufacturers or contractors, which, in either case, may reasonably be expected to result in a Material Adverse Effect.

(xiii) Absence of Proceedings. There is no action, suit, proceeding, inquiry or investigation before or brought by any court or governmental agency or body, domestic or foreign, now pending, or, to the knowledge of the Company, threatened, against or affecting the Company or its subsidiary, which is required to be disclosed in the Registration Statement and the Prospectuses (other than as disclosed therein), or which might reasonably be expected to result in a Material Adverse Effect, or which might reasonably be expected to materially and adversely affect the properties or assets thereof or the transactions contemplated by this Agreement and the International Purchase Agreement or the performance by the Company of its obligations hereunder or thereunder; all pending legal or governmental proceedings to which the Company or its subsidiary is a party or of which any of their respective property or assets is the subject which are not described in the Registration Statement, including ordinary routine litigation incidental to the business, in the aggregate could not reasonably be expected to result in a Material Adverse Effect.

(xiv) Accuracy of Exhibits. There are no contracts or documents which are required to be described in the Registration Statement, the Prospectuses or the documents incorporated by reference therein or to be filed as exhibits thereto which have not been so described and filed as required.

(xv) Possession of Intellectual Property. The Company and its subsidiary own or possess adequate patents, patent rights, licenses, inventions, copyrights, know-how (including trade secrets and other unpatented and/or unpatentable proprietary or confidential information, systems or procedures), trademarks, service marks, trade names or other intellectual property (collectively, "Intellectual Property") necessary to carry on the business now operated by them and intended to be operated by them in the manner described in the Registration Statement and the Prospectuses, and neither the Company nor its subsidiary has received any notice or is otherwise aware of any infringement of or conflict with asserted rights of others with respect to any Intellectual Property or of any facts or circumstances which would render any Intellectual Property invalid or inadequate to protect the interest of the Company or

its subsidiary therein, and which infringement or conflict (if the subject of any unfavorable decision, ruling or finding) or invalidity or inadequacy, singly or in the aggregate, would result in a Material Adverse Effect.

(xvi) Absence of Further Requirements. No filing with, or authorization, approval, consent, license, order, registration, qualification or decree of, any court or governmental authority or agency is necessary or required for the performance by the Company of its obligations hereunder or under the U.S. Purchase Agreement, in connection with the offering, issuance or sale of the Securities under this Agreement and the U.S. Purchase Agreement or the consummation of the transactions contemplated by this Agreement and the U.S. Purchase

Agreement, except such as have been already obtained or as may be required under the 1933 Act or the 1933 Act Regulations and state securities or blue sky laws.

(xvii) Possession of Licenses and Permits. Except as disclosed in the Prospectuses, the Company and its subsidiary possess such permits, licenses (including, without limitation, the FCC License, as defined in the Prospectuses), approvals, consents and other authorizations (collectively, "Governmental Licenses") issued by the appropriate federal, state, local or foreign regulatory agencies or bodies necessary to conduct the business now operated by them or intended to be operated by them in the manner described in the Registration Statement and the Prospectuses; the Company and its subsidiary are in compliance with the terms and conditions of all such Governmental Licenses, except where the failure so to comply would not, singly or in the aggregate, have a Material Adverse Effect; all of the Governmental Licenses are valid and in full force and effect, except when the invalidity of such Governmental Licenses or the failure of such Governmental Licenses to be in full force and effect would not have a Material Adverse Effect; and neither the Company nor its subsidiary has received any notice of proceedings relating to the revocation or modification of any such Governmental Licenses which, singly or in the aggregate, if the subject of an unfavorable decision, ruling or finding, would result in a Material Adverse Effect.

(xviii) Title to Property. The Company and its subsidiary have good and marketable title to all real property owned by the Company and its subsidiary and good title to all other properties owned by them, in each case, free and clear of all mortgages, pledges, liens, security interests, claims, restrictions or encumbrances of any kind except such as (a) are described in the Prospectuses or (b) do not, singly or in the aggregate, materially affect the value of such property and do not interfere with the use made and proposed to be made of such property by the Company or its subsidiary; and all of the leases and subleases material to the business of the Company and its subsidiary, considered as one enterprise, and under which the Company or its subsidiary holds properties described in the Prospectuses, are in full force and effect, and neither the Company nor its subsidiary has any notice of any material claim of any sort that has been asserted by anyone adverse to the rights of

9

the Company or its subsidiary under any of the leases or subleases mentioned above, or affecting or questioning the rights of the Company or such subsidiary to the continued possession of the leased or subleased premises under any such lease or sublease.

(xix) Investment Company Act. The Company is not, and upon the issuance and sale of the Securities as herein contemplated, the issuance and sale of Units in connection with the Units Offering, and the application of the net proceeds therefrom as described in the Prospectuses will not be, an "investment company" or an entity "controlled" by an "investment company" as such terms are defined in the Investment Company Act of 1940, as amended (the "1940 Act").

(xx) Environmental Laws. Except as described in the Registration Statement and except as would not, singly or in the aggregate, result in a Material Adverse Effect, (A) neither the Company nor its subsidiary is in violation of any federal, state, local or foreign statute, law, rule, regulation, ordinance, code, policy or rule of common law or any judicial or administrative interpretation thereof, including any judicial or administrative order, consent, decree or judgment, relating to pollution or protection of human health, the environment (including, without limitation, ambient air, surface water, groundwater, land surface or subsurface strata) or wildlife, including, without limitation, laws and regulations relating to the release or threatened release of chemicals, pollutants, contaminants, wastes, toxic substances, hazardous substances, petroleum or petroleum products (collectively, "Hazardous Materials") or to the manufacture, processing, distribution, use, treatment, storage, disposal, transport or handling of Hazardous Materials (collectively, "Environmental Laws"), (B) the Company and its subsidiary have all permits, authorizations and approvals required under any applicable Environmental Laws and are each

in compliance with their requirements, (C) there are no pending or threatened administrative, regulatory or judicial actions, suits, demands, demand letters, claims, liens, notices of noncompliance or violation, investigation or proceedings relating to any Environmental Law against the Company or its subsidiary and (D) there are no events or circumstances that might reasonably be expected to form the basis of an order for clean-up or remediation, or an action, suit or proceeding by any private party or governmental body or agency, against or affecting the Company or its subsidiary relating to Hazardous Materials or any Environmental Laws.

(xxi) Taxes. All United States federal income tax returns of the Company and its subsidiary required by law to be filed have been filed and all taxes shown by such returns or otherwise assessed, which are due and payable, have been paid, except assessments against which appeals have been or will be promptly taken and as to which adequate reserves have been provided. The Company and its subsidiary have filed all other tax returns that are required to have been filed by them pursuant to applicable foreign, state, local or other law, except insofar as the failure to file such returns would not result in a Material Adverse Effect, and have paid all taxes

10

due pursuant to such returns or pursuant to any assessment received by the Company and its subsidiary, except for such taxes, if any, as are being contested in good faith and as to which adequate reserves have been provided.

(xxii) Internal Controls. The Company and its subsidiary maintain a system of internal accounting controls sufficient to provide reasonable assurances that (A) transactions are executed in accordance with management's general or specific authorization, (B) transactions are recorded as necessary to permit preparation of financial statements in conformity with generally accepted accounting principles and to maintain accountability for assets, (C) access to assets is permitted only in accordance with management's general or specific authorization and (D) the recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences.

(xxiii) Registration Rights. Except as described in the Prospectuses, there are no persons with registration rights or other similar rights to have any securities registered pursuant to the Registration Statement or otherwise registered by the Company under the 1933 Act.

(xxiv) Related Parties. No relationship, direct or indirect, exists between or among any of the Company or any affiliate of the Company, on the one hand, and any director, officer, stockholder or supplier of any of them, on the other hand, which is required to be described in the Registration Statement or the Prospectuses which is not so described or is not described as required.

(xxv) Offering Materials. The Company has not distributed and, prior to the Closing Time, will not distribute any Offering Materials in connection with the offering and sale of Securities, other than the Registration Statement, any preliminary prospectus, the Prospectuses or any other Offering Materials, if any, permitted by the 1933 Act and the 1934 Act and approved by the Representatives.

(xxvi) Voting Trust Agreement. The Voting Trust Agreement, dated August 26, 1997 among the Company, Darlene Friedland and David Margolese and consented to by Robert M. Friedland has been duly authorized, executed and delivered by the Company and, assuming due authorization, execution and delivery thereof by the parties thereto (other than the Company), is a valid, legal and binding obligation of the Company and Darlene Friedland, enforceable in accordance with its terms, except as the enforcement thereof may be limited by bankruptcy, insolvency (including, without limitation, all laws relating to fraudulent transfers), reorganization, moratorium or similar laws affecting enforcement of creditors' rights generally and except as enforcement thereof is subject to general principles of equity (regardless of whether enforcement is considered in a proceeding in equity or at law).

(xxvii) Proposed Amendment. The Proposed Amendment (as defined in the Exchange Offer Registration Statement) has been approved by the Board of Directors of the Company and the stockholders of the Company and has been validly filed with the Secretary of State of the State of Delaware, and prior to the date hereof the Company's Articles of Incorporation have been amended by the Proposed Amendment.

(xxviii) Exchange Offer. Prior to the date hereof, the Exchange Offer has been consummated and, in the Exchange Offer, shares of the Company's 10 1/2% Series C Convertible Preferred Stock were exchanged for []% of the outstanding shares of 5% Preferred Stock.

(xxix) Qualifying Offerings. After giving effect to the issuance and sale of the Initial Securities, there will have occurred one or more Qualifying Offerings (as defined in the Certificate of Designations for the 5% Preferred Stock) yielding gross proceeds to the Company in an aggregate cash amount of at least \$100 million.

(b) Officer's Certificate. Any certificate signed by any officer of the Company delivered to the Representatives or to its counsel shall be deemed a representation and warranty by the Company to the Representatives as to the matters covered thereby.

SECTION 2. Sale and Delivery to International Managers; Closing.

(a) Initial Securities. On the basis of the representations and warranties herein contained and subject to the terms and conditions herein set forth, the Company agrees to sell to each International Manager, severally and not jointly, and each International Manager, severally and not jointly, agrees to purchase from the Company, at the price per share set forth in Schedule B, the number of Initial International Securities set forth in Schedule A opposite the name of such International Manager, plus any additional number of Initial International Securities which such International Manager may become obligated to purchase pursuant to the provisions of Section 10 hereof.

(b) Option Securities. In addition, on the basis of the representations and warranties herein contained and subject to the terms and conditions herein set forth, the Company hereby grants an option to the International Managers, severally and not jointly, to purchase up to an additional 105,000 shares of Common Stock at the price per share set forth in Schedule B, less an amount per share equal to any dividends or distributions declared by the Company and payable on the Initial International Securities but not payable on the International Option Securities. The option hereby granted will expire 30 days after the date hereof and may be exercised in whole or in part from time to time only for the purpose of covering over-allotments which may be made in connection with the offering and distribution of the Initial International Securities upon notice by the Global Coordinator to the Company setting forth the number of International Option Securities as to which the several International Managers are then exercising the option and the time and date of payment and

delivery for such International Option Securities. Any such time and date of delivery for the International Option Securities (a "Date of Delivery") shall be determined by the Global Coordinator, but shall not be later than seven full business days after the exercise of said option, nor in any event prior to the Closing Time, as hereinafter defined. If the option is exercised as to all or any portion of the International Option Securities, each of the International Managers, acting severally and not jointly, will purchase that proportion of the

total number of International Option Securities then being purchased which the number of Initial International Securities set forth in Schedule A opposite the name of such International Manager bears to the total number of Initial International Securities, subject in each case to such adjustments as the Global Coordinator in its discretion shall make to eliminate any sales or purchases of fractional shares.

(c) Payment. Payment of the purchase price for, and delivery of certificates for, the Initial Securities shall be made at the offices of Shearman & Sterling, 599 Lexington Avenue, New York, New York 10022, or at such other place as shall be agreed upon by the Global Coordinator and the Company, at 9:00 A.M. (Eastern time) on the third (fourth, if the pricing occurs after 4:30 P.M. (Eastern time) on any given day) business day after the date hereof (unless postponed in accordance with the provisions of Section 10), or such other time not later than ten business days after such date as shall be agreed upon by the Global Coordinator and the Company (such time and date of payment and delivery being herein called "Closing Time").

In addition, in the event that any or all of the International Option Securities are purchased by the International Managers, payment of the purchase price for, and delivery of certificates for, such International Option Securities shall be made at the above-mentioned offices, or at such other place as shall be agreed upon by the Global Coordinator and the Company, on each Date of Delivery as specified in the notice from the Global Coordinator to the Company.

Payment shall be made to the Company by wire transfer of immediately available funds to a bank account designated by the Company, against delivery to the International Managers for their respective of certificates for the International Securities to be purchased by them. It is understood that each International Manager has agreed to accept delivery of, receipt for, and make payment of the purchase price for, the Initial International Securities and the International Option Securities, if any, which it has agreed to purchase. Merrill Lynch, individually and not as representative of the International Managers, may (but shall not be obligated to) make payment of the purchase price for the Initial International Securities or the International Option Securities, if any, to be purchased by any International Manager whose funds have not been received by the Closing Time or the relevant Date of Delivery, as the case may be, but such payment shall not relieve such International Manager from its obligations hereunder.

(d) Denominations; Registration. Certificates for the Initial International Securities and the International Option Securities, if any, shall be in such denominations and

registered in such names as the International Managers may request in writing at least one full business day before the Closing Time or the relevant Date of Delivery, as the case may be. The certificates for the Initial International Securities and the International Option Securities, if any, will be made available for examination and packaging by the International Managers in The City of New York not later than 10:00 A.M. (Eastern time) on the business day prior to the Closing Time or the relevant Date of Delivery, as the case may be.

SECTION 3. Covenants of the Company. The Company covenants with each International Manager as follows:

(a) Compliance with Securities Regulations and Commission Requests. The Company, subject to Section 3(b), will comply with the requirements of Rule 430A or Rule 434, as applicable, and will notify the Global Coordinator immediately, and confirm the notice in writing, (i) when any post-effective amendment to the Registration Statement shall become effective, or any supplement to the Prospectuses or any amended Prospectuses shall have been filed, (ii) of the receipt of any comments from the Commission, (iii) of any request by the Commission for any amendment to the Registration Statement or any amendment or supplement to the Prospectuses or for additional information, and (iv) of the issuance by the Commission of any stop order suspending the effectiveness of the Registration Statement or of any order preventing or suspending the use of any preliminary prospectus, or of the suspension of the qualification of the Securities for offering or sale in any jurisdiction, or of the initiation or threatening of any proceedings for any of such purposes. The Company will promptly effect

the filings necessary pursuant to Rule 424(b) and will take such steps as it deems necessary to ascertain promptly whether the form of prospectus transmitted for filing under Rule 424(b) was received for filing by the Commission and, in the event that it was not, it will promptly file such prospectus. The Company will make every reasonable effort to prevent the issuance of any stop order and, if any stop order is issued, to obtain the lifting thereof at the earliest possible moment.

(b) Filing of Amendments. The Company will give the Global Coordinator notice of its intention to file or prepare any amendment to the Registration Statement (including any filing under Rule 462(b)), any Term Sheet or any amendment, supplement or revision to either any prospectus included in the Registration Statement at the time it became effective or to the Prospectuses, whether pursuant to the 1933 Act, the 1934 Act or otherwise, will furnish the Global Coordinator with copies of any such documents a reasonable amount of time prior to such proposed filing or use, as the case may be, and will not file or use any such document to which the Global Coordinator or counsel for the International Managers shall object.

(c) Delivery of Registration Statements. The Company has furnished or will deliver to the International Managers and counsel for the International Managers, without charge, signed copies of the Registration Statement as originally filed and of

14

each amendment thereto (including exhibits filed therewith or incorporated by reference therein and documents incorporated or deemed to be incorporated by reference therein) and signed copies of all consents and certificates of experts, and will also deliver to the International Managers, without charge, a conformed copy of the Registration Statement as originally filed and of each amendment thereto (without exhibits) for each of the International Managers. The copies of the Registration Statement and each amendment thereto furnished to the International Managers will be identical to the electronically transmitted copies thereof filed with the Commission pursuant to EDGAR, except to the extent permitted by Regulation S-T.

(d) Delivery of Prospectuses. The Company has delivered to each International Manager, without charge, as many copies of each preliminary prospectus as such International Manager reasonably requested, and the Company hereby consents to the use of such copies for purposes permitted by the 1933 Act. The Company will furnish to each International Manager, without charge, during the period when the International Prospectus is required to be delivered under the 1933 Act or the 1934 Act, such number of copies of the International Prospectus (as amended or supplemented) as such International Manager may reasonably request. The International Prospectus and any amendments or supplements thereto furnished to the International Managers will be identical to the electronically transmitted copies thereof filed with the Commission pursuant to EDGAR, except to the extent permitted by Regulation S-T.

(e) Continued Compliance with Securities Laws. The Company will comply with the 1933 Act and the 1933 Act Regulations and the 1934 Act and the rules and regulations of the Commission under the 1934 Act (the "1934 Act Regulations") so as to permit the completion of the distribution of the Securities as contemplated in this Agreement, the U.S. Purchase Agreement and in the Prospectuses. If at any time when a prospectus is required by the 1933 Act to be delivered in connection with sales of the Securities, any event shall occur or condition shall exist as a result of which it is necessary, in the opinion of counsel for the International Managers or for the Company, to amend the Registration Statement or amend or supplement any Prospectus in order that the Prospectuses will not include any untrue statements of a material fact or omit to state a material fact necessary in order to make the statements therein not misleading in the light of the circumstances existing at the time any such Prospectus is delivered to a purchaser, or if it shall be necessary, in the opinion of such counsel, at any such time to amend the Registration Statement or amend or supplement any Prospectus in order to comply with the requirements of the 1933 Act or the 1933 Act Regulations, the Company will promptly

prepare and file with the Commission, subject to Section 3(b), such amendment or supplement as may be necessary to correct such statement or omission or to make the Registration Statement or the Prospectuses comply with such requirements, and the Company will furnish to the International Managers such

15

number of copies of such amendment or supplement as the International Managers may reasonably request.

(f) Blue Sky Qualifications. The Company will use its best efforts, in cooperation with the International Managers, to qualify the Securities for offering and sale under the applicable securities laws of such states and other jurisdictions as the Global Coordinator may designate and to maintain such qualifications in effect for a period of not less than one year from the later of the effective date of the Registration Statement and any Rule 462(b) Registration Statement; provided, however, that the Company shall not be obligated to file any general consent to service of process or to qualify as a foreign corporation or as a dealer in securities in any jurisdiction in which it is not so qualified or to subject itself to taxation in respect of doing business in any jurisdiction in which it is not otherwise so subject. In each jurisdiction in which the Securities have been so qualified, the Company will file such statements and reports as may be required by the laws of such jurisdiction to continue such qualification in effect for a period of not less than one year from the effective date of the Registration Statement and any Rule 462(b) Registration Statement.

(g) Rule 158. The Company will timely file such reports pursuant to the 1934 Act as are necessary in order to make generally available to its securityholders as soon as practicable an earnings statement for the purposes of, and to provide the benefits contemplated by, the last paragraph of Section 11(a) of the 1933 Act.

(h) Use of Proceeds. The Company will use the net proceeds received by it from the sale of the Securities in the manner specified in the Prospectuses under "Use of Proceeds".

(i) Listing. The Company will use its best efforts to maintain the quotation of the Securities on the Nasdaq National Market and will file with the Nasdaq National Market all documents and notices required by the Nasdaq National Market of companies that have securities that are traded on the Nasdaq National Market and quotations for which are reported by the Nasdaq National Market.

(j) Restriction on Sale of Securities. During a period of 180 days from the date of the Prospectuses, the Company will not, without the prior written consent of the Global Coordinator, (i) directly or indirectly, offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any share of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock or file any registration statement under the 1933 Act with respect to any of the foregoing or (ii) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of the Common Stock, whether any such swap or transaction described in clause (i) or (ii) above is to be settled by delivery of Common

16

Stock or such other securities, in cash or otherwise. The foregoing sentence shall not apply to (A) the Securities to be sold hereunder or under the U.S. Purchase Agreement, (B) any shares of Common Stock issued by the Company upon the exercise of an option or warrant or the conversion of a security outstanding on the date hereof, or required to be issued by the Company pursuant to a contract entered into prior to the date hereof, and referred to in the Prospectuses, (C) any shares of Common Stock issued or options to purchase Common Stock granted pursuant to existing employee benefit plans of the Company referred to in the Prospectuses (D) any shares of Common Stock issued pursuant to any non-employee director stock plan or dividend reinvestment plan or (E) any shares of Common Stock issued in connection with the Exchange Offer or the Units Offering or the issuance of Common Stock upon the exercise of such Warrants.

(k) Reporting Requirements. The Company, during the period when the Prospectuses are required to be delivered under the 1933 Act or the 1934 Act, will file all documents required to be filed with the Commission pursuant to the 1934 Act within the time periods required by the 1934 Act and the 1934 Act Regulations.

SECTION 4. Payment of Expenses. (a) Expenses. The Company will pay all expenses incident to the performance of its obligations under this Agreement, including (i) the preparation, printing and filing of the Registration Statement (including financial statements and exhibits) as originally filed and of each amendment thereto, (ii) the preparation, printing and delivery to the Underwriters of this Agreement, any Agreement among Underwriters and such other documents as may be required in connection with the offering, purchase, sale, issuance or delivery of the Securities, (iii) the preparation, issuance and delivery of the certificates for the Securities to the Underwriters, including any stock or other transfer taxes and any stamp or other duties payable upon the sale, issuance or delivery of the Securities to the Underwriters and the transfer of the Securities between the U.S. Underwriters and the International Managers, (iv) the fees and disbursements of the Company's counsel, accountants and other advisors, (v) the qualification of the Securities under securities laws in accordance with the provisions of Section 3(f) hereof, including filing fees and the reasonable fees and disbursements of counsel for the Underwriters in connection therewith and in connection with the preparation of the Blue Sky Survey and any supplement thereto, (vi) the printing and delivery to the Underwriters of copies of each preliminary prospectus, any Term Sheets and of the Prospectuses and any amendments or supplements thereto, (vii) the preparation, printing and delivery to the Underwriters of copies of the Blue Sky Survey and any supplement thereto, (viii) the fees and expenses of any transfer agent or registrar for the Securities, (ix) the filing fees incident to, and the reasonable fees and disbursements of counsel to the Underwriters in connection with, the review by the National Association of Securities Dealers, Inc. (the "NASD") of the terms of the sale of the Securities and (x) the fees and expenses occurred in connection with the inclusion of the Securities in the Nasdaq National Market.

17

(b) Termination of Agreement. If this Agreement is terminated by the International Managers in accordance with the provisions of Section 5 or Section 9(a)(i) hereof, the Company shall reimburse the International Managers for all of their out-of-pocket expenses, including the reasonable fees and disbursements of counsel for the International Managers.

SECTION 5. Conditions of International Managers' Obligations. The obligations of the several International Managers hereunder are subject to the accuracy of the representations and warranties of the Company contained in Section 1 hereof or in certificates of any officer of the Company or any subsidiary of the Company delivered pursuant to the provisions hereof, to the performance by the Company of its covenants and other obligations hereunder, and to the following further conditions:

(a) Effectiveness of Registration Statement. The Registration Statement, including any Rule 462(b) Registration Statement, has become effective and at Closing Time no stop order suspending the effectiveness of the Registration Statement shall have been issued under the 1933 Act or proceedings therefor initiated or threatened by the Commission, and any request on the part of the Commission for additional information shall have been complied with to the reasonable satisfaction of counsel

to the International Managers. A prospectus containing the Rule 430A Information shall have been filed with the Commission in accordance with Rule 424(b) (or a post-effective amendment providing such information shall have been filed and declared effective in accordance with the requirements of Rule 430A) or, if the Company has elected to rely upon Rule 434, a Term Sheet shall have been filed with the Commission in accordance with Rule 424(b).

(b) Opinion of Counsel for Company. At Closing Time, the International Managers shall have received the favorable opinion, dated as of Closing Time, of Paul, Weiss, Rifkind, Wharton & Garrison, counsel for the Company, in form and substance satisfactory to counsel for the International Managers, together with signed or reproduced copies of such letter for each of the other International Managers to the effect set forth in Exhibit A hereto and to such further effect as counsel to the International Managers may reasonably request.

(c) Opinion of Regulatory Counsel for Company. At the Closing Time, the International Managers shall have received the favorable opinion, dated as of the Closing Time, of Wiley, Rein & Fielding, regulatory counsel for the Company, in form and substance satisfactory to counsel for the International Managers, together with signed or reproduced copies of such letter for each of the other International Managers, to the effect set forth in Exhibit B hereto and to such further effect as counsel for the International Managers may reasonably request.

(d) Opinion of Patent Counsel for Company. At the Closing Time, the International Managers shall have received the favorable opinion, dated as of the

18

Closing Time, of [Bright & Lorig], patent counsel for the Company, in form and substance satisfactory to counsel for the International Managers, together with signed or reproduced copies of such letter for each of the other International Managers, to the effect set forth in Exhibit C hereto and to such further effect as counsel for the International Managers may reasonably request.

(e) Opinion of Intellectual Property Counsel for Company. At the Closing Time, the International Managers shall have received the favorable opinion, dated as of the Closing Time, of Marzouk & Parry, intellectual property counsel for the Company, in form and substance satisfactory to counsel for the International Managers, together with signed or reproduced copies of such letter for each of the other International Managers, to the effect set forth in Exhibit D hereto and to such further effect as counsel to the International Managers may reasonably request.

(f) Opinion of Counsel for International Managers. At Closing Time, the International Managers shall have received the favorable opinion, dated as of Closing Time, of Shearman & Sterling, counsel for the International Managers, together with signed or reproduced copies of such letter for each of the other International Managers with respect to the matters set forth in clauses (i), (ii), (v), (vi) (solely as to preemptive or other similar rights arising by operation of law or under the charter or by-laws of the Company), (viii) through (x), inclusive, (xiv) (solely as to the information in the Prospectus under "Description of Capital Stock--Common Stock") and the penultimate paragraph of Exhibit A hereto. In giving such opinion such counsel may rely, as to all matters governed by the laws of jurisdictions other than the law of the State of New York, and the federal law of the United States and the General Corporation Law of the State of Delaware, upon the opinions of counsel satisfactory to the International Managers. Such counsel may also state that, insofar as such opinion involves factual matters, they have relied, to the extent they deem proper, upon certificates of officers of the Company and its subsidiaries and certificates of public officials.

(g) Officers' Certificate. At Closing Time, there shall not have been, since the date hereof or since the respective dates as of which information is given in the Prospectuses, any material adverse change in

the condition, financial or otherwise, or in the earnings, business affairs or business prospects of the Company and its subsidiary considered as one enterprise, whether or not arising in the ordinary course of business, and the International Managers shall have received a certificate of the chief executive officer of the Company and of the chief financial or chief accounting officer of the Company, dated as of Closing Time, to the effect that (i) there has been no such material adverse change, (ii) the representations and warranties in Section 1(a) hereof are true and correct with the same force and effect as though expressly made at and as of Closing Time, (iii) the Company has complied with all agreements and satisfied all conditions on its part to be performed or satisfied at or prior to Closing Time, and (iv) no stop order suspending the effectiveness of the

19

Registration Statement has been issued and no proceedings for that purpose have been instituted or are pending or are contemplated by the Commission.

(h) Accountants' Comfort Letter. At the time of the execution of this Agreement, the International Managers shall have received from Coopers & Lybrand L.L.P. a letter dated such date, in form and substance satisfactory to the International Managers, together with signed or reproduced copies of such letter for each of the other International Managers containing statements and information of the type ordinarily included in accountants' "comfort letters" to underwriters with respect to the financial statements and certain financial information contained in the Registration Statement and the Prospectuses.

(i) Bring-down Comfort Letter. At Closing Time, the International Managers shall have received from Coopers & Lybrand L.L.P. a letter, dated as of Closing Time, to the effect that they reaffirm the statements made in the letter furnished pursuant to subsection (h) of this Section, except that the specified date referred to shall be a date not more than three business days prior to Closing Time.

(j) Approval of Listing. At Closing Time, the Securities shall have been approved for inclusion in the Nasdaq National Market.

(k) No Objection. The NASD has confirmed that it has not raised any objection with respect to the fairness and reasonableness of the underwriting terms and arrangements.

(l) Lock-up Agreements. At the date of this Agreement, the International Managers shall have received an agreement substantially in the form of Exhibit B hereto signed by the persons listed on Schedule D hereto.

(m) Consummation of the Exchange Offer. The Company shall have consummated the Exchange Offer.

(n) Proposed Amendment. The Proposed Amendment has been approved by the Board of Directors of the Company and the stockholders of the Company and has been validly filed with the Secretary of State of the State of Delaware, and the Company's Articles of Incorporation shall have been amended by the Proposed Amendment.

(o) Qualifying Offerings. After giving effect to the issuance and sale of the Initial Securities, there shall have occurred one or more Qualifying Offerings yielding gross proceeds to the Company in an aggregate cash amount of at least \$100 million.

(p) Purchase of Initial U.S. Securities. Contemporaneously with the purchase by the International Managers of the Initial International Securities under

20

this Agreement, the U.S. Underwriters shall have purchased the Initial U.S. Securities under the U.S. Purchase Agreement.

(g) Conditions to Purchase of International Option Securities. In the event that the International Managers exercise their option provided in Section 2(b) hereof to purchase all or any portion of the International Option Securities, the representations and warranties of the Company contained herein and the statements in any certificates furnished by the Company or any subsidiary of the Company hereunder shall be true and correct as of each Date of Delivery and, at the relevant Date of Delivery, the International Managers shall have received:

(i) Officers' Certificate. A certificate, dated such Date of Delivery, of the President or a Vice President of the Company and of the chief financial or chief accounting officer of the Company confirming that the certificate delivered at Closing Time pursuant to Section 5(g) hereof remains true and correct as of such Date of Delivery.

(ii) Opinion of Counsel for Company. The favorable opinion of Paul, Weiss, Rifkind, Wharton & Garrison, counsel for the Company, together with the favorable opinions of, Wiley, Rein & Fielding, regulatory counsel for the Company, Bright & Lorig, patent counsel for the Company, and Mazouk & Parry, intellectual property counsel for the Company each in form and substance satisfactory to counsel for the International Managers, dated such Date of Delivery, relating to the International Option Securities to be purchased on such Date of Delivery and otherwise to the same effect as the opinions required by Section 5(b), (c), (d) and (e) hereof.

(iii) Opinion of Counsel for International Managers. The favorable opinion of Shearman & Sterling, counsel for the International Managers, dated such Date of Delivery, relating to the International Option Securities to be purchased on such Date of Delivery and otherwise to the same effect as the opinion required by Section 5(f) hereof.

(iv) Bring-down Comfort Letter. A letter from Coopers & Lybrand L.L.P., in form and substance satisfactory to the International Managers and dated such Date of Delivery, substantially in the same form and substance as the letter furnished to the International Managers pursuant to Section 5(h) hereof, except that the "specified date" in the letter furnished pursuant to this paragraph shall be a date not more than five days prior to such Date of Delivery.

(r) Additional Documents. At Closing Time and at each Date of Delivery counsel for the International Managers shall have been furnished with such documents and opinions as they may reasonably require for the purpose of enabling them to pass

upon the issuance and sale of the Securities as herein contemplated, or in order to evidence the accuracy of any of the representations or warranties, or the fulfillment of any of the conditions, herein contained; and all proceedings taken by the Company in connection with the issuance and sale of the Securities as herein contemplated shall be satisfactory in form and substance to the International Managers and counsel for the International Managers.

(s) Termination of Agreement. If any condition specified in this Section shall not have been fulfilled when and as required to be fulfilled, this Agreement, or, in the case of any condition to the

purchase of International Option Securities on a Date of Delivery which is after the Closing Time, the obligations of the several International Managers to purchase the relevant Option Securities, may be terminated by the International Managers by notice to the Company at any time at or prior to Closing Time or such Date of Delivery, as the case may be, and such termination shall be without liability of any party to any other party except as provided in Section 4 and except that Sections 1, 6, 7 and 8 shall survive any such termination and remain in full force and effect.

SECTION 6. Indemnification.

(a) Indemnification of International Managers. The Company agrees to indemnify and hold harmless each International Manager and each person, if any, who controls any International Manager within the meaning of Section 15 of the 1933 Act or Section 20 of the 1934 Act as follows:

(i) against any and all loss, liability, claim, damage and expense whatsoever, as incurred, arising out of any untrue statement or alleged untrue statement of a material fact contained in the Registration Statement (or any amendment thereto), including the Rule 430A Information and the Rule 434 Information, if applicable, or the omission or alleged omission therefrom of a material fact required to be stated therein or necessary to make the statements therein not misleading or arising out of any untrue statement or alleged untrue statement of a material fact included in any preliminary prospectus or the Prospectuses (or any amendment or supplement thereto), or the omission or alleged omission therefrom of a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(ii) against any and all loss, liability, claim, damage and expense whatsoever, as incurred, to the extent of the aggregate amount paid in settlement of any litigation, or any investigation or proceeding by any governmental agency or body, commenced or threatened, or of any claim whatsoever based upon any such untrue statement or omission, or any such alleged untrue statement or omission; provided that (subject to Section 6(d) below) any such settlement is effected with the written consent of the Company; and

22

(iii) against any and all expense whatsoever, as incurred (including the fees and disbursements of counsel chosen by Merrill Lynch), reasonably incurred in investigating, preparing or defending against any litigation, or any investigation or proceeding by any governmental agency or body, commenced or threatened, or any claim whatsoever based upon any such untrue statement or omission, or any such alleged untrue statement or omission, to the extent that any such expense is not paid under (i) or (ii) above;

provided, however, that this indemnity agreement shall not apply to any loss, liability, claim, damage or expense to the extent arising out of any untrue statement or omission or alleged untrue statement or omission made in reliance upon and in conformity with written information furnished to the Company by any International Manager expressly for use in the Registration Statement (or any amendment thereto), including the Rule 430A Information and the Rule 434 Information, if applicable, or any preliminary prospectus or the International Prospectus (or any amendment or supplement thereto) and provided, further, that the Company will not be liable to an International Manager with respect to any preliminary prospectus to the extent that the Company shall sustain the burden of proving that any such loss, liability, claim, damage or expense resulted from the fact that such International Manager, in contravention of a requirement of this Agreement or applicable law, sold Securities to a person to whom such International Manager failed to send or give, at or prior to the Closing Time, a copy of the Prospectus, as then amended or supplemented if (i) the Company has previously furnished copies thereof (sufficiently in advance of the Closing Time to allow for distribution by the Closing Time) to the Underwriters and the loss, liability, claim, damage or expense of such International Manager resulted from an untrue statement or omission or alleged untrue statement or omission of a material fact contained in or omitted from the preliminary prospectus which was corrected in the Prospectus as, if applicable, amended or supplemented prior to

the Closing Time and (ii) such failure to give or send such Prospectus by the Closing Time to the party or parties asserting such loss, liability, claim, damage or expense would have constituted the sole defense to the claim asserted by such person..

(b) Indemnification of Company, Directors and Officers. Each International Manager severally agrees to indemnify and hold harmless the Company, its directors, each of its officers who signed the Registration Statement, and each person, if any, who controls the Company within the meaning of Section 15 of the 1933 Act or Section 20 of the 1934 Act against any and all loss, liability, claim, damage and expense described in the indemnity contained in subsection (a)(1) of this Section, as incurred, but only with respect to untrue statements or omissions, or alleged untrue statements or omissions, made in the Registration Statement (or any amendment thereto), including the Rule 430A Information and the Rule 434 Information, if applicable, or any preliminary international prospectus or the International Prospectus (or any amendment or supplement thereto) in reliance upon and in conformity with written information furnished to the Company by such International Manager expressly for use in the Registration Statement (or any amendment thereto) or such

23

preliminary prospectus or the International Prospectus (or any amendment or supplement thereto).

(c) Actions against Parties; Notification. Each indemnified party shall give notice as promptly as reasonably practicable to each indemnifying party of any action commenced against it in respect of which indemnity may be sought hereunder, but failure to so notify an indemnifying party shall not relieve such indemnifying party from any liability hereunder to the extent it is not materially prejudiced as a result thereof and in any event shall not relieve it from any liability which it may have otherwise than on account of this indemnity agreement. In the case of parties indemnified pursuant to Section 6(a) above, counsel to the indemnified parties shall be selected by Merrill Lynch, and, in the case of parties indemnified pursuant to Section 6(b) above, counsel to the indemnified parties shall be selected by the Company. An indemnifying party may participate at its own expense in the defense of any such action; provided, however, that counsel to the indemnifying party shall not (except with the consent of the indemnified party) also be counsel to the indemnified party. In no event shall the indemnifying parties be liable for fees and expenses of more than one counsel (in addition to any local counsel) separate from their own counsel for all indemnified parties in connection with any one action or separate but similar or related actions in the same jurisdiction arising out of the same general allegations or circumstances. No indemnifying party shall, without the prior written consent of the indemnified parties, settle or compromise or consent to the entry of any judgment with respect to any litigation, or any investigation or proceeding by any governmental agency or body, commenced or threatened, or any claim whatsoever in respect of which indemnification or contribution could be sought under this Section 6 or Section 7 hereof (whether or not the indemnified parties are actual or potential parties thereto), unless such settlement, compromise or consent (i) includes an unconditional release of each indemnified party from all liability arising out of such litigation, investigation, proceeding or claim and (ii) does not include a statement as to or an admission of fault, culpability or a failure to act by or on behalf of any indemnified party.

(d) Settlement without Consent if Failure to Reimburse. If at any time an indemnified party shall have requested an indemnifying party to reimburse the indemnified party for fees and expenses of counsel, and shall have, if requested, provided such indemnifying party reasonably detailed information regarding such fees and expenses (including with respect to the services performed, the rate or rates charged and the expenses incurred) such indemnifying party agrees that it shall be liable for any settlement of the nature contemplated by Section 6(a)(ii) effected without its written consent if (i) such settlement is entered into more than 45 days after receipt by such indemnifying party of the aforesaid request, (ii) such indemnifying party shall have received notice of the terms of such settlement at least 30 days prior to such settlement being entered into and (iii) such indemnifying party shall not have reimbursed such indemnified party in accordance with such request prior to the date of such settlement.

24

SECTION 7. Contribution. If the indemnification provided for in Section 6 hereof is for any reason unavailable to or insufficient to hold harmless an indemnified party in respect of any losses, liabilities, claims, damages or expenses referred to therein, then each indemnifying party shall contribute to the aggregate amount of such losses, liabilities, claims, damages and expenses incurred by such indemnified party, as incurred, (i) in such proportion as is appropriate to reflect the relative benefits received by the Company on the one hand and the International Managers on the other hand from the offering of the Securities pursuant to this Agreement or (ii) if the allocation provided by clause (i) is not permitted by applicable law, in such proportion as is appropriate to reflect not only the relative benefits referred to in clause (i) above but also the relative fault of the Company on the one hand and of the International Managers on the other hand in connection with the statements or omissions which resulted in such losses, liabilities, claims, damages or expenses, as well as any other relevant equitable considerations.

The relative benefits received by the Company on the one hand and the International Managers on the other hand in connection with the offering of the International Securities pursuant to this Agreement shall be deemed to be in the same respective proportions as the total net proceeds from the offering of the International Securities pursuant to this Agreement (before deducting expenses) received by the Company and the total underwriting discount received by the International Managers, in each case as set forth on the cover of the International Prospectus, or, if Rule 434 is used, the corresponding location on the Term Sheet, bear to the aggregate initial public offering price of the International Securities as set forth on such cover.

The relative fault of the Company on the one hand and the International Managers on the other hand shall be determined by reference to, among other things, whether any such untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact relates to information supplied by the Company or by the International Managers and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission.

The Company and the International Managers agree that it would not be just and equitable if contribution pursuant to this Section were determined by pro rata allocation (even if the International Managers were treated as one entity for such purpose) or by any other method of allocation which does not take account of the equitable considerations referred to above in this Section. The aggregate amount of losses, liabilities, claims, damages and expenses incurred by an indemnified party and referred to above in this Section shall be deemed to include any legal or other expenses reasonably incurred by such indemnified party in investigating, preparing or defending against any litigation, or any investigation or proceeding by any governmental agency or body, commenced or threatened, or any claim whatsoever based upon any such untrue or alleged untrue statement or omission or alleged omission.

25

Notwithstanding the provisions of this Section, no International Manager shall be required to contribute any amount in excess of the amount by which the total price at which the International Securities underwritten by it and distributed to the public were offered to the public exceeds the amount of any damages which such International Manager has otherwise been required to pay by reason of any such untrue or alleged untrue statement or omission or alleged omission.

No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the 1933 Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation.

For purposes of this Section, each person, if any, who controls an International Manager within the meaning of Section 15 of the 1933 Act or

Section 20 of the 1934 Act shall have the same rights to contribution as such International Manager, and each director of the Company, each officer of the Company who signed the Registration Statement, and each person, if any, who controls the Company within the meaning of Section 15 of the 1933 Act or Section 20 of the 1934 Act shall have the same rights to contribution as the Company. The International Managers' respective obligations to contribute pursuant to this Section are several in proportion to the number of Initial International Securities set forth opposite their respective names in Schedule A hereto and not joint.

SECTION 8. Representations, Warranties and Agreements to Survive Delivery. All representations, warranties and agreements contained in this Agreement or in certificates of officers of the Company or any of its subsidiaries submitted pursuant hereto shall remain operative and in full force and effect, regardless of any investigation made by or on behalf of any International Manager or controlling person, or by or on behalf of the Company, and shall survive delivery of the Securities to the International Managers.

SECTION 9. Termination of Agreement.

(a) Termination; General. The International Managers may terminate this Agreement, by notice to the Company, at any time at or prior to Closing Time (i) if there has been, since the time of execution of this Agreement or since the respective dates as of which information is given in the International Prospectus, any material adverse change in the condition, financial or otherwise, or in the earnings, business affairs or business prospects of the Company and its subsidiary considered as one enterprise, whether or not arising in the ordinary course of business, or (ii) if there has occurred any material adverse change in the financial markets in the United States or the international financial markets, any outbreak of hostilities or escalation thereof or other calamity or crisis or any change or development involving a prospective change in national or international political, financial or economic conditions, in each case the effect of which is such as to make it, in the judgment of the International Managers, impracticable to market the Securities or to enforce contracts for the sale of the Securities, or (iii) if trading in any securities of the Company has been suspended or materially limited by the Commission or the Nasdaq National Market, or if

26

trading generally on the American Stock Exchange or the New York Stock Exchange or in the Nasdaq National Market has been suspended or materially limited, or minimum or maximum prices for trading have been fixed, or maximum ranges for prices have been required, by any of said exchanges or by such system or by order of the Commission, the National Association of Securities Dealers, Inc. or any other governmental authority, or (iv) if a banking moratorium has been declared by either Federal or New York authorities.

(b) Liabilities. If this Agreement is terminated pursuant to this Section, such termination shall be without liability of any party to any other party except as provided in Section 4 hereof, and provided further that Sections 1, 6, 7 and 8 shall survive such termination and remain in full force and effect.

SECTION 10. Default by One or More of the International Managers. If one or more of the International Managers shall fail at Closing Time or a Date of Delivery to purchase the Securities which it or they are obligated to purchase under this Agreement (the "Defaulted Securities"), the International Managers shall have the right, within 24 hours thereafter, to make arrangements for one or more of the non-defaulting International Managers, or any other underwriters, to purchase all, but not less than all, of the Defaulted Securities in such amounts as may be agreed upon and upon the terms herein set forth; if, however, the International Managers shall not have completed such arrangements within such 24-hour period, then:

(a) if the number of Defaulted Securities does not exceed 10% of the number of International Securities to be purchased on such date, the non-defaulting International Managers shall be obligated, each severally and not jointly, to purchase the full amount thereof in the proportions that their respective underwriting obligations hereunder bear to the underwriting obligations of all non-defaulting International Managers, or

(b) if the number of Defaulted Securities exceeds 10% of the

number of International Securities to be purchased on such date, this Agreement or, with respect to any Date of Delivery which occurs after Closing Time, the obligation of the International Managers to purchase and of the Company to sell the Option Securities to be purchased and sold on such Date of Delivery shall terminate without liability on the part of any non-defaulting International Manager.

No action taken pursuant to this Section shall relieve any defaulting International Manager from liability in respect of its default.

In the event of any such default which does not result in a termination of this Agreement or, in the case of a Date of Delivery which is after Closing Time, which does not result in a termination of the obligation of the International Managers to purchase and the Company to sell the relevant International Option Securities, as the case may be, either the International Managers or the Company shall have the right to postpone Closing Time or the

27

relevant Date of Delivery, as the case may be, for a period not exceeding seven days in order to effect any required changes in the Registration Statement or Prospectuses or in any other documents or arrangements. As used herein, the term "International Manager" includes any person substituted for an International Manager under this Section.

SECTION 11. Notices. All notices and other communications hereunder shall be in writing and shall be deemed to have been duly given if mailed or transmitted by any standard form of telecommunication. Notices to the International Managers shall be directed to the Merrill Lynch International at Ropemaker Place, 25 Ropemaker Street, London EC2Y 9LY, England, attention of General Counsel; and notices to the Company shall be directed to it at CD Radio Inc., 1001 22nd St. N.W., Washington, D.C. 20037, attention of Chairman and Chief Executive Officer.

SECTION 12. Parties. This Agreement shall inure to the benefit of and be binding upon the International Managers and the Company and their respective successors. Nothing expressed or mentioned in this Agreement is intended or shall be construed to give any person, firm or corporation, other than the International Managers and the Company and their respective successors and the controlling persons and officers and directors referred to in Sections 6 and 7 and their heirs and legal representatives, any legal or equitable right, remedy or claim under or in respect of this Agreement or any provision herein contained. This Agreement and all conditions and provisions hereof are intended to be for the sole and exclusive benefit of the International Managers and the Company and their respective successors, and said controlling persons and officers and directors and their heirs and legal representatives, and for the benefit of no other person, firm or corporation. No purchaser of Securities from any International Manager shall be deemed to be a successor by reason merely of such purchase.

SECTION 13. GOVERNING LAW AND TIME. THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, EXCEPT AS OTHERWISE SET FORTH HEREIN, SPECIFIED TIMES OF DAY REFER TO NEW YORK CITY TIME.

SECTION 14. Effect of Headings. The Article and Section headings herein and the Table of Contents are for convenience only and shall not affect the construction hereof.

28

If the foregoing is in accordance with your understanding of our agreement, please sign and return to the Company a counterpart hereof, whereupon

this instrument, along with all counterparts, will become a binding agreement between the International Managers and the Company in accordance with its terms.

Very truly yours,

Exhibit A

(i) The Company has been duly organized and is validly existing as a corporation in good standing under the laws of the State of Delaware.

(ii) The Company has corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Prospectuses and to enter into and perform its obligations under the U.S. Purchase Agreement and the International Purchase Agreement.

(iii) The Company is duly qualified as a foreign corporation to transact business and is in good standing in each jurisdiction in the District of Columbia, which is the only jurisdiction in which the Company is required to be qualified, whether by reason of the ownership or leasing of property or the conduct of business as of the date hereof, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect.

(iv) The authorized, issued and outstanding capital stock of the Company is as set forth in the Prospectuses in the column entitled "Actual" under the caption "Capitalization" (except for subsequent issuances, if any, pursuant to the U.S. Purchase Agreement and the International Purchase Agreement or pursuant to reservations, agreements or employee benefit plans referred to in the Prospectuses or pursuant to the exercise of convertible securities or options referred to in the Prospectuses); the shares of issued and outstanding capital stock of the Company have been duly authorized and validly issued and are fully paid and non-assessable; and none of the outstanding shares of capital stock of the Company was issued in violation of the preemptive rights contained in (i) the Charter Documents or (ii) the General Corporation Law of the State of Delaware (the "DGCL").

(v) The Securities to be purchased by the U.S. Underwriters and the International Managers from the Company have been duly authorized for issuance and sale to the Underwriters pursuant to the U.S. Purchase Agreement and the International Purchase Agreement, respectively, and, when issued and delivered by the Company pursuant to the U.S. Purchase Agreement and the International Purchase Agreement, respectively, against payment of the consideration set forth in the U.S. Purchase Agreement and the International Purchase Agreement, will be validly issued, fully paid and non-assessable and no holder of the Securities is or will be subject to personal liability by reason of being such a holder.

(vi) The issuance of the Securities is not subject to the preemptive rights contained in (i) the Charter Documents or (ii) the DGCL.

A-1

(vii) Satellite CD Radio, Inc. has been duly incorporated and is validly existing as a corporation in good standing under the laws of the State of Delaware, has corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Prospectuses and is duly qualified as a foreign corporation to transact business and is in good standing in the District of Columbia, which is the only jurisdiction in which such company is required to be qualified, whether by reason of the ownership or leasing of property or the conduct of business, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect; all of the issued and outstanding capital stock of Satellite CD Radio, Inc. has been duly authorized and validly issued, is fully paid and non-assessable and, to our knowledge, is owned by the Company free and clear of any security interest, mortgage, pledge, lien, encumbrance, claim or equity; none of the outstanding shares of capital stock of Satellite CD Radio, Inc. was issued in violation of the preemptive rights provisions contained in (i) Satellite CD Radio Inc.'s certificate of incorporation or by-laws or (ii) the DGCL.

(viii) The U.S. Purchase Agreement and the International Purchase Agreement have been duly authorized, executed and delivered by the Company.

(ix) The Registration Statement, including any Rule 462(b) Registration Statement, has been declared effective under the 1933 Act; any required filing of the Prospectuses pursuant to Rule 424(b) has been made in the manner and within the time period required by Rule 424(b); and, to the best of our knowledge, no stop order suspending the effectiveness of the Registration Statement or any Rule 462(b) Registration Statement has been issued under the 1933 Act and no proceedings for that purpose have been instituted or are pending or threatened by the Commission.

(x) The Registration Statement, including any Rule 462(b) Registration Statement, the Rule 430A Information and the Rule 434 Information, as applicable, the Prospectuses, excluding the documents incorporated by reference therein, and each amendment or supplement to the Registration Statement and the Prospectuses, excluding the documents incorporated by reference therein, as of their respective effective or issue dates (other than the financial statements and supporting schedules included therein or omitted therefrom, as to which we need express no opinion) as of the date thereof of each complied as to form in all material respects with the requirements of the 1933 Act.

(xi) The documents incorporated by reference in the Prospectuses (other than the financial statements and supporting schedules included therein or omitted therefrom, as to which we need express no opinion), when they were filed with the Commission complied as to form in all material respects with the requirements of the 1934 Act and the rules and regulations of the Commission thereunder.

(xii) The form of certificate used to evidence the Common Stock complies in all material respects with all applicable statutory requirements, with any applicable requirements

A-2

of the charter and by-laws of the Company and the requirements of the Nasdaq National Market.

(xiii) To our knowledge without having done any search of judicial records or records of any governmental agency or body, there is not pending or threatened any action, suit, proceeding, inquiry or investigation, to which the Company or its subsidiary is a party, or to which the property of the Company or its subsidiary is subject, before or brought by any court or governmental agency or body, domestic or foreign, which might reasonably be expected to result in a Material Adverse Effect, or which might reasonably be expected to materially and adversely affect the properties or assets thereof or the consummation of the transactions contemplated in the U.S. Purchase Agreement and International Purchase Agreement or the performance by the Company of its obligations thereunder (other than any pending or threatened actions, proceedings, inquiries or investigations relating to the Federal Communications Commission, as to which we express no opinion)

(xiv) The information in the Prospectuses under "Description of Capital Stock", "Business--Legal Proceedings", and "Certain United States Federal Income Tax Consequences to Non-United States Holders of Common Stock" and in the Registration Statement under Item 15, to the extent that it constitutes matters of law, summaries of legal matters, summaries of the Company's charter and by-laws or legal proceedings, or legal conclusions, has been reviewed by us and is correct in all material respects.

(xv) To our knowledge, there are no statutes or regulations of the United States or the State of New York or provisions of the DGCL that are required to be described in the Prospectuses that are not described as required (except that we express no opinion as to the Federal Communications Act or other federal statutes or regulations of the Federal Communications Commission affecting digital radio satellite broadcasting).

(xvi) All descriptions in the Registration Statement of contracts and other documents to which the Company or its subsidiary are a party are accurate in all material respects; to our knowledge, there are no franchises, contracts, indentures, mortgages, loan agreements, notes, leases or other instruments required to be described or referred to in the Registration Statement or to be filed as exhibits thereto other than those described or referred to therein or filed or incorporated by reference as exhibits thereto.

(xvii) To our knowledge, (a) neither the Company nor its subsidiary is in violation of its charter or by-laws and (b) except as described in the Registration Statement, no default by the Company or its subsidiary exists in the due performance or observance of any material obligation, agreement, covenant or condition contained in any contract, indenture, mortgage, loan agreement, note, lease or other agreement or instrument that is described or referred to in the Registration Statement or the Prospectuses or filed or incorporated by reference as an exhibit to the Registration Statement.

A-3

(xviii) No filing with, or authorization, approval, consent, license, order, registration, qualification or decree of, any court or governmental authority or agency of the State of New York or the United States (other than under the 1933 Act and the 1933 Act Regulations, which were made, or as may be required under the securities or blue sky laws of the various states, as to which we express no opinion) or under the DGCL is necessary or required in connection with the due authorization, execution and delivery of the U.S. Purchase Agreement and the International Purchase Agreement by the Company or for the offering, issuance, sale or delivery of the Securities.

(xix) The execution, delivery and performance of the U.S. Purchase Agreement and the International Purchase Agreement and the consummation of the transactions contemplated in the U.S. Purchase Agreement, the International Purchase Agreement and in the Registration Statement (including the issuance and sale of the Securities, and the use of the proceeds from the sale of the Securities as described in the Prospectuses under the caption "Use Of Proceeds") and compliance by the Company with its obligations under the U.S. Purchase Agreement and the International Purchase Agreement do not and will not, whether with or without the giving of notice or lapse of time or both, conflict with or constitute a breach of, or default or Repayment Event (as defined in Section 1(a)(xi) of the Purchase Agreements) under, or result in the creation or imposition of any lien, charge or encumbrance upon any property or assets of the Company or any subsidiary pursuant to, any contract, indenture, mortgage, deed of trust, loan or credit agreement, note, lease or any other agreement or instrument, filed as an exhibit to or described in the Registration Statement to which the Company or its subsidiary is a party or by which it or any of them may be bound, or to which any of the property or assets of the Company or its subsidiary is subject (except for such conflicts, breaches or defaults or liens, charges or encumbrances that would not have a Material Adverse Effect), nor will such action result in any violation of the provisions of the charter or by-laws of the Company or its subsidiary, or any applicable law, statute, rule, regulation, judgment, order, writ or decree, known to us, of any government, government instrumentality or court of the State of New York or the United States having jurisdiction over the Company or its subsidiary or any of their respective properties, assets or operations.

(xx) The Company is not, and upon consummation of the Stock Offerings and the Units Offering will not be, an "investment company" or an entity "controlled" by an "investment company," as such terms are defined in the Investment Companies Act of 1940, as amended.

(xxi) The Rights under the Company's Shareholder Rights Plan to which holders of the Securities will be entitled have been duly authorized and validly issued.

(xxii) The Voting Trust Agreement constitutes a valid and binding agreement of the Company, enforceable against the Company in accordance with its terms, except as the enforcement thereof may be limited by bankruptcy, insolvency (including, without limitation, all laws relating to fraudulent transfers), reorganization, moratorium or other similar laws

A-4

relating to or affecting enforcement of creditors' rights generally, or by general principles of equity (regardless of whether enforcement is considered in a proceeding in equity or at law); the provisions of the Voting Trust Agreement create a "voting trust" as provided in Section 218 under the Delaware General Corporation Law.

In addition, although we have not undertaken to investigate or verify independently, and are not passing upon and do not assume any responsibility for, the accuracy, completeness or fairness of the contents of the Registration Statement or the Prospectuses (except with respect to certain matters of

corporate law, as set forth in paragraphs 5, 14 and 16 above), in connection with the preparation of the Registration Statement and the Prospectuses, we have participated in conferences with representatives and counsel of Merrill Lynch and with certain officers and employees of, and counsel and independent certified public accountants for, the Company, at which conferences the contents of the Registration Statement and the Prospectuses and related matters were discussed, and advise you that nothing has come to our attention that would lead us to believe that the Registration Statement or any amendment thereto, including the Rule 430A Information and Rule 434 Information (if applicable), (except for financial statements and schedules and other financial data included or incorporated by reference therein or omitted therefrom, as to which we need make no statement), at the time such Registration Statement or any such amendment became effective, contained an untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make the statements therein not misleading or that the Prospectuses or any amendment or supplement thereto (except for financial statements and schedules and other financial data included or incorporated by reference therein or omitted therefrom, as to which we need make no statement), at the time the Prospectuses were issued, at the time any such amended or supplemented prospectus was issued or at the Closing Time, included or includes an untrue statement of a material fact or omitted or omits to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

In rendering such opinion, such counsel may rely (A) as to matters involving the application of the federal communications laws of the United States, upon the opinion of Wiley, Rein & Fielding, special counsel to the Company (which opinion shall be dated and furnished to Merrill Lynch at the Closing Time, shall be satisfactory in form and substance to counsel for Merrill Lynch and shall expressly state that Merrill Lynch may rely on such opinion as if it were addressed to Merrill Lynch), provided that Paul, Weiss, Rifkind, Wharton & Garrison shall state in their opinion that they believe that they and Merrill Lynch are justified in relying upon such opinion, and (B), as to matters of fact (but not as to legal conclusions), to the extent they deem proper, on certificates of responsible officers of the Company and public officials. Such opinion shall not state that it is to be governed or qualified by, or that it is otherwise subject to, any treatise, written policy or other document relating to legal opinions, including, without limitation, the Legal Opinion Accord of the ABA Section of Business Law (1991).

A-5

Exhibit B

FORM OF OPINION OF REGULATORY COUNSEL TO THE COMPANY

(A) (1) the execution, and delivery and performance of the Purchase Agreements relating to the Stock Offerings and the Units Offering and the consummation of the transactions contemplated therein and in the Prospectuses used in connection with the Stock Offerings and the Units Offering, the consummation of the Stock Offerings, the Units Offering and the Exchange Offer and compliance by the Company with its obligations thereunder do not violate (i) the Federal Communications Act of 1934, as amended (the "Communications Act"), (ii) any rules or regulations of the Federal Communications Commission ("FCC") applicable to the Company or its subsidiaries, (iii) any state telecommunications law, rules or regulations ("State Law") applicable to the Company or its subsidiaries, and (iv) to the best of such counsel's knowledge, any decree from any court, and (2) no consent, approval, authorization or order of or filing with the FCC or any state authority overseeing telecommunications matters ("State Authority"), is necessary for the execution, delivery and performance of the Purchase Agreements relating to the Stock Offerings and the Units Offering, the consummation of the Stock Offerings, the Units Offering and Exchange Offer and except for consents, approvals, authorizations or orders of or qualifications as have already been obtained and except to the extent that the failure to obtain such consents, approvals, authorizations or orders or to qualify with the FCC or any State Authority would not, individually or in the aggregate, have a material adverse effect on the prospects, condition (financial or otherwise) or in the earnings, business or operations of the Company and its subsidiaries, taken as a whole;

(B) Except as described in the Prospectuses used in connection with the Stock Offerings and the Units Offering, (1) each of the Company and all of its subsidiaries have made all reports and filings, and paid all fees, required by the FCC and the State Authorities, and have all certificates, orders, permits,

licenses, authorizations, consents and approvals of and from, and have made all filings and registrations, with the FCC and the State Authorities necessary to own, lease, license and use its properties and assets and to conduct the business now operated by them or intended to be operated by them in the manner described in the Prospectuses used in connection with the Stock Offerings and the Units Offering; and (2) neither the Company nor any of its subsidiaries has received any notice of proceedings relating to the violation, revocation or modification of any such certificates, orders, permits, licenses, authorizations, consents or approvals, or the qualification or rejection of any such filing or registration, the effect of which, singly or in the aggregate, would have a material adverse effect on the prospects, condition, financial or otherwise, earnings, operations or business of the Company and its subsidiaries now operated by them or intended to be operated by them in the manner described in the Prospectuses used in connection with the Stock Offerings and the Units Offering, taken as a whole;

B-1

(C) neither the Company nor any of its subsidiaries is in violation of, or in default under the Communications Act, the telecommunications rules or regulations of the FCC or State Law, the effect of which, singly or in the aggregate, would have a material adverse change in the condition, financial or otherwise, or in the earnings, business affairs or business prospects of the Company and its subsidiaries, taken as a whole;

(D) to the best of such counsel's knowledge after due inquiry (i) no adverse judgment, decree or order of the FCC or any State Authority has been issued against the Company or any of its subsidiaries and (ii) no litigation, proceeding, inquiry or investigation has been commenced or threatened against the Company or any of its subsidiaries before or by the FCC or any State Authority which, if decided adversely to the Company's interest, would have a material adverse effect on the Company and its subsidiaries, taken as a whole; and

(E) the statements in the Prospectuses used in connection with the Stock Offerings and the Units Offering under the captions "Risk Factors - Continuing Oversight by the FCC," "Risk Factors - Application of Export Control Regulations," "Risk Factors - Competition," "Business - Competition," and "Business - Government Regulation," insofar as such statements constitute a summary of the legal matters, documents or proceedings referred to therein, fairly summarize the matters referred to therein.

B-2

Exhibit C

FORM OF OPINION OF PATENT COUNSEL TO THE COMPANY

(A) The Company has received the following U.S. patents: _____, and no facts have come to the attention of such counsel that have led such counsel to express an opinion that any of such patents is unenforceable or invalid.

(B) Such counsel is not aware of any pending or threatened action, suit, proceeding or claim by others that the Company is infringing or otherwise violating any patents or other proprietary information of others.

(C) Such counsel has no knowledge of any adversarial legal or governmental proceedings or interference proceedings pending relating to patents

of the Company; and

(D) the statements in the Prospectuses used in connection with the Stock Offerings and the Units Offering under the captions "Risk Factors--Uncertain Protection" and "Business--Technology, Patents and Trademarks," insofar as such statements constitute a summary of the legal matters, documents or proceedings referred to therein, fairly summarize the matters referred to therein.

C-1

Exhibit D

FORM OF OPINION OF OTHER
INTELLECTUAL PROPERTY COUNSEL TO THE COMPANY

(A) To such counsel's knowledge, the Applications are still pending and all filings required to be made by the date of such opinion have been made.

(B) Such counsel is not aware of any pending or threatened action, suit, proceeding or claim by others that the Company is infringing or otherwise violating any trademarks of others.

(C) Aside from the pending Applications, we have no knowledge of any pending or threatened adversarial legal or governmental proceedings or interference proceedings relating to the Applications.

Re: Proposed Public Offering by CD Radio Inc.

Dear Ladies and Gentlemen:

The undersigned, a stockholder [and an officer and/or director] of CD Radio Inc., a Delaware corporation (the "Company"), understands that Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated ("Merrill Lynch") and Lehman Brothers Inc. propose to enter into a Purchase Agreement (the "Purchase Agreement") with the Company providing for the public offering of shares (the "Securities") of the Company's common stock, par value \$0.001 per share (the "Common Stock"). In recognition of the benefit that such an offering will confer upon the undersigned as a stockholder [and an officer and/or director] of the Company, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned agrees with each underwriter to be named in the Purchase Agreement that, during a period of 180 days from the date of the Purchase Agreement, the undersigned will not, without the prior written consent of Merrill Lynch, directly or indirectly, (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant for the sale of, or otherwise dispose of or transfer any shares of the Company's Common Stock or any securities convertible into or exchangeable or exercisable for Common Stock, whether now owned or hereafter acquired by the undersigned or with respect to which the undersigned has or hereafter acquires the power of disposition, or file any registration statement under the Securities Act of 1933, as amended, with respect to any of the foregoing or (ii) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of the Common Stock, whether any such swap or transaction is to be settled by delivery of Common Stock or other securities, in cash or otherwise; provided that the foregoing shall not apply to transfers

E-1

of shares of Common Stock by operation of law. During such 180-day period, the undersigned (a) may make gifts of shares of Common Stock or securities convertible into Common Stock, or may transfer to its affiliates shares of Common Stock or securities convertible into Common Stock, upon the condition that such donees or transferees agree to be bound by the foregoing restriction in the same manner as it applies to the undersigned and (b) may sell shares of Common Stock pursuant to an exchange offer for all of the outstanding shares of Common Stock.

Very truly yours,

Registration Statement on Form S-3

Registration No. 333-34767

Ladies and Gentlemen:

In connection with the above-captioned Registration Statement (the "Registration Statement"), filed with the Securities and Exchange Commission pursuant to the Securities Act of 1933, as amended (the "Act"), and the rules and regulations promulgated thereunder (the "Rules"), we have been requested by CD Radio Inc., a Delaware corporation (the "Company"), to furnish our opinion as to the legality of the shares of the Common Stock, par value \$.001 per share (the "Common Stock"), registered thereunder.

In connection with the furnishing of this opinion, we have reviewed (i) the Registration Statement (including all amendments thereto filed on or prior to the date hereof); (ii) the Company's Certificate of Incorporation and the By-laws of the Company; and (iii) records of certain of the Company's corporate proceedings. We also have examined and relied upon representations as to factual matters contained in certificates of officers of the Company, and have made such other investigations of fact and law and have examined and relied upon the originals, or copies certified or

CD Radio Inc.

2

otherwise identified to our satisfaction, of such documents, records, certificates or other instruments, and upon such factual information otherwise supplied to us, as in our judgment are necessary or appropriate to render the opinion expressed below. In addition, we have assumed, without independent investigation, the genuineness of all signatures, the authenticity of all documents submitted to us as originals and the conformity of original documents to all documents submitted to us as certified, photostatic, reproduced or conformed copies, the authenticity of all such latter documents and the legal capacity of all individuals who have executed any of the documents.

Based upon the foregoing, we are of the opinion that when issued and paid for pursuant to the Purchase Agreement and the U.S. Purchase Agreement the Common Stock will be duly authorized, validly issued, fully paid and nonassessable.

Our opinion expressed above is limited to the General Corporation Law of the State of Delaware. Please be advised that no member of this firm is admitted to practice in the State of Delaware. Our opinion is rendered only with respect to laws, and the rules, regulations and orders thereunder, which are currently in effect.

We hereby consent to the use of this opinion as an Exhibit to the Registration Statement and to the use of our name under the heading "Legal Opinions" contained in the Prospectus included in the Registration Statement. In giving this consent, we do not thereby admit that we come within the category of persons whose consent is required by the Act or the Rules.

Very truly yours,

PAUL, WEISS, RIFKIND, WHARTON & GARRISON
